

The Weekly Chronicle.

THE DALLES, OREGON

LOCAL BREVITIES.

Wednesday's Daily. The coal man was a schoolboy once. And many a problem has he done. But somehow it got into his head. That six in a hundred make a ton.

R. H. Darnielle of 8-Mile had a little runaway in town yesterday. Nothing serious however.

Friday, 8th inst. being a day of obligation, there will be high mass at 8:30 o'clock at St. Peter's church.

Dr. Walters is said to be one of the best veterinarians on the coast. Over sixty of the fast horses of Idaho, Washington and Oregon will be under his care at the midwinter fair.

Raising Angora goats is said to be quite profitable near Boise, Idaho. One man at that place has several desert land claims and over 700 Angoras. He has one buck which cost him \$265.

The young man who is delivering fruit trees at Burham & Robertson's livery stable today, says people are a little slow about coming after their trees. It is quite probable he will have some left on his hands and have to dispose of them at a discount.

The land contest cases, that were commenced on Monday of this week between some of the members of the Blacklock wheat growing company and settlers of Gilliam county, and which promised at the outset to be very interesting, was finally settled yesterday in a very satisfactory manner to all parties concerned. T. A. Hudson and W. H. Wilson were the attorneys for the Blacklock people and Messrs. Huntington & Wilson represented the interests of the defendants.

Rev. A. Horn informs us that the Bay Cleaners (see WEEKLY CHRONICLE, Nov. 29th) is not a church's society of the Lutheran church of this city, but that it is organized by children attending the Lutheran Sunday School, also that it is not the rule of the Lutheran church to earn money for Lutheran institutions and call it charitable, where there will be a dance at the close of a fair. And in Germany when not by heart believing Christians will arrange a dance their children are excluded. They go to bed. Evangelical Lutheran institutions always will be kept up by money given in love for Christ's sake, and the left hand shall not know what the right hand doeth.

Thursday's Daily. A matinee will be given Saturday afternoon for children. Prices 10c, 15c and 25c.

L. M. Moody of Portland was appointed a member of the state board of pharmacy yesterday.

Yesterday Governor Pennoyer pardoned J. H. Buckmaster who was sentenced from Klamath county in 1891 for five years.

Ex-State Senator J. W. Norval of Union county died suddenly yesterday of heart failure near his home at Rhinbart Station.

If the new road to 15-Mile will do away with the mud grade between 8-Mile and Long Ward's place it will save lots of swearing at this season of the year.

Wess Rice's drove of about seventy-five fat hogs "went squealing through the streets" this morning. Having this kind of property farmers can realize a fair price for their damaged wheat.

Vol. 1, No. 1 of the Salem Democrat has reached our table. It is filled with reading matter of a spicy and newsy nature and will crowd its older rivals for popularity, if its present excellent standard is maintained.

Here is the story of a man who claimed he was "too poor" to take the county paper. He sent \$5 to a down-east Yankee who advertised to keep horses from mobbing and received the following: "Teach your horses to spit."

Two diversions are tonight placed before the people of The Dalles. One is the Stutz company's comedy of "State's Evidence," and the other is the free lecture of Mrs. Helen Stafford on "Deliberate Physical Culture."

At the Union Whist Club, entertained last evening by Mr. and Mrs. Hostetter, the first prize was won by Mrs. A. S. Bennett, and Mrs. G. C. Blakeley carried away the booby. They will be entertained by Mr. and Mrs. Hobson next week.

"State's Evidence," which will be given tonight, is said to be a most laughable comedy, in which J. G. Stutz assumes the role of "Solomon Isaacs," and James Lavant." In this play little Alberta Belden, the child prodigy, speaks 40 lines and reads a long letter. "Gilbert Midland" and "Kate Midland" are leading characters, while J. G. Stutz will exhibit his versatile powers as a comedian.

Friday's Daily. Considerable la grippe is reported in the city.

The mud on the streets is about the consistency of rich cream, though more opaque.

Mr. B. Wolf, the hide dealer, shipped by boat this morning for export via Portland 2,000 best hides.

The ever popular "Rip Van Winkle

will be presented tonight at Wingate hall by the Stutz company.

The rocks on Union street are being ground up at a lively rate and expressmen are hauling them for use on Second street.

The funeral of Mrs. Ida Matteson will take place from the home of Mrs. Bagley on East Fourth street at 2 o'clock Saturday afternoon.

Messrs. Saltmarsh & Co. shipped from their stock yards this morning a car of fine mutton sheep. They are to go to Port Townsend.

Mrs. Helen Stafford's class in physical culture for ladies will begin Saturday at 3 p. m., at the court house. Gents class, 7:30 p. m. same place.

John D. Roberts was indicted for sending obscene matter through the mails. This is for sending an article that appeared in the Harney Times.

Mrs. Helen Stafford gave a lecture last evening to an appreciative audience of ladies and gentlemen. She handled her subject in a pleasing and convincing manner.

Morin & Kertson are to soon start a democratic paper at Independence to be known as the Enterprise. Mr. Kertson was once editor of the Medford Mail and subsequently became foreman of the West Side office.

A carpenter by name of W. P. Mounts, after getting into debt to a number of our citizens to the amount of \$248.65, being for borrowed money and store bills, skipped out Tuesday night for parts unknown, without a ta-ta to anyone.

John Krier and James Wettle are on trial this afternoon before Justice Schurz for the larceny of some tools, clothing, etc., from Peter Fournell's place on 3-Mile, aggregating in value about \$120. The culprits were discovered through one informing on the other.

Will there be any Christmas tree or trees in The Dalles? Times are hard, it is true, but a tree doesn't need to be loaded with costly presents to make glad the hearts of the little ones, for whose benefit the tree system was inaugurated and has been handed down.

They tell this about a miner in the Greenhorn country: A preacher traveling on the trail encountered an old Irishman turning a windlass which hauled up ore out of a shaft. His hat was off, and the sun poured down on his unprotected head. "Don't you know the sun will injure your brain if you expose it in that manner?" said the preacher. The Irishman wiped his forehead and looked at his royal nibs. "Do you think I'd be doin' this all day if I had any brains?" he returned, and then gave the handle another turn.

The editor of a paper at Storm Lake, Iowa, is now hiding in a swamp near that place in consequence of the way he mixed up the reports of a cattle show and a concert. His paper said: "The concert given last night by sixteen of Storm Lake's most beautiful young ladies was highly appreciated. They sang in a most charming manner, winning the plaudits of the entire audience, who pronounced them the finest bred short horns in the country. A few are of a rich brown color, but the majority are spotted brown and white. Several of the heifers were able bodied, fine limbed animals, and promise to prove good property."

"State's Evidence" Last Night.

A full house again witnessed the performance of the Stutz company. The fact of the admission price being reduced had attracted a larger attendance. The play was very well received. Mr. Stutz appeared in the role of comedian, which displayed the versatility of his talents. The scene was laid in America and the time was of the present. The acting of Mrs. Stutz, when blinded by the discharge of a gun, she wanders forth in the world to battle with its odds, was of superior merit. All the other actors maintained their former reputations for clever work honestly done.

Tonight the company plays Rip Van Winkle. Everyone has read of this eccentric character, one of the most unique in the field of legend. Washington Irving wrote the sketch of Rip Van Winkle's life and Joseph Jefferson brought him on the stage. We are confident Mr. Stutz will delight and instruct the audience in the personation of the lazy, light-hearted, drowsy Rip.

Hogs for The Dalles.

Mr. William Farlow and son Thomas came in from Wamic yesterday with a dozen hogs, which were contracted for by an East Portland buyer.

Messrs. Brazille Savage, Albert Savage and Robert Campbell of Wamic, came in yesterday with twenty-three head of Brazille Savage's fat hogs.

Frank Woodcock of Wamic, one of the gentlemen who brought in hogs yesterday, says: "I sold my hogs for 4 1/2 cts., got my money and it's all spent now." Hog money won't keep any better than any other kind.

The Lehigh Strike.

This is probably the last day of the great Lehigh strike. The strike had widened to other branches of labor, culminating with a walk-out of the telegraphers, which are but remotely connected with the strikers, and overtures for a settlement on the part of the company will doubtless be accepted.

PHYSICAL CULTURE.

The Abuse of Our Own Bodies, by Mrs. Helen Stafford.

Mrs. Helen Stafford of San Francisco called at THE CHRONICLE office this morning and for more than an hour entered a reporter upon a subject which is of vital interest to all Americans. Vital is used advisedly, for her work in life pertains to health and how to secure it, inducing longevity of life and a pleasurable existence while living.

Mrs. Stafford is a lady of refinement and comes of the best families of England and Scotland. She is now a robust handsome woman, and although she has attained the meridian of life, is quite youthful looking and has a grace and carriage that might well be envied. The reason of this is that she has followed precept by example. Her methods of physical culture, if followed, largely does away with medicine, by treating cause rather than effect. She will give a free lecture tomorrow night at the court house, which should be packed, if there are any Americans who love their country and want to see it perpetuated by their posterity.

"In three generations," said Mrs. Stafford, "the American people will have become so debilitated and degenerated that the nation will be placed in jeopardy from the very weakness of its people." Her fear is not exaggerated, if the present careless methods of living are continued for 100 years. Any thoughtful person, who will compare the sturdy physical development of Americans of revolutionary days, with those of today, cannot fail to notice a great difference for the worse. There is scarcely one American woman in a thousand who is not ailing, and she gives to her children an inheritance of weakness which handicaps them all through life.

Mrs. Stafford made the remarkable statement that she can cure Bright's disease of the kidneys, and that when asked by skeptics: "What kind of Bright's disease—there are several?" replies: "Oh, the incurable kind." Mrs. Stafford's recommendations are of the highest possible nature, and cover a wide field, viz: Wherever she has been. Stripped of all pretense or argument, her methods of healing are merely a proper and scientific exercise of the muscles of the body. She makes the standing announcement, in connection with her course of lessons that such ailments as backache and headache are unknown after the third lesson.

The lady is doing a great work in America. May her usefulness be broadened until the people learn the correct methods of caring for their own bodies.

Free Deaf School.

There may be, among those who read THE CHRONICLE, people who have deaf children, who are not aware that a state school is established for their proper education at Salem. This school is maintained for the free education of the deaf children of the state. Pupils must be of proper age and sound in body and mind. Parents are required to pay traveling expenses of pupils to and from school, and to provide them with clothing. According to law, if it appear to the satisfaction of the county commissioners that the parents of any deaf child within their county are unable to bear the traveling expenses of sending him or her to school or to furnish necessary clothing, it shall be the duty of such commissioner to furnish the clothing and send him or her to such school at the expense of the county, the parent or guardian of such child consenting thereto. The older pupils are required to assist in the light work of the institution. The discipline of the school is kindly, but firm, and pupils who refuse to obey its rules will be returned to their homes.

Counterfeiters Indicted.

There are three indictments for counterfeiting against George Nordale, Ed. Marshall and F. L. Smith, and allege that on the 8th day of August, 1893, these persons made seventy-six pieces of coin in resemblance and similitude of a silver dollar of the United States. The method of manufacture was as follows: From a silver dollar a steel die has been made perfect in detail. From this was made a plaster of paris cast, which opened in the middle and had handles. There was also a small crucible. In this was melted bar tin, and mixed with it was a certain amount of silver, antimony and glass. Antimony made it hard and glass gave the ring. This was poured into the mold. In a few minutes it came out rigid. It was then carefully inspected, and with special tools finished off in any way needed. Afterward each coin was put in an electric bath, which gave it the bright appearance of a new dollar. To show what was ordered in supplies, one of the men's note books included a list of things to be secured in Portland. There were bichromate potassium, plaster of paris, sulphuric acid, copper, iron and brass wire, crucible and spoons.—Telegram.

A New Explosive Invented.

PARIS, Dec. 7.—Pictet, a Swiss engineer, has invented an explosive called fulgurite, which he claims possesses a power equal to dynamite, and a greater power when used as gunpowder. It is smokeless, and, according to the inventor, perfectly safe in handling. Its qualities are not impaired by weather or water, and it is cheaper than dynamite.

Bleeding Bread.

Considerable dismay was caused in England during the recent hot weather by the appearance of blood stains in bread, and also in boiled potatoes, rice and other farinaceous substances. In superstitious times this somewhat rare phenomenon, was regarded as a miracle, but modern science has shown that it is due to the growth of a microscopic plant, which is known to some, according to Dr. M. C. Cooke, as *micrococcus prodigiosus* and to others as *bacillus prodigiosus*. The true explanation of the terrifying blotches was first pointed out by a Paduan naturalist in 1819. The same production was seen near Berlin by Ehrenberg in 1848, at Rouen by Dr. Camille Montaigne in the same year, and was first recorded in Britain in 1853. About 1888 an epidemic visitation on the continent was attributed to this source. Carmine red patches, capable of staining the fingers, appeared on cooked meat during the night, and various articles of food were similarly affected until, after about three months, the epidemic suddenly ceased on the advent of a lower temperature. Freeenin found the individual organisms to be round or oval cells not more than one two-thousandths to one four-thousandths of a line in diameter. They develop only in the dark, and when kept continuously at a temperature of 100° F. their color is gradually lost.

Glady's Miller Found.

I. W. Miller, of Summerville, whose daughter, little Gladys Miller, disappeared a year ago last September, was in La Grande on the 1st, making arrangements to go to Ohio, where a child resembling his long-lost daughter has been detained by the authorities pending Mr. Miller's arrival. The child is in the possession of a band of gypsies who can give no satisfactory explanation of her presence with them. A photograph taken there and forwarded to Summerville has been identified as little Gladys, not only by Mr. Miller, but by many neighbors as well.

THE TIME EXTENDED.

The Bill for Settlers Passes Both House and Senate.

The following telegram will cause a fervency of thanks from our settlers to our representatives which could not be equalled by any other act that could be performed at Washington:

WASHINGTON, D. C., Dec. 7, 1893. To John W. Lewis, The Dalles, Or.

The bill passed the house Tuesday and the senate today, extending the time three years. W. R. ELLIS.

Hooray for our representatives in congress!

"LA BASTILLE."

A Very Successful Historical Drama Last Night.

It is not too much to say that "La Bastille," as presented by the Stutz company last night, is as fine a play as has ever been presented in The Dalles. It is of great historic interest, gives ample scope for the dramatic abilities of the leading roles, and has just the proper equisite of comedy. "La Bastille" is Mr. Stutz's own play. By it he has proven himself a genius as a playwright, for it is destined to live as long as theaters exist. So thrilling and intense is its action that unusual demands are made upon the comedy, for were it not for this, the nerves, strung to their highest tension, would give way with people of weaker temperament. But this happily is supplied. So great is it in dramatic incident that when the shallow "Nero" and the patriotic "Fleurlette," with whom he is enamored, come on for their turn, the audience often refuses to accept their levity. But this they cannot long resist, and when the gallant Dutchman, in pressing his suit, makes use of such argument as "Marry me, Floray; the country needs soldiers," the audience makes a complete surrender and are overcome with laughter.

Masquerade Ball.

The Jackson Engine Co. held their monthly meeting last night, and decided on giving a grand masquerade ball at the Armory hall on January 1st. This is their annual ball, and the public have long known of their splendid reputation for amusement qualities. The following gentlemen were named as the committee of arrangements: F. W. L. Skibbe, A. Kilindt, F. Lemke, A. Huginne and John Blaser.

A Novel Ride.

Mr. Robert Lowe of Fairfield had a gay time coming in to town yesterday on the running gears of the wagon. Near the top of 5-Mile hill, his coupling pole broke and the four-horse team ran away with the front wheels, dragging Mr. Lowe in the mud. Had not the horses been gentle the result would doubtless have been serious. As it was Mr. Lowe got off with a few bruises and a good coat of mud.

Prompt Settlement.

Mrs. W. E. Rinehart was yesterday handed a draft for \$3,000, by J. C. Hostetter, local agent of the Northwestern Mutual Life Ins. Co., of Milwaukee, in payment of the policy held by her late husband in that company. The company and the agent are to be congratulated upon this prompt settlement.

A Card of Thanks.

I wish to express my thanks and gratitude to the friends and neighbors for their kindness and sympathy shown me in my affliction during the sickness and death of my dear and loving wife. May the blessings of God attend you through this life, is my sincere wish.

Yours with loving respect,

TIMOTHY BROWNHILL.

Card of Thanks.

We wish to express our thanks and gratitude to the friends and neighbors for their kindness and sympathy shown us in our affliction during the sickness and death of our dear mother. May the blessings of God ever attend you.

Yours in grateful remembrance,

MRS. MORGAN AND MCDANIEL, CARRIE AND HENRY BOWMAN.

The Two Bunglers.

Uncertainty is hazardous. When tariff tinkering starts at us. When mammoth mills are motionless. And money millions court distress. And yet this starving multitude. With shouts and jeers and curses rude. By their good votes brought on this fate—"John Bull" Cleveland—"Bloody" Waite.

Impatience is no scarlet sin. And indignation may be right. When Uncle Sam is forced to cry "All hail!" to rotten monarchy. No single act, no single word. That has been done, or has been heard. Can ever partly mitigate The evil done by Cleveland-Waite.

In older times when millions groined beneath such tyrants, so enthroned. The maddest populace would rise. And sweep their thrones from the skies. Why then, should we, free men and brave. Submit to be a fool or slave? Why not impeach from nation, state. The dual bunglers—Cleveland-Waite.

—Fred W. Pouson. Denver, Colo., November, 1893.

Spring Medicine.

Dr. Gunn's Improved Liver Pills on account of their mild action are especially adapted for correcting spring disorders, such as impure blood, tired brain and aching and worn out body. They act promptly on the Liver and Kidneys; drive out all impurities from the blood, and malaria from the system. Only one pill for a dose. Try them this spring. Sold at 25 cts. a box by Blakeley & Houghton, Druggists, The Dalles, Or., w6-I
