# THE PIONEER ASSOCIATION. Plans for a Good Time---Circular Asks for Rolles.

The Twentleth annual rennion of the Oregon Pioneer Association begins at Portland in June. The circular in reference to the meeting says: "Plans are friend he secured a reduction of fity being made for a good time and nothing but the absence of pioneers will prevent this being a most enjoyable occasion. Those who were present two years ago will remember the special feature of the scening of pioneer day. The auxillary committee of pioneer ladies of this city are preparing something similar this year, but even more interesting, so that those who are not present/will miss a rare treat. Reduced rates have been sesured over the Sonthern Pacific Co.'s lines, and it is believed that other lines entering Portland will grant reductions. Hon. N. L. Butler of Dallas, Polk county, has consented to deliver the annual address, and Hon, Seymour W. Condon of Eugene, Lane county, the occasional address."

The circular further says: "Fellow pioneers, death is thinning our ranks rapidiy. There are many among you who have not as yet identified yourselves with this association. You are earnestly urged to come and have youname and a brief history of your life enrolled on the association register. All sho came prior to 1855 may become Jowing programme was given : members. Let us who survive come together in our annual meeting to renew the iriendships formed in the times that tried us, and recall the experiences of the early days by which it became possitis to found a great and prosperous ammonwealth-our own loved Oregon. Those having relics of pioneer life of any kind-cooking utensils, farming implements, looms, spinning wheels, old letters-anything used in pioneer days or brought across the plains-are exmestly requested to inform the secretary of the fact, and if agreeable he will forward blank descriptive circular, by which a history of the article may be obtained, and also a tag which will secore free transportation to this city. The purpose of this is to secure a permanent collection of such articles for the association, and to make it a feature of each sanual reunion. A number of articles have already been secured ; on exhibition."

### Public School Exercises.

The various public schools of the city close tomorrow and the following is the programme for each. The exercises will begin at 2 o'clock p. m., at the Brick school house on Court street :

Sir Charles Russell, continuing his argument in the Behring sea controversy yesterday, mid that the original rights of Russia could not be transferred to the United States, since at the time it was questioned by the United States and Great Britain whether she had any rights to the exclusive jurisdiction of the waters of Behring sea.

# Old Landmark Destroyed by Explosion of a Gigantic Blast.

One of the biggest blasts of dynamite that has ever taken place in a quarry, if not the biggest, occurred the other day at the Palisade quarries about two miles from Fort Lee. The palisades at this point, which is just opposite Fort Washington, were shorn of about one thousand feet of surface and the displacement extended about three hundred feet on an average into the rock. "Washington's Head" has been a land-

mark for many years to boatmen and tourists going up and down the river, the grim profile looking startlingly distinct just when it came into view through its resemblance to that of the Father of His Country. Washington's head is no more. It tottered and went down in the general havoe caused by the blast, and lies broken in a hundred pieces at the foot of the palisades. The blast was hardly felt at Fort Lee, where it simply made the earth quiver a little, like an infant earthquake. Two miles or more of fissured rock makes a good buffer, and the shock was pretty well exhausted when it reached the village. About four thousand pounds of dynamite was used and the weight of the rock displaced was estimated at one hundred thousand tons at the lowest calculation.

# Indigestion and Immorality.

The possibility of a relation between dyspepsia and crime is not a new conception. But the idea is one which is altogether too little considered in most of the work undertaken for the reformation of the criminal classes of our great cities. The good Calvin sent poor Servetus to the stake while in a fit of indigestion. Carlyle's misanthropy has been very correctly traced to his dyspepsia. Washington Irving tells of a certain emir ("Lives of the Caliphs") named Al Hejagi, who had suffered for many years from abdominal pains due to dyspepsia, and who is distinguished as having been one of the most cruel rulers the world has ever produced. He left fifty thousand persons in prison when he died, and during his life had caused the death of one hundred and twenty thousand persons, not counting those who fell in battles c? his instigation .- Good Health.

Dr. Gunn's Onion Syrup.

This remedy is a sure cure for all dis-enses of the Throat and Lungs, caused by taking cold. It will stop a cough in one night, no matter how severe. It is just what its name implies; an onion syrup, compounded in such a manner as to do away with the unpleasant taste and odor of the vegetable. When in need of a cure for a cough or

cold, try it. Price 50 cts. Sold by Blakeley & Houghton.

Carry Passengers.

In a few months a long, low and rakish craft, which will be one of the wonders of navigation, will start across the Pacific from this coast for China on \$250,000. regular trips. At present, says the San Francisco Examiner, the queer vessel is nearing completion at Everett, a new and lively town north of Seattle, which was commenced only a little over a year ago and now has some five thousand

people. The vessel is being built by the Pacific Steel Barge company, the same com-pany that constructed the Wetmore, lately wrecked at Yaquina bay. Like the Wetmore, the new vessel will be a whaleback, but she will be much longer, twice as strong, and will also carry passengers as well as freight. She is being provided with sixty cabins, and these will be neatly and comfortably fitted. She will be 161 feet long and 42 feet beam and 26% feet depth of hole. About 900 tons of steel is being used in her construction, and 100 tons of rivets are being utilized to hold the steel together.

The new and strange vessel is to be called the Everett, after the town where she is being made. Not much of her will be out of water. In general she will look like a great serpent with only her back shown above the waves, a few turrets and the porthole-like places which will indicate where the cabins are.

The builders have learned a lesson from the destruction of the Wetmore, though they say it would never have been lost but for the carelessness of its commander, and have taken great pains to make it in all respects scaworthy. It will, it is stated, run from Everett to San Francisco and thence to Yokohama and Hongkong, back again here and to Everett. It is said, also, that it will be faster than any of the Pacific Mail or Occidental and Oceanic passenger ships now running from here to Chinese and Japan ports, and on

Maritime men hero are regarding it with much interest. If it proves the success that is claimed it will be the

## Spring Medicine.

Dr. Gunn's Improved Liver Pills on scount of their mild action are especially adapted for correcting spring disor-ders, such as impure blood, tired brain and aching and worn out body. They act promptly on the Liver and Kidneys drive out all impurities from the blood, and malaria from the system. Only one pill for a dose. Try them this spring.
