OFFICIAL PAPER OF WASCO COUNTY. Entered at the Postoffice at The Dalles, Oregon as second-class matter. SURSCRIPTION RATES. BY MAIL (POSTAGE PREPAID) IN ADVANCE, Weekly, 1 year. " per "
Address all communication to "THE CHRONICLE," The Dalles, Oregon.

OUR BOW TO THE PUBLIC.

With this issue the undersigned as sumes Editorial control and management of TER CHRONICLE. Our predecessor, on retiring last Saturday, says all of the past, perhaps, which it was necessary to say; but as our course leads on it may not be amiss if we say, with the paragraphist, that: "No man can accomplish much, either in politics or with a wheelbarrow, unless he takes sides." THE CHRONICLE takes sides. In local politics there is no longer any contest, but in the national field the threshold is just crossed. We have hoisted the flag of Harrison and Reid because THE CHRONICLE, to be a success, must be essentially progressive, and to be progressive in a national sense, in the United States one must be republican. The task of the republican party in the next canvass is not to get the consensus of a majority of the votes of the country. That it already has. The progress of America requires at its head a party which is homogeneous; which has convictions and the courage of its convictions. A party whose aim is to do something-and not merely to hold offices.

The history of the republican party is a history of action, a history of deeds. Whatever has been done in thirty years has been done by it. We have not always been absolutely wise, but we have always been wise in our day and genera-

There is no act of our past history far enough back to be seen in just such lights, which any honest observer will say was not the best that could have been devised by human brains.

Those acts which are yet under the stress of human passion, the very last acts we did, are slowly emerging from the storm of obloquy and abuse, and taking visibly the place they have always really held, a place among the great deeds of a great country.

The reproaches which were heaped upon the last revision of the tariff are disappearing before the light of its practical workings, and the country adjusted to the new conditions will demand a period of rest from the business agitations of which the democratic party is the prolific source.

Business men are everywhere begining to feel that some measure of stability should attach to our laws, and that a statute of the United States which affects business should not be a pitfall and

powerful specific as uncertainty.

If there is to be a perpetual threat against the laws on which business is tion can be imagined?

If the late revision of the tariff is working its way to favor, if business has already adjusted itself to it, what reason can there be more controlling in the next election than the desire of business men to let things alone, to stand by the existing order of affairs?

Such, in brief, is to be the future position of THE CHRONICLE upon the polities of this nation, to carry out these principles, and with an acquaintance of over thirty years in the newspaper field in Oregon perhaps further introduction is unnecessary.

We invite all old patrons to stay with us, and to bring as many friends with them as possible, sanguine in the belief that we shall be able to serve you all, faithfully, in every manner, to the extent of our ability. Very Respectfully, D. C. IRELAND.

J. S. Clarkson declines to act as chairman of the republican national committee this year. That is perfectly natural. The place belongs to Stephen B. Elkins, according to a long standing rule of the committee that "the officers shall be selected from among the closest friends of the candidate nominated."

The most successful winner at the Chicago Derby on Saturday, is a boy twenty years of age, Arthur White. It is said that he cleared over \$14,000 winnings on the race, backing the winning horse on the outside and holding him out in his book.

The people of Guadalaxara, Mexico, and surrounding country have been in a state of terror for the past few days on account of repeated shocks of earthquake which have been the most severe ever felt.

The Indiana state convention met at in the next week. Fort Wayne today. The chief interest centers in the gubernatorial contest. It chance of the field uniting.

tricts meets in Madison, Wis., today.

ABOUT ARTESIAN WELLS.

counties.

makes him independent of the powerful eased mind. and often grasping water companies. As a rule, however, the water from these wells is too cold to be immediately discome this a small reservoir must be figured in with the cost of the well.

The fact that all the wells in the Untied States are capable of irrigating no large ditch, and that in California, Utah and Colorado experience has shown that than merely the man who works. He only a limited amount of water can be has become individually and collectively going dry as the new ones are sunk, is upholder of well-defined ideas. Almost convincing that irrigation by this method uniformly the general demands of the can never be more than of minor importance. The experiment is so risky, the cost so great, and the supply so limited that artesian wells can be called a success only in those sections where it too often warped by agitators and is impossible or too costly to obtain schemers. When they are misdirected water by canals. The primary purpose of sinking such wells should be the supply of farmhouses and towns, and the put itself in touch with the workingmen surplusage can then be turned to the uses of irrigation.

The route of the railway now in course of construction from Astoria to transconnection, is wisely concealed from out by the Astorian: Whether the road will head for Hillsboro and take up the election it can put forwarded no such Oregon Pacific line or trend away to the excuse. Neither Lotan nor Simon figsoutheast and push from Eugene through county, is probably known to Mr. Goss strictly to his private business, and the alone in this community. It is entirely Oregonian had a splendid opportunity safe to conjecture that it will go one of the two ways." To which THE CHRON- fair fight in an open field. It made a To injure business there is no such ICLE begs to add: "Possibly both."

It is sheer nonsense to talk of "Oppofounded, what more exhausting condi-sition to Clarksons" designation as chairman of the national republican committee. He did not expect it. Campbell is selected because "he was a personal friend of the candidate nomi- United States minister to Mexico by nated;" a rule which has always hitherto applied, and will continue to apply, so long as nominating conventions continue to appoint committees. The necessity for such rule will be apparent to he resigned. President Arthur then ap-

> It is a charming condition of affairs when both sides in a political wrangle such as the Cleveland-Hill fight can derive comfort from the same convention. While it may not exactly foreshadow a political millenium, it is a beatific condition where good cheer and comfort are extracted by antagonists from the agencies set in motion to bring injury and disaster to each other.

The old spirit of mercantile adventure is reviving in Oregon. Two vessels have been sent abroad already with speculative cargoes, and the Tillie E. Starbuck is about to follow. She will go to New York, possibly, with a cargo composed principally of Columbia river salmon, wool, hides and other Oregon products. This, says the Astorian, recalls the time when Robert E. Gray came round the Portland the account stands \$1,500 for Horn with a cargo which he exchanged the Australian ballot law election, in part for fure, and then sailed for China to make other deals, returning to Boston. Trade methods have changed, imported goods come high, but we must but foresight and enterprise will still reap liberal reward in marine ventures.

There is still no certainty as to the murderer of Mamie Walsh. At present there are three men in custody charged with the murder-Tim Sullivan, a harmless old Portland drunk; A. A. Demules, the piano-tuner, and Rafes. It would not be at all surprising if half a dozen for sticking to their principles. more names were added to the list with-

There are alarming symptoms that the is Chase against the field, with little New York Times is getting ready to simply by not coming to America and erawl back into the republican tent.

A few months ago Benjamin P. Hutch- THE WISE AND THE FOOLISH. The Dalles Boat Railway and the Lake Washington Canal.

From the Astorian

The house and senate are in accord on the river and harbor bill, except as regards the appropriation for the dalles ship railway and that for the canal to connect lakes Washington and Union ident has intimated that he will veto the bill-should it exceed the sum appropriated by the house, Senator Dolph may have to abandon the ship railway at the second conference which has been ordered. If he does it will be some consolation that the job to impose a tax to build the Seattle canal at the public expense will also be defeated. In defiance of the wishes and interests of the people of Washington, a small minority in Seattle excepted, Senator Squire has sought to bring ridicule on the river and harbor bill by promoting the purely local project on public grounds. The scheme is entirely indefensible as a government measure. If fresh water anchorage is needed for any United States ships, they can find it at Astoria, which is readily accessible from all points on the coast. It is unfortunate that the wise and the foolish scheme should be combined. Oregon may, however, feel confident that the ship railway will follow as a necessary engineering sequence to the works at the jetty and the cascades. engineering resources, will allow the facilities of the great river to waste for lack of the ship railway which Senator Dolph has so ably advocated.

#### Surprise Social.

Last evening as the shades of night began to draw near, a large number of the members of the Epworth League of the M. E. church congregated at the residence of Mr. Randall on the bluff and residence of Mr. Lee, where a genuine surprise awaited the family. The evening was pleasantly spent as a farewell surprise in sociability, mirth, games and music. The piano duets of Misses Edith Randall and Lorene Lee were worthy of special mention, and were heartly applauded. It was a justly fitting close, to the helpfulness of Mr. Lee and his family to the M. E. church, the Sunday school and the Epworth league of this city during their stay among us. Our new home. LEAGUER.

#### Why Heppner is Avoided.

Gazette. Of all the stage lines in existence, the Lucky Baldwin branch, from Canyon to Monument, takes the bakery. The rigs and stock are a disgrace to a civilized community. No wonder the people will insist in going by the way of Baker city. It is to be hoped that the line will pass into the hands of Joe Keeney, who owns the Monument-Heppner line. Mr. Keeney will then have an opportunity to put on coaches and new stock. Until that is failure. Got knocked out. Whipped, done we cannot expect the travel to

### That's Our Tum-tum-

Montesano Democrat. The editor of this paper has known Dr. Blalock ever since his advent into the then territory Triumphal Liberty Car, of Washington, and can truly say that he has always found him to be a man of unquestioned probity and a gentleman in every respect. The Washington democracy could go further and find no that mission until November, 1881, when better or abler candidate for governor than Dr. N. G. Blalock.

### Don't Give It Away.

Frankfort Chronicle. There are a good many secret movements on this important commercial treaty with side of the Columbia river, and it looks as though we may wake up some morning and find ourselves in the midst of startling realities. Something more than usual is in the wind, and time will tell what it is.

Free ferriage has been also provided at The Dalles from Sunday noon the 3d, until Tuesday noon the 5th, for all attending the celebration from north of cents each, or to family of three \$1.00. here.

Sowed Forcy Miles for Amusement. Willis Holly, Mayor Grant's secretary, used to amuse himself by rowing around Staten Island whenever he got a holiday from his ardtrous newspaper work a few years ago. He did not row very fast, but he always made a complete circuit of the island. I think the distance is about forty miles; at any rate, I know that Mr. Holly had to rise before daylight in order to get home with the cows in the evening. It is a feat that he used to speak of with a proud, beaming eye, and I never wondered at it. I must say, however, that in the course of seven or eight years' consideration of the subject. I have never been able to understand exactly why a man should care to row around Staten Island.-Blakely Hall in Brooklyn Eagle.
