

MITCHELL NOTES.

Launce Laswell Killed by a Horse—Other Matters.

One day last week while riding to school, Lonnie Laswell was thrown from his horse and so seriously injured that he died within a few hours. The cause of his horse throwing him is not known, since he was riding in advance of his brother and sisters and out of sight. He had fallen on his shoulder, crushing the entire side of the trunk of the body, breaking the collar bone and driving it into the lung. Dr. Hank of this place was called in, but nothing could be done only to alleviate the suffering of the little fellow until the mysterious One came to claim his own. Mrs. Laswell is a widow, beloved and respected by all who know her, and her many friends extend their heartfelt sympathy at her sudden and sad bereavement.

Grain crops of this and surrounding places are not so favorable as last year, the late cold rains of spring retarding growth, causing it to be feeble and stunted. Since the rains, winds have blown cold and bleak, warm and dry. Hail and snow did not fail to visit us, neither did Jack Frost fail to nip the tender blades of cereals slightly, although enough to keep it from putting forth as lively an outlook as if it had failed in its visit.

Mitchell is making some very pleasant improvements. Mr. Sasser of this place, and successful hotel proprietors and merchants, are building hotel and stores combined which is proving to be quite a presentable piece of work. Also Mr. Misner's saloon keeper is building a very neat and comfortable dwelling. Dr. Hank and E. E. Allen contemplate erecting dwellings in the near future.

Once more diphtheria has shown itself in the West Branch section. The five-year-old daughter of Mr. Gambol was taken seriously ill, and at last accounts she was not expected to live. Some rigorous disinfectants should be applied to thoroughly cleanse places where the disease is known to be since there is hardly three months passes without one or more cases, and many prove fatal.

Weather, yes we have plenty of it. We have all seasons of the year in a week. Just now it is giving us summer in all its intensity. The thermometer ranging from 84° to 62° in the shade during the day, but generally, nights are cool enough to induce healthful sleep.

Failure at Dufur.

M. J. Anderson is in town from Dufur today. He reports the first failure in that town and lays claim that Dufur is as progressive as the next. He says that owing to the unprecedented hot weather of the season at Dufur there was a run on the ice house there by C. P. Balch and others and that in consequence a notice was posted up on the door "This institution closed until collections can be made." He then started off in hot haste for the Dalles with the news. It is thought that those who precipitated the run this morning will repent at leisure, for there is no other depository of the kind at Dufur and the amounts drawn will fade into nothingness before the shades of evening fall.

Banana Peel on the Sidewalk.

The street car had passed, but to catch it he reckoned. So he ran like a deer, and shouted and beckoned. Till he planted his heel on a smooth bit of peel— Then he saw half a million of stars in a second. He was in too great a hurry; better have waited for another car. There are cases, however, where haste is necessary. If you have night-sweats, feverishness, weak, sore lungs and a hacking cough, do not lose an hour in obtaining a supply of Dr. Pierce's Golden Medical Discovery. Delay in such cases is dangerous; it may be fatal. Before the disease has made too great progress, the "Golden Medical Discovery" is a certain cure. In fact, it's guaranteed to benefit or cure, or money paid for it promptly refunded.

Krause's Headache Capsules.

A remedy used with unvarying success as a cure for Headaches of all kinds. The results have been so universally good that it is no longer an experiment. It has been used for Headache resulting from Dissipation, in Periodical Headache, in Headaches caused by severe labor (mental or physical), or by exposure to the sun, and in all cases with the most gratifying results. We have, after a thorough investigation, had no hesitancy in taking the agency for this effective remedy, and conscientiously recommend it to our patrons.

A Great Convenience.

Worlds fair visitors travelling via the Northern Pacific Railroad, and Wisconsin Central line, are landed at the Paid Central station in Chicago.

This magnificent fire-proof building, located in the heart of the city has been fitted up as a hotel, run on the European plan, with about 200 rooms handsomely furnished and each room is supplied with hot and cold water, electric lights, etc.

The charges for accommodations are reasonable and parties can secure rooms in advance by calling upon agents of the Northern Pacific railroad.

By taking the Northern Pacific through car line to Chicago, visitors will avoid the discomfort of all transfer in that city, and can also travel between the Grand Central station and world's fair grounds by trains which run direct between the two points. 2d11wlm-7-12

Language of the Press.

It may be interesting to note the variety of languages employed in the world's newspaper press. Complicated System of Measures.

It will scarcely be believed that wheat is sold in the United Kingdom under nearly two hundred different systems of weight. There is almost as much diversity in regard to barley and oats. The result is that quotations from the various markets create bewilderment and confusion even in the minds of experts.

"A small spark makes a great fire"—and a short "spark" has been known to make a million-dollar match.

"Borrowed garments never fit well"—and the same may be said of the garments "made to measure" in London.

Blossom in Portland.

The Oregonian reports that D. W. Blossom of The Dalles was robbed of a gold watch and chain and lost a diamond pin while in Portland recently. Halle) and the latter is now held to appear before the grand jury under \$1,000 bonds.
