rides a large number of chair cars. The first train of the new cars passed through yesterday.

The wife of Leo Peterson, editor of the Portland Commercial Review, died of consumption last week.

The usual Lenten services will be held in the Catholic church on every Wednesday and Friday evening during Lent.

Daniel Durbin, whose death by poison was reported in Saturday's paper, is a brother of Sol Durbin, a well-known farmer of this vicinity.

Princess Victoria Kawekin Kainulani Lunaliu Kalaninuihoholopala is the name of the daughter of the deposed Hawaiian Queen. When she becomes a citizen of the United States, she will become plain, sensible "Calico Annie."

Mr. McGill, a farmer of Oak Ridge, returned to his home yesterday. He arrived here with eighty-seven head of fat cattle from the valley. After feeding at Saltmarsh's stock yards they will be driven home and turned out on the range.

A large crowd gathered to see the Regulator launched yesterday. It was accomplished about 1 o'clock, and she nestled into the water with a rapid glide, reposing upon the bosom of the Columbia like a "fat duck upon the pearly edges of prosperity."

Several Umatilla county farmers are still holding grain harvested in 1891. One has 6,000 bushels on hand. An offer of 91 cents per bushel was made for the wheat after the harvest of that year, and was declined by the farmer, who believed that the price would reach \$1.

A shipment of building rock from the quarry near Baker city will soon be made to Salt Lake City to be tested for structural purposes. Salt Lake visitors recently there became favorably impressed with the stone and are of the opinion that an extensive industry can be created and a remunerative one to the projectors.

A pleasant party gathered at the home of Mr. and Mrs. Kinney on Saturday evening. Mr. J. Garrell and Miss L. Spencer won lady and gentleman's first prize for best tiddlerewin players and Mr. J. Spencer and Miss L. Farmer carried off the booby prizes. A candy pull was then indulged in, at which all enjoyed themselves without exception.

M. E. Blyden and other residents of Seio, while hunting for coon during the recent snow storm, cut down a large tree, which among other things, was found to contain besides the coveted coon, seven or eight flying squirrels and a lot of honey, the product of a swarm of bees that had selected the tree for a home.

That the cholera will visit us next summer is almost a certainty. It is beginning its campaign early at various European points and it seems almost impossible to prevent its entry into the United States. The first preventive is cleanliness, and every American city should begin at once a vigorous warfare upon dirt of all kinds.

They have a man in the Washington legislature who knows how to express himself. In explaining his vote he indulged in this climax: "You may hang Puget Sound on a tall tree to dry, you may place Mount Rainier on a nail keg, unbuckle the belly-band of eternity, but you will never get me to vote for a man I do not believe entitled to a free seat in this house."

AMONG THE COURTS.

Business Light at the Court House--Assault Before Schutz.

The circuit court is still waiting on the grand jury. This morning all the petit jurors were discharged with the exception of Mr. S. B. Adams, who was reserved as a nucleus from which to draw a new venire when the work is ready for the court. The civil was very light this term, only one case getting to trial and the plaintiff was non-suited in that, so that it did not reach the jury.

Justice Schutz was busy with a case this morning that is of peculiar interest, growing out of a business transaction. Messrs. F. C. Sexton and J. H. Spoonamore were neighbors, but got into the courts on a small matter. The case reached the circuit court on appeal, and was dismissed there. Bad blood was the result of the litigation and resulted in Mr. Sexton applying his foot with more force than elegance to Mr. Spoonamore's anatomy. For this a warrant issued from justice court charging Sexton with assault. He was arrested on a warrant issued by Recorder Menefee, and pleading guilty paid his fine, and when brought before Justice Schutz, the case was dismissed. He was again arrested and an attempt is being made to have him put under bonds to keep the peace. This is seemingly a second edition of "much ado about nothing."

Peace and harmony prevail about the recorder's court this morning. One solitary vag who answers to the name of Wm. Smith fell into the clutches of Marshal Maloney this morning and charged with begging. His case was quickly disposed of, and not having the necessary half eagle with which to liquidate, he was placed in durance vile to while away the time until his fine has been worked out.

NOT VERY BUSY

Grand Jury Takes an Outing For Lack of Witnesses.

THE CHINESE LOST THEIR SUIT

The Court Decides that the Season Did Not End With Close Season in August.

Business is dull in the circuit court today. Judge Bradshaw on convening court excused the jury who mostly resumed the occupation they have busied themselves with generally during the week, viz, loafing and trying to kill time until such time as the business of the court will demand their attention. The court shortly after adjourned and has transacted no business this afternoon of importance. The business of the grand jury is delayed by absent witnesses, and so soon as they have progressed with their labors the court will have business ready for the jurors. Most of the civil business has been disposed of and the criminal business now retains the jurors.

Attorney H. S. Wilson this morning returned from Portland, where he has been engaged in the trial of the case which was brought in the federal court by a company of Chinese who had contracted with I. H. Taffe of Celilo, to pack last season's catch of salmon. The Chinese stopped working at the beginning of the close season in August, having done but little work, claiming that the season was then completed. Taffe was compelled to hire another force of Chinamen to pack the September catch, which proved to be a very large one. The Chinese who had packed the summer's catch, brought suit to compel payment of the force for the entire season's catch. But the court decided that the season did not end with the close season in August, and the Chinese will have to mourn the money lost, and which they will not get. Mr. Taffe, doubtless thinks, with Bret Harte, that "for ways that are dark and for tricks that are vain, this heathen Chinese is peculiar." But their vain tricks availed them nothing in their attempt to force the money out of "Duke Taffe."

The Cascade Locks.

Today's Oregonian says J. G. Day, jr., in charge of the affairs of the J. G. & I. N. Day Contracting Company, who have in hand the work of completing the canal and locks at the cascades, has completed arrangements for opening a basalt quarry at Herman creek, about three miles from the locks, and is expecting the arrival of machinery for equipping the quarry. As soon as the snow is off, the work of cutting basalt for the canal will begin. The granite is now being cut in the company's California's quarries, and all will be in readiness for putting in position after the high water in the Columbia subsides. Mr. Day is confident that the appropriation necessary for the completion of the locks will be passed by congress, and that the work will go on uninterruptedly to the end.

Wheat Outlook.

Reports from the farming districts in this county are to the effect that the fall-sown and winter wheat is not injured by the late freezing weather. Sherman county has had some of its fall-sown injured, that was in the most exposed places, especially where the snow had been blown off. This will necessitate a spring sowing in place of that killed.

Refused to Quit Work.

John Batty, whose hand was frozen a few days ago, is now getting along nicely. It is learned he was driving team at the time, and refused to quit work when his attention was called by others to the fact that his hand was frozen. Afterwards he noticed a peculiar tingling sensation, and unfortunately he plunged them in hot water. The opposite should have been done. He has suffered greatly, besides the loss of a portion of his hand.

Ward's Bill.

The grand jury this morning had little to do, and in consequence were basking themselves in the genial sunshine that pervades the front door steps of the court house. The sheriff, also, had his jackknife out, and informed the reporter that he proposed to have a bill up before the next assembly providing that the grand jury during leisure moments should be furnished saws and bucks and work up the winter's woodpile in the basement.

Mignonettes.

The Mignonette club last evening gave another of their highly enjoyable entertainments. Those who were attracted thither by the anticipation of a jolly time, found their anticipations fully realized. The floor was in excellent condition, the music splendid, and all present disposed to have as much fun as possible. Messrs. Booth, Jameson and Garretson gave a pleasant surprise by playing a waltz with mandolins and guitar. At the close of the dancing Mr. D. C. Herra grouped the club in picturesque positions and, by means of a calcium flash light "took the pictures" of the club and their guests, Mr and Mrs F L Houghton, Dr and Mrs Snedaker, Judge and Mrs Blakeley, Senator and Mrs Hillton, Mr and Mrs Crowe, Mr and Mrs Herrin, Miss Van Vleck, Miss Dustin, Misses Minnie Gosser, Virginia and Grace Marden, Jessie Lown, Clara Grimes, Flora and Alice Mulligan, Etta and Clara Story, Ruth Cooper, Dr H Logan, Messrs M Jameson, H French, F Garretson, S G Campbell, M Vogt, J C Coatsworth, C Schermerhorn, M Donnell, Wm McCrum, F Faulkner, John Hertz, H Lonsdale, John Booth, J B Montgomery, J Hampshire, L R Flint, Edward Patterson.

GOT HIS MAN.

New Deputy Sheriff Phirman Got Around Kansas Laws.

Deputy Sheriff Phirman arrived with his prisoner, D. S. Allison, Saturday evening. He experienced considerable difficulty in securing him on account of the difference in the statutes between Kansas and Oregon relating to arrests. According to Oregon law a man may be arrested if the complaint reads: "The above charge is true, as I verily believe." But by the Kansas law it must be sworn to as an unchallenged fact. The prisoner, Allison, was in custody of Sheriff I. T. Ault, on a telegram from Sheriff Ward, and how to get him out of Kansas was the question. Deputy Phirman went to Topeka, where he secured a requisition from the governor of Oregon and returned with it to Wichita. In the meantime Allison had been discharged on a writ of habeas corpus, but Ault, who was waiting till Phirman could arrive, had him rearrested on a trumped-up charge, and in this condition of affairs Phirman arrived. He was released to Phirman by the sheriff. Allison was to have a hearing at 2 o'clock, and his attorney notified Phirman to produce the prisoner at the hour set. Mr. Phirman replied that the prisoner was not in his possession and he had better serve the summons upon Ault. Presumably he did so, but it must have been too late, for Phirman secured a hack, and with two deputies, went out three miles away, where the train stops at an unimportant point, sending for his grip at the hotel. Long before 2 o'clock Phirman was speeding westward with his prisoner, and had passed the confines of the state before they could be stopped.

The Stock Industry.

The report of the U. S. Department of Agriculture just issued, upon comparative numbers and values of farm animals, based on returns of January, 1893, shows an increase of horses, mules, and sheep, no material change in the number of milk cows, a decrease in oxen and other cattle, and a very heavy reduction in the number of swine, amounting to about 12 per cent. The estimated present numbers of domestic animals on farms, ranches, and the public range are as follows: Horses, 16,306,802; mules, 2,331,128; cows, 16,424,087; other cattle, 35,954,196; sheep, 47,273,563; swine, 46,064,807. The increase in mules is slight. The apparent increase in sheep exceeds two millions, a continuation of the movement which commenced in 1889, by which numbers have increased nearly five millions in four years.

Anderson's Trophies.

M. J. Anderson, of Dufur, a prominent member of the "third house," returned from Salem yesterday. The laurel crown of victory sets serenely on his brow. He also brought with him a fine lot of Mongolian pheasants, California quail and Oregon mountain quail, which he proposes to turn loose on the range near Dufur, and as the New York alderman said, "let nature take her course."

THE ICE.

Filed Up at Crate's Point Fifty Feet High.

The ice which has floated down the river since yesterday all stops at Crate's Point, and it is now piled up there as high as the Umatilla house. The river there makes a sharp turn, and as it is frozen solid from there to the tunnel, the ice is hindered from going farther. It makes a very beautiful sight. Ice is still floating by the point in huge masses.

Important to Taxpayers.

Taxpayers will please take notice that the city council have by express order instructed the undersigned to proceed and collect all delinquent taxes by levy and sale, and only immediate attention will avoid the payment of expenses of levy and advertising. DAN MALONEY, City Marshal.

Church Nuisances.

It is a great annoyance to those who want to hear the minister to have their attention distracted by whispering in the back seats, and by parties who come in late and go out early. They should know that such conduct is a gross breach of etiquette, and even if they have not been trained in etiquette, they should realize that they exhibit a prodigious amount of thoughtlessness and selfishness in spoiling the enjoyment of a whole churchful of people on account of their petty gossip. It is probable, though, that the nuisance will continue, for all we might say to the contrary, for such people are not enlightened enough to read THE CHRONICLE.

The Western Queen.

The ferry boat was launched today. The boat has been replanked on the sides and rakes. New aprons have been put in, as well as new sheathing and she has been repaired throughout. She is now good for four or five years to come without another stroke of work being done on it unless through some unforeseen accident.

FORMER WILLIAMS.

A New Fact Brought to Light From Portland.

Nothing has yet been heard of Williams, the old man who forged a check for \$100 on Moody's bank about ten days ago. It has just been brought to light, also, that he seduced \$50 in Portland on some other racket previous to his coming to The Dalles.

Williams while here boarded at the Columbia house and through his age and apparent infirmities got into the good graces of J. J. Edwards, a well-known rancher of this vicinity. Both were in the bank at the time, and Williams produced a draft on a Wallace, Idaho, bank. He referred to Edwards for identification, who said he knew the man and that his name was Williams. On this statement he drew the money and took the next train east. Edwards will not be held responsible for the loss.

Cal Hale.

Cal Hale's witnesses arrived home Saturday from Ellensburg. Geo. Zachary accompanied them, the case against him having been dismissed by the prosecution, as there was no convicting evidence against him. The jury in Tom Kimsey's case "hung" for two days, and the judge finally postponed his trial until the 27th, when he'll have to "run the gauntlet" again. Hale will get a new trial. His friends in this county were about to raise a subscription with which to employ Hon. A. S. Bennett, of The Dalles for the defense, but learning that Hon. J. C. Leasure of Pendleton had already been employed for that purpose, they dropped the matter. Cal's friends think it was a put-up job to convict him, and that with another trial he will come out O. K. We hope so.

Taken in time.

even Consumption yields to the wonderful effects of Dr. Pierce's Golden Medical Discovery. It won't make new lungs—but it will make diseased ones healthy when nothing else will. There's reason for it, too. Consumption is Lung-Scrofula. For every form of scrofula, and all blood-taints, the "Discovery" is a positive cure. It's the most potent strength-restorer, blood-cleanser, and flesh-builder known to medical science. For Weak Lungs, Spitting of Blood, Bronchitis, Asthma, Catarrh, and all lingering Coughs, it's an unequalled remedy. It's a guaranteed one. If it doesn't benefit or cure, you have your money back. You've everything to gain from it—nothing to lose.

It's especially potent in curing Tetter, Salt-rheum, Eczema, Erysipelas, Boils, Carbuncles, Sore Eyes, Goitre, or Thick Neck, and Enlarged Glands, Tumors and Swellings. Great Eating Ulcers rapidly heal under its benign influence.

SIX SPASMS A DAY.

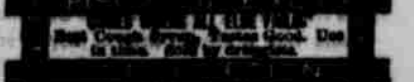

Dr. Miles Medical Co., Elkhart, Ind. (Continued) I never lost an opportunity to recommend Dr. Miles' Restorative Nerveine to any one afflicted with nervous complaints with the assurance that it will not disappoint them. When our boy was eighteen months old he was attacked with violent spasms, sometimes he would have five or six spasms in a single day. We tried many remedies without benefit. Finally Dr. Miles' Restorative Nerveine was recommended. We could see that he was benefited from the first dose. We used three bottles, and I am happy to say the child was ENTIRELY CURED. We used no other remedy, and his cure is complete. He is now three years old and perfectly healthy. You are at liberty to use my name in endorsing the PRAISE OF THIS WONDERFUL REMEDY. S. C.
