LONDON, May 16.-It is stated on excellent authority that the real object of the government in making so much secrecy about the date of the dissolution is to catch the liberals napping. These appeals are being carried into the home and the workshop as well as the chapel, and it is claimed that many of the English nonconformists have Ulster brethren. The matrix company have a system by which various newspapers scattered over the world, may produce the same matter daily, simultaneously.

By the Bomb Route.

CHICAGO, May 17 .- Several times the false Messiah Teed has been threatened, and yesterday a bomb was discovered under his house, at Washington Heights. An examination, it is said, revealed it to be of a very destructive character. The discovery was accidental and it is believed to indicate that the threats of the ents of the suburb against Teed are not of an empty character.

A "Royal Wedding" Rowen

DETROIT, May 17 .- Effic Mitchell, once a beautiful girl, whose marriage in 1874 to Count Tinus Euduardus Kooshel, of France, attracted so much notice, and tenement, at her former home in Syracuse, N. Y., yesterday. It is said there is no trace in her face of its former loveliness. The count, as he called himself, came here to study art. He occupied a handsome suite of rooms in a prominent hotel, and had a retinue of servants. After the marriage, the couple enjoyed an entensive wedding trip, and settled Dissolution is Considered by all Not to in Detroit. The unfortunate bride soon learned that the man was without bonor or resources, and that he had another wife in New York. She then returned to Syracuse, and has lived here unnoticed. The "count" was an artist of French or Austrian extraction, and his name was said to be Edward Tinus.

He set up the democratic plea of economy, but gave an assurance that he would be as fair and liberal as possible. He wanted ported to be much disappointed at the to know the smallest sum that would answer the purpose, and was told \$450,-000, the amount asked in the bill, was about right. He declared this was too large. He promised, however, to study the bill over and give his answer early this week. It is conceded that these interviews have something to do with influencing the California democratic state convention today.

Will Apply Every Test.

Washington, May 17 .- It is expected that everything possible will be done that can in any way be trumped up to thwart the purpose of the people to hold in check the vast speculative and corporate influence of the United States. This influence will not allow congress to pass any measure for the relief of the people for a receiver of the Minneapolis matrix of the United States if possible to prevent it, hence it is said today that Judge Sage, of the United States district court of Ohio, has rendered a decision which declares the river and harbor act of congress unconstitutional so far as it gives the secretary of war judicial powers. The case grew out of an order from the secretary of war, who furnished the Muskingum county commissioners plans and specifications for constructing a span for the bridge near Zanesville, O., which the commissioners had not the money to carry out. The case will be appealed and made a test case.

No Satisfactory Results.

LONDON, May 17 .- A Berlin correspondent says: "In financial circles here the belief prevails that an international silver conference will have no satisfactory results. - Germany will only accept the invitation because she does not desire to hold aloof from the other powers. The government and the rich have always been opposed to bimetalism. They even rejected the motion a few years ago declaring Germany's willingness to negotiate if England had previously adopted bimetallism."

Seven Million Republicans Who Have Not Made Up Their Minds.

THE NOMINATION IS NOT SETTLED.

No Name is so Popular as to Secure the Nomination on the First Ballot By any Means.

CHICAGO, May 18.-Chairman J. S. Clarkson, of the republican national committee, arrived yesterday from Hot Springs, Ark., fully restored to health. To a reporter he said: "Seven millions of republicans, who will be represented at Minneapolis, have not made up their minds regarding a candidate. The results of the state conventions clearly show this. There will be more uninstructed delegates in the Minneapolis convention that has ever been known in the history of the republican party. Almost all the Northern states, and states which cast electoral votes which will elect, sent uninstructed delegations. The majority of the uninstructed delegations come from the Southern states. Some able editors and Federal officeholders claim the nominatian is settled, already. I certainly do not think so, but as for being a party to any conspiracy for the nomination of Blaine, Sherman or Harrison, I desire to enter a protest. I will keep out of the contest, and cast my vote for whomever I shall determine will be the winner. Without much doubt there will be several ballots cast. A man must be very popular who would secure the nomination on the first ballot, and such we have not, certainly, when such a large proportion of delegates are uninstructed."

River and Harbor Bill Attacked From an Ambuscade.

PRESENT SYSTEM OF FINANCES.

Not Well Enough Pleased With Benjamen to Take His Advice.

MODIFY THE PRESENT SYSTEM.

Do Buck Track--- No 25 Per Cent. Scaling ... Stick to the Contract System if Ben. Goes.

Washington, May 18.—Yesterday an attack was made upon the river and harbor bill from an unexpected quarter. It is claimed that notice has been received from the White house by the republican members of the commerce committee, to the effect that it would be better to scale down the present river and harbor bfil 25 per ct. This is backed up by assertions from the secretary of the treasury, to the effect that the probable revenues do not seem liable to hurrying the prisoner on board a tug meet the actual cost of conducting the and steaming down the Delaware. He government under the present system of

The republican members of the senate appropriation committee have been notified that it would be well to keep down appropriations to as low a limit as possible, yet it is doubtful whether the commerce committee of the senate will take much stock in what President Harrison proposed, because many members of that committee on the republican side are not any too well pleased with the president. Further than that, a large volume made its appearance in the senate today, which is the report of the committee on commerce on the river and harbor bill.

It contains over 400 pages of printed matter and is very complete in discussent river and harbor bill and shows by facts and figures, the necessity for the passage of such a bill and of the vast account. It is believed the committee will not now take the back track and because the president is desirous of it.

In view of the showing made by the report it is doubtful if any attempt will be made by the senate commerce committee to scale down the bill. One of the first suggestions by the administration was that the contract system should be stricken from the bill, but this met rather than current expenditures.

SAN FRANCISCO, May 18 .- A dispatch was received yesterday by General Passenger Agent Goodman, of the Southern Pacific company, stating that the western traffic association has made another move in the direction of doing away with the payment of extensive commissions. An agreement has been effected applying to west bound business over all lines west of Chicago, which is to remain in effect from May 31st until December 31, 1892, and which fixes the commissions at \$4.50 on first-class tickets and \$3.50 on second.

A Chinese Smuggler. ASTORIA, May 19 .- The wrecked yacht, towed into this port from sea bottom up, undoubtedly was a fast sailer as she is a fine model, built in New Westimnster, but nothing can be ascertained beyond the fact that her builders very soon after disposed of her to unknown parties; it is supposed they were Chinese smugglers, placing celestials and opium accross the line. Some think the craft was used to carry opium only. Not a thing was found on board to throw any light upon the mystery, except a few Chinese coins that had lodged in the frame. She was capsized during one of the recent heavy sales off that terrible north coast.

CHESLEYTOWN, May 19.-Yesterday a mob of two-hundred men gathered at the jail determined upon lynching the negro assailant of little Nellie Silcoats. The sheriff eluded them last night by brought the prisoner back and relodged him in jail this morning. Soon after which time the culprit was taken out and lynched by a mob of 500 people, including some of the best connected families of the town. The girl will die.

A Bad Impression.

NEW YORK, May 19 .- A Paris dispatch says the appointment of the new Italian ministry has produced a bad impression in diplomatic and political circles. The fact is that this return to power of Crispl's friends, and men who look upon him as their political leader, causes general fear, not that the peace of Europe will be at once disturbed, but that its tranquility will be eventually threatened. Results of the ministerial change cannot yet be appreciated at their true value, but they will certainly be considerable.

Reports to the effect that democratic members are marshaling forces to camp benefits to accrue to commence on that in war upon the dalles boat railway project are numerous. They do not object to the improvement, but base move to scale the bill down, simply their action upon their party political movements in Oregon. Action should be taken at once to counteract this scandal upon a people deserving of higher esteem in the nations' capitol.

It is shown in the dispatches today that the proposition to cut down the river and harbor bill 25 per cent., if it succeeds, will reduce the appropriation with so much disfavor that it was not for the boat railway to \$187,500 and for Lockhart to make a more careful exam- declares that, while she would accept pressed. Senator Dolph says the house will not consent to a cut of so many of their large appropriations, and should it be made he will see, if any is restored, that Oregon is as well treated as any other state, in conference. The provision for the cascade locks secures the continuous and speedy construction of the work, and the balance of the appropriation required will be made in the sundry civil appropriation bill, as other appropriations to meet the obligations of the government already accrued, and the proposed cut, if made, will not delay the work; but the Oregon senators are not willing to surrender anything, and hope, because so many sonators are interested in the large number of works affected, that the prop-osition will be beaten in the senate.
