

Crop Weather Bulletin.

WESTERN OREGON.
MATHIAS—The temperature during the past week has been cooler by four degrees than it was the preceding week; the sky became cloudy and the temperature began to fall. Sunday, the rain was cloudy, cool and fresh winds, rain along the northwest coast and the Columbia river to Hood River.

—A good soaking rain would be of great benefit to the hops, corn, late and fruit, gardens and pastures. Hops are dry, making the soil very hard. Hops have good growth; they are very clean, there being few lice; the berries are small, produced by lack of an improvement in the size is noted. Peach plums, the early ones and apples are ripening quite early; usually they are ripe by July. The codlin moth is developing and damage will be done by the apple and pear crop. Green and tomatoes are in the market. Potato crop is generally good, though it will be improved by rain. Harvesting of fall wheat and oats continues, and will begin this week. The residents all agree that the grain is about much better than was expected. Some little threshing has been done which yielded from 25 to 42 bushels. Spring sown grain does not show much improvement; it will not be harvested for ten days or more. It is expected to yield below the average; not more than 12 to 16 bushels of wheat and 10 to 12 of oats to the acre are expected.

EASTERN OREGON.
—The first part of the week was cooler, but the latter part was drier, with light frosts on the elevations; an occasional sprinkle fell, though practically there was no rain. The mean temperature for the week was 62 to 70 degrees, as against 65 to 75 degrees the preceding week. Harvesting is in progress in the Columbia river counties, and in part of Baker county. Harvesting to the south it will begin early. Some threshing has been done and the yield is beyond all expectations. The wheat, oats and barley are excellent, the total product of the year to be greater than that of any year. The quality will be good. Some farmers are troubled how to get their grain harvested and how to get the sacks to hold the grain.

—The crops are good and the prospect is a plentiful hay crop for the winter. The fruit is ripening and will be freer than usual from the market.

—Supplier of these bulletins, R. S. Mathias, on the 16th of Chicago to the annual meeting of the American Association of State Weather Service, which is the first vice president to attend the international of the Meteorologists. He will be about three weeks and during the usual work of the office continued by Mr. S. M. Bland-Clark.

METROPOLIS NOTES.
—Maudericka Hagenberger, a pioneer, Tuesday evening, aged 76 years, died at her home.

—Miss Clark, a painter's daughter, struck over the head with a brick by a man who had been drinking her. Her screams caused a mob across lots and disappeared.

—The report of the Portland Savings Bank is not giving satisfaction to depositors in that city. Values are said to be low, overdrafts allowed, and the bank is being closed.

—A man got into a room occupied by a man and wife. The latter saw him and gave an alarm. The burglar fled and the man and wife were not hurt.

Their ominous number has no effect on their spirits, for they are the jolliest crowd imaginable. A part are from Munich and a part from Munchen, Germany. IN THE TWO STATES.

Frank T. Gilbert of Walla Walla has just been appointed state librarian of Washington. Rev. H. Sadlers of Halley, Idaho, while attending the church conference just closed in Baker City, got drunk and visited the Fannie Hall bagnio, and was expelled from the church on proof of having visited a house of ill fame. Nellie, the 15-year-old motherless daughter of R. G. Gibson, who lives near Marengo, Garfield county, Washington, has made complaint, charging her father with incest. She said that two years ago, while her mother was alive, he began abusing her. After her mother's death she was placed in an orphan's home in Spokane, but was taken home in July, when he repeated his abuse under threats. He has fled and a warrant has been issued for his arrest. This summer, it is said, will see the last of the famous Harney valley crickets. They are dying by millions from disease, and have not yet deposited their eggs. Those who have observed their habits say the disease which has caused their destruction in other places is the same to all appearances as that which is killing them there. They have been in the valley in numbers ever since it was first visited by white settlers. Four masked men entered Ed. C. Allen's store in Grant county, a few days ago, compelled him at the point of a six shooter to open his safe, and relieved him of \$1,000 in coin. A young lady was in the plot and received \$150 of the booty. One of the robbers was tracked to her house and she became frightened, gave up her part of the money, and told the names of the robbers. All of the men are under arrest and most of the money has been recovered. The names of three of the men are Crisman, Davis and a fellow called "Tex."

A Natural Curiosity.

A Lepus naturus among human beings, and even cattle and sheep, is met with quite often in a lifetime, but the most singular freak of nature was shown to this morning, the head of a common digger squirrel with abnormally long teeth. The right upper tooth is about two inches long and curled in the shape of a mountain sheep's horn. The left lower tooth is about three-quarters of an inch long and has grown into the upper jaw, forcing the mouth open at a wide angle. While alive the little animal must have been a constant sufferer, from the continual effort to hold its mouth open, as the long tooth is as sharp as a needle. Mr. Frisco of Hood River is the owner of the squirrel head, and shot it about a week ago. It is of mature age, and from the yellow discolorations of its teeth, must have been an old one. How it handled its food is a mystery.

Too Bad.

There's war among the natives at Grande Ronde—not exactly among the natives but on the domain supplied them by Uncle Samuel. There is in the schools of the agency a white "schoolmarm," who not long ago was brought on from the east. On the reservation is a young brave, who would be taken for a white man, though Indian blood courses through his veins. A deep friendship sprung up between the school m'arn and the young brave, and their friendship deepened into love. They were to have been married last week, the house was furnished into which they would settle down into happy domestic life. But "there's many a slip 'twixt the cup and the lip." A bright-eyed, rosy-cheeked maid of the forest appears on the scene, and Friday, with the brave who was to have married the white woman, went to Dallas, where the nuptial knot was tied. In consequence the schoolmarm was interviewing Justice Field at Sheridan Saturday, and swearing vengeance on her betrayer.

Unjustifiable Assault.

The Astoria Herald publishes portraits of the water commissioners. They look like they were made with a butcher's cleaver and a base ball bat. The same implements might with justice be employed on the anatomy of the artist who dabbered up good type metal in such a diabolical way.

Deliberately Plans a Horrible Death for Three Boys.

BRAYER FALLS, Pa., Aug. 15.—A bench act was perpetrated yesterday afternoon near Homewood, which resulted in the death of three boys today. Frank Graham, of Homewood, 17 years old, knew three other boys were hunting ground hogs about a mile below the village. He got a can of blasting-powder, attached a fuse, and placed it in a little pile of rocks and waited until the young hunters neared the spot. Then he lit the fuse and crept off to a safe distance. Burgess Reed, 16 years old, and James Reed, aged 14, sons of Smith Reed, a well-known farmer, with James Carner, aged 17, approached the spot, entirely unconscious of danger. The can exploded, all being maimed and burned terribly. Physicians did everything possible for the young sufferers, but they died this morning. Graham made his escape, and is still at large.

Seventeen Drowned.

DUBLIN, Aug. 16.—A fatal accident occurred today to a party of merry-makers in western Ireland. An excursion party left Kilkree in the southwestern part of County Clare, intending to cross Carrigrohilly bay of the river Shannon. When the party was a considerable distance from shore their boat capsized, and everybody on board was thrown into the water. Seventeen of the excursionists were drowned.

Doing Without Chinese.

FRESNO, Aug. 15.—Chinatown is full of Chinese workmen who have come in from the country in conformity with the plea of E. B. Rogers, manager of the Margerita vineyard, has ordered 75 boys from San Francisco, and 25 more from the deaf and dumb asylum, to pick grapes and fruit.

MATRIMONIAL.

No other will be considered unless the writers contemplate immediate matrimony. Full particulars must be given. State age and religion. Enclose picture if convenient. NEWS NOTES.

Four hundred chairpushers at the Chicago fair have struck against a reduction in pay. The Southern California railway has postponed its payday from the 15th to the 31st of August, on account of scarcity of funds. Seven thousand of Chicago's unemployed held a meeting in Chicago Tuesday and adopted resolutions calling upon congress to do away with the present evils in the financial world, and demanding that the Haymarket monument erected in the memory of the policemen killed during the anarchist riots of 1886 be torn down. Political Economist Horace F. Cutter proposes a scheme to end the monetary stringency by buying British Columbia, paying therefor in silver bars. "One hundred millions of dollars, payable in silver bars at say an average of 39 cents per ounce, would give England the opportunity of converting the same into coin, which might be made so as to correspond precisely in value to our own dollar. By international agreement a similar amount of \$140,000,000 could be given by the United States, both giving \$280,000,000 of silver coins to be interchangeable between the people of both countries; thus taking an immense step in the direction of the 'coin union.'"
