La Grippe! The tendency of this disease toward neumonia is what makes it dangerous, La Grippe requires precisely the same treatment as a severe cold. Chamberlain's Cough Remedy is famous for its cures of severe colds. This Remedy effectually counteracts the tendency of the disease to result in pneumonia, provided that proper care be taken to avoid exposure when recovering from the attack. Careful inquiry among the many thousands who have used this remedy during the epidemics of the past two years has failed to discover a single case that has not recovered or that has resulted in pneumonia. 25 cent, 50 cent and \$1 bottles for sale by Blakeley & Houghton, druggists.

Two well-known Weston bachelors agreed to disagree during the past week, and, as the reporter is informed, could not decide as to a division of furniture and other property which goes to make a bachelor's hall comfortable. While in this dilemma one of the gentlemen concluded to settle the matter in a simple manner. Procuring a saw he divided the tables, chairs, cupboard, etc., squarely in the center, and left his partner's half remaining in the cabin, taking his own to other quarters. It is stated that both are well satisfied and living happily apart.

Unnecessary Sufferings.

There is little doubt but that many ersons suffer for years with ailments that could easily be cured by the use of some simple remedy.
