

UTAH TO BE ADMITTED

MULKEY AND BRANNON SMUGGLERS, SENT TO JAIL.

John C. Arnold of Pendleton Nominated as Oregon's Surveyor General--The Strike Situation.

C. J. Mulkey was yesterday sentenced by Judge Bellinger to one year's imprisonment in the Multnomah county jail and to pay a fine of \$5,000. P. J. Brannon, another conspirator was sentenced to six months in the county jail. C. J. Mulkey it will be remembered was special agent of the treasury department, and was convicted last December of smuggling Chinese into this country.

Two hundred sticks of giant powder exploded in a mine in Pennsylvania yesterday, killing nine miners.

Debs and the other A. R. U. men, arrested in Chicago for contempt of court in connection with the strike, refused to give bail and have been sent to jail.

No freight trains are moving from Oakland.

The strike in the Chicago packing houses is over, they all running with full crews.

President Cleveland signed the bill admitting Utah yesterday.

John C. Arnold of Pendleton was yesterday nominated surveyor general of Oregon by President Cleveland.

Colonel Graham has sent sixty regulars to Dunsmuir in Northern California, on account of the ugly condition of affairs there.

The Southern Pacific is having considerable difficulty in getting trains out of Sacramento, owing to the non-union men being afraid of the strikers. The same fear caused many who had returned to work in the shops to remain away yesterday.

Trains are moving in Chicago almost as freely as before the strike.

The first through train of the Northern Pacific to arrive in St. Paul from Portland in the past eighteen days reached that place yesterday. The train left Portland June 25th, and was twenty-two days on the road.

The Federal Troops Withdrawn From Chicago.

CHICAGO, July 18.—At 8 o'clock tonight General Miles appended his signature to the general order removing the federal troops from Chicago. The infantry will take trains for their respective posts, while the cavalry and artillery will march to Fort Sheridan and remain there until such time as General Miles thinks best that they may be sent to their posts.

SPRINGFIELD, Ill., July 18.—Tonight Adjutant-General Orendorff issued an order directing the entire 22nd brigade, Illinois state troops, and the battalion of naval militia on duty at Chicago to proceed to their homes at once. Three thousand men remain on duty.

Asked to End This Horrible Suspense.

CHICAGO, July 18.—The following telegram, signed by two banks and 80 of the leading business firms, was forwarded to Washington this evening from Chicago:

To the senate and house of representatives: The whole country demands that congress terminate the pending tariff legislation immediately. A failure to dispose of the question quickly will work incalculable loss and irreparable injury to financial and industrial interests.

A Republic has Been Proclaimed in the Hawaiian Islands.

AUCKLAND, N. Z., July 18. Advice received here by steamer from Honolulu show that a republic has been proclaimed in the Hawaiian islands July 4. Sanford B. Dole, the provisional president, is the first president of the new republic. When the steamer bringing the advices sailed many persons had taken the oath of allegiance.

The Democrats' Dilemma.

NEW YORK, July 18.—A Washington dispatch to the Evening Post says Senator Gorman is quoted by a Missouri representative as saying to a group of representatives: "Gentlemen, there are two tariff measures, the McKinley law and the senate bill. You can take your choice." This is believed to be the tariff situation here today.

Federal Troops for Butte.

OMAHA, July 17.—The colonel commanding the Second infantry, U. S. A., has been ordered to proceed at once with the First battalion of his regiment from Fort Omaha to Butte, Mont. He will start in the morning. Four troops of the Sixth cavalry are also ordered there, Colonel Bates commanding.

Wear of the Earth.

Taking the length of the permanent ways on the surface of the globe at nearly sixty thousand geographical miles, with a daily average of ten trains, it is estimated that the total loss by wear and tear suffered each day by the metallic rails of the earth is about six hundred tons. The six hundred tons are lost in the form of a fine powder and are carried back to the earth in the shape of soluble iron salts.

The men of Mr. Cleveland's cabinet are all heavy men. There is only one that tips the scale under two hundred pounds.

WASHINGTON LETTER.

From our regular correspondent.

WASHINGTON, July 13, 1894.

The senate said two things very decisively this week. With only one dissenting voice—Peffer's—it adopted Senator Daniel's resolution, endorsing the acts of Mr. Cleveland and his administration to preserve law and order and pledging the support of all branches of the government to a maintenance of the same policy. That settled the fate of anarchy in this country. By a vote of 35 to 11 the senate refused to attach an amendment to the Daniel resolution declaring in favor of arbitration of labor disputes. That made it certain that the George bill to withdraw the protection of the U. S. courts from such railway corporations as shall refuse to arbitrate when asked to do so by their employes, which is being lobbied for by three members of the K. of L. executive committee, cannot be passed at present. This does not mean that the senate does not favor arbitration, as everybody knows that it does, but that it does not propose to allow itself to be used by a lot of labor leaders to climb out of the unpleasant hole in which they find themselves. It is regarded as sufficient for the present to show the country that congress is behind Mr. Cleveland and determined that the U. S. mails shall be regularly forwarded and that the authority of the government as expressed by its judicial officers shall be respected, at all hazards. This whole strike business will probably be investigated—a resolution providing for an investigation is already before the house—and further legislation dealing with the subject, if any be needed, will probably be postponed until that investigation has been made.

Every New York republican who comes to Washington agrees in saying that the state will certainly go republican this year. Here's the opinion of a prominent New York democrat, Gen. McMahon: "It's an up-hill fight for the democrats in New York. The delay in passing a tariff bill has done much harm and the income tax still more. The latter will work incalculable injury to the democracy of New York, and if the state is lost, it will be the chief factor in our defeat. It looks as though the republicans were going to nominate Hon. Levi P. Morton for governor. He is probably their most available man; but in the event of his declining the nomination, there is a good prospect of its going to Gen. Anson G. McCook."

"The house, notwithstanding the bold stand and loud talking of its free trade democrats, is going to surrender in the end to the senate." So said a democratic senator to a republican friend. Things are certainly pointing that way and the belief is becoming more general every day that whether it takes the conference one week, two weeks or three weeks to reach an agreement on the tariff bill that agreement will leave the bill substantially as it was amended by the senate. The boldest free traders of the house are showing by their private talk their expectation of defeat. Senator Gorman is reported to have said curtly to one of the democratic conferees on the part of the house: "You can take your choice, the senate bill without modification of its important amendments, or no tariff bill at all. The McKinley law can get more votes in the senate than the Wilson bill."

It remained for the democrats to make the deliberations of a conference committee partisan. Never before have the representatives of the minority party in congress been ignored in holding meetings of a conference committee, until it was done by the democrats on the conference committee, now engaged in trying to reconcile the tariff differences between the democrats of the house and those of the senate. The republican conferees are not pleased with the manner in which the democrats have acted, but they have not decided to resent it, although they have it in their power to do so in a way that would be decidedly embarrassing to the democrats. One of the reasons why the republicans have been shut out of the conferences is said to be that negotiations are on foot whereby the sugar trust, the standard oil trust and kindred trusts propose to furnish the democratic party with a big campaign fund for use in the congressional campaign, in exchange for tariff favors, and the democrats desired to have the matter disposed of before the republicans are allowed to take part in the conference.

The attempt of the leaders of the labor organizations to have Attorney General Olney impeached is not taken seriously in Washington, notwithstanding the presence of the men who claim to see their way clear to impeachment.

Remarkably Considerate.

A Cincinnati newspaper reports a striking manifestation of amiability on the part of a little maiden of that city. A beautiful new doll had just been given her, and as she sat holding it and singing to it her mother noticed that the old one was not in sight. "What have you done with Beatrice?" asked the mother. "I've put her away," answered the little girl. "If she saw me loving my new baby it might hurt her feelings."

Whether Pasteur and Koch's peculiar modes of treatment will ultimately prevail or not, their theory of blood-contamination is the correct one, though not original. It was on this theory that Dr. J. C. Ayer, of Lowell, Mass., nearly fifty years ago, formulated Ayer's Sarsaparilla.
