On this occasion Mr. Dufur exhibited a genius for asking questions which is phenomenal, and covered the world of science, art, history and literature from 4004 B. C. till 1900 A. D. In 300 minutes he asked 1200 questions.

The entertainment at St. Mary's Academy was a success in every particular. The hall was beautifully decorated with potted plants, and draperies of the national colors were artistically arranged about the stage. DUFUR NEWS NOTES. The Adelphi Club--Rev. Jenkins--No W Store Signs, etc.

DUFUR, Nov. 27, 1893. ED. CHRONICLE: Pardon us for not writing sooner but have been up in the bush prospecting for better times and dropped back to our beautiful city just in time to see the Adelphi Literary club give an elegant literary entertainment assisted by the Dufur orchestra, (W. J. Vanderpool director,) which rendered some excellent music. The entertainment consisted of essays and declamations rendered by the scholars of Dufur public school which are equal to any in the country. The march rendered by the scholars from Prof. Hinman's class showed marks of vigorous training by the professor, for which he deserves great praise. After the literary part was disposed of a bountiful supper was served, of which everyone partook as if they had been saving up for the occasion. The balance of the evening was spent in games and amusements of all kinds. On my second night's visit to the city I was induced to attend church and hear Rev. Mr. Jenkins of The Dalles deliver an eloquent sermon. He has been holding a series of successful meetings here for the past two weeks and his departure will be keenly felt in this community.

During my short stay in the city I have visited all of the merchants and friends and find posted all over the stores "Goods sold for cash only;" "Positively no credit," etc. That lets me out, so if I come to your office in a starved condition, don't ask me what is the matter, but dig up. However, I am getting quite political and will try to turn to a subject more adapted to the times. During my rounds I find that John Johnston and W. L. Vanderpool have about completed their residences which are ornaments to the city. Still we travel the streets and learn of the marriage of Frank Bartlett to Mrs. Covey, both of this city. I, assisted by the community at large, wish the new couple all of the happiness on earth. On my homeward bound trip I learned of the death of the infant son of Mr. and Mrs. Alvis Quinn, near Dufur. Owing to the abundance of rain and the amount of snow that has fallen here the past week I am compelled to return to the bush. Wishing you a good, fat turkey for Thanksgiving, I remain, Yours Respectfully, JACK.

NEARER HOME. Cleveland Sent Some Blount-Spach Commissioners to Wasco County Once.

The Blount commissioner business is but a repetition of the act played by Cleveland in 1887 in Wasco county concerning the Military Road company. In that year he sent out three commissioners with instructions to gather proof that this road was never built. They performed well their master's bidding, and as a result of their report a suit was ordered against the road company, looking to a forfeiture of their lands. Of course the road was built, and built by them, and of course the road company won the suit against the government in every court where it was brought up.

Blount-like, these commissioners established themselves in friendly quarters, dismissing all witnesses who gave evidence contrary to what they desired. They started out from the Dalles and followed the road and whenever they could find a blackleg or irresponsible party who would swear falsely or ignorantly concerning who built the road, they were careful to take down every word of evidence. The best citizens in The Dalles, whose evidence would tend to prove that the road company built it, they as carefully renounced. In the latter category was the evidence of Emil Schanno, who testified that he went all the way on this road from The Dalles to Boise. Dick Closter and a number of others testified to the same facts, and other reputable men along the route showed that the Military Road company fulfilled their agreement with the government. However, none of the evidence ever saw the light of day in Washington.

The commissioners were not after facts, but falsehoods, and judging from a remark made at the time by the lamented Judge Caleb N. Thornbury, they must have succeeded. Mr. Thornbury said: "In their report I cannot recognize anything familiar, so full is it of false statements." The findings of my commissioner in Hawaii were on the same line of conduct. Blount went to the camp of the royalists, and took the evidence of whatever persons he could find who would give him what he wanted. Mr. T. A. Hudson, of this city was in Honolulu for eight months some years ago and got acquainted with many of the leading men of the city, and knew all at least by reputation. He informs a CHRONICLE representative that not one of the men mentioned as witnesses in Blount's report are known to him, whereas Mr. Stevens' letter contains the names of men who are thoroughly reliable and known by him to be so. Dr. Bishop, mentioned by Stevens, a banker in Honolulu, has a reputation for veracity unquestioned, says Mr. Hudson, and his word is at all times as good as his bond.

Dr. Chapman to Be Here. Dr. Chas. H. Chapman, president of the University of Oregon, at Eugene, is making a tour of Eastern Oregon in the interest of that worthy institution. Dr. Chapman will be in The Dalles Wednesday and Thursday of this week and will be pleased to meet many of our citizens who have sons and daughters to educate. Dr. Chapman is a graduate of John Hopkins University, an educator of note. The university will prosper greatly under his administration.

Saved From Death By Onions. There has no doubt been more lives of children saved from death in croup or whooping cough by the use of onions than by any other known remedy, or mothers used to make poultices of onion or a syrup, which was always effective in breaking up a cough or cold, etc. Gunn's Onion Syrup is made by combining a few simple remedies with it which make it more effective as a medicine and destroys the taste and odor of the onions. 50c. Sold by Blakeley & Houghton.

Spring Medicine. Dr. Gunn's Improved Liver Pills on account of their mild action are especially adapted for correcting spring disorders, such as impure blood, tired brain and aching and worn out body. They act promptly on the Liver and Kidneys; drive out all impurities from the blood, and malaria from the system. Only one pill for a dose. Try them this spring. Sold at 25 cts. a box by Blakeley & Houghton, Druggists, The Dalles, Or. wt6-1

NEWS OF THE STATE. William Dunbar is on trial in Portland for smuggling opium. Fred Beckman, a Portland barber, committed suicide yesterday by shooting his brains out with a shotgun. Stephen Beers, whose home is on a small ranch on Evans Creek about 12 miles above Woodville, killed his brother John, last Wednesday. The killing resulted over a drunken quarrel. Fresh oysters at A. Keller's confectionery store.

A Favorite Company. The old favorites J. G. and E. Alma Stutz, who were so well remembered by the theater-going people of The Dalles four years ago, will return to give us one more treat in the dramatic line, opening an engagement at the Astory hall next Monday night, Dec. 4th, with that great historical drama, "A Celebrated Case, or Soldier of Fontenoy."

This company is composed of sixteen artists, carefully selected from the standard companies of America. They carry a full brass band, superb orchestra and all their own scenery and any one who enjoys a good evening's entertainment of dramatic art should not fail to see them. Secure seats at Snipes & Kinersly.

Comparative Precipitation. The table below gives the comparative precipitation for the month of November for the following years:

Table with 5 columns: Year, Precipitation (inches), Deviation from Normal, etc. Rows include years 1850, 1851, 1852, 1853, 1854, 1855, 1856, 1857, 1858.

AT THE SILVERSMITHS. One of the newest designs in lace plus is in the form of a small diamond duck, poised, with wings outspread.

DORIC heart brooches of pink topaz and aquamarine entwined in large true lover's knots of diamonds is the latest fad. DIAMONDS in combination with turquoise of faultless blue are found in a peculiarly beautiful flexible gold curb bracelet. The Spanish topaz, looking like solidified rich golden brown sherry, is used as a mounting for riding whips and scent bottles.

NECKLETS, so long discarded, are in favor again. As many as five rows of jewels may be seen around the white throat of the woman of fashion. PEARLS, black, white and pink, of unique beauty of shape and color, are worn, set bud fashion in a tiny cup of brilliants, as ornaments for the hair. DOG COLLARS and girdles of amethysts in their various tints, rich purple, light green, blue and pink, are much worn as a finish to the fashionable mousseline de soie bouffant.

A TINY humming bird, poised as if on the wing, incrustated with small diamonds, rubies and olivines, is one of the most charming ornaments worn on the soft lace of the dress bodice. GOLDEN cornelian, a delicately lovely stone, more refined and true in color than the chrysoptase (which gets its peculiar green from the use of chemicals) goes well with diamonds.

SLENDER gold bangles, with the initials of the bride and bridegroom either in pearls or diamonds, have been presented at recent fashionable weddings by the bridegroom to the bridesmaids.

A NEW driving belt has been made in France by parchmenting the leather instead of tanning it. The belt does not stretch and is more durable than tanned belts. THE teleautograph, another electrical wonder of the present day, transmits autographs, likenesses and pictures by telegraph. Any kind of writing is reproduced in exact copies.

A POSSESSION which is likely to increase the speed of racers has been produced by E. C. Loyd, of Jamesville, Wis. It is made of aluminum and weighs only an ounce and a half. ONE of the newest applications of the nickel-in-the-slot principle is in connection with a small photographic apparatus. You drop your coin into the machine and it hands you your picture.

The populist butcher had a very wet day on the 29th delivering beef. He has a good patronage from the citizens of The Dalles, and they are well pleased with quality, quantity and price. I think the retailer's price should be in accordance with the producer's price. S. M.
