property of which Mr. Rorden was agent, and at present occupied by Mr. Lewis, on the corner of Ninth and Union. The recorder was instructed to serve proper notice looking to an abatement of the nulsance. The city marshal was further instructed to enforce the ordinance connecting all sewers, the owners of which had thus far refused to comply with the notice already given

It appearing that there are several team licenses unpaid, a motion carried that the marshal at once enforce their collection.

The petition of C. E. Bayard and others then came up, praying for the removal of about ten feet of the west side of Court street, unlawfully fenced, and the removal of the obstructions on the south side of Ninth street, between Union and Court, consisting of a fence in the street adjoining the lots of Thos. McGraw and Mr. Drews. On this proposition an animated discussion arose between Ald. Eshelman of the one part and Ald. Kreft and Butts of the other. The former contended that it was a neccessury improvement, while Mr. Kreft said there was not an open street there. Put to a vote, the petition was granted by o to 2.

Mr. Story then arose on behalf of Mr. Mesplie, and stated that the latter's horse had been impounded and sold for \$10 without his knowledge. Mr. Mesplie made a statement, charging that the horse had never left home and must have been driven from the place. In reply the marshal stated where he had found it on Ninth street, that he had advertised it ten days and notified Mr. Mesplie.

The recorder enlightened the council on the charter law providing the manner which a suit for damages shall be brought, and on motion of Ald. Hudson, it was decided that should Mr. Mesplie consider himself aggrieved, he should proceed before the recorder's court, as provided by the ordinance.

UP AT THE FAIR GROUNDS.

Preparations Nearly Completed-List of Horses Now in Active Training.

A CHRONICLE reporter went up to the fair grounds this morning and noticed the preparations that are being made for the coming fair. While it is yet several days before the time of opening, there are a large number of horsemen with their racers on the grounds. The track is in excellent condition and the rains have laid the dust all over the grounds. The pool stands yet remain to be put in condition, but all other details necessary to a successful meeting are in good order. This morning there were horses continually being exercised on the track. The trotting entries have not yet arrived, there being as yet but one trotter on the grounds; but all the running stables are occupied. Many of the horses are old favorites, while the others are just from the bunchgrass and have yet to run their first race. The pavilion is in order for the reception of exhibits and the sheds are ready for the fat stock. Those who attend this year may be

sure of seeing good races and full entries. The state's premiums are liberal and should induce large exhibits. The pony race offers a chance for the young boys who own cayuses, and the prize is tempting enough to make it worth the while to enter. Through the kindness of the owners of the horses, the following list of running horses now on the grounds and in active training was obtained. The list includes old timers who have been successful in hard fought contests on the Oregon and Montana circuits:
