VOL. III. THE DALLES, OREGON, FRIDAY, JULY 14, 1893. NUMBER 31.

HAWAII'S CONSPIRACY

The Plot Against the Provisional Government.

SOME SENSATIONAL STATEMENTS

Claus Spreckels Was to Give the Royalists \$1,000,000—Many Were in the Alleged Plot.

SAN FRANCISCO, July 6.—The following advices have been received from Honolulu under date of June 29th:

Yesterday afternoon's developments in the now famous conspiracy case were quite sensational. The preliminary examination of Crick, Walker and Sinclair went on, and as each successive witness was examined the stronger the government case appeared to be. Simon von Topax, a soldier in the provisional army, testified that Walker had approached him on several occasions and, after predicting the return of the queen to power, offered him a position in the custom-house as soon as the old order of things was restored if he (Von Topax) would give him a list of the soldiers who would turn traitor. Walker said he could easily overthrow the provisional government, as he had 1,000 armed men, and told Von Topax to advise his company to lay down their arms in case of trouble. Walker assured witness that the royalists had good backers in the persons of Claus Spreckels and James Campbell. Sinclair was with Walker on several occasions when these statements were made, also John Bowler on one occasion. Walker said his plan was to prevent the volunteer forces of the provisional government from approaching the executive building, and, relying on the co-operation of members of the guard, his men would effect an entrance into the building through an underground passage. A mass meeting of royalists had been called, but the natives did not attend, and only 300 whites and half whites were present. Sam Nowline, a half white was to be one of the leaders of the crowd.

The fact that a list of the conspirators in possession of the provisional government has leaked out, and there are many uneasy royalists in town. It is the hope of the government that they will have such a strong case against Crick, Walker and Sinclair that these three men who are believed to be only the tools of more prominent men, seeing that conviction is certain, will turn state's evidence in the hope of getting off themselves. It is not believed that Spreckels entered into the conspiracy, but that Walker used his name in order to influence the soldiers to turn traitors.

While the sugar king openly fought against annexation, he is believed to be shrewdly a man to join with men like these on the trail. All three of these men of dissolute habits who went about boasting of what they intended to accomplish, and it is no wonder that their plans were discovered by the police.

WEDDING OF ROYALTY.

The George and Princess Mary of Teck United.

LONDON, July 6.—The marriage of the Duke of York, Prince George of Wales, and the Princess Mary of Teck, an event to which all England was looking forward with deep interest, took place at 12:30 o'clock today in the chapel royal of St. James' palace. The wedding was brilliant, and attended by a large gathering of members of the British royal family, continental sovereigns or their representatives, and members of the highest nobility. The weather was beautiful, and a more splendid day is seldom seen in London. The occasion was made one of national rejoicing and a partial British holiday. Great crowds of people gathered many feet along the line of the route from Buckingham palace, upon Constitution

road, through Piccadilly, St. James' street and Marlborough gate to the garden entrance to St. James' palace situated at the north side of the palace. The decorations along the line of the royal procession were profuse and beautiful. The way was kept open by household troops in glittering uniforms, by detachments drawn from the military depots,

by the metropolitan volunteers and militia, by the Middlesex yeomanry and by police. The scene was full of life and movement, and the ceremony eclipsed in pomp and splendor any recent state ceremonial in connection with the British court.

Smelters Ready to Buy Silver.

DENVER, July 6.—"The smelters will resume the purchase of silver ore in a few days. I think that the outlook is considerably better than it was a week ago," said D. Moffitt, president of the West National bank, one of the heaviest holders of silver mining properties in the state. "A very noticeable reaction seems to have taken place in the last few days, as indicated by the strong advance in silver bullion. I expect to see it go to 80 cents inside of 30 days. I notice that France is beginning to protest against the action against silver, and that will help us. Silver exports from New York show that there is a market somewhere. We feel decidedly better, and shall shortly resume work at our mines. There will be very little profit in silver at 80 cents for us, but it will pay expenses."

"The feeling is much better than it was a few days ago," said W. H. Jakes, of the Omaha and E. Grant smelter. "We cannot count with any certainty upon the real shape of the market until we hear from the government regarding the July purchase of silver. That will give us a basis for circulation. Miners of the state are inclined to accept the situation cheerfully. The feeling of despondency has given place to one of confidence that affairs will be right in due time. The Gastin mine on Red Mountain reopened today."

Seattle's Glory.

SEATTLE, Wash., July 6, 1893.—[Special.]—There has not been in the history of Seattle a more enthusiastic people, that gave vent to their feelings from Sunday night of the 2d until the morning of the 5th; the city was crowded with visitors and the demonstration was intense; the streets presented a gala appearance and the celebration in general was most imposing. The two principal attractions, of a novel nature, were the mineral palace in the Occidental square, and the battle ship Monterey, which lay in the harbor. The former contained minerals from all over the state, and was pronounced by all to be a display of natural wealth and genius never before witnessed. The Monterey was crowded with visitors for two days, and the officers and seamen were very courteous in explaining the wonders of one of "Uncle Sam's" best iron-clads. It is estimated that about ten thousand people from Tacoma visited the city. Seattle now boasts of a trans-continental railroad with its western terminus at this port.

All Records Eclipsed.

NIAGARA FALLS, July 6.—Clifford Calverly last night eclipsed all previous records at Niagara by walking on a wire across the gorge in the darkness and shooting off fireworks in midstream. He had arranged for two strong searchlights to be placed at each end of the wire, but the light proved a failure and the young man ventured out in the darkness. No one could see him until suddenly a bright light illuminated the center of the river, and Calverly was seen seated on the wire with his balancing-pole across his knees, setting off fireworks. He reached the American side amid a flame of red light and the cheers of the crowd.

The Vice-President Favors Repeal.

CHICAGO, July 6.—Vice-President Stevenson last night in an interview expressed himself thus in regard to the Sherman silver law: "I will say that I am in favor of its immediate repeal, but the substitute has not been agreed upon. Regarding the so-called financial flurry, it is of great importance, as I believe nine-tenths of the reported business manufacturers were weak concerns. I look for great results from the coming session of congress, and I believe some good and wholesome laws will be enacted."

What Satolli's Powers Are.

NEW YORK, July 6.—In an interview last night Bishop McDonnell, of Brooklyn, speaking of Monsignore Satolli's authority in the matter of disagreements between the bishop and the priest, said: "The public has a wrong impression. Monsignore Satolli is here to represent the pope in questions of policy and dogma, and not to interfere unless interference is needed. He is auditor between, not a ruler over the heads of the diocese."

Shiloh's cure, the Great Cough and Croup Cure, is for sale by Snipes & Kinersly. Pocket size contains twenty-five doses, only 25c. Children love it. Sold by Snipes & Kinersly.

Use Mexican Silver stove polish.

KILLED BY HUNDREDS

A Terrible Cyclone Sweeps Over Western Iowa.

AN ENTIRE VILLAGE DESTROYED

Over One Hundred Killed and Two Hundred Injured—Terrible Scene of Desolation.

FONDA, Ia., July 7.—One of the most dreadful calamities in the history of this state visited this section last evening.

A cyclone started southeast of here about 7 o'clock last evening and swept almost due east, leveling everything in its path for a width of 1,000 yards, killing and maiming the inhabitants in the towns and thickly populated farming districts. As far as heard from, the calamity took its most frightful form at Pomeroy, a town of about 900 population. Reports received are to the effect that the entire town, except 30 houses, was swept from the face of the earth. One hundred people are killed, and 200 injured, many of whom will die. As soon as the news of the disaster was learned, special trains, with physicians and nurses, went from here and Fort Dodge, and every able-bodied man in the vicinity lent a helping hand to the wounded and dying. The wounded were found lying all about the streets, beseeching help.

The scene was appalling as men with lanterns went about in the debris. In some instances entire families were wiped out. Mangled remains were found in the ruins of the homes. The work of rescue was slow, and the trainloads of helpers made but little headway. The south half of the town is razed. The church, just opposite the track of the storm, was turned into a hospital. Here the surgeons worked by the aid of lanterns and lamps. Those with broken bones were stretched upon the pews, while those less severely injured were compelled to lie on the floor awaiting their turns. The dead were laid out on the ground on a vacant lot at the edge of a devastated block. Through the aisles between the bodies the survivors passed looking for lost ones.

At the approach of the storm, which imparted a greenish tint, followed by darkness and what appeared to be a column of smoke, many sought shelter in their cellars, and others mounted horses to flee from the path of destruction.

Governor Boies at the Front.

DES MOINES, July 7.—Governor Boies received the following from Vice-President Harrahan, of the Illinois Central railroad, this morning, and will leave for Pomeroy at noon with the necessary supplies:

"The town of Pomeroy, on this company's road, was visited by a severe cyclone last night between 7 and 8 o'clock. The number of dead at this time is 87. It is impossible yet to determine how many are badly injured. Two-thirds of the town is swept away. There is great distress among the people. The Illinois Central sent relief trains from Fort Dodge, Manson, Fonda and Cherokee with physicians and citizens to assist in taking care of the people. They are doing noble work. They will need undertakers and coffins right away. I am not authorized to say so, but I think they need assistance, and if this company can be of any further assistance, please command us."

Governor Boies has just received a telegram from points along the route of the cyclone giving accounts of a terrible loss of life and property. He has been appealed to to issue a proclamation asking help. The governor has gone by train to Pomeroy, which he will reach this evening. From there he will visit the other points affected and will no doubt follow with a proclamation for help.

WILL BE BURIED ALIVE.

A Mindreader Who Thinks He Can Suspend Animation.

TOLEDO, July 6.—Seymour, the mind-reader, was in Toledo yesterday, on his way to Chicago, where he is going to be buried alive after the manner of the Indian magicians, who say they can suspend animation for any period by swallowing their tongues and controlling their heart and mind. "My coffin has gone ahead," said Mr. Seymour. "It is a fac-simile of the one in which General Grant remains now rest, and cost \$3,000. It is made in three sections, one fitting inside the other. I will be buried six feet deep in the coffin. Signals are to be arranged so that if things do not go right I can communicate with the soldiers on the outside,

who will guard the grave. Directly after I am buried a crop of barley will be sown over the grave. I will remain buried till the germs sprout, grow, ripen and are harvested. Then the disinterment will take place. I won't come back to earth until September 24th. I am positive I can do it, and the scientific men who are assisting me are beginning to think so, too."

A Negro Fiend Hanged.

BARDWELL, Ky., July 7.—The name given by the ravisher and murderer of the two innocent girls is Charles Miller, but it is believed he is the negro who has been in the habit of giving glass-eating entertainments in various parts of the country. The negro says he has not been in Kentucky recently, but a coat found at the scene of the crimes fits him, and rings found on him were identified as stolen Sunday night at Clinton, Ky. A fisherman who saw the fellow across the river the evening of the murder identifies him as the man. By 11 o'clock the crowd gathered here numbered thousands, and when he was taken from the train a mad rush was made and nothing could be heard above the shouts of the angry multitude. Finally the father of the murdered girls mounted a stand and said:

"This is the man who killed my children. Let us burn him at the proper time, but let us keep quiet."

The crime for which the negro is to suffer such a penalty was the ravishing and murder of Mary and Ruby Ray, aged 16 and 12 years, who were picking berries Wednesday morning near their home. A bloody coat found on the scene proved a good clue. The penitentiary blood hounds were given scent of the coat, and they followed the trail to the Mississippi river. The ferryman said he ferried over a yellow negro. The dogs were taken across the river and followed the trail to Bird's Point. There it was learned the man had been arrested at Sikeston, Mo. The prisoner tallied with the ferryman's description. His clothes showed evidence of the crime.

The party constantly received additions from Illinois, Missouri, Tennessee and Kentucky towns till it arrived here.

HANGED INSTEAD OF BURNED.

ST. LOUIS, July 7.—The ravisher and murderer, Miller, was hanged instead of burned at Bardwell, Ky., at 3:40 p. m.

Justice Blatchford Dead.

NEWPORT, R. I., July 7.—Associate Justice Samuel Blatchford, of the United States supreme court, passed quietly and peacefully from earth at 7:20 this evening. He retained consciousness until an hour or two before his death. There was no sudden change in his condition, simply a gradual slipping away, which had been taking place for the last week. The arrangements for the funeral are not as yet completed, but the body will probably be taken to Washington for interment. For many seasons the dead jurist had been a quiet visitor to this city during the summer season, and while not greatly given to society following, he was frequently entertained in the first families.

A Prehistoric City Discovered.

OAXACO, Mexico, July 7.—Mail advices were received here today from the state of Chiapa that a prehistoric city had been discovered in the dense forests near the line of Guatemala. A party of men engaged in making excavations came upon the ruins. A great many queer-looking utensils, weapons and stone ornaments have already been unearthed in the city. In one of the buildings have been found the skeletons of several human beings. These skeletons measure from seven to eight feet in height. No signs of metal of any kind have yet been discovered.

Ignored Satolli's Orders.

NEW YORK, July 7.—The Herald says Archbishop Corrigan has practically defied the authority to Monsignore Satolli. Monsignore Satolli directed the archbishop to restore Dr. Richard L. Durtell to the church of the Epiphany, from which he was transferred three years ago to Rondout, N. Y., for defending Dr. McGlynn, or appoint him to a parish in this city equally important as the Epiphany, but the archbishop, instead of following the apostolic delegate's instruction, referred the matter to the propaganda in Rome.

"My little boy was very bad off for two months with diarrhoea. We used various medicines, also called in two doctors, but nothing done him any good until we used Chamberlain's Colic, Cholera and Diarrhoea Remedy, which gave immediate relief and soon cured him. I consider it the best medicine made and can conscientiously recommend it to all who need a diarrhoea or colic medicine. J. E. Hare, Trenton, Tex. 25 and 50 cent bottles for sale by Blakeley & Houghton, druggists.

A STORM IN CHICAGO

Most Terrific the City Has Experienced in Several Years.

CAUSES DEATH AND DESTRUCTION

Four Persons Were Drowned and Many Others Had Narrow Escapes from Death.

CHICAGO, July 9.—A furious wind and rain storm passed over the city between 5 and 6 o'clock this evening, and caught many a craft on Lake Michigan. Four persons are known to have been drowned, and in several cases boats were capsized and narrow escapes from drowning were had. By the capsizing of the sailing yacht Chesapeake, near the life saving station, the occupants were thrown into the water and four were drowned. Their bodies were not recovered. The dead are Themistocles Flambolis, William B. Cornish, Ethel H. Chase and Harvey Marlow.

At the world's fair grounds little damage was done to buildings, but the passengers who were aloft in the captive balloon had a close call and the balloon itself was blown to pieces. The balloon was aloft when Aeronaut Allier noticed a black cloud to the northwest. He signaled to draw in rapidly and the balloon came down none too soon, for the passengers were barely out the basket when the wind struck it. It flattened out and trembled under the terrible force. Then, with a succession of cracks, the giant silk covering was rent completely in two and the halves were blown in different directions. The loss is about \$35,000. Two boys who hired a boat this afternoon have been heard of up to midnight, and at a late hour it is reported that the sloop Sen-shell, having on board ten persons, is missing. The boat was seen just before the storm and nothing has been heard of her.

SAILS FOR THE ARCTIC.

A Large Crowd Bids the Peary Expedition Bon Voyage.

PORTLAND, Me., July 8.—The steamer Falcon, bearing the Peary Arctic expedition, sailed from this port at 1 o'clock this afternoon. The Falcon was nearly overturned in her berth at the customhouse last night, the fall of the tide not having been sufficiently calculated considering the way the ship was loaded. The mate got heavy hawsers around each mast and reaching to the dock, so she was held up by the ropes. She was righted today. A big crowd was on the wharf to see her off.

As she steamed away cheer went up. Peary and the party were on deck and waived acknowledgments. The lieutenant proposes to make a brief stop at Eagle island, 14 acres large, and five miles off Harpsell. He bought this island soon after he left college, and as it is the only real estate he owns he wants to go ashore there and take a look at his property. The members of the party are in the best of health and spirits. After weighing anchor they will sail direct for St. Johns, Newfoundland.

Never Fails.

No instance of a failure on record when Simmons Liver Regulator has been taken. It cures dyspepsia, constipation and sick headache, strengthens the kidneys and gently assists nature.

Last fall I was taken with a kind of summer complaint, accompanied with a wonderful diarrhoea. Soon after my wife's sister, who lives with us, was taken in the same way. We used almost everything without benefit. Then I said, let us try Chamberlain's Colic, Cholera and Diarrhoea Remedy, which we did, and that cured us right away. I think much of it, as it did for me what it was recommended to do. John Hertzler, Bethel, Berks Co., Pa. 25 and 50 cent bottles for sale by Blakeley & Houghton, druggists.

Highest of all in Leavening Power.—Latest U. S. Gov't Report.

Royal Baking Powder

ABSOLUTELY PURE

STEWART INTERVIEWED.

Sherman Law Will Not Be Repealed Without a Substitute.

CITY OF MEXICO, July 8.—Senator Stewart, of Nevada, who is now in the city, conferred with President Diaz today on the silver question. The senator in an interview said:

"The desperate effort of the gold combination to convert contracts payable in silver into contracts payable in gold alone, by the destruction of more than half of the metallic money of the world, is producing its legitimate fruits in bringing bankruptcy and misery upon the people. It was necessary for Gladstone with his slender majority to act quickly and to suspend coinage in India. It is equally necessary to have an extra session of the United States congress to force action before gold contraction could be realized. But many bankruptcies have occurred, and they will arouse the people to resist the consummation of the resolution to reduce our basis of circulation and credit more than one-half. The scheme will fail. The Sherman act will not be repealed unless something better is substituted for it."

Expects a Cholera Visitation.

NEW YORK, July 9.—Miss Annesley Kenealy, appointed judge of the hygienic section of the world's fair by the ladies' committee of the British royal commissioners, arrived here yesterday from Southampton. Miss Kenealy was surprised at the stringent quarantine regulations which exist here. She said: "I do not think cholera could make a deep inroad into this country, but you need not be surprised if you have it at your doors. You were fortunate in escaping it last year, but I fear you cannot this fall. The prevailing, and I think the best, treatment is a saline injection, hot baths, and warm, stimulating drinks administered at the same time."

Bucklen's Arnica Salve.

The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains, corns, and all skin eruptions, and positively cures piles, or no pay required. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For sale by Snipes & Kinersly.

The Contract Signed.

ASTORIA, July 6.—The railroad deal went through today and the contract with Remington, the terms of which are not yet made public, was signed. Remington leaves for Portland tomorrow. He will at once go East and fix up the financial end of the business.

Captain Sweeney, U. S. A., San Diego, Cal., says: "Shiloh's Catarrh Remedy is the first medicine I have ever found that would do me any good." Price 50 cts. Sold by Snipes & Kinersly.

A Young Boy Drowned.

TACOMA, July 7.—Three boys named Hall, while wading in the bay this morning, went beyond their depth, and the smallest one was drowned. The others were rescued, nearly dead, by the chief of police.

SHARPSBURG, Pa., Jan. 27, 1892.

MR. J. J. KELL, Sharpsburg, Pa. DEAR SIR—I have used Krusche's Headache Capsules for some time and want to testify to their value. I tried various well recommended medicines, but got no relief until I used these, and now would not be without them for ten times their cost.

Yours respectfully, CHARLES T. SEDGWICK.

Purify Your Blood

By using Dr. Grant's Syrup of Wild Grape—the great blood purifier and system tonic. This preparation is purely vegetable and is made from the product of Oregon soil. The wild grape root is now conceded by eminent physicians to be one of the most powerful alteratives and anti-syphilitic known, and is prescribed daily in their practice. It will positively cure scrofula (or king's evil), malignant ulcers, tetter, salt rheum, erysipelas, ringworm, blotches, pimples, eruptions, boils, carbuncles, sore eyes, fever sores and swelling tumors; also syphilitic affections of the skin, throat and bones. Be sure and get the genuine with the 3-leaf clover and the signature of Dr. Grant. It can be found on sale by Snipes & Kinersly, druggists.

Shiloh's Vitalizer is what you need for dyspepsia, torpid liver, yellow skin or kidney trouble. It is guaranteed to give you satisfaction. Price 74c. Sold by Snipes & Kinersly, druggists.
