LOCAL BREVITIES.

Saturday's Daily.

The Redmen are gathering in lots of new members, and the local lodge is getting too large for its hall.

Mr. Radicka is having a building put up next to Phelps' implement store. It will be used as a barbershop and real estate office.

Mrs. Covington is having her lots on Third street graded and out in condition for a handsome residence, work on which will be begun in a short time.

Walter O'Dell, a sheepman, fell off the sidewalk yesterday evening, near the East End restaurant and broke his right leg near the ankle. Dr. Hollister reduced the fracture.

The Dalles city charter as amended and sent to the legislature passed both governor, Thursday. May it prove an acceptable valentine.

The rain early this morning was as warm and abundant as though it bebackward drizzle such as winter furnishes, but an impulsive downpour.

Elder J. H. Miller, the pastor of Calvary Church, and editor of the Baptist Sentinel, arrived here yesterday. He will preach at their meeting house (the old electric light house) tomorrow morning and evening.

The steamer Regulator will make the first trip of the year to the Cascade Locks and return Monday, leaving her wharf at 8 o'clock. The first regular trip in connection with the Dalles City will be made Wednesday.

Sheriff Driver will take the prisoners, Moore and Williams, convicted of burglarizing Leavens & Cates' store at the Locks, to Salem Monday. This sentence will just let them out in time to demand a clerkship in the next session of the legislature.

The situation at Salem today is unchanged as far as Dolph is concerned, he holding his 42. The anti-Dolphites, however, served notice by their votes that they were ready at any time to unite on almost any good republican except Dolph. Lowell was also given to understand that he was not in it, which of course everybody but he knew all the time. The vote was as follows: Dolph 35, Hare 10, Williams 24, Raley 6, Weatherford 1, absent 14.

A dispatch from Scranton, Penn., yesterday announces the death of Judge Handley of that city. He was the brother of Major Handley, late of this city, and was very wealthy. Several years ago he made a will, leaving all his property to Eddie Handley, his nephew, but the latter dying soon afterwards, the will was, of course, of no effect. He leaves no relatives, unless in the sixth or seventh degree, and it is quite probable that the dividing of his estate, valued at \$8,000,000, will cause considerable litigation.

Monday's Daily.

Special services will be continued at the M. E. church during the week.

The list of successful applicants for certificates to teach was not completed today, but will be given tomorrow.

Mr. and Mrs. F. W. L. Skibbe celebrated their tin wedding Saturday night, assisted by a large number of friends.

The city marshal gathered in five hoboes yesterday and one drunk. They are assisting the street commissioner to-

The Regulator left for the Cascades this morning, her first trip this year. She will make her regular trip Wednesday, and from that on will run daily.

The vote at Salem today showed no material changes. Dolph got 38, Williams 27, Hare 10, Raley 6, Weatherford 1 and 8 members were paired. But four days' remain of the regular session and the situation instead of seeming nearer an agreement, is more hopeless than ever. It seems to have settled down into a sullen determination on both sides, "Dolph or nobody" being the watchword of one faction, "anybody but Dolph," of the other. The indications are that no senator will be elected.

Don't forget that the Regulator pulls out in the morning at 7 o'clock to begin her regular season's run. Connection will be made with the Dalles City and the run to Portland will be made in quick time.

The Salvation Army invaded the jail this morning and conducted services therein. As Otis Savage was the only person in the jail, he received enough for a whole hall full of sinners. We have the utmost respect for religion, but must confess that the spectacular variety of it does not increase our veneration. If that was part of Savage's sentence, it is all right, but if not he ought to be allowed a rebate.

From parties who visited the locks yesterday we learn that the work there is being pushed very fast, and any one who has kept any watch of the progress of the work is convinced that if the contractors are not hampered in any way, that boats will pass through the canal place, and a large force of men are ployed at that work.

Mitchell Notes

Events for the past few months are decidedly on a shortage. There has frozen up, for a more splendid winter I do not think we can find on record for worse weather here in June than we have had most of the time this winter. No one has been feeding any great amount, and since the snow has gone the past week almost everything has been turned out to forage for themselves.

W. H. Puet has been for the past week making some very necessary improvements in building a gravel sidewalk the entire length of his lot. Also we note with welcome that there is a many have been compulsory loungers, or only had to work for board.

A Dangerous Grade.

The accident to Abe Foley's team on the Haynes hill last week, ought to show our authorities the necessity of placing a strong railing along the dangerous points on the grade, the same as has been done on the grade on the east side of the Hood river bridge. The accident that happened to E. D. The quotation follows:

"Resolved, That the wearing of a theater bat is a nuisance, is a subject undebatable. Every one is on the same side of the question, for in truth it has but one side. The big theater hat is a nuisance, and always has been. Theater-goers of Missouri, Illinois, Indiana and New York have introduced hills into their state legislatures making it a theater to wear high hats. Although these people have the sympathy of all other theater goers, nevertheless they are working on the wrong track. It is remembered that legislatures have endeavored in the past to enforce laws against the wearing of mother hubbards and the appearance of ballet girls in tights, and all without effect. The only way to fight the big hat nuisance is to enlist the woman in the warfare. Until women are willing to recognize that it is merely an act of selfishness and a disregard for others' comfort, to do that which discommodes people without personal gain, and especially after so many objections have been raised on the subject, until then, theaters will resemble millinery openings and general discomfort will increase. Any unselfish woman of good sense will remove her hat in orrather than allow her vanity to interfere
