## WILL NOT SURRENDER

### The Provisional Government Are Prepared for War.

## PLENTY OF GUNS AND MUNITIONS

### Congressmen Refuse to Discuss Seriously the Proposition to Impeach the President.

WASHINGTON, Nov. 17.—It is said Willis' dispatch contained the statement that the provisional government has actually accumulated munitions of war. It has on hand 1,000 rifles, two Gatling guns and four Maxim guns, besides plenty of ammunition. The available force of police officers and guards on the island in Honolulu is 280, while there is a reserve militia of 500 which can be called together on 30 minutes' notice, and there are further reserves which swell the total enrolled men of the provisional government to 1,100. It is supposed 500 more could be had from the other islands.

## Sensors and Congressmen Reticent.

WASHINGTON, Nov. 17.—Inquiry fails to develop at the capitol any response to suggestions from some parts of the country, most especially from the Pacific coast, that the president be impeached for his course in the Hawaiian matter. Senators and members, when asked to express themselves upon this phase of the question, refuse to consider it seriously or to discuss it at all. The most of any of them will say is no question of that kind can be properly raised at this time, when so little is positively known of the plans of the administration with reference to Hawaii and concerning its action in Honolulu.

Furthermore, it is noticeable that back of all the harping on the question on the part of those who criticize the course of the government there is a feeling that there is no disposition upon the part of the administration to place the country in a position that may be permanently embarrassing or injurious to our interests or harassing to our national pride. Any do not really believe that the armies will be called out to restore the queen, whatever the circumstances under which she was deposed, and some even if they should be they would not want to see Blount's report and Willis' account of the proceeding, so as to know just what ground the government stood upon in performing this act and not how. Where Willis is known he is highly regarded as a man of just opinions and much national pride, and his friends say he is not apt to do anything rash if, after taking time to look at the situation over, he finds that the president and secretary of state have been misled. He is, on the other hand, prompt to act, if his orders are imperative, if he has accepted the mission with the understanding that he is to perform his service regardless of consequences, which all who know him doubts. If he left with discretionary powers, and after investigating the situation he decided it was in accordance with requirements of justice and in no way derogatory to the interests and dignity of the government which he represents to re-enthroned Liliuokalani, he would do so.

## A CONTRADICTORY REPORT.

### Australia Just Arrived From Honolulu.—Everything Peaceable.

SAN FRANCISCO, Nov. 18.—(Special to THE CHRONICLE.)—The Steamer Australia arrived from Honolulu this morning with the latest news of Hawaiian affairs. The United Press succeeded in tapping and sending a dispatch of 400 words to President Cleveland a full hour before that gentleman received the government dispatches. When the Australia left everything was quiet on the islands, and President Cleveland had received no inkling of the attitude of the president in relation to re-enthroning Liliuokalani to the throne. Minister Willis presented his credentials and was received with apparent friendliness. He did not make the object of his visit known. People on the islands know nothing of the proposed scheme of restoration of the queen.

San Francisco News: If the commissioners will give us space, we will exhibit at the mid-winter fair the old log cabin, which was built and occupied by John Miller in the early '50s near the place. The cabin stands there now

## SOME MORE DETAILS

### How Willis Was Officially Received in Honolulu.

## THE MINISTER'S HONEYED WORDS

### Nothing Known on the Islands of the Attitude of the Administration.

SAN FRANCISCO, Nov. 18.—Advises from Honolulu up to November 11, the date the Australia sailed, say President Dole received United States Minister Albert S. Willis on the 6th inst. Mr. Willis accompanied the presentation of his letter of credence with a brief address, of which the following are the most important expressions:

"Aside from the geographical proximity and consequent preponderating commercial interests which center here, the present advanced civilization and christianization of your people, together with your enlightened codes of law, stand today beneficent monuments of American zeal, courage and intelligence. It is not surprising, therefore, that the United States was the first to recognize the independence of the Hawaiian islands and to welcome them into the great family of free, equal and sovereign nations, nor is it surprising that this historic tie has been strengthened from year to year by important mutual reciprocities and agreements alike honorable and advantageous to both governments. Invoking that spirit of peace, friendship and hospitality which has ever been the shield and sword of this country, I now, on behalf of the United States of America, tender to your people the right hand of good will, which I trust may be as lasting as I know it to be sincere, expressing the hope that every year will promote and perpetuate that good will to the honor, happiness and prosperity of both governments."

President Dole replied in the same friendly spirit.

## NEWS NOTES.

The official count shows McKinley had a plurality of 80,000, and a majority over all of 43,026 in the late election.

Prince Alexander of Battenberg died at noon Friday at Graz. He was recently prince of Bulgaria, and a brother of the late empress of Russia.

The Hawaiian building at the mid-winter fair grounds, which is in the course of construction, was demolished by a heavy wind storm in San Francisco.

A cable from Rio Janeiro says that in a suburb of Nietheroy over 100 houses have been destroyed by rebel shells, and 200 people injured. The streets are full of bodies.

A vessel has arrived at Swansea with four of the crew of the Cardiff Steamer Bollean, wrecked near Lundy islands. The captain and 17 to 20 members of the crew were drowned. A fearful gale swept the coast and many wrecks are reported, though so far no loss of life is known.

Two young men went over the Horseshoe rapids of Niagara at dusk Saturday night. When the Michigan Central stopped at the new station, passengers saw two men in a boat in the Horseshoe rapids opposite the third of the Sister islands. They were making frantic endeavors to reach some rocks. The bodies have not been recovered.

President Barrios, of Guatemala, has published a decree which is in effect a proclamation emancipating the laboring classes from slavery. It has been the custom of the government, through its military agents, to take forcible possession of persons of lower classes at any and all times, sending them to work where they pleased. It often happened the voluntary laborers of a small planter would be taken away and sent to a more powerful rival. The consul-general at Guatemala reports the decree will go into effect March 15.

### Last Friday as the large Flyer was coming down the river the crew saw a large deer in the river just above Nelson. They dropped anchor and took a skiff and went out to where the deer was and one of the crew hit it in the head with a club. Of course they killed it.

### District Attorney Hume and seven officers swooped down and arrested the proprietors and employes of the Sunday Mercury and fifty-six newsboys Saturday on a charge of having published and circulated an indecent paper. The officers suppressed the entire issue of the paper, and took the forms and printed papers to the city jail to be held as evidence against the defendants. All have given bonds and their preliminary hearing takes place in Portland tomorrow. This probably kills the Mercury.

### FARMS ACROSS THE SEAS.

The cultivation of the banana is being given up in Fiji in favor of sugar growing.

An invasion of caterpillars made its appearance in Yonne, France, and the insects have eaten up the pasture and left the fields bare.

The plague of locusts, which has for several years wrought such mischief in Algeria, does not seem likely to be less disastrous this year.

The bee keeping industry has obtained a good footing in Queensland, where the department of agriculture is inquiring as to the market for honey of London.

The Indian tea crop for 1892-93 was 113,687,000 pounds, as compared with 120,000,000 pounds for the 1891-92 season, and 115,000,000 pounds for the 1890-91 season.

EDINBURGH is supposed to have the largest cow population of any city in the world, there being 23,000 cows in that city. Dublin has 11,000 and London 8,000 cows.

### Queer Lottery Prizes.

A letter from Cairo says that Egypt has decided to make a gift of the mummies found in upper Egypt, and now in the Ghiseh museum, to the different museums in London, Paris, Berlin, Vienna, St. Petersburg and Rome. The mummies are to be divided into six lots and drawn for by lots. This is the first time that mummies have been used as prizes in a lottery, and it is difficult to see how puritanic England can reconcile itself to such a gambling deal as this, although, no doubt, sooner than lose the grab, she will find some means to "chase the devil around the stump."

The other countries, of course, will have no hesitation in accepting Egypt's magnificent gift.

## BLOUNT TALKS AT LAST

### A Very Small Trump Played After So Long a Wait.

## THE QUEEN WAS AFRAID OF FORCE

### She Supposed that Mr. Stevens Was in Sympathy with the Revolutionists.

NEW YORK, Nov. 20.—The Herald's Washington correspondent telegraphs as follows: Commissioner Blount's report on the Hawaiian question will show that minister Stevens landed the troops from the Boston long before there was any valid excuse for their presence on Hawaiian soil, and that he declined to remove them when requested to do so by the government, who informed him that the authorities were willing and able to preserve order and to protect American interests; that these troops were stationed across the street from the government buildings in which Minister Stevens knew that revolutionists were about to read their proclamations, and that the revolutionist committee relied upon the American troops to protect them in this act of rebellion; that the minister recognized the provisional government according to a preconceived programme before that government had obtained possession of the departments and military power at Honolulu, and that the military power was surrounded and the queen surrendered only through awe of the superior forces of the United States.

Many depositions by a number of well known gentlemen in Honolulu were taken before Commissioner Blount, indicating that Queen Liliuokalani surrendered her throne and her ministers resigned because of the landing of the American troops at Honolulu. In the deposition of Mr. S. A. Damon, president of the advisory council of the provisional government, he was asked if the queen was advised by her ministers to surrender because of the sympathy of the United States with the revolutionists. He answered:

"I know it was the queen's idea that Mr. Stevens was in sympathy with this movement. The queen was reluctant to sign the abdication, but did so on the ground that it would all come up for review at Washington. I told her so myself. It was the best terms of settlement we could get. I took it to President Dole, and he received and endorsed it."

"Was any message sent to the queen after that—anything rejecting the proposition for a settlement of the dispute at Washington?"

"No."

"The surrender, then, was made on that proposition?"

"Yes. Then the queen sent down word to the station house that they should surrender. That would up the whole affair. We took possession. It was not delivered up till after this conference."

### A Robber's Retreat Discovered.

ELIZABETHTOWN, Ky., Nov. 20.—There is a cave 3½ miles from this city which had never been explored to any great extent till yesterday, when a party of young people thought they would penetrate its deeper recesses. It was found to contain a number of large rooms, and in one of these rooms was found a box containing several gold and silver watches, two diamond rings, a lot of earrings and several pistols. In another room were found five skeletons, thought to be those of persons who had been robbed and then murdered. In this same room was a lot of cooking vessels, which were probably used by the robbers. Two of the watches bear the initials "Q. C. A." and "S. J. McK."

## Shot by a Sheriff's Posse.

### LITTLE ROCK, Ark., Nov. 20.—News reached here yesterday that Dolph Parker, who served a term in the Arkansas penitentiary for complicity in a train robbery below this city several years ago, was shot and killed in Van Buren county, by a sheriff's posse which was attempting his arrest for being one of the bandits who held up the Iron Mountain train at Oliphant, Ark., a few weeks ago. Parker's family are among the best people of Little Rock.

## LIGHT SLUMBER.

### A Street Agent's New Method of Drawing a Crowd.

An exchange says that a well-dressed man, leaning against a lamp post and apparently sleeping the sleep of the just, created a great deal of interest in a busy London street the other day. He sat on a box which he had been carrying.

Evidently being suddenly overcome with drowsiness, he had placed the box on the curbstone, and sitting down upon it, had fallen asleep. To those who succeeded in getting close enough to the man his gentle, restful snore dispelled the fear that he might be dead. The side of his face was exposed and betrayed no sign of intoxication. It was the judgment of every one that he was sober, in good health and simply taking a quiet snooze.

When the crowd became so deep as to threaten a blockade, the supposed sleeper suddenly jumped to his feet, mounted his box and, flourishing a couple of bottles over his head, exclaimed:

"Now, gents, seein' that you are all here, I rise to a question of privilege, and after thankin' you for this most cordial reception, which I assure you will long remain upon the tablets of my memory, I wish to call your attention to my world-renowned corn and bunion eradicator."
