## HE DIED INSTANTLY

### The Sensational Suicide of a Physician.

#### KILLED HIMSELF IN THE STREET

##### Four Sailors Killed by a Steamer's Boiler Bursting—Steamer Suspected to Be Lost.

NEW YORK, Sept. 7.—A well-dressed man who, from papers found in his pocket, is believed to be Dr. H. T. Cresson, of No. 1344, South Seventeenth street, Philadelphia, committed suicide in Fortieth street, near Bryant Park railing, last night. It is supposed that he had just reached the city from Belmar, N. J. Fragmentary letters found upon his person tell incoherently of some crime of which he has been accused, and of which he declared he was innocent. The man halted near the railing, dropped a small valise he carried and shot himself in the mouth with a 44-caliber revolver. He placed the muzzle in his mouth, and the bullet passed out at the back of his head, killing him instantly.

##### Many Japanese Wounded.

LONDON, Sept. 7.—The Shanghai correspondent of the Central news says that Otori, the Japanese minister to Corea, has taken extreme measures to move the king of Corea to grant a comprehensive railway concession in favor of Japanese contractors. He is trying also to obtain exclusive mining rights for the Japanese. Despite Japanese denials that there has been a general engagement, many wounded are arriving at Seoul. It is impossible to learn from the Japanese sources whether they were injured in skirmishes or in a pitched battle. The Coreans attacked 50 Japanese foragers recently and captured 30, handing them over to the Chinese. The troops now coming from Japan are landed at Chemulpo. Twelve mountain guns and 12 mortars have been taken ashore at that port. The Chinese fleet was at Wei-Hai-Wei September 4th, and the Japanese was off the southern coast of Corea. Captain von Henneken has been appointed to inspect the Chinese coast defenses.

##### Southern Pacific Trainwreck.

TEHACHAPI, Cal., Sept. 7.—A collision took place on the Southern Pacific railroad about fifteen miles north of this place this morning between north-bound passenger train No. 20 and south-bound freight No. 23. Particulars cannot be obtained further than that fifteen cars were badly smashed up. No passengers were injured beyond a shaking up. Fireman Bell, of the freight train, was hurt slightly. The accident is said to have been due to the failure of the passenger train to wait for No. 23 as ordered.

##### Shipments of Flour to China.

SAN FRANCISCO, Sept. 7.—There is a great rush of work at the Pacific Mail dock at present, principally due to large shipments of flour to China. The river steamers Mary Garrett and T. C. Walker were at the dock yesterday unloading large cargoes of flour. The Belgic will take out a very heavy cargo. Stevedores will work day and night unloading and loading the Belgic, which will sail Saturday.

##### Accidents in a Fog.

NEW YORK, Sept. 7.—A dense fog this morning caused numerous accidents in this vicinity. An engine at the Jersey Central dashed into a disabled passenger train, and the passengers were shaken up. The baggage master was seriously injured. A schooner crashed into the Staten island ferry-boat in the bay, but was only slightly damaged. The Brooklyn ferry-boats Pierpont and Whitehall collided at the pier.

##### Party of Indians Burned.

POKAGAMA, Minn., Sept. 7.—The bodies of twenty-three Chippewa Indians lie upon the baked sands between here and Opstead, a small settlement on the eastern shore of Mille Lacs. The news was brought by courier. The Indians left the reservation two months ago, and built a hunting lodge on the fork of Shadridge creek. Chief Wau-cota, "big chief" of the party, perished with his followers.

##### Chinese Taken By Surprise.

LONDON, Sept. 7.—A Shanghai dispatch says it is stated a strong force of Japanese troops have occupied an island in Society bay. The Chinese were taken completely by surprise and offered no opposition. It is believed the intention of the Japanese is to hold it for the basis of operations for an attack upon Port Arthur and other Chinese ports.

##### Arthur Langell Shot.

HELMATH FALLS, Or., Sept. 8.—Arthur Langell, a wealthy pioneer cattle man and rancher, well known in Southern Oregon and brother of Nat Langell, ex-internal revenue collector for the southern district, was shot and probably mortally wounded last night near his big ranch in Langell valley, this county. The deed was committed by Frank Swingle, a neighboring cattle raiser. Particulars are hard to obtain, but a courier, who arrived here this morning, states that Swingle had driven a band of cattle on a piece of land he had rented, but which had been fenced by Langell. While engaged in tending the cattle, Langell rode down on Swingle, yelling, "I will kill you," and brandished a hatchet. Swingle warned him to stop, and as Langell paid no heed, Swingle shot him. The latter then gave himself up. The only witness was Swingle's 7-year-old son. Excitement runs high here, for Langell was a prominent and respected citizen.

##### Two Bad Men Killed Each Other.

BERNA, Or., Sept. 8.—Last Thursday night, in Scott Batley's saloon, Fil Glaze and Bud Howard shot and instantly killed each other. Their trouble grew out of a dispute over a horse on the Berds track. Both men had made records of their kind. Glaze had killed his man at Prineville where he formerly lived, and Howard his while temporarily absent. Also it is said, he served in the Oregon penitentiary. Jake Parker, jockey for Glaze, is under arrest as an accomplice. A coroner's inquest was held. Justices of the peace W. C. Bryd acted as coroner, and W. L. Marsden, M. D., made an autopsy of the body of Howard in the presence of the jury. The town is quiet. No further trouble is anticipated, and the race programme is being carried out.

##### Salvadoreans Making Threats.

WASHINGTON, Sept. 8.—Failing to get the United States to accede to their demands for the extradition of Bennington's refugees, some friends of the Salvadorean government have begun to threaten to take the life of Lieutenant F. W. Coffin, of the United States navy, an officer of the Bennington, on account of the friendliness he has shown to the refugees. The navy department has just received from Commander Thomas, of the Bennington, a report inclosing a letter containing threats which Lieutenant Coffin received. Rear Admiral Ramsay refused to give a correspondent the report for publication, saying it had come to the department only for its information.

##### Was Not the Cholera.

WASHINGTON, Sept. 8.—Passed Assistant Surgeon Goddings has returned from Cumberland, Md., and reports to the surgeon-general that a bacteriological examination made by him of the body of the cholera suspect, Walker, shows the man did not die of cholera. He died from eating improperly cooked food.

##### Ammunition Shipped.

NEW HAVEN, Sept. 7.—The Winchester Repeating Arms Company of this city has just completed and shipped to the Chinese government 1,000,000 rounds of ammunition. It was sent by rail to the Pacific coast.

##### Four of the Crew Killed.

PORT LOUISE, Mauritius, Sept. 7.—The British steamer Tannandic, trading between Mauritius and Bombay, has put back here with her boiler burst. Four of the crew were killed.

##### La Grippe.

During the prevalence of the gripe the past seasons it was a noticeable fact that those who depended upon Dr. King's New Discovery, not only had a speedy recovery, but escaped all of the troublesome after effects of the malady. This remedy seems to have a peculiar power in effecting rapid cures not only in cases of a gripe, but in all diseases of throat, chest and lungs, and has cured cases of asthma and hay fever of long standing. Try it and be convinced. It won't disappoint. Free trial bottles at Snipes & Kinsler's drug store.

Husband (mookly)—This is the fourth time this week we have had tinned beef and cabbage, Maria, and I'm just a little tired of it. His wife—I'm sure, Thomas, you're very unreasonable. You know I've had to correct the proof sheets of my new book "One Hundred Daily Dinners."—Tib-Bits.

Irving W. Laimore, physical director of Y. M. C. A., Des Moines, Iowa, says he can conscientiously recommend Chamberlain's Pain Balm to athletes, gymnasts, bicyclists, foot ball players and the profession in general for bruises, sprains and dislocations; also for soreness and stiffness of the muscles. When applied before the parts become swollen it will effect a cure in one half the time usually required. For sale by Blakeley & Houghton Druggists.

#### LOUISIANA DEMOCRATS ON SUGAR

##### The Count of Paris, the Head of the Royal House of France, Died Saturday Morning.

NEW YORK, Sept. 8.—A Washington special to the Sun says: The bolt of sugar planters and others interested in sugar is likely to cause many political complications and revolutions in Louisiana, and no one can foretell the future. Each day it becomes more and more evident that the break is an irreparable one and that the bolters have carried with them nearly all the sugar interests of the state. Here and there a prominent planter announces his intention to stick by the national democracy. State Senator Dudley Avery stopped the revolt in Iberia parish, and State Senator Shaeffer, of Terre Bonne, declares that he will remain a democratic representative. Dymond of Plaquemines refuses to go over to the republican camp, but will remain a protection democrat. Congressman Andrew Price, it is said by his friends, will remain with the democrats and will probably be the democratic candidate in the third district against the candidate of new republicans. He is the strongest man they can put up. With these exceptions nearly all the prominent planters and other sugar men have gone over, apparently forever, to the republicans. They control probably 60,000 votes which have usually been given to the democratic ticket, and if they can get these votes counted they will carry three congressional districts and render the state very close, if not republican, on the presidential contest. Great interest is felt in the attitude of Governor Foster. Both he and Senator Caffery come from St. Mary, the largest sugar parish in Louisiana, which seems to have gone heartily into this new republican movement. It is well understood that, although some of the bolters contributed largely to the election of Governor Foster, he will take a strong position against the movement. It is urged by the stalwarts that he ought to remove from office all his appointees who have become republicans this week, as it is impossible, they say, to be a national republican and state democrat at the same time. The bolters expect to be removed, but say that in Ascension parish, for instance, which usually gives 4000 democratic majority, it will be impossible for the governor to find enough men of standing clinging to the national democratic party to fill the offices. The leading paper here opposes the new movement and has denounced it as the greatest political folly ever committed. What caused the bolt was the passage of the free sugar bill in the house, and the refusal to pay the due and earned bounty. The old-time republicans are a great deal staggered at their sudden accession of strength. The leaders appear to welcome it, but it is difficult to say just how the party organization will be retained.

##### Admiral Ting Degraded for Cowardice and Incapacity.

SHANGHAI, Sept. 8.—It is reported that Admiral Ting, commander of the Pei Yang squadron, has been degraded for cowardice and incapacity, and that he has been deprived of the peacock feather and ordered to leave the fleet and take a shore command. The native papers say that Li Hung Chang is working to procure the mediation of England and Russia in the war with Japan. The emperor and the dowager empress are, it is said, furious at the suggestion, and refuse to listen to it. The country around Peking is flooded with orders, given by the government, not to attempt to lower the waters on the Plane. This is in order to prevent a Japanese advance. Advice from New Chwang, China, say that September 1st the British steamer Fetung, which was taking on the cargo for Japan, was ordered to stop the work of loading by the authorities. September 2nd twelve Japanese women and the Japanese counsel went on the vessel in distress. All the houses of the women had been destroyed and they had been robbed and maltreated by the Chinese soldiers. The women had been rescued and hidden by Europeans until they could be sent aboard the vessel. They were taken to the vessel two at a time in disguise. The steamer was soon surrounded by boats full of Chinese, seeking to capture the refugees. Two soldiers actually boarded the vessel, but were

## quickly ejected. No further attempt to board her was made. On the afternoon of the 2nd a military official came to the steamer and advised that she leave port the same night, otherwise the authorities might be unable to prevent trouble. Word has not been received of the arrival of the steamer at Kobe, Japan. Mr. O'Connor, the British minister, has returned to Peking.

### Count of Paris Dead.

#### Count of Paris, the Head of the Royal House of France, Died Saturday Morning.

##### Politics in Louisiana.

LONDON, Sept. 8.—The Comte de Paris died at 9 o'clock this morning at the Stowe house. During the night the count several times appeared to have passed away, so feeble was his pulse. Dr. Pecomier had the most extreme difficulty frequently in feeling the light beats of the heart, and the weakness of the distinguished sufferer during the last hours of sickness was so great he was unable to speak, although he succeeded in making it appear that he desired to utter a few more words of farewell to those around. The family and old servants were all in attendance, and to each one the head of the royal house of France feebly said a few additional kind words of farewell, after which the family knelt at the bedside and offered up heartfelt prayers for the dying. He rarely, however referred to his approaching death, always trying to soothe the sorrow of those around him. Now and then a deep sigh would escape from the sufferer, and he would mutter a phrase, oft repeated during the past week, "C'est bien long," equivalent to saying he was very weary of waiting for death.

##### Le Gaulois says a council of ministers will be held to discuss the question of permitting the interment of the Count of Paris at Dreux, should the family request it.

##### A Disastrous Fire.

MASSILON, O., Sept. 10.—Twenty acres in the heart of Dalton, Or., were devastated by fire between 2 o'clock and daylight this morning. Over 50 houses were destroyed, and the loss is beyond computation; insurance almost nothing. Assistance was sent by special trains from Massillon, Orville and Canton. The village water supply was soon exhausted and wells and cisterns emptied. Early in the morning rain began to fall and the flames died out. The fire is supposed to be incendiary. The fire originated in a stable where tramps were making their quarters. The loss is estimated at \$200,000. The streets are filled with homeless women and children.

##### To Succeed Cassimir-Perier.

PARIS, Sept. 10.—The election of the member of the chamber of deputies to represent Nogent-sur-Seine in succession to M. Cassimir-Perier, recently elected president, took place yesterday. The result was M. Edmund Robert, moderate republican, 4083; M. Bachimont, radical, 3361; M. Paul, socialist, 1183. As M. Bachimont did not obtain a majority over his two opponents, a second ballot is necessary.

##### An Old Man Drowned.

SANTA CRUZ, Cal., Sept. 10.—An old man named Samuel Bentley, a resident of this place, while fishing on the bank, was washed off the rocks near View de Liew, this morning and drowned. A companion jumped in after him. He nearly lost his life, and was with difficulty rescued.

##### The Pope as a Mediator.

LONDON, Sept. 10.—A special dispatch from Rome says the pope is said to have expressed a wish to arrange the troubles between China and Japan, but was prevented by France, who feared the intervention of the church would undo the work France was carrying on in the East.

##### A Waterspout in Oklahoma.

PERRY, O. T., Sept. 10.—This vicinity was visited by two waterspouts last night. Many business houses were inundated and in the lowlands many homes filled with water and the inmates compelled to wade out. In some streets the water was waist deep.

##### Drank Poisoned Water.

PIEDMONT, Ala., Sept. 10.—Two members of the family of Ed. Downs have died from drinking water out of a poisoned well, and two more are not expected to recover. Andrew Finley, a discharged servant, has been arrested, charged with poisoning the well.

##### Won't Go Back to Salvador.

SAN FRANCISCO, Sept. 10.—General Colocho, one of the Salvadorean refugees, who was dismissed by Judge Morrow last week, has left for the City of Mexico on his way to Acapulco, where he will reside with his family, whom he will meet there.

##### Killed Himself With Gas.

NEW YORK, Sept. 10.—Emma Annann the common-law wife of Billy Plimmer, champion bantam-weight pugilist, committed suicide at a Coney Island hotel early today by inhaling gas.

## TWELVE DEAD FOUND

### Frightful Accident on an Express Train.

#### A LARGE NUMBER WERE INJURED

##### Two People Killed by Drinking Water From a Poisoned Well—An Old Couple Asphyxiated by Gas.

PARIS, Sept. 10.—The disaster to the Paris and Cologne express train at Apilli, between Noyon and Chauny, yesterday, was more serious than at first supposed. The first estimates placed the number of persons killed at 10, with 20 injured. Twelve bodies have already been taken from the wreck. The accident was due to the slow shunting of a freight train at Apilli. The engineer of the express saw the cars on the line and reversed the engine. The shock of the collision was borne by three front cars. As soon as the accident became known a priest and others hurried to the railroad station, and did everything to assist the dying and injured. The report that the station master at Apilli had committed suicide by jumping in front of the express train when he saw the collision was inevitable, turns out incorrect. The station master ran along the track to signal the express and the freight train, and was caught between the two trains and killed. It seems certain there were Americans among the killed or injured.

##### Plot For a Dime Novel.

PARIS, Sept. 10.—The judicial authorities of St. Quentin are at present engaged in investigating a most extraordinary affair. In 1873 a foreigner was found lying in the street with a bullet wound in his head and was brought to the hospital, where he stated that he had been a cashier in a New York bank, and had absconded with \$60,000. Believing that the Paris police were on his track, he had taken the train to Hergnier, and finally in despair, he had attempted to take his own life. Next day fever set in, and he died shortly afterward. His clothes, which were much the worse for wear, were destroyed, but one of the nurses saved the upper leathers of his boots, which were in fairly good condition. For 21 years they lay in a cupboard where they were found by a man named Mennechet, employed in the hospital, who asked leave to take them. It was granted, and he carried them off, little imagining that he had secured a valuable prize, but such was the case. They were lined with papers which proved to be scrip, and Mennechet, who is a militant socialist, commissioned one of his political friends to negotiate the bonds in London. The man recently returned with the money, and the authorities, having got wind of the matter, are seeking to discover what has become of it.

##### A Successful Burglary.

CLARENDON, Pa., Sept. 10.—F. W. Collner & Co., general storekeepers at St. Petersburg, this county, were robbed Saturday of \$70,000 in bonds, notes and cash. The theft was kept secret, in hope of catching the guilty persons disposing of some of the papers. Saturday night the store was closed at 10 o'clock. Four members of the firm, the bookkeeper and clerk finished balancing the books, counted the cash, and after putting the latter into tin boxes locked the store and went across the street. In ten minutes they returned to the store door, which they had locked securely. It was standing wide open, and the tin boxes containing bonds for \$60,000, checks and promissory notes for \$5,000 and over in cash were gone. A search of the premises showed that some one had been concealed in the store and as soon as the force had left grabbed the boxes and followed, unlocking the door from the inside.

##### Lightning Made the Dumb Speak.

WINFIELD, L. I., Sept. 10.—A house belonging to John Zelinka, of this village, was struck by lightning during the storm Saturday night. A bolt went through a two-foot brick wall into the dining room where Mr. Zelinka, a neighbor and Mrs. Fisher, a visitor, were discussing the storm. It seemed to pass between Mrs. Fisher and her 13-year-old daughter Mary, who had been deaf and

## dumb for over eight years. Mrs. Fisher and her daughter sat motionless for several seconds, when the little girl got up and pointing her finger to her ear, said, "Mamma, I heard that let us go home." This is the first time, it is said, that she has spoken since an attack of scarlet fever left her deaf and speechless.

### Compelled to Kill Their Horses for Food.

#### LONDON, Sept. 10.—A Shanghai dispatch says the Chinese transport Chean while proceeding to Formosa with 1400 troops was wrecked at Chetang. The soldiers and crew were saved. Chinese officials attempting to board a French mail steamer at the wharf at Shanghai to search for Japanese passengers, but the captain threatened to call a French warship, and they desisted.

##### Three powerful China warships have gone to the Gulf of Pe-Chi-Li, to join the Northern Squadron.

Another Shanghai dispatch says the Chinese forces in the northern part of Corea are hemmed in by Japanese and their supplies cut off. The Chinese were compelled to kill their horses for food. The Japanese have discharged all the foreigners employed at the dock yard, it is said, to conceal the damage to the ships in the recent engagement with China. A large force of Japanese are about to embark at Hiroshima for the seat of war.

##### Took the Gas Route.

CHICAGO, Sept. 10.—George Rolands and wife, old and prominent citizens of Ravenswood, were found dead in bed today, having been asphyxiated. A gas jet was found wide open.

##### The Reported Massacre.

EL PASO, TEX., Sept. 10.—Nothing is known here concerning the reported massacre of the government surveying party. Only one party is out, and it is about 30 miles from Harqua Hala, Ariz.
