Coal Advances to a Figure Which Greatly Increases Cost Manufactures.

NEW YORK, April 26 .- The Herald devotes a page today to the Reading commary of the matter: "The combination has been in active evictors at In the great Lehigh valley coal region it has thrown 60,000 men out of employment half of the time. In the flourishing The Anarchists Bodly Issue a Most cities of the lower valley it has deprived 12,000 workmen of half their employment and saved from their wages \$75,000. Its restriction of coal products is a sure forerunner of a coming advance in coal prices, which is to increase the cost of manufacturing in all the eastern states; the price of manufactures for the whole country and the cost of living for the people of New York. The only cause for all this disturbance of business and misfortune to the people is an attempt to make an unprofitable railroad pay excessive dividends for two other railroads which it has no right to possess."

Another Seattle Adventure.

SEATTLE, April 25 .- Frank Lee, four months old, died in a mysterious way yesterday, and the coroner will be called upon to settle the cause of the infant's taking off. His mother is a handsome woman, and some time ago, under an assumed name, she advertised for and secured a baby. Shortly after, she sued R. L. Leslie, a prominent mining man, for seduction under the promise of marriage. He induced her to withdraw the suit by many soft promises, but, failing to keep them, she sued him again for \$10.000, claiming that she had borne a boy child to him. The woman claims that the physician who attended her will swear that she is the mother of the babe, but the doctor keeps a still tongue, and will not talk. Now the baby is dead, and shortly Mrs. Lee's damage suit will come up for trial.

For Americans Only.

WASHINGTON, April 25 .- Secretary Tracy recently had his attention called to the fact that civilians are employed in the Navy yards who are not citizens of the United States. He thereupon issued an order that none but American citizens be so employed hereafter, and that aliens already in the service of the navy department must become citizens or get out. The Association of American Draughtsmen is engaged in preparing a record showing the nationality of the draughtsmen at the various government institutions. When it is completed it will be shown the department authorities at Washington in order that steps may be taken to make the force strictly American.

The New Italian Rifles.

LONDON, April 25 .- A Rome correspondent of the Times says a great German authority has assured him that the new Italian rifle is the best yet introduced, being superior to the Lebel, Manser or Mannlichen weapon, and that the Italian army authorities, conscious of this fact, are determined to go on manuwill be entailed, even the abandonment of the African colony. The correspondent also savs Signor Nicotera is dissolving his force in the cabinet, and Rudini fears to dispense with him lest he drive him into the ranks of the opposition. Nicotera is a clever politician, and is ambitious to lead the cabinet, and must be ousted before a settled government is possible.

"A GOOD THING FOR THE TOWN."

The Ministers Explain, and Will Petition for a More Stringent Marriage Law.

MILWAUKEE, Wis., April 27 .- The members of the Milwaukee Ministers' association feel that there is a good deal to explain relative to runaway marriages and they are going to prepare an explanation for the public. A committee for this purpose has been appointed consisting of Rev. A. A. Kiehle, Rev. Henry Noehren, Rev. M. B. Ryan, Rev. W. P. Hellings and Rev. M. M. Parkhurst to draw up a petition to the legislature asking the passage of a more stringent marriage law and also to prepare an address to the public explaining the attitude of the ministers on the runaway marriage question. Rev. Mr. Parkhurst has been looking into the matter from the hackman's standpoint. The hackman, he said, first located ministers as near the railway station as possible and ascertained what hours they could usually be found in. Next he found out whether the minister asked too many searching questions from runaway couples, and lastly he made sure the minister would make a division of the marriage fees. If this was all satisfactory the hackman then became a regular runner for that particular minister and took all his trade to him. Mr. Paris, April 25 .- L'Eclair publishes a Parkhurst confessed that he saw nothtext of the anarchist proclamation, seling especially reprehensible in this on cretly printed with a view to influencing the part of the hackman.
