THE DUTY OF AMERICANS.

Now that the dreaded scourge of cholera seems to have been pretty well wiped out in these United States, after a costly but intelligent battle with greed, ignorance and superstition, it is well to turn the minds of the people to the sources of the pest, and the proper means of future prevention.

Where rests the blame for this menacing scourge? Possibly it dates far back, even to the first emigrant ship that brought to the United States those who could no longer find a home in other lands.

It is the duty of every good American citizen to see that this subject is one of immediate consideration. Let the voters give congress to understand that this country has had enough emigration.

In Seattle on Monday last Rep. Wilson pointed out the disastrous effects that would have followed the Stewart silver bill, which would have resulted in the immediate contraction of the currency by \$100,000,000.

Following up THE CHRONICLE line of argument, that there is no place like the Oregon Inland Empire, Hon. A. N. Hamilton, of La Grande, now in Portland, says: "The fruit crop on the Snake river and through Baker county is immense.

In Washington they have an outrageous law for the collection of taxes, seemingly enacted for the benefit of a special class. The law concerns delinquent taxpayers. Papers have been served on parties in Walla Walla for taxes in Whitman county, one case the taxes delinquent were only \$2.20.

In Spokane, Monday evening, Senator Allen made a ringing speech to an immense and enthusiastic audience. His arguments were convincing, and he impressively proved that the state of Washington should prove true to the party that brought it into the union.

A New York dispatch gives the following figures of the visible supply of grain: Wheat, 41,369,000, increase 2,653,000; corn, 9,795,000, increase 74,000; oats, 6,019,000, increase 604,000; rye, 670,000, increase 79,000; barley, 430,000, increase 105,000.

THE PEST-SHIP COMPANY.

The first cholera-infected steamer to arrive in New York was a vessel of the Hamburg-American line. The disease broke out on the steamer when she was but forty-eight hours out to sea.

Other lines have sent infected boats, but other lines have been prompt in taking precautions. The Hamburg-American company has manifested a majestic indifference to the safety of our people and to the demands of decency.

It is interesting to look at the condition and tendency of the wage-worker, as they appear from the angle of vision of the greatest of capitalists. For this reason the utterance of Baron Rothschild upon the subject of labor is interesting.

In Seattle on Monday last Rep. Wilson pointed out the disastrous effects that would have followed the Stewart silver bill, which would have resulted in the immediate contraction of the currency by \$100,000,000.

The Voice, which is the chief organ of the one-idea partisan, pronounces President Harrison a friend of the rum traffic because he was the recipient of a keg of Scotch whisky, sent over by an American friend abroad.

A company has offered the sum of \$40,000 to Klockmann and his partners for their mining claim in the Priest Lake country. A shaft has been sunk on the claim ten feet, and shows \$15,000 worth of ore in sight.

Congressman Wilson is talking to immense audiences in Western Washington, and Senator Allen has been heard from in a crushing speech at Spokane, so that the campaign in Washington, as well as Idaho, can no longer be said to be painfully oppressive on account of its singular silence.

To stamp out the free coinage movement Carl Schurz urges the election of Cleveland. In the west pretended friends of silver are asking the people to vote for Cleveland in order that bimetalism may be restored.

Mr. Gladstone has found time to eulogize the bicycle, and the wheel-makers are mad about it. They fear that all the young lords who have been riding the "bike" will get off and walk rather than appearing to agree with Gladstone in anything.

Referring to the wholesale naturalization of aliens for voting purposes, a Chicago paper says: It is not expected that the newly-naturalized citizens will take an active part in politics until they have thoroughly mastered the surnames of at least two presidential candidates.

By an oversight which may yet be rectified, not a single calamity orator has thought of denouncing Christopher Columbus for discovering this new world of woe.

"Mr. Cleveland," says a republican paper, "admits that he cannot carry his own state." No doubt some democratic friend will in turn confide this admission to Mr. Cleveland.

Even the coffin-makers, assembled at Chicago, urged the necessity of keeping cholera out of America.

It is said that the Boston Transcript devoted to four lines to an account of the fight between Sullivan and Corbett, the Advertiser but seven, other papers making only a casual reference to the affair.

It looks as though a mess would be made of the capitol dome yet. It seems doomed to further delay on account of the non-arrival of the immense steel girder which is to surmount the eight columns and support the brick work.

Another stirring up of the Searles-Hopkins will case is promised. Lowell Mason Maxham has sued Edward F. Searles for \$26,577, for services in looking after witnesses in the will case.

Speaking of the wonderful storehouse of wealth that the Cascade mountains are, the Graphic says: Within this mighty range is found a magnificent lumber belt, unequaled in any other portion of the United States.

The Colfax Commoner says an open river to the sea is not agitated in eastern Washington from any love the people of that section have for Portland.

A new variety of wheat, the grains of which are almost twice as large as the ordinary kernels, and which has produced fifty-one bushels to the acre, has been grown this season near Moscow.

To the taxpayers of Wasco county—Notice is hereby given that the Board of equalization for Wasco county will attend at the office of the County Clerk of said county on Monday the 10th day of October, 1892, for the purpose of examining and correcting the assessment roll of said county for the year 1892.

Saved His Child's Life.

A. N. Dillibough, York, Neb., says: "The other day I came home and found my little boy down with cholera morbus, my wife scared, not knowing what to do. I went straightway and got a 25 cent bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, and gave it according to directions. You never saw such a change in a child. His limbs and body were cold. I rubbed his limbs and body with my hands, and after I had given him the second dose he went to sleep, and, as my wife says, 'from a death-bed he was up playing in three hours.' It saved me a doctor bill of about three dollars, and what is better, it saved my child. I can recommend it with a clear conscience." For sale by Blakely & Houghton, druggists.

A Traveling Man's Experience With Diarrhoea.

I am a traveling man and have been afflicted with what is called chronic diarrhoea for some ten years. Last fall I was in Western Pennsylvania, and accidentally was introduced to Chamberlain's Colic, Cholera and Diarrhoea Remedy. I ventured to make a trial and was wonderfully relieved. I would like now to introduce it among my friends. F. M. Lewis, 24 Freeman street, Cleveland, Ohio. For sale by Blakely & Houghton, druggists.
