

The Weekly Chronicle.

THE DALLES, OREGON

LOCAL AND PERSONAL.

From the Daily Chronicle, Friday.
Con. Howe is confined at his home by sickness.
Wm. Butler goes to Portland this evening on business.

Master Charles, son of Capt. J. W. Lewis of this city, is enjoying himself on the Dayville ranch, Grant county. He goes out driving daily, using a sulky rake, and by mixing business with his pleasure has racked nearly all the hay on the ranch. He went prepared to enjoy himself.

If there is any such thing as gratitude some of it will be shown when the farmers of Klickitat get ready to ship their wheat next month. They may well remember what The Dalles, Portland and Astoria Navigation company have done with the Regulator to release them from arbitrary freight tariffs.

The humpback whale which was stranded some days ago at North Beach, is to be stripped of the flesh and the skeleton is to be placed on exhibition in the Washington building at Chicago. J. G. Megler, one of the world's fair commissioners for Washington, has instructed Professor Hudson to preserve and prepare the skeleton and a force of Indians are now at work upon it.

Sam Thurman has found out why it is that no salmon are caught in July on the Oregon side of the Columbia at this point. An Indian told him that many years ago, before the Bostons came here, a woman ate of a salmon that came up on the Oregon side, and died. Her Indian waxed wroth at this and went down to the mouth of Three-mile and cursed the fish. This so scared them that ever since that time the fish have dodged over to the opposite side of the river every July. Sam says it would have been dollars to him to have known this sooner.

Phelps & Co. sold a hay press to Mr. Williams, on Eight Mile yesterday, and a threshing outfit to Mr. Jackson of Hood River. One might naturally inquire: "where is the wheat, at Hood River, to thresh," but investigation proves that Hood River is one of the nicest little creations of small homes on this coast. The people there are generally small farmers, but they all have more or less of wheat, barley, oats, etc., and as showing their good judgment in other things they usually prefer The Dalles markets, both for buying and selling, hence Mr. Jackson came here for his outfit.

Deputy Sheriff M. A. Lester, of Sherman county, paid The Dalles a hasty visit this forenoon. He came after Z. P. Jones, who is wanted upon a charge of obtaining money under false pretenses. It happened that Jones "passed the hat" around among the people to raise the wherewith to establish a sawmill on the Des Chutes, somewhere near the free bridge. He then took advantage from the farmers upon timber he intended to saw. He failed to carry out his schemes, and skipped. The mill, at least what there is of it, was attached, and will be sold at sheriff sale tomorrow, and Jones' friends want to attest their appreciation of his services by giving him an opportunity to save himself from serving a term at Salem.

Mr. Geo. Krauss has returned from a buggy drive to Mount Hood by way of the Barlow road. He was accompanied by Mr. Korten, of Portland, and in company with Messrs. Arnold and McCartney. They found in camp Messrs. Villard Vanderpool, T. H. Johnson and Louis Klinger. Also a party from Portland who have this year made their third annual failure to reach the summit from the south side of the mountain. In 1890 they visited the place in September, last year in August and this year in July. Only for a slide of ice and snow near the summit they could have made it this year. Mr. Krauss says the crops along the route traveled look fine. His best fishing was in the Tygh. The distance from The Dalles to his camp on the south side of the mountain, is about 65 miles.

From the Daily Chronicle, Saturday.
No excursion tomorrow by the Regulator.
Miss Addie Steel has returned from Puget sound.

The river is getting down to its proper level pretty regularly.
Mrs. Harris and family expect to go to the beach next week.

Mr. F. S. Gordon, C. E., of Wamic, is at the Umatilla house.
County Clerk Crossen held a lively term of court this forenoon.

B. Wolf has about 2,500 pelts of all kinds and 250 bales of wool to ship.
Never strike a man when he's down. You'll find it much easier to kick him.
San Francisco isn't afraid. She has raised the quarantine against Victoria.

School Superintendent Shelly is preparing for the coming county institute.
Deputy County Clerk Ed Martin has returned to his stall in the Court house.

Down at Bonneville, during the height of the mosquito season, every man is a masher.
Auctioneer Crossen sold a pretty fair horse at auction today for the munificent sum of \$21.

Judge Deady has sent James Heater to the Wasco county jail for selling liquor to the Indians.
Elder J. W. Jenkins and family go into camp at Hood River Monday for a weeks rest and recuperation.

Numbers of skirt supporters are coming in the market. They are something like little chips in the form of fleur-de-lis and other devices with chains and rings for the finger.

The Christian church services will be held in the Court house tomorrow at 3 p. m. Preaching by Elder J. W. Jenkins.

The meeting of the steamers Dalles City and Regulator at Cascade locks next week will be welcomed by very many people.

These are the days when a man goes home longing for ice-cream and peaches, and finds his wife making nice hot tea and custard for him.

The Antelope Herald, E. M. Shutt editor, made its appearance on the 22d; neat and newy. The Dalles is well represented in its advertising columns.

The pretty girl who stays in town during the summer months always has plenty of attention and her doorstep is the regular altar around which the worshippers pay their devotions.

C. L. Phillips returned from Wasco this a. m. The installation ended with a dance, and a merry good social reunion. He says he never saw better material in a small place for an active lodge of K. of P. than they have in Wasco.

The earliest blossoms of the apricot noticed in The Dalles by the writer early last spring, were on a tree in the orchard of Mr. C. L. Schmidt. They were the first blossoms borne by the tree. Now the tree is laden with the rich luscious fruit.

This market is well stocked with pelts and skins just now. Prices are: For choice sheep pelts, 12c; hides, 6c; deer skins, 25c per lb.; Coyotes, 25c each; beaver, \$2.50@\$3.00; bear, from \$1.00 to \$10.00; white backskin, \$1.00 per lb.; wool 12 to 16 cents.

Quarterly meeting services of the Methodist church tomorrow as follows: Love feast at 10 o'clock a. m. preaching at 11 a. m. and 8 p. m. by the presiding elder, Rev. R. C. Moter. The sacrament of the Lord's supper at the night meeting. Sunday school immediately after morning services. All are cordially invited.

W. K. Corson and Allie Henderson returned from Trout lake last night. They left the ladies of the party at White Salmon, Mrs. and Miss Cassidy and Miss Annie Henderson of Portland, and Miss Jessie Welch, of The Dalles, where they will remain until the next trip of the Regulator. They had a fine outing and caught hundreds of trout.

One of Robinson's circus men, speaking of the poor houses which greet them in Eastern Oregon and Washington says: "I can't understand it. Are the people losing interest in the entertainments? Surely it is not on account of the money market or the crops. Why, crops! I hear people howling about the shortage of their crops. Bless you, if Ohio, Indiana, and Illinois farmers could get such crops as I have seen in Eastern Washington and Oregon this year they would soon think of going into luxurious retirement. The producers here must have very extravagant ideas about the fecundity of the soil."

Two coaches for Cloud Cap Inn leave The Dalles and Hood River this afternoon and tomorrow. The first is Hon. M. A. Moody's fine four horse coach, conveying a party of eight persons: Mrs. Newman, Miss Annree Newman, Miss Bessie Lang, W. K. Smith, Jr., and H. J. Green of Portland, F. A. Joslyn and M. A. Moody. They will stop at Herbert's to night and arrive at the Inn tomorrow.

The second party consists of Chief Engineer Jud S. Fish, Prof. F. J. Liscomb, of South Bend, Ind., N. J. Sinnott, and D. C. Ireland. They leave The Dalles via U. P. R. R. and will be met at Hood River by Eph Ollinger, with a coach and four and expect to lunch at the Inn tomorrow. About the drives, "more anon," as the all year round correspondent would say, which somewhat depends upon the success of the present anticipation.

Just so Here.
Goldendale Sentinel. The republicans of this county are in favor of each county being allowed to make road laws and stock laws independent of the entire state. If such laws are passed by the next legislature the people of the entire state will be greatly benefited by it. It will never do to try to form a general road law that will give general satisfaction over the whole state. But a few days ago a gentleman riding over our county said he did not think that there were such excellent roads in the state as are here, and in reality there are few better roads than we have in Klickitat. What we want now is carefully built and kept bridges and a care given to keep the roads free from stones.

The Columbia Commerce.
Astoria Examiner. The Port of Portland will soon have a pow-wow over the rise in pilotage and towage rates. The great question to be settled is, "How does the change affect Portland, and have we got the best of it?" Other parts of the state have no interests worth considering. If Portland concludes she is getting the worst of it, she will go into the next legislature with a bill to fix things her way. But every year the commerce of the Columbia is getting bigger and bigger, and Portland's power to handle it is getting weaker and weaker. By and by there will be a bust, and the shipping, like water finding its level, will seek its seaport at the mouth of this river.

The Fight is Over.

Spokane, July 25.—After a long and bitter fight the mines in the Comd' Alene are now working without danger of interruption. The Gem, Sierra Nevada, Bunker Hill, Custer, Sullivan, Union and Morning properties are now running with non-union men. Men are pouring in by the hundred since the downfall of the union. There are more men in the country now than there is immediate work for. Every mine-owner in the country is crowded with applications for positions and is turning away dozens daily. Ore is being shipped. There is a more hopeful feeling prevailing than for the past seven months. Business in general is better. The military authorities are gradually relaxing the rigid martial law that has existed for the past ten days. Nearly all the strikers have been captured. Those in the hills will probably remain there until they make their peace with the authorities or the mine owners. Still the agents of the union are making their presence felt.

She Did Not 'Look Pleasant.'
Denver News. A Presbyterian divine recently visited this city only to have a somewhat startling experience. While near the union depot he thought it would be a fine thing to shoot his kodak at a Ute squaw, but when the squaw saw the kodak pointed toward her she thought she was being bewitched and, pulling a large knife from under her apron for a dress she made a desperate lunge for the dominie. He saw what was coming and dropped the kodak in his fright and made a very undignified dive for the other side of the street. The squaw captured the witch instrument, and, after demolishing it, replaced her knife with a satisfactory grunt and marched triumphantly away.

A Contractor Skipped.
Astoria Herald. Frank Malone, a big contractor, who has been doing work on Genevieve and Court streets, under a sub-contract from Carnahan & Morrison and H. B. Parker, has gone back to Portland and forgot to pay off a number of men employed. There are eight men and each one has from \$30 to \$75 coming to them. They have gone in debt for their board and being beat out of their money leaves them flat broke. There ought to be some way for them to get their money. Astoria has been frequently beaten by Portland contractors, and it should be stopped.

Baker County Mines.
Democrat. It is indeed gratifying to note the increasing activity manifest in mining affairs in this section. Hardly a day passes but that mining men arrive from either the east or west to inspect our mines or to commence work on their own properties. Never in the history of the country have our mines commanded the attention and presented the lively scene of activity visible on all sides as today. They have a magnificent future and time is all that is required for them to develop into one of the greatest bullion producing camps ever discovered.

New Kind of Barley.
Goldendale Courier. A remarkable sample of barley was brought to this office this week, by Mr. M. Lasby, whose ranch is situated three and one-half miles north east of town, on Rimrock. This barley was in some grass seed that Mr. Lasby got, and it being different from anything he ever saw, he awaited its development. The heads are composed of six distinct rows of grain, each row containing from 13 to 16 grains of plump grain. Farmers, call and see it, and tell us what kind of barley it is.

Professional Teachers.
Capital Journal. The fact that teaching in the public schools is rapidly rising to the dignity of a profession, if it has not already reached that position, is shown by the large number of students who are seeking professional training in our state normal schools. The attendance at Monmouth last year, the largest perhaps in the Northwest, was made up of representatives from almost every county in the state, beside a good aggregate representation from Washington, Idaho, British Columbia and Alaska.

Diads at Castle Craig.
Dunsmuir News. The young lady guests at Castle Craig tavern have made a bathing resort out of a deep pool in Sacramento river. They jump from the bridge into the pool, and kick up all sorts of capers in the cold water. Some of them wear bathing suits that don't contain material enough to make a flying jib for a wheelbarrow, or a hood for the American Eagle, but old Mt. Shasta and Castle Craig look on without a bluish.

The Baby Racket.
Philadelphia Record. The Baby Ruth and Baby McKee politicians have met with another discouragement Mr. Cleveland has been constrained to inform them that he has no photograph of his little baby, and that he would not send it for publication if he had. The persons who are engaged in the baby style of politics may mean well enough, but they are growing very tiresome.

Grand Ronde Prospecting.
Review. A good deal of prospecting for quartz is being done this summer in the mountains along Grande Ronde river. It is expected that some important discoveries will be made there this summer.

Don't read! Don't think! Don't believe! Now, are you better? You women who think that patent medicines are a humbug, and Dr. Pierce's Favorite Prescription the biggest humbug of the whole (because it's best known of all)—does your lack-of-faith cure come?

It is very easy to "don't" in this world. Suspicion always comes more easily than confidence. But doubt—little faith—never made a sick woman well—and the "Favorite Prescription" has cured thousands of delicate, weak women, which makes us think that our "Prescription" is better than your "don't believe." We're both honest. Let us come together. You try Dr. Pierce's Favorite Prescription. If it doesn't do as represented, you get your money again.

Where proof's so easy, can you afford to doubt.

Little but active—are Dr. Pierce's Pleasant Pellets.

Best Liver Pills made; gentle, yet thorough. They regulate and invigorate the liver, stomach and bowels.

Saved a Woman's Life.
Mr. J. E. Thoroughgood, writing from Georgetown, Delaware, says: "Two teaspoonfuls of Chamberlain's Colic, Cholera and Diarrhoea Remedy saved the life of Mrs. Jane Thomas of this place." He also states that several other very bad cases of bowel complaint there have been cured by this remedy.

You can buy Standard Mowers, Reapers, Rakes, or anything in the implement line, as cheap from J. M. Filloon & Co., as if you were in Portland. They keep an unlimited supply of extras for all machines sold by them. Opposite Brooks & Beers.

The Old Times are Not In It.
While at our other store at Big Island, Va., last April, I was taken with a very severe attack of diarrhoea. I never had it worse in my life. I tried several old-time remedies, such as Blackberry Wine, Paregoric and Laudannin without getting any relief. My attention was then called to Chamberlain's Colic, Cholera and Diarrhoea Remedy by Mr. R. C. Tinsley who had been handling it there, and in less than five minutes after taking a small dose I was entirely relieved.

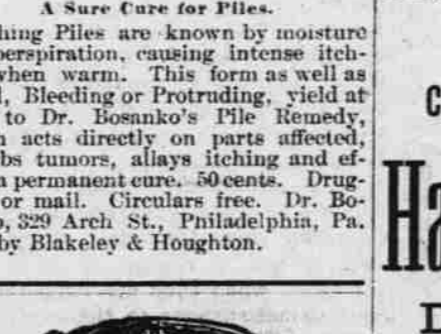

Saved from Death by Onions.
There has no doubt been more lives of children saved from death in croup or whooping cough by the use of onions than any other known remedy. Our mothers used to make poultices of them, or a syrup, which was always effectual in breaking up a cough or cold. Dr. Gunn's Onion Syrup is made by combining a few simple remedies with it which, make it more effective as a medicine and destroys the taste and odor of the onion.

To the Public.
I have no hesitancy in recommending Chamberlain's Colic, Cholera and Diarrhoea Remedy to the public, as I do to my friends and patrons. I used it myself after other well-known remedies had failed, and it cured me in a few minutes. I recommend it candidly and cheerfully upon its merits, not from a financial standpoint, because I have others in stock on which I make a larger profit, but because Chamberlain's is the best remedy I know of for bowel complaints. There is no doubt about it, it does the work—James Forgy, Druggist, McVeystown, Penn. For sale by Blakeley & Houghton, druggists. d&w

A Great Liver Medicine.
Dr. Gunn's Improved Liver Pills are a sure cure for sick headache, bilious complaints, dyspepsia, indigestion, costiveness, torpid liver, etc. These pills invigorate and correct the liver and stomach, regulate the bowels, purify and enrich the blood and make the skin clear.
