

The Weekly Chronicle.

THE DALLES, - - - OREGON

LOCAL AND PERSONAL.

From the Daily Chronicle, Friday. The M. E. Camp-meeting is now in session in this city.

Officer Jackson occupied a seat in the Wapinitia stage this morning.

Senator Charles Hilton has taken leave for California on business.

Capt. Richard Fisher took charge this morning as first officer of the steamer Regulator.

The Regulator wharf boat has been taken over and moored at the landing for Klickitat wheat.

Mr. E. Sichel of Prineville, left on the stage this morning on his return from a business trip to Portland.

Dr. Snedeker has changed his office to rooms 36 and 37, Chapman building over the postoffice book store.

Hon. E. B. Dufur, and a party from Dufur, are whipping the trout streams south east of Mount Hood.

The November term of the Circuit court will be an active one, judging from the entries being made in new suits.

Mr. Bones, of Hood River, will be in the market buying wheat at Grants. He will have his scales in next week.

THE CHRONICLE cartoons hung in the show window weekly, are becoming so popular that we think of changing them semi-weekly.

Messrs. E. P. Ash and A. R. Tozier, of the Cascade fishery, are in the city today. We acknowledge calls from them.

M. A. Christiansen, agent for Mitchell & Lewis, left at noon today for the east. He is out on the road closing old affairs of the company.

Dr. Doane has changed his residence to the new double house, southeast corner of Court and Fourth streets, second door from the corner.

Mr. S. L. Brooks paid the city a flying visit last night, and returned to his camp near Cascade locks by steamer Regulator this morning.

Mrs. Geo. P. Morgan visited Hood River yesterday with the little ones of Mr. Hibbard's household, who have been visiting aunt and uncle in the Dalles.

Some settlers are apparently unaware that the old pre-emption law has been repealed and that fourteen months' residence from time of filing is now needed.

Beetles and beetles. The bushels of beetles taken out of the electric light globes weekly in The Dalles, causes the question to rise: Where do they all come from?

The special session of the common council for the 24th will be for the discussion of matters pertaining to the fire department; and possibly a new city hall building.

We are pleased to learn that Mr. Joseph Beezley is resting much easier today, he spent a good night, and it is hoped he will be able to be around again soon.

Snipes & Kinersly have made such a tempting display of tobacco in their show window, that men who always smoked now smoke the more, and others smoke who never smoked before.

Mrs. Fish returned from Mosier by the noon passenger today. Little Miss Genevieve says she had a good time. This is the season for young and old to enjoy a respite in the country.

Mr. Wm. Sheffield, well known in The Dalles, where he was connected with the Sun, has entered into partnership with Mr. Pollock in the publication of the Mount Vernon, Wash., Democrat.

A fine sample of wheat was added to THE CHRONICLE samples today from the farm of A. J. and Mary M. Dufur, of Dufur, just as it was taken from the reaper without any assortment. It looks fine.

Dalles fruit, reaching Portland by the Regulator line, is transferred immediately to an Astoria steamer. In Portland the market is well supplied with all kinds of fruits and vegetables. Watermelons and cantaloupes are in big supply.

George McKinney, Sam Thurston, Charley Hall and Jas. Covington returned from Little Salmon, last evening. They have surfited on fish, berries, owl and ice water. Jimmy killed a bear, but the monster fell in such a jungle that they could not get him out.

A 40-acre field of wheat, owned by Howard Smith in the Waldo hills, averaged 4 1/2 bushels to the acre. Another field, owned by W. W. Brooks, averaged 4 1/2 bushels to the acre, and a field of oats in the same neighborhood averaged eighty bushels to the acre.

Not content with the prospects of gobbling up all the water rights in the southeastern portions, the company with a high sounding name organized in Portland for the purpose, today filed a couple of voluminous documents in the county clerk's office which calls for all the water, and more than there really is, in the east and west forks of Hood River. Isn't it about time for people most directly interested to get in and protect themselves from such rapacity as this?

Deputy Jaa. A. Crossen again put in an appearance at the county clerk's office this morning. He was one of the party who undertook to eat up the oysters over at Shoalwater bay. They could not appreciably diminish the supply, so abandoned the work to others.

Mr. Hugh Chrisman was seen driving up Court street faster than a walk today. The city police was about to call a halt, but wiser councils prevailed, after explanations, as Hugh has a bouncing baby boy in his family today, and was perhaps so absorbed in thought of home that he forgot himself.

There is some talk of a civil action for damages, to compel Elmore, Sanborn & Co. to sustain this statement concerning the salmon pack: "The total pack, however exceeds that of last year by 48,000 cases. This increase is largely due to the larger production in the canneries at the cascades and the dalles, where three-fourths of the pack were steelheads and bluebacks." So far as the dalles cannery is concerned that statement is wholly and solely a lie out of whole cloth. That ought to be flat enough.

Dorsey Richardson got himself into serious trouble last night, by purchasing whiskey for an Indian in the East End. He was soon afterwards arrested and placed in jail. Today, at an examination before Com. Huntington he was held for trial. He will now go to Portland and lay in the jail for two or three weeks to repent of his folly, along with Kerr. There is this difference between Richardson and Kerr. The latter didn't have a cent when arrested, and was possibly trying to make a raise, while Richardson had about \$30.00 in coin. He is a smaller man, but a bigger fool than Kerr.

From the Daily Chronicle Saturday. Mr. Bert Phelps is actively engaged in organizing a base ball nine to play at Grants on the 26th.

Mrs. Theo. Miller is quite dangerously ill at the residence of her son-in-law, Mr. Thos. Kelley, of The Dalles.

The busy sprinkling wagon is a sort of a squirt, but what would The Dalles be without its refreshing presence?

Ted Marks, an Oregon boy who has made his mark as a theatrical manager, dined at the Umatilla house today, en route east.

The Regulator landing is a great resort of evenings, and when the upholstered and cushioned seats are provided for visitors Sam Campbell will be there to pass the ice cream.

The East Oregonian reports the finding of coal on the Columbia river near the Switzlers island. Indications are promising of a good supply of this much desired commodity.

Umatilla county will export about 3,000,000 bushels of wheat this season. In the face of this the statement that crops have failed this year in that section would seem unwarranted.

The Hope Prospector states that the rain of last week saved much valuable timber from being destroyed by forest fires. These have been unusually destructive in that section this year.

Mr. Jack Shephard, the old-time immigration agent of Oregon, at San Francisco, is at the Umatilla house. He is no longer locating immigrants, as that occupation has been superseded by "Oregon on wheels," etc.

A mountain of sand has covered the planking on the Goldendale road one place this side of Gilmores. It makes the road dangerous for teams coming this way, and almost impassable going the other way. A few days scraping would fix it.

A party of our crack sportsmen were out over the hills a short distance from the city yesterday and succeeded in getting five shots, one of which was particularly fine. It brought a spring grouse, which, for plumpness was almost equal to a five months turkey.

Judge Watkins, accompanied by his wife, left yesterday by steamer Regulator, expecting to spend some time at the home of Mrs. Watkins' mother in Hartland, Washington. Mrs. W. is quite feeble, but by the aid of her husband was able to walk from the carriage to the boat.

In parts of Garfield county where threshing has been done, barley has yielded from 15 to 60 bushels per acre, while the yield of wheat has been from 12 to 25 bushels. This will leave quite a surplus for export, notwithstanding the predicted failure of crops made some weeks since.

The Stamford, Conn. Advocate, of the 11th, commenting upon things in THE CHRONICLE says: "Charles E. Haight, a former Stamford gentleman, conducts a restaurant in that enterprising city and is a member of the city council. We find by the proceedings of a meeting of the city council that Mr. Haight has been empowered to take action relative to the impounding of cattle running at large in the city, especially cows with bells on them. The problems with which the municipal government of The Dalles has to wrestle are somewhat different from those which confront the Stamford borough board. One of them appear in a petition which is given below;" then follows Judge Watkins appeal to the council, in full. So the Judge can see by this that his very readable article is abroad in the land upon its mission among dyspeptics.

Deputy county clerk Ed. Martin left by the Regulator this morning to spend a few days at Collins' landing.

Mr. Hugh Glenn, the only member of the Elks living in The Dalles, left by steamer Regulator yesterday to attend the great clam bake of the B. P. O. E. at Clatsop on the 21st. It is hoped that he will return with a charter in his pocket to organize the Elks in The Dalles, where there is an abundance of good material.

The racers "Nehalem," "Serrita," and "Mamie S," and the trotter "Anetta," left by steamer Regulator yesterday, in charge of Andy Allen and M. E. Welch, accompanied by riders and groomers, prepared to make the circuit for which they are booked, which includes City View, Salem, Independence, Walla Walla, La Grande and Baker City. When they return to The Dalles, which will be in time for the fair here, commencing October 11th, other favorite horses are expected to accompany them.

From the Daily Chronicle, Monday. Judge Bradshaw and family returned from the coast today.

Mrs. Miller rested very well last night and is much better today.

Washington market is being put into tip top order for new business.

Over 1,500 people attended the camp meeting at the pines last evening. Advice to persons about to visit a summer resort: Don't lose your return ticket.

The Dalles Citizens band will furnish music from The Dalles at Grants on the 26th.

The situation of affairs at Cascade locks, amongst the workmen, is far from being cheerful.

Chrisman & Corson's is The Dalles headquarters for pipes, and smokers best articles.

Judge Bradshaw will hear an application at chambers, this afternoon, to admit Bergfeld to bail.

Venus must be held responsible for a good deal of star gazing, both amorous and scientific, just now.

Mr. J. W. McKinna, of La Grande, well and favorable known at The Dalles, was in the city yesterday.

Mr. Curtis has not yet received any new wheat at the Diamond mills, but is expecting some this week.

Mr. W. Lord, who has been at home for a few days attending to business, returned to North Beach today.

Dr. Sanders' office, over French & Co's. bank, is today ornamented with a new sign, the work of Hardy, artist.

It is a very warm afternoon for the Teachers Institute. The most interesting meeting will be held this evening.

It's strange how crowded the thoroughfare looks to the man that's chasing his straw hat down the street.

The Vancouver electric plant got out of fix last week, and sent to The Dalles for an electrician to remedy the trouble.

Messrs. Hardy and Marders had a very successful hunt Saturday. Billy's face looked as rosy as a peach when he came home.

Mr. J. M. Cummins, late of the Wasco News, has taken editorial charge of the Klickitat Leader. Mr. Fred C. Baker retiring.

A Chinese house of ill-fame, which was pulled by the police, furnishes an interesting case for Recorder Menece this afternoon.

Mrs. Emery Sheak, of New York, sister to the late H. J. Waldron, is at the Umatilla house, accompanied by her two sons, J. H. and Claude.

City Marshal Maloney will nip some of the smart youths at the camp meeting grounds, if they try their trick of disturbance again, as they did last night.

Archbishop Gross officiated at St. Peter's church in this city yesterday. He is making a tour of the Inland Empire, and left for the east on the noon passenger train today.

Mays & Sons and Clarno & Sons have sold 600 head of beef cattle to a Portland firm, at 2 1/4 for steers and 1 3/4 for cows, to be delivered at The Dalles. They deliver 200 today and 400 a month from now.

"Fishermens luck" will fail adequately to describe the dilapidation of the rig which Mr. H. J. Green drove into town from Klickitat this forenoon. The team did it. Mr. Bronson and Messrs. Joslyn walked in.

Mr. Balfo Johnston returned from North Beach at noon today. He says seven palatial steamers left Astoria last night for Portland. The Elks clam bake at Clatsop was the biggest thing of the kind that ever came off in Oregon.

The state of Oregon, to meet the emergency existing in the Inland Empire, could well afford to cut rates a trifle at Cascade Locks. The saving of \$7.00 a head on horses to Portland is worth courting, but the cut should be equalized.

The Lewiston Teller says a little opposition on Snake river last year saved producers \$200,000. The Regulator line saves that much monthly. The Regulator line deserves the freight of everybody, and a good fat subsidy besides; but have asked no subsidy.

Mr. E. A. Dunham, manager of the Columbia River Fruit company's business has taken hold of the matter with a determination to cause results which will be not only profitable to the company, but of tasting benefit to this division of Oregon.

An eastern publication of wide spread circulation and influence contains an able article on The Dalles, and the Inland Empire, handsomely representing the wool industry by some elegant illustrations taken by Miss Lang. The article is from the ready pen of Col. Lang.

Some say that salmon cannot be taken in the Columbia here with a hook, but Mr. Freas Saunders the D. P. & N. Co's agent at Rockland, or Grand Dalles, caught a thirtyfour pound salmon one day last week with a common freight hook. The salmon was sporting in the shallow water where he was secured.

We are glad to hear that Okanagan Smith has made a winning. He has held out a long time. He is now en route to New York where he expects to close the deal on some valuable property. The consideration is \$300,000. "The days of gold" in the Inland Empire are just beginning to dawn.

The trial of Green for the murder of Dunn ended at Goldendale by a verdict of murder in the second degree. Judge Bennett made a fine record for himself in his presentation of the argument. Hon. W. Lair Hill was for the defense. The young offender saves his neck, but will probably serve a long term in the penitentiary.

Prof. Horner, of the State Agricultural college has been doing some effective work in Wasco county, of late. This college is located at Corvallis, one of the most beautiful spots in the Willamette valley, healthfully situated, and has enjoyed a striking immunity from dangerous epidemics. The town has an intelligent and cultured population, it is accessible by railroad from the east, west, north and south.

"A miss is as good as a mile," maybe; but that miss of the workman boarding a construction train in Front street at one o'clock this afternoon sent a thrill of horror through all who witnessed it. What is the use of brain to any man so foolhardy? The train stopped, to back up, just as he got on the car, and his risk of life to board it was useless. Had he given the subject an instant of thought he could have known this.

We are satisfied that the minister who gave the press such a push at the camp meeting last night is not a reader of THE CHRONICLE. As Lucy Lamson said:

Only the annotated eye See in common things, Glean of wave and that of a ? Heavenly blossoms, To the heart where life has birth Nothing can be drear; Budding through the bloom of earth, Heaven is always near.

Mr. and Mrs. A. W. Branner, Miss Belle Kelly, Mrs. Elizabeth Leland, and Mr. R. P. Patterson, who left here a week ago for Trout lake, with high hopes, a concord coach and great expectations, returned Saturday evening. The trip was enjoyed very much, but Mr. Branner says the water is too smooth for trout, and the ice in the cave was nil. They say the road is lined with pilgrims from afar, seeking these umbrageous retreats, only to be disappointed at this late season.

It is said that the channel on the Washington side of Walker island has been deepened to over twenty feet, with a width of 200 feet, by the dike which has been built there under supervision of Engineer Freeman, of the port of Portland. The channel on the Oregon side is now 21 feet deep, with the exception of a strip 100 feet long, which will be removed as soon as the dredger is ready for work. We are pleased to hear of all such improvements on the lower Columbia river, and hope they may become permanent, as they all aid the products of the Inland Empire on the way to the sea. The best market is the market reached the cheapest.

THE GYPSIE PARTY.

A Glorious Occasion Filled With Mirth and Jollity.

During the summer months the young people of The Dalles are generally very quiet; but this year will be stamped as an exception. An order was sent out summoning all the gypsies to meet at Wind river springs, Collins landing, Wednesday evening. In pursuance of the summons the following delegates attended:

Cascade Locks—Misses Iva Brooks and Eva Heppner, Mr. and Mrs. Wiley and Mr. Kendall.

Collins Landing—Misses Beula Patterson, Daisy and Maie Beall, —Fulton, Caddie Booth, Mrs. Booth, Mr. and Mrs. L. Booth, Mr. N. J. Sinnott and Mr. Charles Green.

The Dalles—Misses Rose and Nettie Michell, Annie and Laura Thompson, Ruth Cooper, Aimee Newman, Clara and Etta Story, Kate DeHuff, Cassie Wiley, Florence Lewis, Winnifred Mason, Grace Campbell, Grace Murden, Messrs. Frank French, Roger B. Sinnott, John L. Booth, Fred Clark and Frank Garretson.

At Collins landing the different tribes were met by the reception committee, and escorted to headquarters, where the hours passed rapidly until evening, when the procession formed and proceeded to the open air meeting where the ceremonies were conducted. Vocal and instrumental music, dancing and social intercourse. After this long to be remembered evening had past and Mars was beyond the meridian the Gypsies adjourned, realizing fully that it was the most successful meeting that could be held by any tribe.

The Life of Mark Twain.

No living American has had such a varied and interesting career as the famous humorist, Mark Twain. His life is a romance. Will M. Clemens has just completed a large volume entitled "The Life of Mark Twain," which is published in two editions, in paper at fifty cents, and in cloth at \$1.00, by the Clemens Publishing company, San Francisco. It is a charming volume of romance and adventure. It is as funny as anything written by Mark himself, and as entertaining as Innocents Abroad. As the author says: Mark Twain is a sort of human kaleidoscope. Interesting particulars are given concerning his early days, his checkered career in Nevada and California; his entertaining trip as one of the innocents, his first literary success and auspicious marriage, his amusing adventures in England and Germany, his varied experience on the lecture platform, and his success as a business man; and a fine description of his pleasant home at Hartford. Mark Twain will be read and re-read by lovers of humor. Send postal note direct to Clemens Publishing Co., Box 2329, San Francisco, Cal., or order of your newsdealer.

Our dear little daughter was terribly sick. Her bowels were bloated as hard as a brick. We feared she would die. Till we happened to try

Pierce's Pellets—they cured her, remarkably quick.

Never be without Pierce's Pellets in the house. They are gentle and effective in action and give immediate relief in cases of indigestion, biliousness and constipation. They do their work thoroughly and have no bad effects. Smallest, cheapest, easiest to take. One a dose. Best liver pill made.

To The Public.

I have no hesitancy in recommending Chamberlain's Colic, Cholera and Diarrhoea Remedy to the public, as I do to my friends and patrons. I used it myself after other well-known remedies had failed, and it cured me in a few minutes. I recommend it candidly and cheerfully upon it merits, not from a financial standpoint, because I have others in stock on which I make a larger profit, but because Chamberlain's is the best remedy I know of for bowel complaints. There is no doubt about it, it cures the work—JAMES FORDY, Druggist, McVeytown, Penn. For sale by Blakeley & Houghton, druggists. d&w

The Growler Located.

Eugene Guard. The fellow who is continually complaining and growling about dull times resides in Eugene. Imagination has a great power over the mind, and often paints in beautiful colors or clouds the horizon in somber hues according as the mind wills. The man who is going around at present trying to make everybody believe that times are hard, money tight and trade dull, just because he imagines so, is a public nuisance and should be arrested and fined.

The Old Times are Not In It.

While at our other store at Big Island, Va., last April, I was taken with a very severe attack of diarrhoea. I never had it worse in my life. I tried several old-time remedies, such as Blackberry Wine, Paregoric and Laudanum without getting any relief. My attention was then called to Chamberlain's Colic, Cholera and Diarrhoea Remedy by Mr. R. C. Hinsley who had been handling it there, and in less than five minutes after taking a small dose I was entirely relieved. —O. G. BURFORD, Harris Creek, Amherst Co., Va. For sale by Blakeley & Houghton, druggists. d&w

West Fork Land Sale.

Fossil Journal. Dr. Stewart and wife have sold all their decided land on the West fork, 480 acres to A. G. Ogilvie, of Pine creek, for \$3,100. The land is all fenced and otherwise well improved. There is a good orchard on the place. This year's crop, just harvested, was thrown in. The doctor moved his family over to his ranch near Fossil this week.

Saved a Woman's Life.

Mr. J. E. Thoroughgood, writing from Georgetown, Delaware, says: "Two teaspoonfuls of Chamberlain's Colic, Cholera and Diarrhoea Remedy saved the life of Mrs. Jane Thomas, of this place." He also states that several other very bad cases of bowel complaint there have been cured by this remedy. For sale by Blakeley & Houghton, druggists. d&w

There is nothing like the RESTORATIVE NERVEINE discovered by the great specialist, DR. MILES, to cure all nervous diseases, as Headache, the Blues, Nervous Prostration, Sleeplessness, Neuralgia, St. Vitus, Danco, Fits and Hysteria. Many physicians use it in their practice, and say the results are wonderful. We have hundreds of testimonials like those from druggists. "We have never known anything like it," says Dr. S. W. Woodruff, N. Y. "Every bottle sold brings words of praise," J. G. Wolf, Billings, Mich. "The best seller we ever had," Woodruff & Co., Fort Wayne, Ind. "Nerveine tells better than anything we ever had," H. F. Wright & Co., Concord, B. H. Trial bottle and book of testimonials free at druggists. DR. MILES' MEDICAL CO., Elkhart, Ind. TRIAL BOTTLE FREE.
