

The Dalles Chronicle.

VOL. III. THE DALLES, OREGON, FRIDAY, JULY 21, 1893. NUMBER 32.

STILL MORE HOPEFUL.

What was the Feeling Yesterday Among New York's Bankers.

WORLD COMING BACK TO AMERICA

Over Half a Million Arrived Yesterday and One Million Has Been Engaged in London.

New York, July 13.—This afternoon the hopeful feeling among the bankers became more pronounced. Frederick Tappan, president of the Gallatin national bank, said that one of the most necessary things was the resumption of the normal relations between the sub-treasury and the clearing-house. No more house loan certificates were issued and none were retired, but it was known that if the same easy condition remains next week, some of the large bank certificates will then be retired. Tappan said this afternoon that there would not be trouble in the money market. Money, he said, would be probably easy right along, and within the next week or ten days there would be a resumption of currency issues, particularly in notes of small denominations.

Gold Coming Back.

New York, July 13.—Gold is expected to resume leaving the other side Saturday, but the amount is not known. Representatives of foreign houses generally look for gold imports in the year, provided some settlement is made of the currency question, and credits falling due in August are extended by foreign capitalists. As for the immediate future, they do not, as a rule, expect much to come this way.

SOMETHING MORE DEFINITE.

New York, July 13.—Today \$500,000 gold arrived from Havana and \$125,000 from London. The Post has advised from London that \$1,000,000 has been shipped for shipment to this country.

LOOKING FOR COMETS.

Professor Wiggins Predicts the Appearance of One Soon.

OWASO, Ont., July 13.—Professor Wiggins says that in two or three weeks a very brilliant comet will be seen in the northern sky. He has been watching for some weeks for a comet, which he says is the large variable star known by Cornelius Gemma in 1570, in the constellation of Cassiopea, as its reappearance was about due. In 1864 he announced that Gemma's star, usually called the star of Bethlehem, was only a comet at its perihelion, when it was surrounded and gave it the appearance of a star of the first magnitude. He considers that his theory has been proved now, for on the night of the 8th he saw for a few minutes, between the clouds and near the pole of the heavens, a star of the sixth magnitude moving rapidly upward, which he pronounced a comet, and which is seeking nearer perihelion than in 1570. On its return from the sun it will be very brilliant. It is now, he says, probably below the horizon.

RAN INTO A SWITCH.

At Seven People Were Instantly Killed.

NEWBURGH, N. Y., July 13.—The east-bound West Shore train ran into an open switch half a mile south of here noon, and a bad smash-up resulted. The bodies have been taken from the wreck. A large number were badly injured and are being taken to the hospital. It is said eight to ten were killed, and over a dozen hurt. The train consisted of the engine, baggage car, three day coaches and a sleeper. It ran at a high rate of speed when the freight train on a sliding, caused a general wreck. The trainmen jumped and escaped, except one who was slightly hurt. Six or seven were killed, and 15 or 20 injured. The dead included four unknown women and a little child. The train was a few minutes at Cornwall, and made the distance from that place to the southern limit of Newburgh at a very rapid rate. It crossed Quasick creek, a mile south of the station, and ran a few rods further over the Pennsylvania Coal company's bridge, then ran into an open switch, and ran into the West Shore yard. In the yard a train was standing ready to pull on the main track. The day press engine struck the freight engine with terrific force. The engineer was killed, but was a little late and was slightly hurt. The fireman also jumped and escaped uninjured. The train crashed through the freight and all the passenger cars were more or less smashed. Coach 71, following the sleeper, had its side torn off and the trucks torn out.

FALL OF THE BASTILE

No General Observance of the Day in Paris.

FRENCH ANARCHISTS THREATEN

Revolutionists in San Salvador Have Been Defeated—French and Siamese Trouble.

PARIS, July 14.—Today is the 104th anniversary of the fall of the Bastille. The anniversary is usually celebrated with much rejoicing. Today, however, the fetes in Paris were tame, and the usual celebrations were conspicuous through their absence. This is due entirely to the feeling engendered by the recent riots. The municipal council, upon which heretofore much of the expenses of the celebrations have fallen, has taken no part in the observance. Members of the council, many of whom if not actually known as socialists, have leanings in that direction, are still sulky because of the government's action in regard to the labor exchange and threaten to dissolve their body. In view of these conflicts the council left the celebration in the hands of others, with the result that the decorations are hardly worthy of notice. The night illumination is abandoned altogether. The anniversary is noticeable for a lack of observance. The anarchists have taken advantage of the day to post incendiary placards. The police are busy destroying these red posters. They made many threats of what they intended to do today, going so far as to say that they would destroy the city with fire. The authorities are prepared for whatever overt acts they may attempt. The fire brigade and two regiments of troops are in readiness to fight fire or the anarchists themselves. The general opinion is the anarchists will confine themselves to threats and bluster.

A Revolution in San Salvador.

PANAMA, July 14.—Advises have been received here of a revolutionary uprising in the capital of the neighboring republic of San Salvador. A battalion of the government forces, commanded by Colonel Flores, mutinied and proclaimed a revolution. Its avowed purpose was to avenge Menedez and drive the assassins from power. The revolutionists endeavored to get the army corps to join them, but the latter remained loyal to the government. With the artillery under General Ezeta a battle was fought in which the revolutionists were defeated after a short fight. Then the rebels capitulated. In the engagement Colonel Flores was killed. His principal lieutenants were captured and thrown in prison, where they will remain awaiting court-martial. Senor Pedot was arrested later and he is also imprisoned. Many civilians have also been implicated in the conspiracy. Official reports have been promulgated by the government, denying that any revolution is now in progress or that there was any outbreak, and further declaring that everything is now quiet. Ezeta has established a censorship on any news relating to the outbreak, and no direct advices are obtainable.

What Senator Allison Thinks.

MINNEAPOLIS, July 14.—Senator Allison of Iowa is in the city, the guest of Senator Washburn. He said today the present financial disturbances were due largely to the fact that there is a belief that if we continue to purchase silver we must soon reach a silver standard. Added to this is an expansion of credits, and a distrust of the democratic policy on the currency and tariff. The stoppage of the purchase of silver will greatly aid in restoring confidence, and we can easily maintain a gold par all the silver. We have silver bullion now far below the normal price, and it will advance as soon as the policy regarding its use is more clearly defined, and it will eventually be restored to the old status. The original intent of the law was to increase the circulating medium, and it did so till recently. Now, however, it has the effect of causing a hoarding of gold and greenbacks, causing contraction; so it will probably be repealed.

California's Silver Men.

SAN FRANCISCO, July 14.—A meeting in the interest of the free coinage of silver will probably soon be held in this city. Silver mining men from Montana, Idaho, Nevada and other states, who are staying at the Grand Palace hotels, have been discussing the proposition of having such a meeting here, and steps will be taken to have one called by prominent citizens of San Francisco. It is desired to select delegates from California to the Bimetallic League which will meet at Chicago August 1st, and

THE KAISER WINS

The Army Bill Passed By the German Reichstag.

A SMALL MAJORITY, HOWEVER

The Emperor Delighted, and It Is Rumored He Will Make Chancellor Von Caprivi a Prince.

BERLIN, July 15.—Soon after the army bill was put on final passage today, and after speaking had commenced, it became certain that the leading opponents of the government meant business and did not intend to let the measure be adopted in a perfunctory manner. Speaker after speaker paid less attention to attacking or supporting the bill than to railing at political opponents.

NO SUNDAY OPENING.

The Directors Decide to Close the World's Fair That Day.

CHICAGO, July 14.—The world's fair is to be closed Sunday, after July 16. The admissions of next Sunday have already been donated for the relief of the families of the firemen who lost their lives in the recent fire on the grounds, and but for this fact the fair would probably be closed next Sunday. The vote of the local directors rescinding its former action was overwhelmingly in favor of closing, standing 24 to 4. When the meeting of directors was called late this afternoon an address strongly advocating Sunday closing and signed by most of the leading Chicago clergymen was read. After several speeches in favor of closing, resolutions were adopted setting forth the fact that the action opening the fair was taken in response to urgent appeals from persons and organizations representing a large majority of the public, as well as from stockholders of the corporation, and also in accord with resolutions adopted by the city council of Chicago. It not appearing by actual admissions that the general public does not, by its attendance, manifest a desire that the exposition be kept open each day, and if the exposition is kept open Sunday it will require the attendance of more than 16,000 laboring men and women, employees of the exposition and others, and it further appearing that the number of laboring men and women whose services are required to keep the exposition open Sunday is disproportionate to the number of visitors, all previous resolutions of opening Sunday are rescinded, to take effect after the 16th inst.

POOR VERAGUA IS BUSTED.

President Palmer is Sorry For the Poor Duke.

CHICAGO, July 13.—President Palmer has addressed the following letter to George W. Childs, of Philadelphia, in reference to the proposed fund to be raised for the Duke of Veragua: "Knowing that you are familiar with the distressing financial embarrassment of our good friend, the Duke of Veragua, I take the liberty to ask you to co-operate with me in raising a fund sufficient to insure the duchess and her children against actual want. The story is published in some newspapers that he wasted a large fortune in gambling and speculating upon the Paris bourse. I believe it to be a cruel scandal and without the slightest foundation or excuse. His estate was never large, and what little of it there was has been wrecked in ruinous investments. During his recent visit to America, his house at Madrid, with all its contents, was seized by his creditors to satisfy judgments, and he returns to Spain homeless and hopeless, so far as the recovery of his fortune is concerned. His grace declines to accept any financial aid for himself, but would be very grateful if his family could be provided for. I therefore propose to ask the generous people of the United States and other republics of America to subscribe to a fund which shall be permanently invested in this country for their aid. I shall ask General Horace Porter, J. M. Ceballos and J. N. Navarro, of New York, to act with us as a committee to solicit contributions, and would be greatly obliged if you would take an early opportunity to confer with them on the subject."

During his recent visit to America, his house at Madrid, with all its contents, was seized by his creditors to satisfy judgments, and he returns to Spain homeless and hopeless, so far as the recovery of his fortune is concerned. His grace declines to accept any financial aid for himself, but would be very grateful if his family could be provided for. I therefore propose to ask the generous people of the United States and other republics of America to subscribe to a fund which shall be permanently invested in this country for their aid. I shall ask General Horace Porter, J. M. Ceballos and J. N. Navarro, of New York, to act with us as a committee to solicit contributions, and would be greatly obliged if you would take an early opportunity to confer with them on the subject."

It May Go Against the United States.

OTTAWA, July 14.—Professor Macoun, sent by the Dominion government to make a supplementary report upon seal life in Behring sea, just returned from Paris, where his evidence was laid before the court of arbitration. Asked as to the general impression in Paris when he left as to the decision of the tribunal, Professor Macoun said:

The general impression is that Great Britain will win the case. The first part of the American case in the question of right would have been decided against them, had the hearing taken place in an ordinary court without the British side being called upon to reply. The arbitrators will have a stiff fight over the points presented.

Brooks Jail and Escaped.

LIVERMORE, Cal., July 14.—Charles Sawyer, who has been on trial here for the attempted murder of his wife and whose case was continued until next Friday, escaped from the town jail about 2 o'clock this morning. He managed to work one of the bars of his cell loose, after which he forced a heavy plank from the side of the jail, through which he escaped. He left a note to the officers, saying: "Gone to the world's fair." Officers are now in pursuit. Sawyer had kindled a fire on the floor and evidently intended to burn down the jail, but did not succeed.

Two Skeletons Found.

FLORENCE, Ala., July 14.—The unearthing of two well-preserved skeletons by a party of workmen in a quarry on Mussel Shoals has created considerable excitement. An investigation showed that the skeletons were evidently the remains of Cherokee Indians who once lived on Colbert's reservation near this city. Many believe, however, that the skeletons are the remains of murdered men who were hidden in the crevices of the rocks.

Take Simmons' Liver Regulator

to improve the appetite, to strengthen the system, to stimulate the liver, to cleanse the skin of its yellowness, to remove boils and pimples and cause new life in the blood.

Banks Feel Easier.

NEW YORK, July 14.—A decided improvement in the financial situation is noted by bankers. Banks are beginning to retire clearing-house certificates, and it is believed this will continue. The banks are receiving large amounts of currency from the country, and there is a noticeable decrease in applications for country banks for redcounts. Merchants' and manufacturers' reports show them in better condition than could have been hoped for, with the indication of a quick recovery. The Central Pacific has declared a regular semi-annual dividend of 1 per cent.

Buckley's Arnica Salve.

The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains, corns, and all skin eruptions, and positively cures piles, or no pay required. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For sale by Snipes & Kinersly.

Canadian Pacific Officers Indicted.

WASHINGTON, July 14.—The interstate commerce commission confirms the report from Tacoma, Wash., that President Van Horne, of the Canadian Pacific, and several local agents of the road have been indicted by the grand jury for violations of the interstate commerce act in making a secret cut in passenger rates.

MONTREAL, July 14.—The news of the indictments against President Van Horne, charging him with violation of the interstate commerce law, has caused great consternation in Canadian Pacific railway circles.

"My little boy was very bad off for two months with diarrhoea. We used various medicines, also called in two doctors, but nothing done him any good until we used Chamberlain's Colic, Cholera and Diarrhoea Remedy, which gave immediate relief and soon cured him. I consider it the best medicine made and can conscientiously recommend it to all who need a diarrhoea or colic medicine. J. E. Hare, Trenton, Tex. 25 and 50 cent bottles for sale by Blakeley & Houghton, druggists.

A Plug of Crickets.

OMAHA, Neb., July 14.—The crops of the West are threatened by the invasions of an army of crickets, of the genus *cryllus*. They are now in Wyoming near Casper, and are moving rapidly eastward devouring potato fields in an incredible short time. They are mostly together in solid ranks three-fourths of a mile deep and are making a loud noise which may be heard distinctly for miles. They will, at their present rate, arrive in Nebraska in time to harvest the sweet corn crop. The whole country is alarmed at their ravages.

Elder S. S. Beaver, of McAllisterville, Juniata Co., Pa., says his wife is subject to cramp in the stomach.

Last summer she tried Chamberlain's Colic, Cholera and Diarrhoea Remedy for it, and was much pleased with the speedy relief it afforded. She has since used it whenever necessary and found that it never fails. For sale by Blakeley & Houghton, Druggists.

French and Siamese Fighting.

LONDON, July 14.—A dispatch from Bangkok, the capital of Siam, states that 20 Siamese were killed and 14 wounded yesterday during an exchange of fires between the forts at the mouth of Menam river and the French gunboats Comet and Inconstante, which forced a passage of the bar in the face of orders from the Siamese government forbidding their entry into the river.

La Grippe.

During the prevalence of the grippe the past seasons it was a noticeable fact that those who depended upon Dr. King's New Discovery, not only had a speedy recovery, but escaped all of the troublesome after effects of the malady. This remedy seems to have a peculiar power in effecting rapid cures not only in cases of la grippe, but in all diseases of throat, chest and lungs, and has cured cases of asthma and hay fever of long standing. Try it and be convinced. It won't disappoint. Free trial bottles at Snipes & Kinersly's drug store.
