

TAMMANY RUMORS.

It is Reported that Senator Hill "Has Had His Day."

A SUCKED TAMMANY ORANGE.

Edward Murphy Emphatically Denies the Soft Impeachment.

NOT AN IDEAL PRESIDENTIAL MAN.

The Democracy do Not Look Upon Him With Disfavor for Strict Personal Reasons.

WASHINGTON, June 11.—A dispatch from Troy, N. Y., contains the interview with Hon. Edward Murphy, in which he emphatically declares there is no truth whatever in the statement that David B. Hill has written him a letter authorizing the withdrawal of his (Hill's) name as a candidate for the presidency. It is, nevertheless, reported from New York that the Tammany leaders are beginning to look with disfavor on the presidential aspirations of Senator Hill. There is no reason to doubt this statement. Senator Hill has had his day. It has been demonstrated that he cannot be nominated. The west and the south do not want him. It is very doubtful if the east, outside of that portion controlled by Tammany, has ever had any use for Hill. There has been an impression among some people that Senator Hill controls the democratic party in the state of New York and incidentally is master of the Tammany organization. As a matter of fact, Tammany made Mr. Hill out of political clay. It applied him, plastic as he was, to its own uses. And now when it finds he is no longer of value it is ready to set him aside. As the tool of Tammany Mr. Hill is about used up. It is unfortunate for the Tammany leaders that they do not fully realize the cause of the disaster that has overtaken their luckless creation. The democrats of the country do not look with disfavor on Mr. Hill for strictly personal reasons. They may not have considered him in any respect an ideal presidential candidate. But the real reason they turned their backs upon him was because they were aware that he was in open alliance with the men who have debauched New York politics. Any other man; Gray, Gorman, Morrison, Palmer, Boise; if suspected of being Tammanys pal would suffer the same fate. The route to the white house does not lie past the door of Tammany hall.

The King Tereido.

Astorian. The waters of the Columbia river, flowing by the wharves of Astoria, are death to the tereido, that destroyer of wharves, as shown by the monster that was found drifted ashore from Alaska, on the beach at Main street wharf yesterday. A pile so rotten it broke on striking the beach, came ashore and as the log split open a huge tereido, ten feet in length and one and one-quarter inches in diameter, was exposed to view. The tereido was in the last throes of death, the jaws, armed with saw-like teeth, working but for a moment after being exposed to the air.

An Indians' Daughters.

Assotin Sentinel. In the Indian camp on the Grand Ronde river, are seventeen marriageable Indian girls, some of whom want white men for husbands, and shun the idea of marrying one of their own race. The father of one of these girls offers an inducement of 200 head of good horses to some young white man that will marry his daughter. The old Indian states that not any hoodlum of a white fellow will do, but he must be a young man of good character and address, and able to provide his wife with a good home.

No Rainmaker Coming.

Wasco News: Hope of securing the rainmaker has been given up. Something near \$1,400 was subscribed at Wasco on election day, about \$300 or over at Moro and various sums at the other precincts, but not sufficient to raise \$5,000. Many would like to have seen the experiment made, but it will have to be deferred for this year.

Sixteen Miners Killed.

MUNICH, June 10.—By an explosion in a coal pit near Miesbach 16 miners were buried in the ruins.

The whaleback is to be a feature of the transatlantic freight trade by a company which includes some of the big men in the Northern Pacific Railroad. They are going to build a fleet of whalebacks in England that will compete for the ocean carrying trade. Among the men who are to be stockholders in the company are John D. Rockefeller, Colgate Hoyt, and Joseph L. Colby, besides many more of the Northern Pacific following, both in New York and the West. It is said that the capital already pledged is \$10,000,000, which will be enough to build a large number of ships.

IN MEMORIAM.

Resolution of Condolence on the Death of Angus Byers.

THE DALLES, Or., June 9th, 1892.—At the regular meeting of L. U. 544, U. B. C., the following preamble and resolutions were unanimously adopted:

WHEREAS, It has pleased the All-wise Ruler of the universe to take from our midst, suddenly, our brother and fellow carpenter Angus Byers, and

WHEREAS, Our Union has lost a true and faithful worker and most esteemed friend of all. Therefore be it

Resolved, That while we deeply deplore the loss, we humbly bow to the will of Him who doeth all things well.

Resolved, That we extend to the bereaved family our sympathy and condolence due to the family of our deceased brother, and will be ever ready to extend a helping hand in time of trouble.

Resolved, That the charter be dressed in mourning, in honor of our deceased brother, for 30 days, and a copy of these resolutions be sent to the family, and printed in the daily CHRONICLE, and spread upon the minutes of our Union. Signed by the committee:

- H. HANSEN, J. R. ANTENSEN, J. SIMONSON.

CHEERING TO SETTLERS.

Three Years Allowed Settlers to Pay For Forfeited Lands.

Captain Lewis of the United States land office at this place, received the following telegram last evening:

WASHINGTON, D. C., June 10, 1892.—[Captain John W. Lewis, The Dalles, Or.]—Just passed through the house the bill extending the time for three years to settlers for payment for forfeited lands. The act will become a law next week. BINGER HERMANN.

To this the captain sent the following response:

THE DALLES, Or., June 10.—[Hon. B. Hermann, Washington, D. C.]—Your telegram announcing passage of the act extending for three years the time for payments on forfeited lands just received. It will afford me great pleasure to give the news as speedy publication as possible, knowing as I do that it will lift a heavy load from many a weary back. This is only one more instance of the fruits of your untiring labor on behalf of the people of Oregon. Last Monday's vote shows their appreciation. Very truly, JOHN W. LEWIS.

The bill referred to was introduced in the senate some time ago by Senator Dolph, and passed that body. It has now, happily, and contrary to general expectation, passed the house. The action of Senator Dolph and Mr. Hermann deserves the thanks of a grateful people—that is, if there are any grateful people left.

The Australian Ballot Law.

A citizen propounds the following inquiry: "As I am informed it is the intention to conduct the coming Dalles City election under the old law. Have we any election law in Oregon now, except what is called the Australian ballot law; and as The Dalles city charter provides that Dalles City elections shall be held under the state law, how can any other law be used?"

Answer.

Section 9 of the Australian ballot law says: "All general or special elections hereafter held in this state shall be conducted under the provisions of this act."

Section 23 of The Dalles city charter says: "All laws of this state regulating and governing general elections and proceedings and matters incidental thereto, shall apply to and govern elections under this act except as herein otherwise provided." The charter provides for the time of holding elections, the number of days notice required, the time when the polls shall open and close, the qualification of voters, the manner of making returns and other minor provisions, but nothing whatever is said regarding the ballot or the mode of casting them—the most radical and important feature of the new law. The editor of THE CHRONICLE is not a lawyer, but he cannot understand how the language of the two sections quoted above can be construed so as not to make it imperative that our city elections shall be conducted according to the provisions of the new law except in so far as the charter provides otherwise.

Each of Them Gets a Cruiser.

WASHINGTON, June 10.—The cruiser Charleston will visit Tacoma and the cruiser Baltimore Seattle, July 4, to take part in the local patriotic ceremonies.

The Biggest Lake Steamer.

CHICAGO, June 13.—Manager Babcock had issued invitations and several thousand people were present today in the yards of the Chicago shipbuilding company on the Calumet to witness the launch of the great steel steamer Maritana, the largest on fresh water. There was no accident, and the new craft took to her natural element with as much grace as possible in a side launch. The Maritana is the property of the Minnesota steamship company and is very much like the Marina, but much larger. Designed as a business boat and consequently a carrier, the model, nevertheless shows great symmetry. The lines are easy and beautiful, and the bow and stern are especially fine. The dimensions are as follows: Length of keel, 330 feet; length over all, 348 feet; breadth of beam, 45 feet; depth of hold 24 1/2 feet. She has triple expansion engines, 24, 39, and 63 inches, with 48 inches stroke, steam being furnished from three 12 by 12 feet steel boilers, under 160 pounds pressure. With the present low stage of water from Lake Superior, the new craft will carry about 3,000 tons and her speed will be about 14 miles an hour. In outfit the Maritana will have all the latest and most improved machinery for the quick handling of freight, and she will be lighted throughout by electricity. The cost of the new craft complete is \$250,000.

The Hand of Joseph.

Oregonian. Had the state of Oregon been properly represented at Minneapolis its votes would have been cast for Harrison. Seven of them were cast for McKinley, but this was a subterfuge. McKinley is a great and worthy man, but he was not a candidate, and the Oregon delegates knew it. They were not actuated by a wish to nominate McKinley, but by a wish to defeat Harrison. And this wish to defeat Harrison had no proper motive. Why Mr. Simon wished to defeat him is well enough understood. That the whole delegation, with one exception, allowed his wish to prevail, against the well-known sentiments of the republicans of Oregon, is not creditable to them. Had it been thought necessary, a resolution instructing the delegation to support Harrison would have been passed through the Oregon convention, with no opposition. Mr. Simon had a fine opportunity to show a magnanimous spirit, but he did not avail himself of it. An opportunity like this doesn't come to a man often, and it ought not to be thrown away. If Mr. Simon, instead of making a futile effort to obtain revenge, had acted with magnanimity, all Oregon would have taken note of the act, and the republicans of Oregon would have been represented rightly at Minneapolis.

Glacier. One thousand dollars an acre is a big yield even for small fruits, but some of our strawberry patches have crowded that sum this year.

Pimples.

The old idea of 40 years ago was that facial eruptions were due to a "blood humor," for which they gave potash. Thus all the old Sarsaparillas contain potash, a most objectionable and drastic mineral, that instead of decreasing, actually creates more eruptions. You have noticed this when taking other Sarsaparillas than Joy's. It is however now known that the stomach, the blood creating power, is the seat of all vitiating or cleansing operations. A stomach clogged by indigestion or constipation, vitiates the blood, result pimples. A clean stomach and healthful digestion purifies it and they disappear. Thus Joy's Vegetable Sarsaparilla is compounded after the modern idea to regulate the bowels and stimulate the digestion. The effect is immediate and most satisfactory. A short testimonial to contrast the action of the potash Sarsaparillas and Joy's modern vegetable preparation. Mrs. C. D. Stuart, of 408 Hayes St., S. F., writes: "I have for years had indigestion, I tried a popular Sarsaparilla but it actually caused more pimples to break out on my face. Hearing that Joy's was a later preparation and acted differently, I tried it and the pimples immediately disappeared."
