THE DALLES, OREGON

LOCAL AND PERSONAL.

**Tuesday's Daily.**  
When wife and husband quarrel  
It seems a trifling quarrel  
That both of them begin the row  
By saying, "Now, my dear."  
Numerous people from the Klickitat came across the river today.  
The next medal contest takes place on the 28th inst. at the court house.  
The ground is now more thoroughly water-soaked than it has been for years.  
The steam ferry boat is expected to begin her regular trip the last of the week.  
Some of the sidewalks in the city have not had the snow cleaned off. Why is it thus?  
Little was done this morning at circuit court. Allison's trial was postponed until next term of court and his bonds fixed at \$800.  
The East End is very quiet today. Messrs. Saitmarsh & Co. will receive for shipment this evening a lot of fat mutton sheep.  
The Ladies Glee Club will meet with Mrs. C. J. Crandall this evening, and all members are requested to make a special effort to be present.  
The Dalles City will leave Portland for the Cascades Thursday and the Regulator will go down, touching at way points, the same day and return.  
The steamer Regulator will, in all probability, commence her regular trips the first of next week. If the ice was out of the river, she would steam out the last of this week.  
The D. P. and A. N. Co. began driving piles yesterday, in the extension of their wharf. When the work is completed the improvement will make it very commodious and convenient.  
The onion has a virtue to which thousands of people will swear. This is its ability to ward off attacks of malaria in any form, and to cure cases as rapidly as the strongest doses of quinine.  
We were called on last evening by a gentleman who was anxious to learn something of a W. S. Lewis who died at or near The Dalles about twenty-eight or thirty years ago. Who knows anything about him?  
The ice gorge that has stayed at this place so long, moved down the river about a mile yesterday morning and became blocked at the Point, where it is now, seemingly, as solid as in midwinter. Hope are entertained that it will go out in a day or so.  
We acknowledged a pleasant call from Mr. Geo. Herbert of Galesburg, Illinois, who is visiting his aunt, Mrs. John Oates of this city. Mr. Herbert thinks the Pacific coast is the place for a young man of steady habits, as there are more opportunities for making a good financial beginning in the world than any where east.  
Mr. John Andraesen, president of the Willamette Ship Building company of Portland, who has had charge of overhauling the "Western Queen" and the steamer "Regulator" returned home this morning. Mr. Andraesen has resided in Portland for the past thirteen years, and has been engaged in shipbuilding ever since he came to the Pacific coast. The work done on these steamers is evidence that he is master of his profession.  
Dr. Bingham, of Walla Walla, proprietor of Bingham's warm springs on the Umatilla river, is in the city. The doctor is here for the purpose of completing negotiations with regard to bottling mineral water at the soda water works connected with the Golden Rule hotel. He is now consulting with Mr. Hammond.—East Oregonian.  
We suggest the city erect an arc light in the vicinity of Ninth and Pentland or Ninth and Garrison streets. Ladies living in that vicinity are obliged to walk through mud and slush after dark, there being neither lights nor sidewalks. Taxes are collected from property owners on those streets, as well as down town, but little has been done for the comfort of pedestrians.  
Hon. E. N. Chandler returned from Salem Saturday evening and was very warmly greeted by his constituency. Mr. Chandler has made for himself a record as a legislator that is envied by a great many of his honored associates. Wasco county is proud to know he was fearless in the discharge of the duties and confidence of those whom he represented in the legislative halls.  
**Wednesday's Daily.**  
Washington's birthday. The schools are closed in consequence.  
The chinook which sprung up yesterday, has cleared the river of ice.  
The steam ferry boat fired up this morning and will go into service tomorrow.  
The contractors for the portage road across the river are expected to arrive the first of the month.  
The circuit court is not in session today. While the 22d of February is a legal holiday, it is not a non-official day.  
The steamer Regulator will leave for the Cascades tomorrow, Friday, Saturday and Sunday at 7 o'clock sharp,

making through connection after tomorrow. After then she will make her trips as advertised in local notice.  
The snow is fast disappearing under the influence of ye chinook wind, and will be a thing of the past in a few days.  
The horticultural society of this county will meet at the city hall on Saturday at 1 o'clock p. m. A full attendance is desired.  
The horticultural interests of this section are becoming one of the most important objects of the county, and the society should be a large one.  
We acknowledged the advance sheets of the second biennial report of the Oregon Weather Bureau. The document is very complete and exhaustive.  
The street cistern in front of the Skibbe hotel is being raised about a foot to accommodate traffic, and a fence has been placed temporarily around it.  
No finer place for the Eastern Oregon insane asylum could be selected than Irvine's place on Chenoweth creek. There is an abundance of the purest water, a profusion of shade trees, both varied and beautiful, while the scenic attractions cannot probably be duplicated by any other spot that could be chosen by the provisions of the bill, which are that it be located within three miles of a railroad.  
**Thursday's Daily.**  
For her he swore he'd wade through fire.  
Or swim the widest river;  
In deserts roam, in jungles sleep,  
Or suffer pain forever;  
He'd tunnel mountains high today,  
And bridge the sea tomorrow;  
And when she wanted soul brought in  
He drew the line with sorrow.  
The snow has nearly gone. There is also a notable depreciation of mud.  
Be careful how you lend anything these days. It will stay lent for several weeks.  
We understand that a new saddle and harness shop will shortly be opened in the East End.  
Word has been received that the Regulator and Dalles City both reached the Cascades O K today.  
The month of January was remarkable for having two life-size full moons, and February will be quite as remarkable by having no full moon at all.  
Wild flowers are in bloom and tell us that spring will soon be here. The Nielsen children found some of the "Indian potatoes" at Mr. Klindt's yesterday.  
The prospects are good for considerable building with the opening of spring. Some fine residences are in contemplation, besides one or two store buildings.  
It has been suggested that the February term of court should commence with the last Monday of February, instead of the second, as at present. A saving of jury fees could also be figured.  
The party last evening at the home of Mr. and Mrs. H. Chrisman was a most enjoyable affair. The guests were entertained during the evening in various ways, and left with the memory of having passed a very pleasant time.  
Oregon machine-dried prunes that last year brought in the markets 8 1/2c are now selling for 11c. The Oregon prune is fast gaining reputation as a superior article of commerce and the rise is attributed to this fact solely.  
A deal has just been consummated, whereby A. M. Cherry disposes of all his buildings and business to W. E. Parker, proprietor of the Umatilla house at Umatilla, possession to be given on March 1.  
A squaw was observed in the East End the other day carrying a cook stove. About a dozen feet behind her trodged her brave, carrying the lidlifter and a popcorn ball. Civilization can do little for the red man.  
A petition and remonstrance is being circulated relative to consolidating the east and west precincts of The Dalles. As it stands now, the east precinct is not represented by a justice of the peace, and all cases are tried before Justice Schuts.  
The E. O. reports that the people's party are organizing a company for the purpose of establishing a solid newspaper, to be devoted to the interests of the party in the state. It will be published in Eastern Oregon, and the company will have a capital of not less than \$50,000.  
The Indians are happy now, says a Umatilla correspondent of the E. O. You may see them in squads of dozens, hurrying toward the rapids of the Umatilla river, carrying long poles, spears, etc. Salmon have appeared in the river and the siwash won't rest day or night while they are running.  
Some of the ladies observed the birthday of Washington yesterday by dressing in the costume of Martha Washington, and the reporter couldn't repress the secret observation that if the style of 120 years ago were to come into vogue again, it would be much more sensible than hoop skirts, and be vastly more attractive.

**BORN.**  
On 8-Mile, Feb. 17th, 1893, to the wife of Frank Marsh, a daughter.  
**MARRIED.**  
At the residence of the bride's parents on Pleasant Ridge, February 19th, 1893, Miss Daisy B. Pugh to Frank C. Wagonblast, Justice C. D. Doyle, from 8-Mile precinct officiating.  
**DIED.**  
On 8-Mile last Friday, the infant son of Mr. and Mrs. John Ferguson.

**A Nut For Amos to Crack.**  
HOOD RIVER, Feb. 21, 1893.  
Mr. Editor.—We read Amos' letter in The Chronicle of the 17th inst. and if you will grant the space, will ask Amos the following question:  
As you do not believe in taxing mortgages, or in levying an income tax or in an inheritance tax tell us how (if at all) you propose to tax the capitalist who loans his money on mortgages?  
JOHN PARKER.  
**Shepherd Dogs.**  
Antelope Herald.  
It is wonderful the amount of intelligence a sheep dog displays in performing his duties. We had the pleasure the other evening of watching one of them put Allen Grant's sheep in Billy Kelsays corral. The herder stood in the lower part of town and by the various motions of his hat the dog corraled the sheep just as well as and even better than a man could. Sheepmen could not get along without these dogs, and some of them are so intelligent and well trained that their masters wouldn't take \$500 for them.

**BETTER THAN EVER.**  
The Regulator Refitted and Made Stronger.  
Ever since the Regulator has been in dry dock, about two months ago, work has been going on uninterruptedly in fixing her up. The company's intention was to make a boat second to none on the river for its size, and its recent overhauling has made it stronger, prettier and more durable in every way.  
The boat has been levelled up, the keelsons refastened and three new ones put in 4 1/2x20 inches fore and aft, made fast by bolting through to bottom of hull; reworked throughout and bottom cemented; new hog post in center fifty feet long, the former, a smaller one, being put forward; 1 1/2 hog chains fore and aft; new side posts and new saddles throughout; new iron work has been put in to replace the old, which was condemned by the boat builder; the wheel has been enlarged to eighteen feet in diameter, with deeper and larger buckets; new chains on forward deck, and surplus stanchions removed, affording more freight room; two new lockers have been put in amidships; companion ways changed by making them narrower; salt stoppers put in on both sides, requiring about four tons of salt to fill them. Fifteen hundred pounds of wrought iron have been used in making repairs.

**THE INLAND STAR.**  
The Steady Little Boat Comes Out Unscathed.  
When the ice was bearing down so heavily on the little boat Inland Star, the report was current that she had cracked from bow to stern. Now that the ice has gone down it is shown that her hull is as sound as ever. The test is probably the most severe to which she could be subjected, as it is estimated that the force against her was equal to a 100 ton pressure. Mr. Kennedy, the builder and captain of the boat, has been about two years in constructing her.  
With no previous knowledge of boat building, and rejecting all advice from those claiming a knowledge in the art, he has constructed a miniature steamer which, as far as strength is concerned, is able to buffet the storms of the ocean.  
Her equipment is now complete and she will be launched in about a week. The only effect of the squeeze she has recently had was to break the propeller wheel (which Mr. Kennedy thinks was broken before) and loosen some of the calking. The captain expects to go below before the close of the week, to secure the necessary papers allowing her to do business on the river.

**The Concert Company.**  
The opera house was well filled last night to hear the Boston Operatic company. The performance was up to the high standard its advance notices herald. The music rendered was of the most choice-character, the cornet and violin solos were the finest ever heard in The Dalles, while the solos of Miss Julia Haman, on the bells and xylophone, were indeed a treat. The bass solos of Albert Hawthorne and clever sketch of music and art depicted by Dolph and Susie Levino, were the hit of the evening. Mr. Levino's rapid drawing of noted men, accompanied by verses of song by Susie Levino, drew forth thunders of applause.  
Miss Irene Haman, leader of the orchestra, is a most accomplished musician, and has her violin under perfect control. Whether she is interpreting Balfe, Rossini or the homely melodies her technique is faultless and expression most beautiful.

**Matters at the Cascades.**  
Day brothers arrived at the Cascades last night, and today busied themselves in securing the right way for a tramway from the quarry to the works. The river has still some floating ice in it, and below the cascades it is yet packed, but by tomorrow noon it is thought there will be none. Everything is fast being put in readiness to commence work as soon as it can probably be done.  
**FOR SALE.**  
Tan lots in North Dalles, 50 per cent. less than company prices.  
G. BULLINGAME.

**Hard on Stock.**  
News is received that the continued cold weather of the past winter has created much distress among cattle and sheep at Umatilla. Even cattle that were being fed were unable to withstand the severity of the weather, and died by scores. Some of the largest stock ranchers will come out in the spring with less than fifty per cent of the cattle they had at the beginning of the winter. The loss of sheep will be considerable, but horses are doing well. The weather has moderated slightly.  
**Struck With a Hook.**  
Capt. Sherman came very near having a broken leg through an accident yesterday. The Regulator was being placed in position with ropes, and the crew were at the capstan fixing them taut, when the hook attached to the pawl straightened out under the pressure, and flying back struck the captain below the knee. Luckily no bones were broken, and the injury was confined to a severe bruise.  
**PERSONAL MENTION.**  
Tuesday.  
James Smith went to Antelope today for a few days.  
Mr. Reynolds, a cattle buyer from the Klickitat, is in town.  
J. J. Stewart, of the Portland Cracker Co. is in The Dalles on a business trip.  
Mr. Rinehart, of Union county, is in the city visiting his son, Dr. Rinehart.  
Wm. Stewart, formerly of this city, spent the forenoon in town, leaving for Lewiston on the noon train.  
Mrs. W. Schrader left on this afternoon passenger for Tacoma, where she will make her future home.  
Messrs. Boroland and Bennett of Boyd, are in the city today. They report the roads in a soft condition and really had in some places.  
Mr. J. B. Meyer, of the sheep firm of Meyer and Brown of Crook county, arrived this morning from an extended visit at his old home in Erie county, Pa. Mr. Meyer says he is heartily glad to get back to his adopted home in Oregon. The old states are too old for his ideas, and thinks there is no place equal to Oregon for a man who has the push to get on a good solid footing.

Wednesday's Daily.  
Mr. W. L. Ward, of 15-Mile, is in the city today.  
Mrs. J. H. Cradleigh of Hood River, is in the city today.  
Hon. E. N. Chandler left on the 4:20 p. m. passenger to attend a meeting of the O. N. G., at head quarters on a special invitation.  
Hon. Polk Mays of Wallawa took his leave of friends and relations today for his home. He proved to be one of the most useful members of the legislature from Eastern Oregon.  
Misses Flora and Alice Mulligan left on the morning train for Portland. After spending a few days there and with friends on the Sound, they will return to their home in Missoula, Mont.

**HOTEL ARRIVALS.**  
Columbia—John Person, Cascade Locks; Wm Olson, A Pearson, Lyle; G K Wood, Mosier; E Killard, Wapinitia; M Cleveland, Tygh Valley; Frank Sheik, Wallawa; George Lamborn, B D Taylor, Wasco; D McDonald, Seattle; A M Roberts, Mitchell; F Barton, M F Gonsmack, Dutch Flat.

Thursday.  
J. O. Mack leaves this afternoon for Portland.  
Mr. Ordway, of Chenoweth, was in town today.  
Mr. Swift, son of A. J. Swift of Wamic, is in the city.  
W. M. Granie of Grants, well known in The Dalles, is at the Umatilla.  
S. L. Brooks took a trip to the Cascades this morning on the Regulator.  
L. A. Estab. of the new real estate firm, goes to Wallawa county tonight to attend court at that place.  
Engineer Charles Johnston and wife, of Albina, returned to The Dalles last night, intending to make this place their future home.  
Mr. Will Gordon, who has been attending the Forest Grove university, is in the city for his health, and is the guest of Mr. and Mrs. W. T. Kame.  
Louis Davenport, of Mosier, is in town today. The many old-time friends of the judge will be grieved to learn that four of his family, the children, are all sick in bed.  
**Burst a Blood Vessel.**  
Mr. Aug. Buchler lost one of his fine bay horses today. He fed it this morning, as usual, and returning to the stable, a few minutes later, found it rapidly bleeding to death. The animal had burst a blood vessel, as will occasionally happen from no cause that can be foreseen. The loss is quite severe, as the horse was a valuable one and well known about town.

A MERRY PARTY.

**Dr. Rinehart and Wife Surprised at Their Residence.**  
One of the pleasantest and most successful social events of the season took place at the beautiful new residence of Dr. Rinehart and wife last evening. It was a surprise party, and was successful because none of the guests but the leaders, Mr. and Mrs. Morgan, knew where they were destined to go, and pleasant because, once arrived there, the large party was entertained by the sweetest music, the choicest viands, pleasant converse and witty repartee. Mr. and Mrs. Curtis had been detailed previously to go and keep the doctor's family at home. When the guests began trooping in about 8 o'clock, the Doctor, whose presence of mind never deserts him, bribed his boys, four in number, to go to bed. The ruse was not successful, however, for when the music struck up they arose without exception, donned their clothes, and standing up before the parental tribunal, in solemn procession, each said: "Here, papa, is the 10 cents you gave me, and, please, I want to stay up."  
The instrumental music was of unusual excellence. Mrs. Curtis, on the piano, exhibited a remarkable dexterity and knowledge, as did, also, the genial host, Dr. W. Rinehart. The solo by Mrs. Will Condon was highly appreciated. A very pretty duet was played by Dr. Rinehart and Mrs. Jos. Peters, while a trio by Mrs. Will Condon, Mrs. Bradshaw and Dr. Rinehart was exceptionally fine.  
Later, refreshments were served, consisting of oysters, cake, sandwiches, coffee and sweetmeats, to which the guests did ample justice. This department was under the supervision of Mrs. Morgan and Mrs. Patterson. The work of collecting supplies was undertaken by W. E. Garretson, who must have feared there would not be enough to go around, but after luncheon, lo, there were many basketfuls, both loaves and fish—oysters.

The party met at the residence of Mr. and Mrs. Patterson, and comprised: Mr and Mrs J M Patterson, Mr and Mrs H Glenn, Mr and Mrs R F Gibons, Mr and Mrs C J Crandall, Judge and Mrs G C Blakeley, Mr and Mrs J T Peters, Rev and Mrs W C Curtis, Mr and Mrs G P Morgan, Mr and Mrs Hobson, Mr and Mrs E O Pease, Mr and Mrs Fred Bailey, Judge and Mrs W L Bradshaw, Dr and Mrs G Sanders, Rev and Mrs Wilson, Mr and Mrs J S Huntington, Mr and Mrs F Sampson, Mr and Mrs J C Hoetler, Mr and Mrs W E Garretson, Mr and Mrs D M French, Mr and Mrs J H Rinehart of Summerville, Mesdames Wm Michell, D Cooper, H Gourlay, C Cushing, J B Condon W Condon, C Dunham, J Wood, J Marden, C Donnell, Misses Flora Mulligan, Minnie Michell and Nannie Cooper.  
**Reception to Mr. and Mrs. Cameron.**  
A very pleasant reception was given to Mr. and Mrs. James Cameron last evening at the residence of W. A. Hunt. The bride, nee Burnside, is late of Buffalo, whence the couple have but lately returned. Those present were Mrs W A Hunt, Rev and Mrs O D Taylor, Mrs Phillips, Mr L and Miss J Hubbard, Mr and Mrs A Seckler, Capt Seely Haynes, Mrs. Slutz, Misses Alma and Annie Taylor, May Seckler, Miss Hopp, Mr and Mrs M Wheeldon.  
Mr. and Mrs. Cameron will shortly move to their Mill Creek home.  
**The C. L. S. C.**  
The Winquist C. L. S. C. held its usual weekly meeting last evening at the residence of Mrs. S. L. Brooks. The evening was devoted to Greek architecture, conducted by Mrs. Crandall. A number of interesting quotations on architectural subjects were read by the members. At the close of the lesson Misses Iva Brooks and Alma Schmidt rendered a beautiful piano duet, that was much more to the taste of the circle than the details of the construction of Greek temples. Those present were Mesdames Blakeley, Brooks, Crandall and Grey, Misses Frazier, Schmidt and Brooks, Messrs. Collins, Riddell and Crandall.
