COUNTY OFFICIALS.

If the revenue cutter Rush, on her trip from San Francisco to Honolulu, has made the ordinary rate of speed, Blont, President Cleveland's special commissioner, is now on the Hawsiian islands, and his investigation into the condition of affairs there has begun. When the Hawaiian scheme of annexation was first proposed the popular opinion of the country was impatient for an immediate incorporation of the islands under the Stars and Stripes. But in the opinion of the highest executives of the country there was no occasion for hurry, and a talm consideration of our rights and privileges was the result. The result of the diplomacy of Cleveland is largely left to conjecture, but with our usual felicity, that which is best for us will probably fall to our lot. When Jefferson secured the Louisiana purchase from France, it was done very hurriedly, and without people, but with prophetic vision, long us for precedent, Hawaii will fall to us if we want it.
