Everybody feels so good about the resuming their regular trips again, smiles are general upon the streets, and some would almost believe the financial condition of the country had been saved by a general shower of \$20 pieces over the country.
Frank Meneffe is a most accommodat- ing gentleman, but he would rather a large amount suffer the inconvenience of carrying four five dollar bills than his gold piece. Consequently when he was approached by a film-flamer yesterday he kept his double eagle, and saved his image.
An impression is out that F. S. Burke, who was reported to have died at the Salmon, was the young man recently married, and considerable sympathy has been expressed over the sad news. The impression, however, is an error. The deceased was the father of young man.
Americans saw a body floating in the water about a mile above the Dalles, but made no effort to secure it. They wisely reasoned that as they believed an Indian they would let it float, and hope a truer solution is that they would let it float, as they say it was decomposed.

Mayer & Lent's circus is very meritorious. The acrobats, contortionist and animal features were good. It had but one drawback, and the return to the old show is popularly pleasing. Three rings bewildering and unless one is cross the acts are unsatisfactory because of their variety. They were rather light animals, but on the whole did very well.
Mr. Eastwood dressed up the windows of his postoffice store yesterday in honor of circus day. A procession of toy elephants, band wagon, mounted on animals of all kinds led to a nature tent, where a clown with a mouth seemed to be yelling directions to the crowd. A pretty good joke was played the other day in The Dalles when a young fellow calling himself Michell, with an unmistakable Irish brogue, entered the office of the Times Mountaineer, and claimed the editor as a long lost Irish cousin. The joke lies in the fact that Editor Michell is a thoroughbred Johnny Bull and hates an Irishman as the Devil hates holy water. It is not necessary to say that the little \$6.50 loan wanted by the Irish cousin was not negotiated. —Goldendale Sentinel.

F. W. Taylor, while loading hay on Wednesday on Chamberlain Fiat, was bitten by a rattlesnake on the back of the hand. Mr. Taylor immediately applied a liberal quantity of moistened tobacco and beyond a short spell of sickness and pain in the arm has suffered little inconvenience. It was fortunate that the fangs did not strike a vein as there was probably not a drop of "rattlesnake medicine" nearer than Grant, 15 miles off. The snake had seven rattles and a button and it is needless to say will never bite another Taylor. —Sentinel.

TRAPS FOR THE UNWARY.

The Webs Which Washington Shysters Weave for Suckers.
There are plenty of shysters and shynocks in the world who are perpetually laying traps to ensnare the unsuspecting, and it may be laid down as an axiom: Never let a stranger who is abnormally anxious to assist you, get hold of your money.

HEART DISEASE 20 YEARS.

Dr. Miles Medical Co., Elkhart, Ind.
Dear Sir: For 20 years I was troubled with heart disease. Would frequently have fainting spells and smothering at night. Had to sit up or get out of bed to breathe. Six years in my last stage of the disease, at last I became dropsical. I was very nervous and nearly worn out. The least excitement would cause me to faint. I had no appetite, and I was also much troubled with dizziness. For the last fifteen years I could not sleep on my left side or back until I began taking your New Heart Cure. I had not taken it very long until I felt much better, and I can now sleep on either side or back without the least discomfort. I have no pain, smothering, dizziness, no wind on stomach or other disagreeable symptoms. I am able to do all my own housework without any trouble and consider myself cured.
