NEW YORK, Eec. 5 .- Although nothing was announced in this city today from the silver conference except the withdrawal of the Rothschild plan, private London cables to bankers reflected little belief in any agreement. There was a sudden rush to sell silver bullion certificates on the stock exchange and 200,000 and 300,000 ounces sold at a decline of 2 cents an ounce, the heaviest break since last spring. The low price of silver today is only half a cent per ounce above the lowest price on record.
