#### JACK THE SLASHER.

#### A Mysterious Assassin Caught in New York.

NEW YORK, Jan. 18 .- "Jack, the Slasher," that mysterious individual, who since December 29, last, has amused himself, by cutting the throats of drunken men with a razor, and has been he terror of night travelers in the Fourth ward, was captured at an early hour this morning red-handed. He inveigled Government Troops Preparing to Anni hilate Garza. his victim, a drunken man, to an unfrequented street and then catching the man around the neck with one hand, with the other he drew a keen razor across his throat. He then slunk away, but an officer, who had been watching him for some time and who had been (unable to come up in time to save the drunken man from injury, gave pursuit, and with the aid of other officers soon captured "the slasher." Inspector Byrnes has no doubt that he has the right man, at whose door also is laid the death of John Carson, the Baltimore exlawyer, and the dangerous wounding of five other men. The prisoner's name is Henry G. Dowd. He is well connected, so far as his family is concerned, but his habits have long made him a social outcast, and for two years at least, he has had no other home than the cheap lodging-houses on the Bowery. He is about 43 years old, and is believed to be insane. Dowd's seventh victim is a man named William Miller, 45 years old, of 328 West him Third street, who was walking along James street in a drunken condition. His throat was badly cut, and he was taken to the hospital. Dowd was ar- to be no good foundation for the war raigned this morning in a police court, and was from there remanded to the day's cabinet meeting, instead of being tion to congress. care of Inspector Byrnes.

of the man who has been dubbed by the police as "Jack the Slasher":

John Hefin, of No. 148 East Eighteenth night of December 29th last (this was the first case); Louis Lawson, of No. 5 Albany street, throat cut January 8; Brooklyn, throat cut and slashed January 11; Edward Christianson, a Swede, throat slashed January 12; John Carson, throat cut from ear to ear, found dead January 15.

After the preliminary examination of the prisoner he was taken to the Bellyne bospital where Clark, the man who was cut January 9 was being treated for the injury inflicted by the slasher. Clark positively identified Dowd as the man who assaulted him. When Dowd was taken back to police headquarters he made a confession of his crimes, or some of them. He said the impulse to kill was incontrolable. He said he wanted to kill all the Dutchmen because a Gerinspector asked. "I could not help it," was the reply. Then seeing his error, did not kill Carson. Dowd's room was searched and blood-stained clothing found. His shirt sleeves were also full of blood stains.

## THE RULES OF CONGRESS.

#### to be Adopted Will Prevent Fillbustering.

WASHINGTON, Jan. 19.-It is known there will be only a few changes in the rules of the fiftieth congress. The modified Holman rules of the forty-eighth congress will be re-adopted, a rule will also be added, limiting to one hour the call of the states on Mondays for the introduction of bills, the object being to prevent filibustering on suspension days, by wasting time in the introduction and reading of long bills. It is also likely that, although this is not yet absolutely decided upon, that a rule will be framed to prevent prolonged filibustering by enabling the house to vote any measures it desires to close a debate. This rule will probably give the rules committee authority to bring in a special order fixing the time at which a debate on any specific measure shall cease, the approval of the order by the house, of course, being necessary.

## Democratic Determination.

There is a determination on the part of the democrats of the house to fix the rules so that riders will be allowed on appropriation bills. This is done for the purpose of securing the repeal of some of the legislation enacted by the last congress. Of course any such attempt to legislate in the appropriation bill will be met in the senate with a negative. There may then be a deadlock, but it is believed that the republicans in the senate will prolong the session of congress indefinitely before they will allow any such appropriation bills to become laws. Of course it is known the government will be practically with-out the means of carrying on its busi-ness. These things have been at-tempted before, and generally ended disastrously to the party which insists upon legislating on general matters in appropriation bills. The items intended to be attacked are the subsidy and sugar bounty acts passed by the last
