

A ROW AT THE FAIR

Swiss Exhibit Closed by the Commissioners.

CAUSED BY SELLING DIAMONDS

The Swiss Commissioners Will Offer a Resolution to all Foreign Exhibitors.

CHICAGO, May 22.—There is a big row in the world's fair. It came about in this way. Saturday afternoon customs officers arrested P. E. Nemitz, agent for a number of Swiss exhibitors, for selling a diamond brooch contrary to law, all foreign goods being under bond for the payment of duty before sale. The officers then took into custody the Swiss exhibit. When the Swiss commissioner heard of it he became angry, claiming that, though the officers had a right to arrest the offending agent, they had no right to take possession of the entire exhibit. He therefore at once closed the exhibit and telegraphed the Swiss minister at Washington stating his action. A meeting of foreign exhibitors will be held this afternoon, at which the Swiss commissioner will offer a resolution that all foreign exhibits be closed till the question is settled.

Sage Used Him as a Fender. New York, May 22.—The suit which William R. Laddlaw brought to recover \$50,000 damages, for injuries, against Russell Sage, was called for trial this morning in the supreme court, part third, by Judge Patterson, and marked ready for trial. As soon as there is a vacancy in one of the trial terms, and it is reached on the calendar, it will be sent there for trial. As it is the 15th case on the calendar, there is little probability of its being reached for two or three days. Laddlaw was a clerk in the banking office of John Bloodgood & Co., bankers, on Broadway. He was in Sage's office at the time of the famous dynamite explosion, and was injured. He asserts that Sage used him as a fender.

Coal Miners' Strike. Pittsburg, Kan., May 22.—The indications are that the coal miners strike will spread all over the Southwest. Officials of the Santa Fe road who were expected to bring the matter to arbitration are reported opposed to the plan. They are determined not to recognize the Miners' Union. Five hundred miners in Cherokee and Crawford counties quit today, also those in Yale district, and all the strip miners will quit tonight. The miners in Indian territory are ready to go out when ordered. If this fails, the entire Southwest, except Arkansas will be ordered out.

Irish Demonstration. London, May 22.—The demonstration of the Irish National League in Hyde Park yesterday was most enthusiastic. A quarter of a million people were present with delegates from all branches of the league in the United Kingdom, and Joseph Arch, leader of the movement for the emancipation of English agricultural laborers, and other well-known men. Resolutions were adopted approving Gladstone's home-rule plan, and accepted it as a statement of the Irish question.

Russia is Dissatisfied. New York, May 22.—It is said Russia is dissatisfied with the impression made in the late naval review, in comparison with that of Great Britain, and will send over three of her largest ironclads to remain here a couple of months, to give the Americans some adequate notion of the Russian navy.

THE "AIR-RUNNER."

A New Machine Which Will Soon Be Tried.

Professor S. P. Langley is the inventor of a scientifically constructed flying machine that will fly. It was begun about two years ago and has been built in complete secrecy. It is now finished, and will probably be tried soon in Washington. Professor S. P. Langley is at the head of the Smithsonian Institution at Washington, where he is looked upon as the greatest fountain of knowledge and scientific lore in this country. All of the favored few who have been allowed to see the "Aerodrome" or "Air-Runner," as he has christened his new machine, declare their opinion emphatically that it will fly successfully. The fairy craft is intended simply for experiment, and not in any sense for practical transportation. It is said to look at first glance not unlike a huge flying fish.

Fire in St. Louis.

St. Louis, Mo., May 22.—A fire at midnight destroyed \$200,000 worth of property and caused a loss of human life. A few minutes before 12 an alarm sent in from the corner of Chancery and Locust street. The cause of incendiary origin. It completely destroyed a three-story brick block on the corner mentioned, occupied

by C. M. Crumm, livery. One hundred and fifty horses were burned to a crisp and the entire lot of buggies, phaetons, other vehicles, harness, etc., were destroyed. On the second floor James Quinn, foreman, his wife and eight children slept. All had narrow escapes, except Eddie, a 7-year-old boy, who was fatally burned before he could be rescued. Crumm's insurance is \$23,000.

The American Arbitrators.

As one of the two American members of the board of arbitration which is meeting in Paris to settle the Behring sea controversies, more than usual attention now centers upon the name of Justice John M. Harlan. He was born in Boyle county, Ky., in 1833 and received his education at Centre college, graduating in 1857. He early entered public life and when thirty years of age was made attorney-general of Kentucky, and on December 10, 1877, took his seat on the supreme bench of the United States. He is an old soldier, having served under General Thomas, rising to the rank of brigadier-general.

Senator John T. Morgan is the other American member of the Behring sea arbitration board. Besides this he has the distinction of having presented the Hawaii question to the senate in a way to secure its attention. He was born at Athens, Tennessee, in 1824, but since he was nine years old has resided in Alabama. He received an academic education, afterward studied law and was admitted to the bar in 1845. In 1861 he was a delegate to the state convention which passed the ordinance of secession and served in the war as a confederate. He was elected to the senate to succeed Geo. Goldwaite in 1877 and has been twice re-elected.

Do Not Want Free Wool. SAN ANTONIO, Tex., May 22.—L. B. Rayne, president of the Texas woolgrowers' association, has issued a call for a meeting on June 1st, to be held in San Antonio, for the purpose of perfecting a more thorough organization for the protection and promotion of the wool interests of Texas. Mr. Rayne says the Texas legislature is unfriendly to the wool interests of the state, and contemplates such action as will be injurious to the wool-producing interests of the United States. Free wool, the Texas woolgrowers assert, will sound the death knell of the wool industry; hence the necessity of united and organized effort of those engaged in the industry.

Oregon Woman Honored. Mrs. Narcissa White Kinney, wife of M. J. Kinney, a salmon canner, living in Astoria, has been solicited to deliver an address in the woman's building of the world's fair, her name having been placed on the list of women selected by the committee. Mrs. Kinney has been known in the eastern states for several years as a platform orator of great power, and is a close friend of Miss Frances Willard.

Secretary of the Congress.

The secretary of the Trans-Mississippi congress, O. W. Crawford, was born in Columbus, Ohio, in 1851. He was educated at the State University of Missouri, read law and was admitted to the bar. He never practiced law, the routine of a law office being too tame for his speculative nature. He removed to Texas in 1872. Mr. Crawford has been seventeen years in the real estate business, and has never received but four commissions. He has always been a dealer and developer of properties. The recognition of his ability as an advertiser caused him to be elected secretary of the commercial club of Houston, Texas, which he resigned to accept the position of general agent and manager of the Brazos River Channel and Dock Company and Texas Immigration Co. Mr. Crawford has probably the largest list of personal acquaintances of any person in the Trans-Mississippi country.

Lost Half Its Army.

PANAMA, May 23.—Advice from Nicaragua in regard to the battle between the government forces and the revolutionists near Masaya yesterday say the battle lasted 12 hours, and eventually the government troops were driven from the field. Counting deserters, dead and wounded, the government lost fully half its army. The rest are demoralized and disheartened. Of 12 departments, but four now remain loyal to President Saca, and he is believed to be ready to treat for surrender. The removal of the Pacific Mail steamship service from San Juan to Corinto has disturbed the plans of the revolutionists, who are anxious to maintain relations with the outside world.

BEHRING SEA CASE

Rumor That a Decision Will Soon Be Made.

THROWN OPEN TO ALL NATIONS

A Limit of Thirty Miles Around Breeding Stations, and a Ten-Mile Limit Off Alaska.

SAN FRANCISCO, May 23.—There is much rejoicing in local sealing circles over the information which has reached here in a dispatch from Paris that the deliberations of the Behring sea tribunal, now in session across the ocean, will result in throwing Behring sea open to sealers and sealing vessels of all nations, and will also declare a limit of 30 miles around the northern breeding islands of both Russia and the United States, and a limit of 10 miles off the mainland coast of both Siberia and Alaska. At the present time the modus vivendi is in force, and Behring sea is closed to all sealers under its provisions, and nearly every vessel in the sealing fleet had express orders on starting out to stay away from Behring sea. The fleet is composed of about 90 vessels this year, and nearly all of them are off the Japan coast. Reports from those waters are that seals are very plentiful this year and the sealers are likely to make big catches.

HAWAIIAN MINISTER.

Shall the Provisional or Royalist Party Be Recognized?

WASHINGTON, May 23.—Dr. Mott Smith, who until recently has been recognized as the representative at Washington of whatever government there may be at Hawaii, has returned to the city and confirmed the unofficial announcement that Lorin Thurston was appointed by the provisional government of Hawaii as its representative at Washington. At the same time Dr. Smith was in a quandary. The United States, in Dr. Smith's opinion, had never officially recognized the provisional government now ruling at Hawaii. It is true Minister Stevens recognized the new government, but from what Commissioner Blount has made public it is difficult to understand whether the present administration has recognized the provisional government or not. There is a belief that Blount is now United States minister to Hawaii, but the appointment has never been officially promulgated. Dr. Smith is therefore at a loss as to his future conduct. He proposes, however, when Thurston arrives here as the new minister from Hawaii, to introduce him to Secretary Gresham as his successor and throw upon Gresham the responsibility of deciding whom the United States will recognize as minister from Hawaii.

Crop-Weather Bulletin. EASTERN OREGON. Frequent showers, some heavy rain, cool temperatures and lack of sunshine have marked the weather for the week. The rainfall varied from 0.50 to 1.50 of inches. The rains keep the soil in fine condition, but there is an absence of sunshine and warmth, which are necessary for the more rapid growth and the development of vegetation. The wheat prospects are excellent, and if no hot winds should occur the yield will be phenomenal. There has been a general increase in the acreage of cereals. The peach crop will not be an average one. They are considerably injured about The Dalles and Milton. The strawberries are ripening slowly, due to absence of warm sunshine. Wool is being hauled into the warehouses. Is of excellent quality and staple. Sheep shearing continues in progress. In the interior counties the fruit buds are swelling and opening, but the backward conditions continue. The stock have good range feed, and they are generally reported to be in good condition. The year promises, from the present outlook, to be most successful.

RIVERS. The temperature over the country drained by the Columbia and tributary rivers has been below the normal since last Thursday. As a result the rapid melting of the snow has ceased, and the rivers are falling slightly. It is expected that they will continue to fall slightly until Saturday, when they will have a tendency to rise again. The extreme high water for the year has not been reached yet.

Much Damage at Detroit.

DETROIT, May 23.—A terrific wind and rain storm broke over the city this morning. It continued to increase in violence. At noon it was blowing 60 miles an hour. The streets are almost obstructed by broken shade trees.

Nearly all the telegraph and telephone wires are down. It is feared there is much damage done throughout Michigan and many wrecks on the lake. It is known that there is great damage at Adrian.

Arrested on suspicion of being implicated in the Panama canal scandal, is about 47 years of age. His business was to win over to the scheme men high in authority, such as cabinet ministers, senators and deputies. It is estimated that 12,500,000 francs found their way into his hands through his connection with the enterprise. Reports concerning his history are conflicting, he himself saying that he was born at Besancon, France, of German parents, who afterward removed to the United States and were naturalized, he thus becoming an American. He was arrested at Bourneouth, England, on a warrant from the French government. He is under guard at that place, being too ill to be removed.

THREE NOTED MEN

A Trio of Prominent Oregonian Democrats Who Want Office.

MURPHY, MARKLEY AND WAIT

District Attorney, District Marshal and Postmaster at Portland Are the Offices Sought by Them.

WASHINGTON, May 24.—Three men who were prominent in the last campaign in Oregon hope to be rewarded by the present administration, and are seeking offices which will be given to Oregon men. Dan Murphy wants to be district attorney, John Markley expects to be made district marshal, and Chas. N. Wait postmaster at Portland.

Dined by the President.

The dinner given on the 23d by President and Mrs. Cleveland to Infanta Eulalia was made an occasion of much dignity. The white house conservatories were fairly depleted to furnish rare flowers for the decoration of the table and apartment where the dinner took place. The large state dining-room was used, and it never looked so brilliant or so tastefully arranged.

The entire lower floor of the white house was decorated profusely. Stationed in the main hall was the marine band, and along the walls were a few spectators. At 8:10 the band rendered the Spanish national air, and the guests marched down the private corridor to the state dining hall, where 38 covers were laid. At the center of the table sat President Cleveland, with the princess on his right, and opposite sat Mrs. Cleveland and Prince Antonio. On the right of the president and princess were Secretary of State Gresham and Marchioness of Arco Hermosa. The others, in the order named, were Senator Sherman and Mrs. Bissell, Secretary Herbert and Mrs. Johnson, the Spanish minister and Mrs. Fuller, Secretary Lamont and Mrs. Olney, Secretary Morton and Miss Herbert, Chief Justice Fuller and Mrs. Gresham, Secretary Carlisle and Mrs. Lamont, Senator Gray and Miss Benedict, Duke de Tomanes and Mrs. Carlisle, Attorney-General Olney and Mrs. Smith, Postmaster-General Bissell and Mrs. Gray, Secretary Hoke Smith and Mrs. Townsend, ex-Minister to Spain Curry and Mrs. Davis, Don Pedro Tovar and Mrs. Curry, and Commodore Davis and Miss Riggs. The East room, where the president and guests repaired after dinner, was decorated profusely with plants.

\$25,000 in Premiums.

Offered by Liggett & Myers Tobacco Co. of St. Louis, Mo. The one guessing nearest the number of people who will attend the World's Fair gets \$5,000.00, the second \$1,000.00, etc. Ten Star tobacco tags entitle you to a guess. Ask your dealer for particulars or send for circular.

The origin of the symbol "cent" hundred weight, is as follows: Cent, initial letter of the Latin word "centum," meaning a hundred, and wt is the first and last letters of the word "weight" and are used as a contraction for it.

Electric Flashes.

In a terrific wind storm at Cleveland yesterday four men were killed and many injured, some fatally. Saturday evening, the 20th inst., John Clark, in jail at Baker City on the charge of murder, committed suicide by cutting his throat with a razor.

The Beauty glass works, Tiffin, O., burned. The loss is nearly \$200,000. Six hundred persons are thrown idle. Many employes barely escaped with their lives. The loss is fully covered by insurance.

The body of Chief Peter Stanup, the missing Indian, who mysteriously disappeared from his home on the Puyallup reservation a week ago, was found in the bottom of the Puyallup river. Hogg has vetoed the sugar bounty bill, to enable the superintendents of the Texas penitentiaries to accept from the general government bounty on sugar raised on convict farms. He denounced the sugar bounty of the United States. Jake Kafka, 9 years old, remarkable for his diminutive size and bright mind, died yesterday in Portland. He was 28 inches high and his maximum weight was 14 pounds. He was quick at repartee, and his mind was far in advance of his physique, even had the latter been normal. It is related that on one occasion an uncle from New York visited his parents, and one day Jake saw him take a handsome gold watch from his vest pocket. The child expressed much pleasure at seeing it, and his uncle promised to send him one upon his return to New York. Jake replied: "No, never mind; I don't need it. My mamma is my watch."
