The committee on permanent organization reported as follows. We re mmend that off

And, as an illustration of this disposition to distinguish between the worthy and unworthy, we point with pride to the action of the democratic majority of the congressional committee on rivers and harbors, in recommending -appropriations of \$435,000 for the improvement of the Columbia river at the cascade locks, \$150,000 for the improvement of the upper Columbia and Snake rivers. \$300,000 for the improvement of the mouth of the Columbia river, and \$50,-000 for the lower Columbia and Willamette rivers, at the same time they are cutting down unnecessary and uncalled for appropriations for all trifling purposes and sham improvements, and carefully economizing in the expenditure of the people's money.

Whatever men may think or say concerning the effects of a high tariff on the price of farm products, the fact remains that, the price of grain today averages nearly 50 per cent. higher than it did 30 years ago, while the prices of dry goods, groceries, clothing, boots and shoes, and farm machinery have meanwhile been reduced all of 50 per cent., so that the purchasing power of a bushel of grain is today 200 per cent. greater than in 1862.
