An Aluminium Boat.

I have just returned from a trip to Germany and Switzerland, and while in the latter country I witnessed a sight which was of itself sufficient to pay me for my journey. It was nothing less than the launching of the first boat ever built of aluminium. This took place some weeks ago on Lake Zurich, a body of water which has become celebrated as a birthplace of new departures in shipbuilding. It was there that the first naphtha launch ever constructed made its maiden trip, and also where the first encossful electric boat was launched Put this last achievement, the successful trial of the first boat in the world ever built entirely of aluminium, will make Lake Zurich justly famous

This boat is not a large affair. It resembles in appearance and size the small naphtha launches, and in fact, its motive power is an engine of this kind, which has an improved device whereby the flame can be maintained while the boat is not in motion. At a distance the boat has no nnusual appearance. It is only on near approach and close examination that a person would notice that the boat was not painted gray, but was made of a white, shining metal. Inside everything has this silver white color, for even the seats, gunwales and handrails are made of this beautiful and untarnishable metal. Wherever a polish is given, the surface looks like pure

Not only are the ribs and plates made of aluminium, but the castings of the engine, the rudder and even the tiller ropes are made of the same metal. The entire amount of aluminium used is a little less than 600 pounds, while the total weight of the boat, including the wood, iron and copper parts, is 970 pounds. The launch will held from

The Glee Club.

The Ladies Glee Club was a glee coup in more than one sense of the word last evening when entertained by Mrs. W. E. Garretson. The first hour or two were devoted to solid practice, and the neighbors undoubtedly had their minds made up that the winter had by no means killed the "scale" by the time the hostess surprised the club by calling their attention from the key board to the festal board. Although the gentleman escorts, who, strange to say, called just in the nick of time, were a failure at "singing for their supper," they kept up to time in "walkin' for dat cake," and left the ladies somewhat in the lurch. The latter, however, came in ahead on the last beat, when conversation was the rule of the hour, and the last strain heard was from a young lady, who expressed the desire to have the club meet with Mrs. Garretson every week. Those present were Mr and Mrs J T Peters, Mrs W H Lochhead, Mr Chas Lay, Miss Emma Lay, Mrs M French. Mr H French, Mr and Mrs J S Schenck, Mrs Al Varney, Mr and Mrs C J Crandall, Mrs N Boyer, Misses Alma Schmidt and Rose Michell, Mr and Mrs W E Garretson.
