U. S. BOODLERS ECLIPSED.

Recent revelations in Canada make it evident that the politicians over that way aggregating three million dollars nearly one million was paid as a result of false measurements. The settlement of the estate of the late premier, Sir John McDonald, has revealed the fact that he was the nominal owner, in the names of other parties, of large blocks of the subsidized Canadian stock, while the discovery has been made that a member of the discovery has been made that a member of the measurements. The settlement of the it is safe to say will not be entertained it is safe to tract, and that the motion for the pay- farmer can protect himself." ment of this sum was made at the instance of no less a personage than Sir

PROGRESS.

The United States is today almost the that line. Its vast iron and steel business is yearly increasing in cost of production, while ours is decreasing. It country. It produced no more pig-iron in 1890, notwitstanding the high prices prevailing, than in 1882, while we more Its cotton is all imported. It spends favor and 285,636 against it, about \$75,000,000 a year for foreign foodstuffs. On the continent every nation is Wasco News: burdoned with debt, and none can ever hope to pay off its obligations. Measnred by their natural resources and their possibilities, they are bankrupt. In all of them the cost of production and United States we have scarcely laid the foundation of our future greatness. In to make this survey and will do so at barely scratched the ground in the deget a railroad this fall or not. nent of our mineral wealth; we were rich enough to stand a decrease last

year of 900,000,000 bushels of grain as

The Weekly Chromes, to this to send \$70,000,000 in gold to A CALENDAN UT UNIME. But it was a Close Shave for Thomas. The number of passengers who have Europe within a few months without creating any financial trouble, and that, too, after Europe had unloaded on us An East Bound Train Held Up Near millions of dollars of our stocks, because our securities were the only ones, in the world that found a cash market when the Barings and others were trying to save themselves. In ten years, from They Compelled the Messenger to Open 1880 to 1890, we have added \$200,000,000 to our capital invested in manufactures, an increase of nearly 75 per cent. In the same time the value of our manufactured products has risen from \$5,300,-A SYSTEM OF WONDEROUS PO-000,000 to \$8,600,000,000, a gain of \$3,-300,000,000; or, in other words, we are now producing manufactured goods at a out of rags and printer's ink why does rate of \$3,300,000,000 a year more than it not get down to business and pay off we were ten years ago. The increase in the national debt? What sense is there capital invested in manufactures in ten in all this fight over a tariff for revenue years, from 1880 to 1890 was greater than or a protective tariff or any other kind of the entire amount of capital invested in a tariff? Henry George has patented a 1870, or only twenty years ago. In these ten years the growth of our manufacturthe single tax theory occupies a promi- ing interests was greater than the nent place. If the government can growth from the settlement of America make money out of nothing we don't up to 1870. In these ten years we have built 75,000 miles of railroad, almost as much as our total milage in 1880.

Union Pacific has passed into the hands of the Vanderbilts should prove to be that the new management cannot poswill cost nothing to make him rich. If sibly be worse than the old and will in the government can make money out all probability be much better. One of nothing it is senseless to talk of two per thing is certain the Vanderbilts know how to run railroads so as to make them pay. If they get control of the Union Pacific the road will be conducted on business principles, and this means betfixing the price of wheat at ten dollars a ter service to its patrons and not necespay this price let the government give the spigot while wasting at the bung will be abandoned.

The Salem Journal is indignant because certain papers in the state are continuously casting reflections on the railroad commissions. The Journal claims the commission has done its duty fearlessly in the matter of reducing freights. The new law governing the conduct of It would crush out monopolies and trusts. Every man would have all the commission was framed by Speaker Geer and is modeled in its main feature would become a paradise with the fruit after the Iowa law and now that the railroads have refused to obey the mandate of the commission, the attorney general will investigate the adjudications upon RAILROAD TAXATION IN WASH- that law which were carried on in the Journal claims were sustained at every The Whitman county, Wash., assessor contested point. If this is true the rehas fixed the rate of assessment of the sponsibility of enforcing the law will various railroads running through that now lie with the courts of this state.
