I saw a little child once, in its dving hour, put one arm around its father's neck and the other arm around its mother's neck and bring them close down to its dying lips and give a last kiss. Oh, I said, those two persons will stand very near to each other always after such an interlock ing. The dying Christ puts one arm around this denomination of Christians, and the other arm around that denomina-tion of Christians, and he brings them down to his dying lips while he gives them this parting kiss: "My peace I leave with

you. My peace I give unto you.' How swift the heavenly course they run, Whose hearts and faith and hopes are one. HEAVEN WILL BE TRULY CATHOLIC. I heard a Baptist minister once say that thought in the millennium it would be all one great Baptist church; and I heard Methodist minister say that he though in the great millennial day it would be all one great Methodist church; and I have a Presbyterian minister thought that in the millennial day it would be all one great Presbyterian church. Now I think they are all mistaken. I think the church; and just as you may take the best

parts of five or six tunes, and under the skillful hands of a Handel, Mozart or Beethoven entwine them into one grand and overpowering symphony, so, I suppose, take the best parts of all denominations of Christians, and weave them into one great ecclesiastical barmony, broad as the earth and high as the heavens, and that will be the church of the future. Or, as mosaic is made up of and feet square in St. Mark's, or moss hoisted in colossal seraphim in St. Sophia—so I suppose God will make, after awhile, one great blending of all creeds, and all faiths, and all Christian sentiments, the amethyst, and the jasper, and the chalcedony of all different experiences and be-lief, cemented side by side in the great nosaic of the ages; and while the nations look upon the columns and architraves of that stupendous church of the future, and cry out, "What mean ye by these stones?" there shall be innumerable voices to re-

Oh, I had rather be the means in this church of having one soul prepared for a joyful eternity than five thousand souls prepared for mere worldly success. All churches are in wo classes, all communities in two classes rocks rent at the crucifixion. That heard the cry, "It is finished." Was ever any all the race in two classes-believers and unbelievers. To augment the number of the other we built this church, and toward that supreme and eternal idea we dedicate We want to throw defection into the one my's ranks. THEY BUILT, BUT ENTERED NOT.

Oh, that this day of dedication might be the day of emancipation of all imprisoned souls. My friends, do not make the blunder of the ship carpenters in Noah's time, who helped to build the ark, but did not get into it. God forbid that you who have been so generous in building this church "Come thou and all thy house into the ark." Do you think a man is safe out of Christ? Not one day, not one hour, not one minute, not one second. Three or four years ago, you remember, a rail train broke down a bridge on the way to Albany, and after the catastrophe they were looking around among the timbers of the crushed bridge and the fallen train and found the conductor. He was dying, and had only strength to say one thing, and that was, "Hoist the flag for the next train." So there come to us tonight, from the eternal word, voices of God, voices of angels, voices of departed spirits, crying: "Lift the warning. Blow the trumpet. Give the alarm

Hoist the flag for the next train." Oh, that tonight my Lord Jesus would sweep his arm around this great audience and take you all to his holy heart. You will "ever see so good a time for personal consecration as now. "What mean ye by these stones?" We mean your redemption from sin and death and hell by the power of an omnipotent gospel.

again. We came here tonight not to dedicate it. That was done this morning. Tonight we dedicate ourselves. In the Epis copal and Methodist churches they have a railing around the altar, and the people come and kneel down at that railing and get the sacramental blessing. Well, my friends, it would take more than a night to gather you in circles around this altar. Then just bow where you are for the bless ing. Aged men, this is the last church that you will ever dedicate. May the God who comforted Jacob the Patriarch and Paul the aged, make this house to you the gate of heaven; and when, in your old days, you put on your spectacles to read the hymn or the Scripture lesson, may you get preparation for that land where you shall no more see through a glass darkly. May the warm sunshine of heaven thay

the snow off your foreheads! Men in midlife, do you know that this is the place where you are going to get your fatigues rested and your sorrows appeased and your souls saved? Do you know that at this altar your sons and daughters will take upon themselves the vows of the Christian, and from this place you will carry out, some of you, your precious dead? Be-tween this baptismal font and this communion table you will have some of the tenderest of life's experiences. God bless you, old and young and middle aged. The money you have given to this church today will be, I hope, the best financial investment you have ever made. Your wordly investments may depend upon the whims of the money market, or the honesty of business associates, but the money you have given to the house of the Lord shall yield you large percentage, and de-clare eternal dividends long after the noonday sun shall have gone out like a spark from a smitten anvil and all the

Not Very Reassuring. At the Tremont House one day some traveling men were speculating on where they might probably spend the coming summer vacation, when one of them re-marked: "Well, I know I won't spend mine just where I did my last summer's. My wife had been sick for a long while," continued he, "and the doctor said I should take her to some nice, quiet place in the country-some old farmhouse where she ould regain her strength. I went up into Wisconsin, and engaged board and rooms pretty little towns of that state, and a few days later took my wife there. She was very weak and had to be carried to our rooms, which were up stairs. In passing up stairs my wife noticed that the balus ters were much out of repair and very un-

Later on, when she contemplated coming made firm before I can think of going down stairs alone. You will have them fixed, won't you?" "My old man and I was talk-ing about that," answered the landlady, "and we concluded it would not be worth while to have them fixed just yet, for you see the undertaker's men, in taking down the coffin of the last lady that was here, was what broke them, and if we fix them now we might have them broken again." In spite of her very reassuring words my wife improved, and was soon able to get down stairs without breaking anything. But I never liked the landlady after that,

It was some time in the spring of 1866 that Jethro Jackson went to Resacs to in the family burying ground. The comrades who laid young Jackson to rest gave the father a description of the spot where they had buried him, telling him about the rude pine coffin made from the boards taken from the bridge. After many day of tireless search Mr. Jackson failed to lo him and pointed out the spot where he was buried. The dream was like a vision. He saw his son standing beside his bed, and heard him say: "Father, I am buried under a mound which was thrown up by the Yankees after I was killed. You wil know the mound when you see it by the pokeberry bushes growing upon it. Go and take me up and carry me home to mother." So strong an impression did this dream make upon Mr. Jackson that he returned at once to Resaca, taking with him one of the comrades who had buried his son. The dream and the pokeberries were growing upon it. An excavation was made and a lew feet below the earth the rough pine coffin was found, and in it were the re of young Jackson. He was fully identified, not only by the coffin and the shoes, which were a present from the father, but by the name which was on the clothing.-Atlanta Journal.

Who is there among us that would no prefer the eating of an apple to the taking of a pill? Yet the nauseating drugs are Or daily being swallowed, and the rosy cheeked 'remedies," so grateful and palatable, allowed to go into unwholesome pastry crusts that only further earthly ills.

Few seem to know the real worth of an uncooked apple-or a roasted one either, for the matter of that. Why, they're a edicine delicious to the taste, wh past belief, and, even though pretty dear year, much cheaper than drugs. We may safely put a quarter's worth of apple against a quarter's worth of drugs and expect more good and much more lasting results from the fruit. The one great trouble arising from any unnatural purgatives is the reaction so sure to follow, while the doses provided by nature herself work for the permanent good of humankind.

It's veritable nonsense that "apples are gold in the morning, silver at noon and gold in the morning, saver as lead at night." This old saying is as silly a one as that the Germans have given us—
that "a bad beginning makes a good ending." Neither is true. Apples are always
gold, figuratively speaking, and don't I—

Highly Unnatural. Walker-I had a most unnatural dream rowed five dollars of me for a week. Fadman-Unnatural! Why, that's Binks

Walker-Yes, but I went on dreaming and I dreamt that Binks paid it back to me at the end of the weekl-American
