

LOCAL AND PERSONAL.

Mr. W. Wipg, of Wamic, gave this office a pleasant call today.

Mr. Hugh Gourlay has gone out to Dufur on a short trip.

Mr. Jack Nolan, of Wamic is visiting friends in the Dalles for a few days.

Look at McFarland & French's flaming "ad" in today's paper. It's a stunner.

Mrs. C. H. Haynes and Mr. Morten, of Hood River came up on the noon train Tuesday.

Mr. A. A. Urkhardt's little daughter is quite sick with something that resembles the scarlet fever.

Mr. Limeroth of Fifteen Mile creek, gave the evergreen trees in the court yard a much needed trimming yesterday.

Wheat is selling at 90 cents per bushel at North Dalles. In our city prices range from 85 to 90 cents according to grade.

We noticed a fine lot of fat hogs in the Saltmarsh & Co. stock yards Tuesday which are to be shipped to the Portland market.

A marriage license was issued this morning by County Clerk Crossen to Mr. R. H. Husbands and Miss Amanda Rordon.

Mr. J. C. Nickelsen, has six fine pianos from the Kranich & Bach's manufactory, which are excellent in tone as well as finish.

In Ochocho the farmers are praying for rain. The ground is so dry that there is little possibility of sowing fall wheat in that country this season.

Miss Charlotte Roberts is very ill with pneumonia at her father's residence near this city. We are pleased to learn she is in a fair way for recovery.

The police court is not doing a very rushing business—only one drive was made last night and that was a drunk who settled and was discharged.

Mr. J. B. Hanna, of Boyd, gave us a pleasant call Tuesday. He reports a great deal of activity among the farmers and some wheat has already been sown.

Messrs. L. D. Ainsworth and J. C. Hostetter have bought the George Filson property and will erect a beautiful residence on the same in the near future.

The building just erected on the ground where the building of I. C. Nickelsen formerly stood is to be occupied by the Columbia Packing company.

Deputy Sheriff J. H. Phirman left this city last Monday for Salem, leaving in charge Thomas Ryan, who was sentenced to the penitentiary for the term of three years for burglary.

Diphtheria has made its appearance in Prineville, and the public schools have been ordered closed for the present so says the Ochocho Review. The families in which this dread disease has made itself known, have been quarantined.

Mr. D. W. Claypool, of Prineville; Crook county, passed through our city Tuesday enroute to Eureka Springs, Arkansas, where he goes with his invalid wife, hoping, that locality will restore her to health again.

Fred Page-Tustin, a former resident of Pendleton and a lawyer by profession, has been engaged in some fraudulent land grabbing, so says the Tacoma Ledger Seattle Correspondent, and the lawyers are hot on his track.

From Mr. J. B. Mowey, of Sherman county, we learn that the farmers in his section are very busy putting in fall wheat, and that the good prices obtained for the present year's harvest, has stimulated the people to sow a larger acreage than ever before.

A good preventive for diphtheria is thirty grains of quinine in a pint of whiskey, given in doses of a teaspoon full three times a day. As there are a few cases of diphtheria in town it would be well for parents to adopt this treatment with their children.—Ochocho Review.

Some of our exchanges are booming the Honorable W. R. Ellis, A. S. Bennett and Henry Blackman of Eastern Oregon, and C. W. Fulton of Astoria for congressional honors from this district at the next June election. Whatever the opinion is by the politicians, Eastern Oregon must have either one or the other, senator or representative. The inland empire must and will be heard.

The sidewalks in the burnt district are being put down at a rapid rate, those on Second street are nearly all down, and on the other streets, one sees workmen busy. While the fire was a great disaster to the city, there is one or two things gained through its agency and that is a better class of buildings, and better sidewalks, and a better class of improvements everywhere. It will not be two years before our fair city will be better and finer built than ever.

This is the 24th day of November, and the hills are clothed in a beautiful robe of green grass. In our gardens and door yards, roses are in bloom, pansies, chrysanthemums, verbenas and geraniums are still blooming by the garden walks, as fresh as in springtime. Our gardeners are bringing fresh vegetables such as radishes, lettuce, onions, spinach, etc., into market daily of autumn growth. In the Dakotas, Nebraska, Kansas and their eastern neighbors, the unwelcome blizzard and cyclone is daily reported. While in Oregon and Washington our people are happy under the Italian skies of the United States and hail with joy the Thanksgiving day.

Colonel Houghton and O. Kinerly returned today from a two days hunt up the river, bringing home forty-four geese, but are in low spirits on account of serious injury to their decoys. It seems that a "goose" from the vicinity of Goldendale came over where they were, having previously dug a hole in which to hide himself close to that of the colonel and Mr. Kinerly and came in the night and settled himself comfortably in the same. It was not long before he fell asleep and he woke up just as day was beginning to break, and on looking out saw what he supposed to be geese and immediately proceeded to fill them with shot, but, alas for the

We understand that a party of young people of The Dalles intend going to Hood River for the Thanksgiving ball.

The water from the upper reservoir will be turned into the mains this afternoon and persons who desire, can tap the pipe on the hill at any time they wish.

The Oregon railroad commissioners are out on the road again. We presume charge of railroad officials, in a palace car, provide for their special comfort and pleasure.

New sidewalks are being built and streets graded in different parts of the city according to the orders of the council. The laying of the sidewalks will be duly appreciated by the people.

The new main that bursted yesterday on Union street proved to be caused from an old flaw or crack which was overlooked when the pipe was laid.

From the Astoria Town Talk it would appear to the reader that their city affairs were considerably mixed, and that judicial matters were a little loose.

The ex-Third regiment band were out on practice with their new instruments last night. The boys are delighted with their pieces, which are a marvel of excellence.

Mr. A. A. Urkhardt, who has filled the position of freight clerk at the D. P. & A. N. company's dock, has resigned and Mr. Fred Dietzel has been appointed to fill the vacancy.

Master Ray W. Logan, son of Dr. H. Logan of this city, came home from Portland this morning, where he is a student in the Bishop Scott grammar school, to remain with his father through the Thanksgiving season.

We again remind our readers of the social to be given by the young ladies of the Methodist church at the reading room tomorrow (Thanksgiving) evening. All lovers of good times and things should not fail to attend.

John Booth, the popular grocer, has fitted himself out with a brand new sign which is quite a novelty in that it is a different style from the general run of signs. The work was done by our artistic painter Mr. Hardy, and is a beauty.

It is reported on the streets that the Paul Mohr company are making arrangements to build barges, to be used in the movement of wheat on the Upper and middle Columbia. The rumor is not authentic but may be true all the same.

Union Thanksgiving services at the Court house at 11 a. m. tomorrow. A goodly attendance of our citizens will surely take place. Rev. A. C. Spencer of the M. E. church will deliver the discourse on "Our country its past present and future."

Rev. Eli D. Suteliff, rector of the Episcopal church in this city, gave his people a very fine discourse last Sunday, appropriate to the Thanksgiving season. He reminded his hearers that charity was an essential element in christian character—and that a remembrance of the poor and the sick in the hospitals was one of the duties of life, and to let the left hand know the gift of the right. This was Thanksgiving.

The British ship Buccleuch was boarded the other day at Astoria by a gang of roughs and through the efforts of Sheriff Smith thirty were arrested and on examination eight were bound over to appear before the grand jury under \$500 bonds each. The others were to have their hearing this Wednesday.

On the Eight Mile road, between the mouth of Dry Hollow and Phil Wagner's farm, there is a grade which is a little higher and steeper than any other place, and some stretch is mean enough to place poles on it so as to obstruct the travel entirely. Whoever she or he may be able to go to the lockup before they know it. A word to the wise ought to be sufficient.

WASCO ACADEMY NOTES. We regret that protracted illness kept several from their places in the school room. Although the entrance of new pupils fills the vacancies thus made so that the number present varies but little from week to week, we shall be very glad to welcome the old faces back. They can rest fully assured of the sympathy of both companions and teachers.

As is usually the case the second quarter finds the pupil, as a whole, more studious and, of course, doing better work. The easy-going spirit of vacation has gone with the hot weather; the cool, bracing air gives new life and energy to the body, and the brain responds by prompt and more vigorous efforts.

As the boys are some vigorously pursuing the foot-ball over the Common, some one is heard to ask: "Why can't the girls have some tennis courts laid out so they can have exercise as the boys do?" The question is certainly a pertinent one and ought to receive such an answer as would make the inquiry impossible in the future. The expenditure of a few dollars in grading would not only furnish opportunity for two or three good courts but also add much to the attractiveness of the grounds.

Perhaps the condition of the flag-staff is appropriate for the season, when all the trees are being stripped of their foliage, but it has been here so long that we would like to see the stars and stripes once more floating from its halcyons.

As this is Thanksgiving week there will be no school on Thursday and Friday next. Probably all will give thanks for the breathing spell afforded, etc., into market daily of autumn growth. In the Dakotas, Nebraska, Kansas and their eastern neighbors, the unwelcome blizzard and cyclone is daily reported. While in Oregon and Washington our people are happy under the Italian skies of the United States and hail with joy the Thanksgiving day.

At her residence in Thompson's addition on Monday night, Mrs. Electa S. Robinson in her 75th year, was buried in Fifteen Mile creek this morning. Services at the residence by Rev. A. C. Spencer.

DEATH. In this city, November 24, 1891, to the wife of Mr. M. Speichenger, an eight pound boy.

Five dollars reward will be paid for any information leading to the recovery of an iron grey vander, weighing about 900 pounds. Has collar and saddle mark and is branded "I bar", also shod in front. Information received at Hood's livery stable. 11-25-2w.

The markets have remained nearly stationary as far as general traffic is concerned. Our merchants have been busy filling orders for the interior and in local circles the usual activity is noticed. Thanksgiving season has brought a good many delicacies to the front, and a general feeling of satisfaction prevails among purchasers in all sections. The vegetable and fruit market is better supplied than usual for this season of the year and prices remain without any material change.

The wheat market has maintained a firm tone throughout the past week and a steady advance is noted. In Portland, quotations have been more favorable to the seller, and the demand for wheat for shipment has increased, owing to the fact that a large number of grain vessels have arrived, and more are near port, which require an immediate dispatch. This, together with the ukase issued by the Russian government, has stimulated the market very perceptibly. The Russian ukase, forbidding the export of breadstuffs from the empire, in connection with the known fact that there is a shortage of the food supply all over the world, has started the great grain centers, and prices must advance through channels of speculation regardless of the needs and impoverished condition of the sufferers. The following clipping will give the situation as it exists today, through which the future shadowings are foretold:

Wood Davis, the Kansas statistician, makes public statement of the world's crop of wheat and rye, which shows that with every bushel of these grains that North America and other exporting countries can possibly furnish there will still be a shortage in the densely populated European countries of 78,000,000 bushels of wheat and 305,000,000 bushels of rye.

To this deficit of 78,000,000 bushels of wheat and 305,000,000 bushels of rye should be added 21,000,000 bushels of wheat, being the excess of American exports over the average of recent years in July and August, such excess going to supply the deficiencies of the last European cereal year (as did the enormous India exports), and not available as supplies to meet the requirements of this year. It is in nowise probable, says Mr. Davis, that either our crop or the exports therefrom (during July and August next) will exceed such recent averages, and this seems the more probable when we reflect that the average will not likely exceed the average, and that present conditions press, if they preclude anything, a crop below the average.

FARMER'S INSTITUTE AT DUFUR. DUFUR, Nov. 24. The sixth of a series of farmers' institutes held under the auspices of the State Agricultural College commenced proceedings at this place at a little before 2 o'clock this afternoon. There were present from the college H. T. French, professor of agriculture; F. Berch Told, professor of history and drawing and Mrs. Margaret Snell, professor of household economy.

The meeting was held in the M. E. church and opened with an attendance of nearly a hundred persons. A. J.

of the meeting. In the unavoidable absence of A. J. Dufur Jr., his daughter, Miss Annie Dufur, read the address of welcome which was responded to by Professor H. T. French, who embraced the occasion to explain that the objects of these institutes were in no sense political, but entirely educational. The general government had made a liberal appropriation to establish and maintain agricultural institutions in the several states and from this appropriation the Oregon Agricultural College receives \$32,000 for the current year. Of course the state furnishes the grounds and buildings. The institutes held this year have been highly appreciated by the farmers and have been quite successful and we hope that before long instead of six we shall hold forty every year.

The college has a department of agriculture, one for instruction in household economy, one for instruction in practical and theoretical mechanics. It has thirteen professors of the various branches taught, and young men students can choose between an agricultural and a mechanical course.

A farm of 145 acres is attached to the college which is devoted to experimental and regular farming. We keep five or six breeds of cattle, which we largely feed on ensilage made on the farm. Particular attention is devoted to instruction in the best methods for destroying fruit pests. Students are instructed in every branch of theoretical knowledge connected with farming while the theory is put into practice by practical work on the farm. At the experimental station we test seeds and their adaptability to soil etc., we apply and test the various kinds of fertilizers study the habits of insect pests and methods of their extermination; test the effects of drainage and experiment on many other things connected with practical farming. Bulletins are issued occasionally giving the results obtained and these are freely sent to any one who may apply.

At the close of the Professor's remarks the choir entertained the audience with a song entitled the "Merry Mountaineer" which was rendered admirably.

Miss Peabody then gave a very good rendition of "Match Boy," after which Professor Berch Told read a very instructive paper on poultry raising. An interesting discussion followed in which Dr. Vanderpool, Mrs. Wm. Heisler, Dana Farrington, Seth Morgan and others took part.

M. J. Anderson followed by reading a poem entitled "Hayseed in the Air." This was followed by two songs by the pupils of the Dufur graded school and a selection by the choir, and thus ended the first session of the institute which every one pronounced, so far, a success.

RESOLUTIONS. The following resolutions were passed at the Klickitat Grange council last week that have no uncertain sound. The council was composed of the best intellect of the county and are deliberate in tone and sentiment.

Resolved, That we the members of the Klickitat council, most emphatically demand that our legislator and congress frame and pass a law compelling all manufacturers of baking powders to label it with ingredients contained thereon.

Resolved, That we the P. of H. council do most emphatically deny the charge that farmers have sold their wheat to the U. P. company, while some of the farmers may have sold to the U. P. that any such action is not sanctioned by the H. of P. council.

Resolved, That a copy of this resolution be sent to the Dalles, Portland & Astoria Navigation company.

Resolved, That the master of this council so instruct our delegate to the Columbia council to have cooperation in securing a copy of the Oregon laws and use our utmost influence to get the same through our legislature of this state.

Resolved, That we your committee beg to be instructed to get a copy of contracts drafted by our brother grangers in adjoining counties in similar cases and draft a contract; to be signed by each granger and farmer in the county and by the company so that the company will be compelled to carry freight and passengers at reasonable rates, and while compelling the company to carry freight and passage cheaply; they will also have the guaranteed support of the farmers.

It is difficult to draw to dark a picture of the suffering of the people of Kansas through the borrowing of money. The Howard citizen says that in Elk county, from Jan. 1, 1890, to Oct. 1890, 175 mortgages were foreclosed by the sheriff—average of 1 1/2 per month. Nearly all of these judgments were for interest only on the second mortgage given to secure the payment of the interest coupons. These 175 sheriff's sales brought \$44,025, but as the amount of the judgments was \$134,348, the farmers that have been sold out are worth \$90,370 less than when they first came to Kansas are too poor to support even grasshoppers or the settlers have borrowed recklessly.

Now that the alliance is going the way of all such spasmodic movements, here is a bit of advice for the farmers who feel that they are entitled to greater representation in the control of the government: Take the primaries of the old parties in your own hands and see that farmers are sent to the convention. That done there will be no difficulty in sending more farmers to the legislature and congress. This would not exactly suit the political farmers who have been running the alliance into the ground and perverting its beneficent purposes, but it would be more satisfactory to the agricultural farmers.—Spokane Review.

The coal excitement is still high. Giant powder has been ordered from The Dalles, and its arrival is eagerly awaited. The fever is spreading out into the country, and here and there men can be seen digging as though their lives depended on the result. Henry Dousman and Stant Dement are digging on Butte Creek and yesterday sent us a small piece of very fair coal which they had just mined. It is, however, may be but a surface cropping.—Fossil Journal.

So far we have heard nothing on the railroad commission try to discover how Mr. Moody could pay within four cents of Portland prices for wheat, and ship it to Portland over a road whose advertised rates is over ten cents for hauling. Mr. Moody, like any other gentleman has a right to pay as much as he pleases, but the company cannot discriminate. The case certainly calls for an investigation.—Express.

The Klamath Star says that June next will glow with political heat all over Oregon. The election of nine district judges, a supreme judge, two congressmen and a fresh legislature will raise the partisan temperature and put a fine flush on party editorials, and the campaign will have a sore throat.

New York, Nov. 19.—The Herald's Valparaiso correspondent cables: "The Chilean government has descended from the lofty pedestal it so long occupied in dealing with the outrageous assault by the mob upon the sailors of the Baltimore on the 21st of October. Captain Schley today received a letter from Judge Foster, granting the request that our representatives here be furnished by the court of inquiry with copies of all depositions made before it in the investigation. This same request has been absolutely refused on all previous occasions. There is no doubt the Chilean authorities rejected the London Times' self-proffered advice through the sensational correspondent, Thomson, that the United States' reasonable demands be treated as a bluff, and finding out government maintaining a fair but firm attitude determined to set it half way. I hear rumors that such speculation is indulged here and at Santiago, and that the reason for the dispatch of American war vessels to the Pacific squadron. There is no doubt the news had a salutary effect in Chili.

NOTICE FOR PUBLICATION. U. S. LAND OFFICE, The Dalles, Or., Nov. 17, 1891. Notice is hereby given that the undersigned administrator of the estate of B. W. Howard, deceased, has filed his final account in said estate, and that an order has been duly made appointing Tuesday, January 5, 1892, at 2 o'clock P. NOTICE OF DEPUTY STOCK INSPECTORS. The following persons have been appointed deputy stock inspectors for their respective districts: C. L. Phillips, The Dalles; A. S. Roberts, Deschutes; Gabriel, Oak Grove; Lem Burgess, Lake Ovens; Pierre Kinsey, Antelope.

VERNON ROBERTS, Sheriff's Office, 211-Jan1.

H. M. James, of Coos bay, has secured a myrtle log about thirty inches in diameter and eight feet long, which he will ship to a piano manufacturing firm in Boston. It will be used for veneering. The log is merely sent as a sample, and it is safe to predict that it will be the foremost for large orders of this valuable wood, which is susceptible of such a high polish.—Ashland Tidings.

Jay Devins presented our agricultural department last Saturday with the following trophies, a heet and a carrot having each a girl measurement of respectively 25 1/2 and 21 inches.—Heppner Gazette.

Jerry Simpson denies that he ever pulled up his pants on the rostrum to show the sockless condition of his feet. He says the story is made out of whole cloth.

The New York magnump will be in a sorry fix at the next presidential election. All parties are too corrupt for him. It matters little what he does, as his number is small.
