NOTHING BUT RUMORS

The House and Senate Each Claiming a Victory.

A BAKER CITY BANK CLOSED

Japs and Chinese Preparing for a Struggle—Portland Has a Disastrous Fire.

The Condition of the Tariff Bill.
WASHINGTON, Aug. 1.—Active negotiations are proceeding both in the tariff conference and in influential quarters outside to bring about a complete agreement on the tariff bill, and the prediction is made that the end is near at hand. It is denied with emphasis on the house side that the senate sugar schedule and the senate rate on iron will prevail, and the house be compensated by a reciprocity clause on coal. It is stated the senate schedule will not be that fixed by the senate, nor the free sugar of the house bill, but a middle ground. Friends of the administration say there is a good prospect that the president's insistence on free raw materials will receive substantial recognition and deny as impossible all reports that any agreement has been the basis of accepting the senate rate on coal and iron. The democratic conferees were together again two hours today, and at the close of the meeting the house members expressed the same confidence of a speedy settlement that they had after the meeting yesterday. The senate conferees can be induced to say but very little. One said there are more indications of reaching an understanding than there hitherto has been.

Baker City National Bank Closed.
BAKER CITY, Aug. 1.—The door of the Baker City National bank failed to open this morning. Cashier Blake states that the suspension was brought about by the Chase National bank of New York applying funds on deposit to the amount due on a loan without notice, and an unexpected run of depositors who were alarmed over the failure of the Arlington bank, J. E. Frick being president of both institutions. The amount owing depositors is about \$75,000, with bills receivable and securities reaching \$160,000. It is confidently expected that business will be resumed within thirty days.

Japan Apologizes to England.
TOKYO, August 1.—The Japanese government has instructed its minister in London to apologize to Great Britain for firing upon and sinking the transport Kow Shung while she was flying the British flag. The commander of the Japanese cruiser did not know the Kow Shung was a British vessel until after the fight. Captain Galworthy, of the Kow Shung, and many other persons on the transport were rescued by the boats of the Japanese warship.

But It Is Dead Now.
DES MOINES, Ia., Aug. 1.—In his address as chairman of the democratic state convention today ex-Governor Boies said if the democracy would live, it must fulfill all its promises on which victory was won. Boies discussed the labor troubles at length, declaring the strike, as often conducted, is revolution, anarchy and the incipient stage of civil war. "Sympathetic strikes," he said, "must go or the unions will be destroyed."

Other People Knew It Long Ago.
CHICAGO, Aug. 1.—"I will never again be connected with another strike or organization," said President Debs, of the American Railway Union today. "The present strike has developed the fact that the sentiment of the people of this country is against strikes and the government stands ready to put down such movements at the point of the bayonet. I shall hereafter advise all workmen to seek redress by the ballot."

Existence of Trusts Unconstitutional.
WASHINGTON, July 30.—Hutchinson of Texas has introduced a resolution for an amendment to the constitution to give congress jurisdiction over trusts. The amendment proposed is as follows: "Trusts and monopolies dealing in agricultural products or other articles of prime necessity shall not exist in the United States, and congress shall have power to enforce this article by appropriate legislation."

Incident to the Situation.
SAN FRANCISCO, July 30.—The steamship Gaelic, from Hong Kong and Yokohama, brought only 27 cabin passengers and five whites, fourteen Japanese and one Chinese in the steerage. This is the first time in the history of the steamship service between here and Hong Kong that so few Chinese have come to San Francisco. The explanation given by the officers of the Gaelic is

that all the able-bodied Chinese were detained, pending the outcome of the negotiations that were then going on between China and Japan when the steamer was in Chinese waters.

Will Try the Law.
FORT WAYNE, Aug. 1.—Today some of the discharged strikers on the Pennsylvania and Nickel Plate roads declared they would file affidavits against all men employed on these roads who work Sundays. The strikers say they have the names of the men who will probably work next Sunday, and they will be arrested Monday for Sunday desecration. It is said the threat will be positively carried out. Fort Wayne is very puritanical on Sunday, under the new municipal administration.

Another Crack.
WASHINGTON, Aug. 1.—Thomas Cadogan, carrying a lot of stonecutters tools over his shoulder, appeared at the white house today and excitedly told the watchman: "I want to see the president." "What for," queried the policeman. "They want to put me under the ground. See? And I want to tell the president about it, and you must not stop me," replied the man nervously. He was carried to the station.

Suppressing the Dispatches.
WASHINGTON, Aug. 1.—A cablegram announcing the arrival of the United States ship Monocacy at Nagasaki, Japan, was received today and is the only official news that has come to the government from its representatives in China and Japan, and the surmise that official dispatches are being obstructed purposely now amounts to conviction.

A Portland Blaze.
PORTLAND, Aug. 1.—A fire today almost totally destroyed the hide and wool depots of Herman Metzger, and Bissinger & Company, situated at Front and Salmon streets. The total loss will be about \$60,000. Bissinger & Co.'s loss is about \$35,000; insurance \$25,000. Metzger's loss is \$15,000; insurance \$8,000.

Rough on the Missionaries.
BALTIMORE, Aug. 1.—Bishop Alpheus W. Wilson, of the Southern Methodist church, who spent many years in mission work in China and Japan, says there is much reason to fear for the safety of the missionaries stationed in China and Korea.

Equals a Declaration of War.
TOKYO, Aug. 1.—The Japanese government has informed the representatives of the foreign powers here that a state of war exists between Japan and China. This is regarded as equivalent to a declaration of war.

Blew Out What She Had.
BAKER CITY, Aug. 1.—Fannie Torrey, a courtesan, sent a bullet crashing through her brain last night, expiring in a few minutes. Insane jealousy over her husband, E. P. Torrey, an assayer, was the cause.

Butchers Join the Strike.
OMAHA, Aug. 1.—Eight hundred men employed in the packing houses at South Omaha have joined the butcher's strike today. All the houses are affected and only a few cattle and hogs have been killed.

He Knows It Officially.
LONDON, Aug. 1.—The Japanese minister at 2 o'clock this afternoon informed Earl Kimberly, secretary of state for foreign affairs, that a state of war exists between Japan and China.

Better Go West and Get It.
MABLETON, O., Aug. 1.—Coxey has appealed to congress to issue \$5000 worth of rations to the commonwealers at Washington until food from the West, detained by the strike, can reach them.

Arranging for the Funeral in Iowa.

Going to Work at Pullman.
CHICAGO, Aug. 3.—The force in the Pullman shops was increased today. At noon 552 men were at work.

RUSSIA WILL OBJECT

President Carnot's Murderer is Placed on Trial.

IT LOOKS BAD FOR WORDEN

The Senate Committee Get Out the Old Whitewash Brush And do the Mutual.

The Coils Tighten Around the Train-Wreckers.
WOODLAND, Cal., Aug. 2.—The testimony this morning was the strongest the prosecution has put in during the past four days of the trial. Mary Vandusen, at whose house Sam Clark, the dead engineer, boarded, testified that on the morning of the wreck she asked Mr. McNeile, an A. R. U. boarder, if there was any danger. "He asked me if I should see Sam again, and I said 'Yes, in the morning.' He said: 'Whoever goes out on that engine will never reach Davisville. Warn him in my name not to go.' I saw him in the morning and pleaded with him not to go. He said: 'I must go; if I don't they will court-martial me and make me.'"

It Does Show the Committee is Also Corrupt.
WASHINGTON, Aug. 2.—Senator Gray, chairman of the sugar investigation committee, presented a report to the senate today. The main report is signed by all the members of the committee. Lodge and Davis present a supplementary report, and Allen presents his own views on some features of the case. Secretary Carlisle is exonerated. The committee say the evidence does not show that the sugar schedule was made in consideration of contributions to the democratic campaign fund, or disclose any improper conduct on the part of those engaged in framing the schedule.

Under Which Flag.
YOKOHAMA, Aug. 1.—The declaration of war puts in a peculiar position those English army officers who were taken recently into the Chinese ports. The officers in question will be liable to arrest under the foreign enlistment act the moment they come within the jurisdiction of British authority in any treaty port. At the same time they will have no valid claim upon Great Britain's protection, if they are caught by the Japanese.

No Agreement Yet.
WASHINGTON, Aug. 2.—The democratic members of the tariff conference had reached no agreement at recess. The conferees said, however, that fair progress had been made. One of the house members said it would take two or three days to reach an agreement as to coal and iron ore. There seems to be some foundation for the report that a sliding scale will be adopted.

The Chinese Claim a Victory.
LONDON, Aug. 2.—A dispatch to the Times from Shanghai says reports have been received there from foreign officials at Seoul that the Chinese Sunday defeated the Japanese forces near Asan. The Japanese forces withdrew to Seoul. Twenty thousand Manchurian troops have crossed the Korean frontier and are marching upon Seoul.

Russia Will Not Permit It.
ST. PETERSBURG, Aug. 2.—It is officially announced that Russia, desiring a settlement of the war between China and Japan, will act in complete accord with Great Britain to secure an immediate solution of the difficulty. Failing in this, Russia will not allow any power to take even a partial possession of Korea.

Only a Matter of Form.
CHICAGO, Aug. 2.—President Debs presided over the American Railway Union convention which met here today behind closed doors. There were about 250 delegates present, representing 512 unions. A canvass apparently showed a majority in favor of declaring the Pullman boycott off.

Work Resumed at Pullman.
CHICAGO, Aug. 2.—The Pullman works started today without any demonstration. But 250 men reported for work, although the company expected 800. About 1000 strikers gathered about the buildings and good naturedly chafed the returning workmen.

To Steal General Jackson.
NARRVILLE, TENN., Aug. 2.—Information has been received from the hermitage that a hole 18 inches deep and 3 feet in length was dug at the head of Andrew Jackson's grave last night. The diggers were frightened away before they accomplished their object.

The CHRONICLE is prepared to do all kinds of job printing.

A Costly Fire.

CHICAGO, Aug. 2.—A revised estimate places the loss by fire in the lumber district last night at two million dollars largely insured. Sixty acres are swept over. The total number of men thrown out of work by the fire is 2,200. So far as known four were killed and eight injured.

It Falls on the Farmers as Usual.
OMAHA, Aug. 2.—All the packing houses of South Omaha were forced to close today by the strike of the cattle and hog butchers. Over 10,000 hogs were received but the packing house men instructed their buyers not to buy at any figures.

The Populists Select a Gunn.
BOISE, Ida., Aug. 2.—The populist convention today nominated James Gunn for congress and J. W. Ballentine for governor. The convention declared against fusion with the democrats. The resolutions favor woman suffrage.

A Naval Battle Expected.

Will Soon Join Prendergast.
LYONS, August 2.—Caesaro Santo, the assassin of President Carnot, was put on trial today.

Gilroy's Talk.
NEW YORK, July 31.—Mayor Gilroy returned from Saratoga today and had this to say about the coming election: "Tammany is not bound to select a man for mayor from within the ranks of the organization this fall. We may nominate a man who is not a member of Tammany, if it is thought to be for the interest of the democratic party. The fight this year is but the preliminary skirmish to the real battle in 1896. If the republicans win in this city and state next fall, there is not the slightest doubt but that they will carry the country in 1896. They will also elect the next congress, and leave the president without the support of either branch of the legislature during the last two years of his term. My view of the condition is that it behooves every democrat to make sacrifices in the interest of his party."

The mayor would not discuss what measures are likely to be taken to bring about harmony with the state democracy.

The Suit Against the Southern.
LOS ANGELES, Cal., July 31.—United States District Attorney George Denis, when told that information was received that Attorney-General Olney would order the big suit against the Southern Pacific Company dismissed, looked astonished, but said very little. "I have heard nothing of the kind," he said, nor have I received any intimation to that effect. Of this I assure you."

"Will you dismiss the case if Mr. Olney orders you to do so?" he was asked. "You can easily understand that I cannot discuss such a point at present," he replied, and that was all he would say. It is a well-known fact among habitués of the federal building that the United States attorney's office is convinced of the justice of this big suit, and it is considered doubtful if Olney's commands to dismiss would be obeyed.

Successful Rain Making.
YANKEON, S. D., July 31.—Ten days ago, rain-making experiments were begun in this country under the direction of two citizens who visited a Kansas rain-maker, obtained his chemical formula and received instructions in its use. One ton of chemicals was consumed and last night one of the heaviest rain storms of the summer was ushered in. It extended over an area of 20 square miles in all directions from the experiment station near this city, and in localities as much as two and a half inches of water fell. The rain saves late corn and insures a half crop of hay.

FROST IN WISCONSIN

The Weather Bureau Says They Will Have it Tonight.

SANTO SENT TO THE GUILLOTINE

Santo's Trial Commenced Yesterday and Was Sentenced Today—Senate and House Flirting.

The Tariff Muddle.
WASHINGTON, Aug. 3.—The tariff conference appears to have reached very nearly the point at which either an early agreement will be reached, or a decision to report disagreement. The senate conferees apparently have arrived at the conclusion that there has been already a sufficient exchange of views upon general lines, and the time has come when a direct issue must be raised. It is stated that a sugar schedule has been prepared, which the senate will accept. The schedule, it is said, still provides a differential duty on refined sugar, and in other particulars maintains the protective features of the senate schedule. Representative Bland has introduced a resolution instructing the committee on ways and means to report a bill placing all sugars on the free list, and for raising a \$100,000,000 revenue by an income tax. Bland says, concerning the resolutions: "I have not consulted Mr. Wilson nor anyone else, but have acted on my own judgment in submitting this resolution. My purpose is to press it if there are any indications that the general tariff bill will fail."

The Case at Woodland.
WOODLAND, Cal., Aug. 3.—At the opening of the train wrecking case this morning Justice Fisher apologized for having called prisoner Worden a vile name during his excitement yesterday evening. He said he would have held any of the attorneys accountable for such language as he used. Almost the entire morning session was consumed by arguments, quarreling and bickering among the attorneys, but for the interference of others, attorney Cook and Gaddis would have come to blows. Gaddis openly charged that false testimony had been given for the prosecution and that the attorneys for the prosecution contumaciated it.

Just Nothing at All.
WASHINGTON, Aug. 3.—The only telegram of public interest received at the Japanese legation today, related to the request made by the Japanese government concerning the protection to be afforded Japanese interests in Pekin by the Americans in charge there. The legation is without official news concerning the reported repulse of Japanese troops at Asan. Considerable doubt exists in the minds of officials as to the exact location of that place.

The Dispatches are Correct.
BERLIN, Aug. 3.—A dispatch from a German official in the service at Tien Tsin says the German gunboat Itlis witnessed the sinking of the transport Kow Shung. The crew of the Itlis rescued 150 Chinese who were struggling in the water. The dispatch confirms the report that the Chinese were victorious over the Japanese in the recent battle at Asan, Corea.

Burned in a Wreck.
BUCYRUS, Ohio, Aug. 3.—A west-bound freight on the Pennsylvania line broke in two this morning, the two parts colliding. A car of coal oil and one of gasoline took fire and consumed half the train also destroying 500 feet of track. Four tramps stealing a ride on the oil car were burned to death.
