

MRS. ALFRED G. VANDERBILT, FORMERLY MRS. S. H. M'KIM

By the will of his father, Cornelius, Alfred Gwynne Vanderbilt, who recently married Mrs. Smith Hollins McKim, was made the head of the family in place of his eldest brother, Cornelius, the latter having displaced his father by his marriage to Miss Grace Wilson. The bulk of the estate, estimated at \$70,000,000, was left to Alfred, who thus, at the age of twenty-two, became the richest young man in America. Thirty million dollars was turned over to him on his thirtieth birthday, and the remainder will be his next fall, when he reaches the age of thirty-five. In 1901 he married Miss Ellen French, who obtained a divorce from him in 1908. The second Mrs. Vanderbilt is the daughter of Captain Isaac E. Emerson, a wealthy manufacturing chemist of Baltimore. She obtained a Reno divorce from her first husband, Dr. Smith Hollins McKim, in August, 1910. Every member of her family has figured in the divorce courts.

MOLLY PEARSON, SCOTCH HEROINE OF REAL SCOTCH PLAY.

WITH the Irish players in the Synge and Lady Gregory dramas and the Scottish players who have been for several weeks presenting "Buntz Pulls the Strings" American theatergoers have had this season exceptional opportunities of hearing two dialects perfectly spoken instead of burlesqued, as they usually are, by the people of the stage. Pleasant as is the story of the play in which she appears, the chief charm of the Buntz of Miss Molly Pearson is the broad Scotch of her accent and her acting, and one is not offended in the case of these players by hearing the language of Burns spoken in accordance with half a dozen theories—all of them mistaken—of Scottish pronunciation. Miss Pearson's last previous appearance in America was as the Slavey in "The Passing of the Third Floor Back."

**Ancient Proofreading.**  
The editions of books printed 200 or 300 years ago are almost entirely free from typographical errors, which may be attributed to the fact that early printers were generally eminent scholars and themselves gave much attention to the revision of their proofs. After reading the proofs they frequently turned them over to other scholars with the request to revise and correct, and as the printer's time was then deemed a matter of small consequence a perfection was attained which is seldom equaled by modern printers.—Exchange.
