James Darnelle, of Boyd gave this office a pleasant call today. Mr. Darnelle reports the ground clear of snow in his neighborhood, except a light covering on the north hillsides. He thinks the prospects for good crops have not been so good for the past six years. The ground is thoroughly saturated with water down to considerable depth.

The marshal and sheriff have been furnished each with a jail register adopted by the state board of charities and corrections and ordered to be used after January 1st, 1892. George is remarkably well fitted to fill the position he has assumed but The Dalles is sorry to lose so good a citizen.

Hensen McCoy was in the city Tuesday and reports four or five inches of snow in the Nansene neighborhood, not enough to make good sleighing. He has been feeding his stock, however, since Christmas and will continue till the snow disappears. Hensen became a great grandfather the other day, though only 51 years of age himself, when Mrs. Frank Hathaway, of Nansene, the daughter of Mrs. Sternweis, the eldest daughter of Mr. McCoy presented her husband with a brand new nine-pound girl. Hensen expects to live till he is a great, great, great, etc. grandfather and the Chronicle hopes he may.

A Puzzler.

THE DALLES, JAN. 12, 1892.

Editor Chronicle: I lately met with the following in the Portland Telegram and it puzzled me a good deal:

All that is necessary to win a triumph for the national democracy is to place democratic principles clearly and correctly before the people.

Now I used to be considerable of a democrat myself and I used to think that I knew what democratic principles are or rather were in the long ago, but I am at a loss to know what they are now.

Cleveland's principles I know and Mill's I know, but what are Hill's and Crisp's and Springer's? I see little in the practical politics of the democratic party but scrambling for office reduced to a science.

Hill and Crisp and Springer and all of that ilk would turn protectionists tomorrow if they thought they could win by it. Their late conduct proves this. The McKinley law has been denounced by the democratic party as no law ever was denounced. Republicans have been doubly damned for demonizing silver.

Now that the democrats have control of the house the country demands that they prove their honesty by passing a free coinage law and a good tariff law along the lines laid down by Cleveland and Mills. The country expects the democratic party to have the courage of their convictions if they have any convictions. Hedging and evasion won't do. Let them pass these laws and throw the responsibility of a veto or defeat on the republicans, and then they will have a clear cut policy with which to go before the people in the coming presidential campaign. A defeat under such circumstances would be no dishonor. It is better a thousand times to be right than to have all the offices in the gift of the people.

Wapinitia Items.

WAPINITIA, Jan. 12, 1891.

Editor of the Chronicle:

Wapinitia is still in the ring (not The Dalles political ring,) but we are just booming out here; property not worth a (cuss) a short time ago has doubled in value, and all owing to the fact of a scheme being on foot to build a balloon line from Wapinitia to the top of Tygh Hill; to be supplied with gas by the Wasco county court and managed and operated by the Wapinitia Lazy club.

There was a dance on the evening of the 8th, given in honor of Miss Ollie Amen and Miss Mary Cox of Kingsley.

Every one extends congratulations and best wishes to Mr. and Mrs. J. J. Bins, who returned yesterday from The Dalles, where they were married Jan. 9th.

Quite a number of cases of la grippe are reported, but none have been serious so far. S. J. Blackerby, who has been ill, is able to be out on the streets again.

Politics are ready to break out at any time. It will need only one keg of beer and a gallon of A. J. Wall's best, and we will carry the state for any one who will put up.

DUNE.

Evening of Pleasure.

The young people of this city are invited to a social at the Y. M. C. A. hall tomorrow evening at 7:30 o'clock. A short program, consisting of impromptu speeches on "Illustrious Achievements of Young Men" participated in, by members of the Epworth League Chapter. Free for all, but leaguers urged to be present. A short time will be devoted to sociability at the close of the program. Come and enjoy the evening.

BOIN.

On Tuesday, Jan. 12, 1892, to the wife of J. W. Koontz of Five Mile, a daughter.

A general state convention of republican clubs is called to meet in Portland on the 28th inst.

The name of John Booth has become as familiar to the readers of the Chronicle as that of William McKinley. The reason is John Booth believes in printer's ink. The reason is John Booth finds that printer's ink pays. John has proved it and the proof of the pudding is the eating. Three years ago John started a little one horse grocery store in partnership with John Kirby. The firm of Booth & Kirby did well, as many another firm has done by minding its own business. Both members of the firm were young, energetic, steady, sober, economical and obliging. They made money and six months ago the partnership was dissolved, John having an ambition to embark in the regular grocery business for himself. He found a store to suit him in No. 62 Second street and having got the front of it painted a gorgeous red, he filled it with goods and there you will find him at all reasonable hours of business. But John Booth is not running an ordinary grocery store any more than he is running it in an ordinary way. He seems to have made it a principle to keep the very best of everything in his line believing that the wisest housekeepers are always willing to pay a good price for a superior article. Not that he has not the cheaper grades of goods for those who want them, for he has, but if he can sell you a coffee that is cheap at 25 cents a pound he can sell you some that is cheaper still at 50 cents. If he has some customers who want tea at 25 cents a pound there are others who are willing to pay five times that sum and so with all the rest. To a stranger the one special feature in the store that is more striking than any other is the immense variety of canned goods that fill the shelves. Done up in bottles and cans and jars of most attractive form and shape there appears to be everything needed to tickle the palate of the epicure or supply the requisites of a well filled larder. Almost every country on the globe pays tribute to John Booth's store.

Here are pickles and chow chow, and curry powder and olives, and Piccalilli and olive oil and pickled onions and Worcestershire sauce and cocoa and salt and gelatine and plum pudding from England. Caper sauce, and sardines, and olives and peas and mushrooms in bottles, and mustard and citron, and seedless raisins and soap from France. Pepper and cinnamon and allspice and nutmeg and mace and cassia and mustard and cayenne and ginger from South America and the islands of the Southern Sea. Pine apples from the Bahamas. Cheese from Switzerland. Herrings from Deutschland. Extract of beef from Germany. Lemons from Cileify. Coffee from Java and Costa Rica and Salvador from Cuba. Bananas from the Sandwich Islands. Teas from China and Japan. Cocoa nuts from India and Vermacilli and Macaroni from the land of the Dago. But John Booth believes in patronizing our home industries as well. Hence we find on his shelves the Columbia Packing Company's lard; Warner's butter, and potatoes and eggs and apples, and dried fruits, and prunes, and carrots, and cabbage, and onions, and beets, and turnips, and celery, and garlic, and horse-radish—the products of the farmers of Wasco county. But our limits forbid a longer description of this model grocery store. The application of the whole, is this: If you want anything in the line of fine groceries that you cannot find elsewhere in The Dalles, go to John Booth.

MARKET REVIEW.

THURSDAY, JANUARY 14, 1892.

There has been, comparatively speaking, nothing done in the past week in trade. All kinds of business seems to be at a standstill, save that of the stove dealer and plumber. The cold snap has kept the former busy putting up heating stoves, and the latter in repairing bursted water pipes.

The markets are inactive although regular prices are maintained throughout all lines. In Portland a slight decline in sugar and Arbuckle's coffee is reported. Other staples are unchanged in quotations. Produce is in light receipt, especially wheat, oats and barley.

Wheat, from more recent advices, has a downward tendency and exporters are not as eager to purchase as they were some weeks ago. The latest foreign reports indicate that the American surplus reevey will not all be needed, as cheaper breadstuffs are being used instead of wheat bread, consequently, exporters predict that the highest prices have been reached. The prevailing opinion is that the next harvest will be large and prices somewhat lower than realized in 1891, although quite satisfactory.

To base an opinion on what to expect, the department of agriculture reports 612,000,000 bushels of wheat as the product of 1891, which is 100,000,000 bushels more than the banner crop of 1884. The corn crop has exceeded expectations in volume for the year and is put down at 2,000,000,000 bushels, which as a food supply is taking the place of wheat, as it is cheaper and meets the wants of the laboring classes of Europe to a large extent. Quotations are unchanged this week in all lines.

OATS—The oat market is short of supply. We quote 1.00 cents to \$1.10 per cental.
