CRASH ON THE RAILS

Fair Trains Crash Into Each Other.

KILLED, FOURTEEN INJURED

of the Wounded, It is Thought, Will Die--List of the Dead.

Minor Mention.

Sept. 19.—Last night, owing to heavy world's fair travel, the "Big Four" express left in two sections. At Manteno, 60 miles from Chicago, the first section stopped for just beyond a curve. The second followed close behind and into the standing train at a rate of speed before the flagman got back far enough to give warning. Fortunately the last car of the section was empty, else no one in it would have been left alive, as it was into kindling wood. The next cars were sleepers and the force of impact drove them into two day coaches in front, which, owing to their construction, were crushed. Two cars were filled with passengers. The citizens of Manteno lent all assistance possible toward rescuing wounded and removing the dead. First hurt were taken to the neighborhood. Others were brought to Chicago and taken to St. Luke's hospital.

WASHINGTON NOTES.

Anti-Chinese Exclusion Bill.

Washington, D. C., Sept. 15th, 1893. (Correspondence of THE CHRONICLE.)

calculated to make a man rub his eyes and ask himself whether this is not the time when he hears the demagogues advanced in favor of which has been reported to be providing for the removal of the vestige of federal control over national and presidential elections. The title of this bill should be "bill to perpetuate democratic rule of the southern states, and of the New York, Massachusetts and through the hoodlum element of New York, Chicago and for that is its real object. The bill in favor of the bill are practically the same as those advanced in the favor of secession. The author of the bill—Representative Tucker, of —has the audacity to say that the federal government has no right to raise the elections of the state's representatives in congress." Since the states have any representation in congress? If representatives are officials, what did the framers of the constitution of the United States say: "The times, places, and mode of holding elections for senators and representatives shall be prescribed by the legislature thereof; congress may at any time by law or alter such regulations," this: "Each house (of congress) shall judge of the elections, returns and qualifications of its own members. The senate has within a short period its authority under the constitution, by refusing to seat appointed by the governors of states, and it was done, too, by the democratic senators, acting under direct order of the president; and was the democratic party ever

A REIGN OF TERROR

A Race War Imminent Near New Orleans.

STATE TROOPS MAY BE CALLED OUT

A San Francisco Doctor Thought to Have Murdered Addie Gilmour.

Minor Mention.

NEW ORLEANS, Sept. 20.—Leading colored men at a secret meeting appointed a committee to ask the governor for troops for protection against the reign of terror in Jefferson parish, in the outskirts of the city. A mass meeting of colored citizens of the state is called for Monday. There are indications of serious trouble. Jefferson parish has been declared under martial law by the residents. The sheriff, judges, senators and representatives are the leaders of the regulators. It is impossible to learn whether the murderer of Julian was captured or burned at the stake. It is believed the state troops will be called out today. Many white women and children have come to the city for refuge. Bloodhounds from the penitentiary were let loose this morning in the swamp to track the murderer. On the exact spot where Judge Etoupinel fell an iron stake has been driven into the ground, to which the murderer will be tied when caught. Resinous pine fagots surround it, and branding irons are ready with which he will be tortured while suspended from the gallows by his arms above the fire.

It Looks Like Murder.

SAN FRANCISCO, Sept. 20.—The police are looking for Dr. Eugene F. West, who they think is responsible for the death of Miss Addie Gilmour, the young woman whose head was found floating in the bay. The police have a theory that Dr. West performed a criminal operation on the young woman which resulted in her death, and that in order to conceal the evidence of his crime he cut the body up and threw it into the bay. Until yesterday West had an office on Turk street in this city, but he disappeared yesterday afternoon when the fact was published that the head had been identified.

AWARDS TO OREGON.

Prizes Taken at the Fair for Native Woods, Etc.

WORLD'S FAIR GROUNDS, CHICAGO, Sept. 19.—Oregon has received the highest award for a comprehensive collective and commercial exhibit of native woods at the world's fair; also an award for spruce wood pulp of mechanical manufacture by the Young's River Mills of Astoria. The state also received the highest award for the best collective exhibit of fish, clams in alcohol, mounted salmon trout, mounted seal, fish in alcohol, painting of Astoria harbor, Columbia river fishing boat and equipment, model of Columbia river fishing net and wheels, photographs of the salmon industry, fresh frozen salmon by J. G. Megler & Co., Brookfield, Oregon; canned salmon, M. J. Kinney, Astoria; canned salmon, J. O. Hanthorn, Astoria; canned salmon, Samuel Elmore, Astoria, and canned salmon bellies, Cutting & Co., Astoria. The International Nickel Mining Company, of Riddle, Or., received the highest award for silicate of nickel magnesia.

RIO MUST SURRENDER.

Else the Rebel Warships Will Bombard It.

LONDON, Sept. 20.—Admiral de Mello has sent his ultimatum to the authorities at Rio de Janeiro, announcing his intention immediately to thoroughly bombard the city with all his ships unless it is promptly surrendered. This information comes from the agent of a leading banking-house of this city with large Brazilian interests, and is believed to be thoroughly reliable. The dispatch adds that Rio is in the utmost consternation and dismay. Citizens are fleeing to the country with such of their belongings as they can carry. Merchants are packing goods in cellars preparatory to following them. Consular representatives of the powers are using their utmost efforts to dissuade the rebel commander from carrying out his threat, but so far without avail. Heavy pressure is being brought to bear on the local authorities to induce them to surrender, as it is considered folly to resist, the forts being unable to do anything against the rebel gunboats, and the land artillery is unable to reach them from their shelter behind the islands in the bay from which they throw shells into the city. It is recognized that to hold out means simply the destruction of the city without any compensation or ad-

IT WAS SMALL POX

The Blunder of a Smart Medical Instructor in New York.

ELEVEN NEW CASES REPORTED

Rio in a State of Siege--The Gilmour Murder Mystery--Substitute for the Exclusion Bill.

NEW YORK, Sept. 21.—Eleven new cases of small-pox were reported to the health officer from various parts of the city yesterday. A blunder that amounts almost to crime has been committed in clinic, and by it the seed has been sown that may yet bear a disastrous crop. The list of today's victims is headed by two young doctors. It was their coming down with the disease in one day, within a few hours of each other, that exposed the blunder. The Vanderbilt clinic, in West Fifty-ninth street, was the scene of it. September 4th, James McGowan, a laborer, went to the dispensary and asked to be examined. Suspicious blotches colored the skin. An expert in skin diseases, attached to the clinic, saw him and concluded that he had before him a fine case of chicken-pox. He did not make it his business to find out that the house from which McGowan came had been the scene of persistent cases of small-pox, with which the health officers are struggling yet. He took the man in before the clinic of young doctors and paraded him as a typical case of chicken-pox. The doctors were interested. They looked at the blotches on the man's skin, and felt of them, listened to the expert's exposition of the difference between the shot-like feeling of small-pox pustules under the skin, and the more solid touch of the harmless chicken-pox. It was very instructive, and altogether a rare chance. There were 20 to 30 doctors, and they all took their turn at the fine exhibit. Among them were Drs. Richards and Norris. Today those two are lying ill with the small-pox. That is what the exhibit turned out to be when it got into the hands of the health officers. How many more of the young doctors will follow these, there is no telling.

THE SITUATION AT RIO.

A Furious Bombardment is Hourly Expected.

LONDON, Sept. 21.—Private advices from Rio Janeiro say a furious bombardment is expected hourly. The only reason the bombardment has not commenced is that yesterday negotiations between the rebels and the government were undertaken at the instance of foreign powers and foreign warships who wished to save the city from destruction. It is not believed they will amount to anything; in fact, it is believed the government is merely prolonging them to allow the non-combatants to get away and the merchants to save goods. The statements of yesterday are confirmed from several sources. An attempt of the Brazilian minister to belittle the rebellion is not accepted with any credence in London. The people of Rio admit the rebellion has progressed to such an extent that it is better to let the city fall into the hands of the insurgents than to be shelled. The rebels at Rio are in communication with the insurgents in the south, and all are acting in unison. After success at Santos they propose to attack Porto Alegre and Rio Grande do Sul. In fact, the insurgent vessels, it is said, have already started on that errand. There is no doubt the rebels are meeting with success. In fact, a report that they have occupied Rio is in circulation here this morning.

The New Exclusion Bill.

WASHINGTON, Sept. 21.—The committee on foreign affairs today considered the McCreary substitute for the Everett bill, extending the time of registration for the Chinese. Discussion developed the fact that every member favored the extension of time six months, with the possible exception of Geary. The latter gave notice he would offer an amendment providing for identification by means of photographs. The committee adjourned without action, but there is doubt at the next meeting the bill will be favorably reported.

A Sure Cure for Piles.

Itching piles are known by moisture like perspiration, causing intense itching when warm. This form, as well as blind, bleeding or protruding, yield at once to Dr. Bosanko's Pile Remedy, which acts directly on parts affected, absorbs tumors, always itching and effects a permanent cure. 50 cents. Druggists or mail. Circulars free. Dr. Bosanko, 329 Arch St., Philadelphia, Pa. Sold by Blakeley & Houghton.

NEWS NOTES.

The non-arrival of the English Yacht Valkyrie is causing much uneasiness. A man and four women were suffocated in a fire in a pastry-cook shop in Whitechapel, London, yesterday.

The position of President Peixoto is desperate. No doubt is entertained in Rio of the success of the revolution and the restoration of the monarchy.

News is just received from Harrison township, twelve miles from Washington, Ind., that Deneson Wrattan and family, six in all, were murdered last night.

Five more dead bodies were found on the strip, all having perished from prairie fires, and two more are reported to have killed each other in a quarrel over a claim near Cross.

Andrews, of Woolwich, in a revolver contest at the London Rifle Club, made 42 points, the highest possible score. He placed every shot within a two-inch ring at 20 yards. The highest previous record, made by Williams, was 41.

W. H. Thomas, a prominent lawyer and well known republican, committed suicide at his residence in Garvanza, Calif., by means of morphine. He has long been a sufferer from consumption, and the suicide is attributed to a desire for relief from pain.

Fireman Liberty has given up \$30,000 of the money taken by the robbers from the Mineral Range train. He says he had the other \$40,000, but some of his confederates made away with it. It is doubtful if it is recovered. Eight more arrests have been made.

In a fight with two stragglers at Helena, Mont., Major Wyman, agent for the Crow Indians, received a bullet wound in the breast. The major's escort of Indian police killed the two assassins. One of the dead men was Ted Hamilton, of Dillon, Mont.

The cable attached to the cage in Wighton's coal shaft, near Morrissdale, Pa., broke today, when the cage was near the top. Seven miners who were in it fell 135 feet to the bottom. They were all terribly wounded, but so far only one death has resulted.

The revolution in Argentine is spreading. Affairs have assumed a most alarming aspect. The government was defeated in a battle in Tucuman. Anarchy prevails there. Ex-president Pellegrini has gone there with 1,500 troops. The rebels threaten several other points.

The Peoria opera house burned, caused by an explosion of fireworks during the play of "Michael Strogoff." Twenty-five persons were burned, some seriously and one fatally. The stocks of Schadzki & Skirek, clothiers, and Woods & Wonderly, dry goods, were destroyed. The total loss is \$100,000.

The most daring mine robbery ever committed in Colorado occurred at the Little Johnnie mine, near Leadville. Two masked men bound and gagged the watchman. They then began carrying off the ore, which was in sacks, to a team. They secured 14 sacks, valued at over \$20,000. There is no clue to the perpetrators.

The German papers speak highly of Emperor William, who, on hearing of Bismarck's illness, offered him one of the imperial castles as a residence. The national Zeitung says: "The emperor's endeavor to restore friendly relations, which ought never to have been severed, will receive a warm approval from the majority."

In the senate yesterday Dubois of Idaho declared that the anti-repeal men would oppose the passage of the repeal bill by availing themselves of every advantage afforded them under the rules and usages of the senate. Voorhees retaliated by giving notice that he would tomorrow move for longer and more nearly continuous sessions, so the situation in the senate appears to resolve itself into a mere question of endurance.

Sunday afternoon a very sad case of drowning occurred in Lewis river, about four miles from Atna postoffice, in Washington. The victim was Laura, the 10-year-old daughter of Mr. and Mrs. Honnes, who live there. Laura, in company with several other children, was playing on the bank of the river, when she ventured too near the brink and fell into the stream. She was seen by her playmates, who immediately gave the alarm. Heroic efforts were made to save the little girl, but they proved unavailing. She sank, but the body was recovered in about ten minutes; too late, however, for resuscitation.
