Ireland's Appeal to America an Important One .-- The Mushroom of Ocklahoma, etc.

New York, April 21 .- At a meeting of the executive committee of the federation of labor which is to be held in this city next week, a plan of campaigu will be marked out for a fight, which means "the survival of the fittest" so far as the American federation of labor and the Knights of labor are concerned. Then the great battle will begin, and in every city the fight will be taken up by the federation. These two powerful bodies of organized labor will enter into a combat which will be lengthy and quite spirited. Such is the meaning conveyed by an interview with Henry White, general auditor of the united garment workers of America, affiliated with the American federation of labor. In the interview he is emphatic in the denunciation of the Knights of labor policy regarding the boycott on Rochester clothing manufacturers. He stated that the federation has taken the matter up, and would endeavor to counteract the effects of the boycott.

California's Earthquake.

San Francisco, April 20 .- A singular impression possessed many residents of Vacaville yesterday to the effect that they had not passed all danger, and this dread apprehension was realized, when, at three separate times, from 2:02 to 6:40 a. m., shocks of an earthquake were repeated, and if a building was only slightly injured yesterday, today the wreck is complete. In the creek one mile above town are fissures from one to six inches wide, from which gases escaped, making a loud, hissing sound. Water was thrown out of the creek on the banks on either side a distance of twenty-two feet by the explosion. There saws, one car load of advertising matter; was no apparent excitement but more forty water tanks; in all, goods valued shocks were awaited. There were none, at \$100,000, upon which the freight however, until 8:25, and that was almost as sharp as its early-morning pre- turned over to Mr. S. G. Rigdon, at this decessors. Stockton, Woodland, Sacramento and Elmira. At the latter place seven distinct shocks were felt.

An Appeal for Aid.

New York, April 21 .- The friends of Ireland in America are appealed to by the committee of National Federation, for aid to carry home rule for Ireland at the elections soon to follow the dissolution of parliament. The appeal says: "The election will decide the home-rule question for our generation, if not forever. Will you aid the Irish people now? The tory party has arranged to contest every seat in Ireland; to impose new burdens on our people, knowing their poverty. Heavy statutory fees must be deposited when the nominations are made. The necessary funds should be in our treasurer's hands before the dissolution of parliament, in order to be available at once. The hour for a final effort is upon us." The appeal is signed by Thomas A. Eramett, president. It requests that contributions be sent to easurer Eugene Kelly, 22 Cooper

Very "Prominent" Citizens.

MONTBEAL, April 20 .- A tremendous sensation was created in St. John's, Quebec, by the arrest of five prominent citizens, including lawyers and officials of the provincial government, on a charge of the most revolting nature. It is alleged the prisoners were in the habit of enticing small boys into a rendezvous known locally as the "Fishing Rod Club."

A Big Land Sale.

Dubois, Pa., April 20.-The Pennsylvania railroad company has bought the Dubois estate, comprising 28,000 acres The Stealings of Seventy-Five Persons of coal and timber land in Clearfield county, for \$17,000,000. John Dubois, who was made sole heir of the estate at the death of his uncle, is in Philadelphia. The low grade of the Allegheny valley railroad, now controlled by the Pennsylvania, runs through the tract from east to west. It is said the transfer will be made to individual stockholders of the Pennselvania.

The Russell threshing outfit for this season will certainly be the best in the market. The engines are equipped with Russell's patent friction clutch, which has for the past five years kept this engine at the head of the procession. The new Cyclone thresher for this season has a double barred cylinder, set in an iron frame, which entirely overcomes the tendency to loose spikes, and the frame twisting out of line, in addition to Russell's patent spiral distributing beater,

Special treasury agent White- ply at unchanged prices and is held firm head, and a force of detectives, are co-operating with collector Hendricks in the matter. The system of frauds practiced has been in the undervaluation of imports, and the operators are mostly of a class of persons hitherto considered honorably connected with some of the most respectable merchantile houses of the continent. The first arrests, made on Tuesday, created great excitement in the circles of those implicated, and when the newspaper reporters heard of it efforts were made to get at the facts, but the collector and his assistants had provided against revelations so closely that no information could be had until the beginning of the wholesale arrests, then it was learned that the authorities have been for some time quietly investigating is to be determined by the returns. what has turned out to be the most gigantic conspiracy of the times. Union Pacific Affairs

NEW YORK, April 20 .- Capt. R. S. Hayes has consented to take the presidency of the Union Pacific when Sidney Dillon retires, at the coming election. Jay Gould and Russell Sage will be dropped from the board of directors, and Mr. Dillon retained only as a concession to his long service to the company. A suggestion that the place of chairman of the board be created for him was not favorably considered by the people who will represent the controlling interest. Vice-President S. H. H. Clarke may continue his connection with the company, upon condition that he resign his position as general manager of the Missouri Pacific railroad, which he is said to have expressed a willingness to do.

Building Accident.

NEW YORK, April 21 .- A building on State street, Schnectady, fell in yesterday with a terrible crash. Workmen were excavating alongside of the wrecked building, for the foundation of a new building adjoining, and they just had time to escape. Mrs. Carling, wife of the owner of the wreck, was in the building when it fell, and was buried in the debrie and some time elapsed before her rescue was effected. The roof was finally lifted and propped, and she was found conscious and uninjured, beneath sewing machine which had fallen over her and acted as a shield, protecting her from the roof timbers.

Senator Mitchell was feeling very good over having a convert in John Sherman to his opinion that the present Chineses exclusion acts did not expire until 1894. MARKET REVIEW.

THE DALLES, April 23, 1892.

Trade for the past week has moved along more brisk without any changes in prices in any one line, save in flour which has declined twenty cents per barrel in the past few days. There has been a decline of thirty cents per barrelin Portland within the past three days, and is quoted there at \$4.30 for standard and \$4.20 for Walla Walla. This decline and quotation is 60 cents lower than that of a month ago, and is nothing more than was expected owing to the weak condition of the markets. Wheat is moving more freely in the local market and a sharp decline has taken place, correspondingly with the Portland and Eastern markets. Yesterday 55 cents was paid for good, marketable wheat, and it is difficult to obtain more than 60 cents for best milling. The lifeless condition of foreign markets has thoroughly demoralized the grain trade throughout all grain centers. Ships are being chartered abroad for this next harvest at rates much lower than ever New York, April 21 .- For some weeks known at this season of the year.
