The advertisement of Young & Kuss, blacksmiths has been moved to a new column and placed next to the heading "professional." You see a baby girl was born to the senior head of the firm this morning.

Peter Staak, well known among everyday people as a barber and among the upper ten as a tonsorial artist, has rented the barber shop in the Skibbe hotel and will turn it into a tonsorial parlor in about ten days.

From Mr. F. C. Sexton of Dufur, who is one of the committee of five, appointed by the late mass meeting held at Wamic, to locate the new grade up Tygh hill, we learn that the committee have agreed upon what is known as the "Kelly route." We understand that the first half mile of this grade is eighteen inches to the rod and the remainder is seventeen inches. So far as the CHRONICLE is concerned it has no pet scheme in relation to this matter. All it desires is a route that will be satisfactory to the people most directly interested.

A correspondent of the Goldendale Sentinel, writing from Blockhouse, thus describes the effect of the late earthquake shock at that place: "The whole community was awakened by the rocking of Mother Earth, at 3 o'clock a.m., on the 29th inst. Some twenty minutes afterward there was a rumbling noise, but not so severe as the first. Jack jumped up and shouted 'Who's there!' thinking someone was overturning his scales and the bottles on the shelves. The sensation in the sleeping department of Kayser's was like the rolling of a boat."

The regular monthly meeting of the common council was held last night. All members of the council were present except Mr. Haight who is still absent in the east.

In the matter of the petition of the Rod and Gun Club for a fish ladder at the Mill creek dam it was ordered that the club be authorized to construct such ladder at their own expense.

All bids for the grading of the square on Ninth and Pentland were rejected and the work was ordered to be done by the street commissioner.

The unpaid taxes for 1891 were on motion declared delinquent and the recorder was ordered to issue a warrant to the marshal for their immediate collection.

The report of the city attorney on the ordinance granting certain franchises to the W. U. T. Co., was adopted, the report advised the rejection of the ordinance.

A resolution was passed to establish the grade on Fifth street from Union to Washington.

The engineer of the fire department was ordered not to loan any of the ladders belonging to the fire department.

The matter of opening Fritz's alley was referred to the city attorney with instructions to report at next meeting. The mayor was authorized to confer with Engineer W. J. Roberts with reference to the establishment of certain fixed city points from which to make subsequent surveys.

The meeting then adjourned.

From the Daily Chronicle, Saturday.

Joseph H. Sherar of Sherar's bridge was in town today.

Hon. E. O. McCoy of Grants was in the city last night.

Frank Fulton of Sherman county is registered at the Umatilla house.

W. M. Reid of Rufus and James Cochran of Bake Oven are in the city.

J. W. McKenna the artistic painter of Hood River is at the Umatilla house.

Pat Bolton, a prominent horsebreeder of Tygh Ridge was in town last night.

Editor J. H. Cradlebaugh of the Hood River Glacier paid the CHRONICLE office a pleasant visit today.

Mr. Simmons and Mr. C. Caldwell of Portland came up last night to this city and will return tomorrow.

Mr. and Mrs. A. Bettengen senr. and Mr. and Mrs. J. P. McInerney left yesterday for a trip to San Francisco.

Mr. S. A. Byrne, was at his place of business again today, having returned from a flying trip to the Metropolis last night.

Mr. Hugh Glenn is again at his post of duty, having returned from Portland where the papers lied about him and called him a Dalles City dad.

Judge A. S. Bennett of The Dalles, sent the Astoria railroad subsidy committee a \$2,500 subscription this week, provided that the road goes through the Nehalem valley.

A Celestial and an Indian had a race controversy today concerning the larceny of a chunk of beef. The untutored Indian was accused by the Celestial, and stoutly defended his case, assuming the air of an injured innocent, but John who is always ready to support his charge with the regulation oath swears the Indian did steal the beef.

Mrs. William Edgette of San Francisco arrived on the noon passenger on a visit to her brother Mr. H. W. Wells of Sherar's Bridge. Mrs. Edgette is the wife of a sea captain and she has traveled with her husband over all the world yet she says she never in her life saw anything to equal the scenery of the Columbia river between The Dalles and Portland.

A CHRONICLE representative today had the pleasure of sampling a magnificent cigar manufactured expressly at The Dalles cigar factory for the trade of Mr. Charles Stabling of this city. Messrs. Ulrich & Son have labelled it "La Hispania" and they assured the reporter that the filling is of the very best brand of Havana tobacco imported into the United States.

The infant son of Mr. and Mrs. Tom Kelly of this city received by express today from its uncle and aunt, Mr. and Mrs. Joe Kelly of Portland, a very beautiful child's solid silver set, consisting of a knife, fork and spoon, enclosed in a handsome silk plush case with a card enclosed containing the following: "From Uncle Joe and Aunt Annie with love and best wishes to the baby boy." The gift is highly appreciated.

The Steamer Dalles City met with a slight accident yesterday, after she had arrived at her landing at the Cascades by the breaking of a nut on one end of the hog chain. The accident will be repaired today and the boat is expected to meet the Regulator at the Cascades tomorrow, thus making up for lost time by making a Sunday trip. The Regulator will not carry through passengers tomorrow as the Dalles City will lie over at the Cascades till Monday morning.

John Doe has got into trouble again. He had required by hard work, something over \$100 in coin when he thought he would visit the city and help deepen the shade of its vermilion. Painting a town is hard work at best and John grew weary and laid himself down on the sidewalk to sleep. Then the ubiquitous Con Howe came along and gathered up

the limp remains and put them in the cooler. Yesterday morning Mr. Doe was brought before his honor the recorder, charged with being drunk. He was duly fined and allowed to go out on his own recognizances to see if he could find \$105 that he said he had lost the night before. The money was found deposited in a saloon and John was so happy over the event that he thought he must treat himself. He did so and feeling like another man he treated the other man and kept treating and painting the town till drunkenness and night. Then the marshal gathered him in again and this morning found him with never a cent to pay his two fines. He will work them out on the streets when his stomach settles.

Representative Scott, of Illinois, has introduced a bill prohibiting the post-office department from selling stamped envelopes bearing the usual printed request for a return to the owner after a limited period. Speaking of the resolution, Mr. Scott said: "Under the present law, the government is a direct competitor with every printing house in the country. It is an unwarranted trespass by the government upon the private business of every printer in the United States. Many millions of dollars annually are by this act taken from the printing business. The government should take its hands off and not oppress one of the greatest and most important industries of our country." Appropriate to this matter of job printing, THE CHRONICLE feels justified in asserting that work turned out in its job department is in every way equal to any coming from the east. This was attested yesterday when our enterprising fellow citizen, Mr. John Booth, was accused of sending east for printing which was done in THE CHRONICLE job office.

From the Daily Chronicle, Monday.

We regret to hear that Mr. F. Dehn is seriously ill.

Editor J. B. Hosford of the Moro Observer is in the city.

Chas. G. Roberts of Hood River paid the CHRONICLE a pleasant visit today.

Mr. Leonard Ireland, of Portland, is at the Umatilla house, on a visit to his father.

Hon. W. Lair Hill, the peoples' choice for Judge of the ninth United States Circuit court, arrived in the city on the noon train to-day.

Rev. A. S. Spencer, of the M. E. church of this city, took the midnight train last night for Pendleton, on a mission in connection with his duties as a minister.

A large consignment of trunks were shipped from The Dalles factory Saturday to a wholesale manufacturing clothing firm in Albany. They went forward by steamer Regulator.

The Centerville Leader says the Farmers' Alliance and Grange are endeavoring to induce every farmer in Klickitat county to enter into a contract to do all their shipping by the new line of boats.

At the regular annual school meeting held this afternoon. H. S. Wilson was elected school director to take the place of H. M. Beall. J. M. Hunington was re-elected clerk and a 5 mill tax was voted for school purposes.

When the excursionists from The Dalles reached Cascade Locks yesterday, one single copy of the Oregonian was all that was to be had. This was in the hands of a shrewd boy who realized the corner he held on the market, and put the paper up on the basis of supply and demand, and it was taken at half a dollar by Deputy County Clerk Martin, who immediately formed a trust and distributed the single copy around about equally between thirty-five or forty excursionists.

More than one excursionist to the Cascades yesterday were heard passing complimentary remarks on the state portage. The inclines as well as the track are strongly and substantially built and as one gentleman remarked in the hearing of a CHRONICLE representative "It is not once in a hundred times that such a work is ever completed within the limits of the appropriation." We noticed standing on the track a very neat caboose which has just been built on one of the flat cars by Mr. T. F. Leavens. It has a seating capacity for about 30 passengers and will be a good improvement on the box car now used to carry passengers over the portage.

An employe at cascade locks yesterday informed a representative of THE CHRONICLE that the reasons for stopping work with \$75,000 of an unexpended balance on hand, was that that sum, in the language of the immortal Joe Meek, "was bar'ly enuf for the officers." That in case Congress fails to make another appropriation this unexpended balance may be retained solely to keep the officers under pay. The magnitude of the immense work was taken in yesterday by a large and influential delegation from The Dalles, and the unanimous opinion seemed to be that under the present modes of operation the canal may be ready for traffic in about ninety years.

About fifty persons went down on the Regulator yesterday, on an excursion trip to the Cascade locks. The day was delightful; the sun shone brightly in a clear sky and the air was soft and balmy. It was ideal weather and the excursionists enjoyed it to the full. It was expected to leave the Cascades for the return trip about two o'clock but a little before that time the captain received a

telegram informing him that the Dalles City had not left Portland till one o'clock and that she carried through passengers for The Dalles. There was nothing therefore for it but to wait till the lower boat arrived. This gave the excursionists a long day which was utilized to the full in examining the government works, the state portage and other places and things of interest. The Regulator got back to The Dalles a little before midnight.

Several months since a body was found floating in the river which had been so long exposed as to be unrecognizable, and the remains were buried without identification. In the pockets was found a memorandum of a local subordinate lodge of Granite Cutters, and as Mr. Strachan, of Cascade locks has since received letters of inquiry from a Mr. Oswald of San Francisco, he thinks the body was that of Robert Oswald, who left the locks last April intending to go to Salt Lake City. He would like to hear if the clothing of the deceased has been preserved. He says he has made inquiry and ascertains that Oswald, after leaving the locks, was in company with two other men below The Dalles, that one of these men and Oswald disappeared from the camp where they were sleeping, leaving the third man asleep, since which time nothing has been heard of Oswald.

A very sad accident happened yesterday some miles below the city, near Snipe's lake, on the Columbia. William Groat, the head miller of the Diamond flour mills had left this city in the morning accompanied by a few friends, on a pleasure trip. After luncheon Mr. Groat and a companion who had been resting on a log, picked up their guns with the intention of going on a little hunt. In the attempt Mr. Groat's feet slipped from under him and while trying to recover himself, his right hand slipped along the barrel of the gun just as something touched the trigger. The entire load of shot entered the palm of the hand ranging towards the body and tearing the hand frightfully. Mr. Groat was driven to town with all possible speed when Dr. Rinehart found it necessary to amputate the hand a little above the wrist. The patient is doing as well as could be expected and the many warm friends he has made in this city, during his residence here, will be pleased to learn that the accident will not materially unfit him for his old trade.

Wapinitia Items.

The magnitude of the salmon industry on the lower Columbia may be conceived from the estimate that about two millions is permanently invested; about a million is spent annually in the purchase of twine, tin, salt and other materials and during the four months' fishing season another million is paid out for material, wages and expense accounts.

Saved from Death by Onions. There has no doubt been more lives of children saved from death in croup, or whooping cough by the use of onions than any other known remedy. Our mothers used to make poultices of them, or a syrup, which was always effectual in breaking up a cough or cold. Dr. Gunn's Onion Syrup is made by combining a few simple remedies with it which, make it more effective as a medicine and destroys the taste and odor of the onion. 50c. Sold by Blakeley & Houghton.

The Union Pacific to justify the exorbitant charges on its Oregon lines on the ground that the lines did not pay. The plea will hardly avail any longer after one has learned that the Oregon branches have provided, in the way of net earnings during the past year the sum of \$1,300,031.

Dr. Gunn's Improved Liver Pills are a sure cure for sick headache, bilious complaints, dyspepsia, indigestion, costiveness, torpid liver, etc. These pills insure perfect digestion, correct the liver and stomach, regulate the bowels, purify and enrich the blood and make the skin clear. From Salem comes the opinion that at school meetings women can vote on questions of tax, etc., but they cannot vote at an election for school directors or school clerk and that an election wherein women voted for a school director or school clerk would be invalid.

La Grippe Successfully Treated. "I have just recovered from a second attack of the grip this year," says Mr. Jas. O. Jones, publisher of the Leader, Mexia, Texas. "In the latter case I used Chamberlain's Cough Remedy, and I think with considerable success, only being in bed a little over two days, against ten days for the first attack. The second attack I am satisfied would have been equally as bad as the first but for the use of this remedy, as I had to go to bed in about six hours after being 'struck' with it, while in the first case I was able to attend to business about two days before getting 'down.' 50 cent bottles for sale by Blakeley & Houghton, druggists.
