A BLIND GRADUATE.

Miss Minnie Anderson En Route to Her Home in Falda, Wash.

Miss Minnie Anderson is the name of a blind lady who is stopping at the Columbia house today, and hearing that she was a graduate of the blind academy at Vinton, Ohio, a reporter of the CHRONICLE sought an interview. Miss Anderson was found to be a very pleasant young lady of about 25 years of age. She was simply attired in a black dress, and over her closed eyelids wore a pair of colored glasses. She was quite willing to enlighten the reporter upon the subject of her education by the Vinton academy.

This institution she has attended since she was 14 years old. There are now over 1,000 students, who are taught as thorough an education as can be gained in any of our common schools. In mathematics, for instance, the course includes geometry. The aim of the academy is to fit students for society, as well as to earn their own livelihood. The girls are taught to sew, both by hand and machine, crocheting, knitting, all kinds of bead work, making hammocks and mattresses, weaving carpets, etc. The boys are taught to make brooms - and the output equals that of their more fortunate competitors. The course complete from the a b c's requires twelve years, and not so many hours a day are employed as in the common schools, the afternoon being devoted to music and the various work departments.

The kindergarten is a very interesting department. The little children are taught the shape of objects by moulding them from clay, and they soon tell how to distinguish them by touch and become quite adept themselves in moulding the figures. Their first mathematical lessons are taught by blocks, and geography by clay moulded in the shape of mountains, valleys, plains and rivers.

For the last year Miss Anderson has been an inmate of the Knoxville, Ohio, home for the blind, at which institution she has done such work as sweeping, scrubbing, cooking and general house-keeping. Her father and brother live at Falda, Klickitat county, Wash., to which point she is now en route.

Prineville will have a bicycle race on July 4th.

The people of Prineville are now irrigating their yards and gardens. They will set out a good many choice trees and shrubs this fall.

Last Monday a surveying party left Prineville and went up on Tomolow creek, from which they will survey a large irrigating ditch out on to the desert. It is thought that the ditch will cross the O. P. R. R. survey four miles west of where it crosses the Deschutes. The ditch is to be ten feet wide at the bottom, and if a success, will reclaim thousands of acres of fine land.

The Coming Great Show.

And now we are to have the far-famed Sanger Lent. Dame rumor has placed the above shows at the head of the list for years, and pronounce it the greatest of all great shows, whose fame is not confined to one language but extends wherever civilized tongue is spoken. Exhibitions will be given at The Dalles, June 29th.

It is the best advertised show that ever billed here. It's pictorial and lithograph paper can be seen on all sides, while its many announce sheets are scattered like snow-flakes in a radius of forty miles. Preparations are being made to entertain a vast gathering on show day as above.

In his decision the court says: "The said law of the state of Washington, prohibiting the sale of cigarettes, and referred to in the petition, is in contravention of article 1 of section 8 of the constitution of the United States, and null and void in so far as it prohibits or attempts to prohibit the selling giving or furnishing to any one by the importer of, etc."

The lease recently expired and the land is now covered with improvements valued at \$440,000.00. It is stated that the occupants have offered \$200,000.00 to compromise the claim of the heirs. - Union Republican.

Arrived From Austria.

Wenzl Geschwendner arrived today from Fischlham, Ober Austria, and is at the Skibbe hotel. He is the brother of the unfortunate man who, was killed

near Dufur several weeks ago, and who it will be remembered, was stated as having sent \$100 just previous to his death to his brother in Austria to use for passage money to the United States. This brother, Wenzl, is the one referred to who is now at the Skibbe hotel. He was ignorant of the fate of the brother, and to Mr. Skibbe fell the unpleasant duty of informing him of the fact. The living brother was totally unprepared for the intelligence and the news fell like a blow. He has not stated what are his plans, but will probably stay here for a time.

Forgot to Return Them.

The young man Copeland, who was arrested as a vagrant here Thursday evening, claimed to be a printer and wore a very neat suit of clothes. These clothes were the cause of the young man's trouble with Pendleton officers. At that town he struck up an acquaintance with another young man named T. B. McCray, who arrived there lately from Missouri. McCray had a very neat suit of clothes for best wear, while the garments of Copeland were somewhat seedy. The latter said he wanted to call on his girl and would like to borrow McCray's suit, which, after some persuasion, he secured. That evening Copeland and the clothes were missing. A warrant was sworn out, and prompt use of the wires resulted in the capture of Copeland at The Dalles.

Annita is 7 years old, and is noted for being one of the truest of horses. She was never known to make a break, and has so docile a disposition as to make her a safe driving animal for any lady. Her record mark stands at 2:27.

Some fancy the charms of a lily-white maid, Of ethereal form and languishing eye. Who faints in the sunshine and droops in the shade, And is always "just ready to die."

But give me the girl of the sunny face, The blood in whose veins course healthy and free, With the vigor of youth in her movements of grace, Oh, that is the maiden for me!

She is the girl to "tie to" for life. The sickly, complaining woman may be an object of love and pity, but she ceases to be a "thing of beauty" worn down by female weakness and disorders, subject to hysteria and a martyr to bearing-down pains. Dr. Pierce's Favorite Prescription is a sure cure for these distressing complaints, and will transform the feeble, drooping sufferer into a healthy, happy, blooming woman. Guaranteed to give satisfaction in every case, or money paid for it refunded.

Answered.

"Why is it that on a windy day it takes about twice as long to fill my water wagon than on a clear day?" asked Ferris yesterday.

"Why, that's an easy one," answered the CHRONICLE man. "On windy days the water comes from the old reservoir, so that in case of fire there will be a big force of water on. See?"

"Yes, I see; but it works a terrible hardship on me," said the water man, as he flew for his perch.
