The Oregon Pioneer society whose annual meeting will be held in June, is taking steps to have its anniversary on the centennial of the discovery of the Columbia river.

A movement is said to be on foot to revive the issue of fractional paper currency. We are not aware of any serious objection that can be offered to the measure while many reasons might be given in its favor.

The people's party of Baker county are demanding of candidates for county offices that they enter into a bonded contract to perform the work of the offices of recorder, clerk and sheriff for a stipulated sum of money on condition of being elected by the party's vote.

The Indians on the Umatilla reservation will be allowed to assume the privilege of citizenship including suffrage, immediately upon the approval by the department of the allotment of their lands.

Bell of the Independence West Side is getting it right in the neck. He had the hardihood to call State Senator Veatch, who has aspirations after Binger Herman's shoes, a "negation" and some of the stalwarts are reading him a lesson on "heresy" and "departure from the faith."

The Hood River people are kicking vigorously at the big tax bill they have to pay this year. The Glacier says: If this county will kindly take some of the property for part payment of the taxes and wait until our citizens can earn the balance, we feel certain they will cheerfully pay it.

David B. Hill's star is now in the ascendant and the papers that have been saying mean things about him are engaged in letting themselves down to an adjustment with the new condition of things.

Researches in the census office disclose the fact that there are in the United States 12,500,000 families, and of these 10,025,000 are living in houses, or on farms, that are not incumbered by any mortgage obligations.

Chicago will erect a wigwag to accommodate the democratic national convention. This is a delicate way of asking the Tammany Injuns to make themselves at home.

Walla Walla has a "Mutual Aid society" whose chief object is the expulsion of the Chinese from the country. The movement has many followers.

STRIKING TESTIMONY.

The American Wool Reporter, published in Boston, New York and Philadelphia, is the chief organ of the wool manufacturers of the United States.

"In less than two years a remarkable change has been wrought; and it may be noted right here, and we affirm it with considerable emphasis, that the change is a direct result of the schedule, which is a bar to the importation of many goods formerly imported.

The same publication says further: "The year just ended was a wool dress goods year; it witnessed the largest production of fancy goods this country has ever reached. Not only this, but it marked the beginning of a new era in the industry, an era which is likely to be a notable one.

The Keely cure for the liquor and opium habit has evidently made a good impression on the government. According to report Dr. Keely has just entered into a contract with the United States government to put his remedies and treatment in all national and state military homes of America.

Captain J. H. D. Gray of Astoria threatens, in case congress should fail to make the necessary appropriation for a boat railway at the dalles of the Columbia to resurrect the boat transfer scheme that gave excuse to the enemies of a portage railway at the last legislature to substitute this latter scheme for a "seaw." The Lord deliver Eastern Oregon from the idiocies of Captain Gray.

There are about a thousand republican statesmen in Oregon who, the Telegram says, will hope that there is truth in the rumor that Dolph will be appointed to the supreme bench, for then there would be another United States senator to elect next winter, and each one would imagine that he might be the man.

The quickest cure of deformity on record is the case of two hump-backed passengers who arrived in New York from Havre. An examination of the humps by the custom house officers found them filled with diamonds, pearls, rubies and other jewelry.

All objections to the appointment of Mr. Gilbert to the vacant judgeship of the ninth district by the people of Washington on the ground of his being an Oregon man have been set at rest by the discovery that Judge Gilbert has considerable landed property on the Sound.

The Heppner Gazette is in it "heart and soul" for an open river. It says: When we do the work ourselves as a state it will be done. Till then, only talk. The latter is the favorite subterfuge of the average member of congress.

H. L. Rodman was sent to the state asylum last Tuesday from Oakland, Oregon. The causes assigned for his insanity are religion and the farmers' alliance.

NORTHWEST NEWS.

Hood River Glacier. Mr. Harrison Corum has been very low for some time, and there is little hope of his recovery. Wednesday his son arrived from Northern California and is now taking care of his father, a task that has been borne by Mr. Corum's neighbors for some time.

Toledo Blade. France now has a very stringent protective tariff, which went into effect on February 1. The English free trade press raises its voice in lamentation, but the French government is legislating for France, not Great Britain.

Tacoma News. "There is going to be a new face in heaven," is the happy manner in which the Astoria Town Talk announced that its editor had received notice he would be murdered. Angelic beings, those Astorians.

The proposition is made to bond the city of Pomeroy for \$10,000 for the purpose of sinking an artesian well. It is thought that if successful this would insure a better supply of water for the city than could be obtained in any other way.

Moro Observer. Moro will soon have a brand new livery stable. J. A. West has ordered 20,000 feet of lumber and intends building a stable 30x70 feet. The work will begin as soon as the lumber can be hauled.

Wasco News. The general opinion seems to prevail among the farmers that but little if any, of the wheat has frozen out. Some consider the danger over while others are inclined to the opinion that all danger of freezing out is not yet passed.

Astorian. Recently an English tourist visited Greenland and in his valise was a big red apple. The customhouse men having never seen one before, and being unable to find anyone who had, took it for a bomb, and made the Englishman sit down and eat it.

Wasco News. While Wasco leads in energetic efforts, commercial and mechanical enterprises, and is in the van of all competitive points, and we hail this fact with unalloyed joy upon our lips, and from the depth of our heart of hearts, it is also with unfeigned satisfaction and pleasure that we chronicle the fact that Sherman county does not lag behind any county in the state.

Klamath Star. Hon. T. T. Geer, of Marion county, has popped up before us as an aspirant panting for and seeking with large-eyed eagerness the republican nomination for congress. No Geer delegate will go from the Klamath or Lake counties to the convention, that is positive.

The convention, I may mention, will be held at "HERMANS" with uproar. Then will follow the desecration of the politicians' graves.

One of the most curious wells in the west is on the place of Henry M. Henderson on Oakes avenue. This well can play on a dozen different musical instruments at the same time, and has done it, which is an accomplishment that no human being is known to possess.

An abundant supply of good water is in the well at all times, and where the wind comes from or where it goes is a mystery which Mr. Henderson has not solved. One day not long ago Mr. Henderson collected all the musical instruments he could—amounting to eight—from his neighbors and friends.

According to a report made by the British vice consul at Berlin the production of the cocoanut has been carried on for the last two years by a firm at Manneheim, the process having been discovered three years before by Dr. Schlinck. Factories having the same object in view are about to be established at Paris and at Amsterdam.

The butter, which is sold at less than half the price of ordinary butter in London, or from thirteen to fifteen cents per pound, contains from 60 to 70 per cent. of fat and from 25 to 35 per cent. of organic matter.

Being free from acid it digests with greater ease than dairy butter, and is preferable in other ways to the bad butter which too often finds its way to market. It is also a more attractive compound than the various preparations called margarine, some of which have very questionable origin.

Everybody should be interested in preserving the forests that are left to us, for they help to maintain the prosperity of the whole country.

MARKET REVIEW.

THURSDAY, February 25, 1922. The local market is very quiet. The business of the week past has not given any appearance of improvement over the former. The beautiful weather has caused an increased activity among the farmers on their farms, in plowing and sowing of early grain, and as a consequence there are but few in the city.

In jobbing lines there has been a better inquiry for staples from the country merchants and interior towns, and a considerable amount of freighting has been done.

There has been several large freight teams in from Mitchell and Prineville, in Crook county, and have loaded with merchandise and gone from the Wasco warehouse to the merchants in those places.

Are comparatively easy. We hear of a limited inquiry for money on loan, and parties in need are seldom willing to pay a bonus to the brokers for the purpose of obtaining it. In conversation with some of our bankers, we are given to understand that there is no scarcity of money, and deposits are constantly coming in, a larger ratio than formerly.

The real estate market is constantly improving. There is considerable more inquiry, and more transfers, than at any former corresponding periods. Town or city property is sought after, at advanced rates, in a greater degree than ever before at this point. Our real estate brokers are very happy over the outlook as foretold by the present.

Staple groceries are in good demand, and prices are maintained on all lines except in sugars, which have advanced 1/2 a ct. per lb. all round. Coffee has dropped slightly. Syrups remain about the same except the common grades, which are marked down somewhat. Dried fruits are unusually low. Bleached dried peaches 10 1/2 cts, bleached apples 10 cts, Italian prunes evaporated 10 cts, pitted 11 cts, apricots 12 1/2. Common grades 1 to 2 cts lower.

In garden products potatoes are in light demand, best grades are quoted at 60 cts per 100 lbs, and inferior at 40 to 50. Cabbage is in limited supply. Onions are off at 1 1/2 cts per lb, and dull sale at that.

Is very quiet, and prices are not encouraging. Reports from the east and foreign markets indicate a sluggish state of affairs on change. The report sent out by the centers that only two-fifths of all the wheat product of the United States had passed out of first hands, has to a greater or less degree, practically paralyzed the markets, and expectations for cheaper breadstuffs is to be realized in the near future. Flour in Portland has declined 25 cts. on the barrel, and a still further decline is looked for.

I recognized in it at once an herb that the Mexicans used to give me in the early 50's for bowel troubles. (I came to California in 1839, and I knew it would help me and it has. For the first time in years I can sleep well and my system is regular and in splendid condition. The old Mexican herbs in this remedy are a certain cure in constipation and bowel troubles." Ask for
