

The Weekly Chronicle.

THE DALLES, - - - OREGON

Clubbing List.

The CHRONICLE, which gives the news twice a week, has made arrangements to club with the following publications, and offers two papers one year for little more than the price of one:

Table with 2 columns: Publication Name, Price. Includes Chronicle and N. Y. Tribune, Chronicle and Weekly Oregonian, etc.

LOCAL BREVITIES.

Saturday's Daily.

The last term of the circuit court was one of the briefest, and about the least expensive that was ever held here.

United States Circuit Judge Gilbert, who has been holding court in California for some time, returned to Portland yesterday.

The time for completing the work at the Cascades has been extended to March 2, 1895. This will give ample time to do the work and some to spare.

Lyell Baker delivered a lecture at Eugene last night on the subject of "Evolution." We would suggest that for his next subject he add "The evolution of a railroad commissioner."

Representative Clarence Cole of Portland has sued the Oregonian for \$25,000 damages for calling him a "stinkard" and other pet names—the result of his refusing to support Dolph for senator.

The authorities have decided to move the smallpox patients to the new pest house, and the moving was to be done at 4 o'clock this afternoon, but at the hour of going to press they were still in the Obarr house.

Mr. D. H. Roberts has been summoned to Eugene on account of the illness of his sister, Miss Emma S. Roberts, who has been engaged in teaching at Fulton. She was taken sick while visiting in Eugene.

There will be an entertainment at Fairfield school house next Saturday evening, the 16th inst, consisting of a drama, recitations etc. Music by the Fairfield string band. Admission 20 cents, Children 10 cents.

The county commissioners will complete their labors today, but too late to permit the reporter to get a whack at the commissioners journal for much needed copy. We hunger and thirst after items but find them not, because they will not materialize.

So far three candidates have announced themselves for the office of school clerk. Mr. Roberts, although he will not be here Monday, leaves his candidacy in the hands of his friends, but C. E. Bayard and the present clerk E. Jacobsen will be on the grounds to look after their interests.

A gentleman who has a fine young orchard in the Mount Tabor district, reports to the state board of horticulture that the law passed by the late legislature is already producing beneficial effects. He has sprayed his orchard for several years, but to little purpose heretofore, as the people around him did not spray their orchards, and they had a full assortment of insect pests, and always a surplus to stock his orchard. Now they are taking an interest in spraying, and have procured pumps and material for wash, and he feels in hope that united effort will cure the vicinity of pests of all kinds.

Monday's Daily.

Mr. James Thrall has leased a building from Mr. Phil Brogan, at Kingsley, and will open a general merchandise store.

Dr. Siddall is a victim of grippe, and consequently unable to be at his office. He will give notice of the fact when he is able to resume his duties. A petition with sixty-two signatures has been sent to the postmaster-general praying for the creation of a new post-office, to be located at the house of Isaac Matney, eleven miles southwest of town, on Mill creek. Mr. Matney was in the city today for the purpose of forwarding the petition.

This has been a day to delight those who enjoy the fresh breezes from the mountains. At an early hour old Zephyr commenced his work of scattering dust and small natural bric-a-brac, sweeping the streets and sidewalks and placing most of the dirt and dust where it would cause the most annoyance and greatest amount of profanity.

Many of our old residents will remember W. N. Bonham, who was engaged in teaming here in early days. Judge Liebe tells us that he heard from him through the Packard case, that he met with reverses, losing nearly all of his property, and that he was recently appointed deputy assessor of Kern county, California. He is living at Spotswood.

We do not know what some of the people on the hill want, and we doubt if they do. Since the new smallpox hospital has been built entirely away from them, they object to Dr. Hollister, who is attending the patients, passing through that part of the town. We recognize every man's right to protect him-

self and his family from contagion, but regret that unreasoning fear has so warped the judgment of those persons who interfere with the doctor's visits.

Edgar Mayer, the 16-year-old son of S. J. Mayer of Portland, who has been in the employ of the General Electric company of Portland for six months, Saturday, while dismantling an old switchboard and moved by an inordinate curiosity, grasped the ends of two live wires, and was instantly killed. He had been warned many times not to touch the wires, but had expressed a desire to do so, and also asserted that he did not believe that the wires could kill him.

Tuesday's Daily.

The vote yesterday was as follows: For director, Dr. O. D. Doane, 206. For clerk, Jacobsen 125, Bayard 23, Roberts 83.

Mrs. Phillips is putting her new store-room in shape for the reception of her goods and will move them into it tomorrow.

Constable Trana came up from the Cascade Locks last night, bringing James McDonald, who was sentenced by the justice of the peace of that precinct to 20 days in jail.

The regular monthly meeting of the board of fire delegates will be held to-night at 8:30. It is requested that all members be present, as there will be important business.

Lieut. Unrath and Private Smith of the O. N. G., have been court-martialed. The sentence is that the lieutenant be dismissed from the service and the private "fired." And Governor Lord said, "so be it."

There is something new under the sun after all, and that is the spectacle of Willamette valley towns running their street sprinklers in March. Perhaps it is not new under the sun either, only the sun in March is "new."

There was a regular spring shower yesterday, the first of the season. It did not last long, and when the clouds cleared away, the surrounding hills were white with snow. It was a pretty sight, the white shading off into the bright green of the lower hills.

Work is being pushed on all the fish-wheels, and by the time the season commences there will be a number of them ready to dip up the Columbia's annual harvest. They are put in to stay this time, and will stand anything less than a deluge like last year's.

The Wasco Warehouse Co. have on sale at their warehouse Seed Wheat, Feed Wheat, Barley, Barley Chop, Oats and Hay. Are sole agents in The Dalles for the now celebrated Goldendale roller mills flour, the best flour in the market, and sold only in ton lots or over. 9-ft

Mr. Robt. Mays who has just returned from an extended trip through the county tells us that plows are running everywhere, that the acreage in wheat promises to be very large and that the season is as far advanced in the southern parts of the county as it is here.

Efforts are being made in the East to start a free-silver party. Congressman Sibley of Pennsylvania is suggested as a presidential candidate thereon. The idea is to drop all other issues, at least for the first election and make a fight in free silver alone. It is probable the movement will materialize, and that there will be a regular free silver ticket no matter what platform the other parties may indorse.

Those who are anxious to be appointed fish and game protector may not be exactly pleased but they will be edified to know that there is no vacancy to fill nor will there be one created, nor will there be any change in the occupancy of it for some time at least. Hollister D. McGuire will be allowed to extend his protecting care over the motherless salmon and like morsels of the game species until Governor Lord may change his mind, which now leans as above indicated. —Salem Statesman.

The position of game and fish protector was not abolished by the legislature and now that Mr. McGuire is to hold his job for two years more, he could help to earn his salary by causing the arrest of Klamath county parties who are violating the game law. This is the close season, yet deer are being sold in Klamath Falls as publicly as beef. Thirteen deer were brought in only a few days ago and at least 500 have been killed since December 1st. In Langell valley it is reported that 300 have been slaughtered for their hind quarters and hides. This is an outrage and we trust that the district attorney will give the matter attention. —Klamath Express.

Last Night's Eclipse.

The eclipse of the moon last night was a genuine success, the curtain rising, so to speak, to the minute as advertised. The sky was clear at the beginning of the performance, and there were no big hats to shut off the view. The shadow of the earth came up from below, gradually spreading over the face of the moon until the eclipse was total. About this time more or less clouds had swept up from the west, but only enough to hide the show for a moment or two at a time. Taken all in all, it was just as fine an eclipse as any country ever had.

Telephone Notice.

Those who have not already ordered instruments placed and who desire telephone service from the Seufert-Condor Exchange, will please order at once. SEUFERT & CONDOR.

Commissioners' Court.

Bills were allowed as follows by the commissioners at the March term just closed:

Table listing names and amounts for various bills and services, including Mrs. Mottis, John M. Marden, Amos Root, etc.

Virgil Bolton's Funeral.

Virgil Bolton's funeral took place from the family residence this afternoon at 1 o'clock, the services being conducted by Rev. W. C. Curtis. The body, encased in a heavy coffin, lay in the parlor, where the last look was taken by the sorrowing friends. The coffin was covered with masses of beautiful flowers, and around its foot were piled other masses of delicate bloom, the tender tributes of those who loved him. The services were simple, beginning with the song "Nearer My God to Thee," at the conclusion of which Rev. Curtis arose and delivered one of the finest funeral sermons we ever heard. It was a tender recital, in simple language, of the dead man's life, the qualities that endeared him to all, and that brought around him today all of his fellow-townsmen to pay their last tribute of affection and respect. Mr. Curtis said truly, that could each one in turn tell the reason why he mourned, it would be such a

tribute as but few could hope to merit. The brief and pathetic words of the sermon were followed by prayer, and this by the hymn "Shall We Meet Beyond the River."

The funeral procession was formed, headed by G company, O. N. G., followed by the city officers, and these by the Masonic fraternity, of which he was a member. The long procession, consisting of about seventy carriages, wound its slow way to the beautiful cemetery, and with the impressive, but simple ceremonies of the Masons, all that was mortal of Virgil Bolton was laid to rest until that day when, in the providence of God, the dead who die in the Lord shall rise again in the glory of immortality, to dwell in the flower-decked gardens of Paradise forever. Sweet be your sleep until that day, old friend! And until then, farewell!

Council Meeting.

At an adjourned meeting of the city council held Saturday evening, the following business was transacted:

Present Councilmen Nolan, Adams, Thompson, Eshelman Lauer, Hood, Kuck and Johns. Acting-Mayor Nolan stated the object of the meeting, which was to fill the unexpired term of Mayor Bolton deceased.

No nominations were made, but it was agreed that an informal ballot should be taken, and the candidate appearing to be the most popular should be the unanimous choice, and upon said ballot being counted, it appearing that Frank Meneteer had received a majority of the votes, he was thereupon nominated and elected by a unanimous vote.

A report of the physicians heretofore appointed to select a site for a pest house, recommending the location immediately south of the present city cemetery, was read, accepted and ordered placed on file.

Committee heretofore appointed to draft resolutions on the death of the mayor, presented the following, which were adopted and ordered made a part of the proceedings of this meeting and that a copy be sent to the widow of the deceased mayor:

WHEREAS, Death has removed from our midst an esteemed citizen the mayor of Dalles City, and

WHEREAS, Remembering his many virtues and faithfulness to convictions of right, we realize how great is our loss, and even greater the loss sustained by those nearest him. Therefore be it

Resolved, That we hold in grateful remembrance his wise counsels and his judicious actions in all matters pertaining to the public good.

Resolved, That we cherish his memory with sincere affection, and extend our heartfelt sympathy to those who have been bereaved.

Resolved, That a copy of these resolutions be sent to the wife of the deceased that they be spread upon the records of the proceedings of the common council, and that the local papers be requested to publish them.

R. B. HOOD, S. B. ADAMS, A. R. THOMPSON, Committee.

On motion it was ordered that William Glasius be appointed special policeman to enforce the curfew ordinance on the bluff, and that he be allowed a reasonable compensation for all arrests made by him, where a conviction results.

On motion it was ordered that when the council adjourn it be to meet Saturday night, March 16th, at 7:30. Adjourned.

The New Game Law.

The following are the provisions of the law passed by the last legislature. It is similar to the present game law, the only change that was made being the salary of the game protector and the close season for certain game. The close season for elk, moose and mountain sheep is put from December 1 to August 1. Spotted fawn may be killed at no time; deer no time unless used or sold for food. Close season for grouse, pheasants, etc., December 1 to September 1. Denny pheasant at no time east of the Cascades; birds may be killed between October 15 and November 15. Cold storage is prohibited in close seasons. Sink boxes, flashlights, blinds, etc., are prohibited. Dams must have fishways. Fines are from \$25 to \$200, and in case of non-payment they may be liquidated by imprisonment at the rate of \$2 per day. Half of the net income from fines after costs are deducted go to informers. No mention is made of the salmon industry.

\$100 Reward \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address, F. J. CHENEY & Co., Toledo, O. Sold by all druggists, 75c.

Land Office Business a Specialty. Ten years' experience.

Offices on Washington Street, between Second and Third.

Smallpox Danger Over.

The fences have been removed from Second street, at the Obarr house, and the house has been thoroughly fumigated and disinfected. Monahan and his nurse have been moved to the new pest house, clear back on the hill away from everybody, and the persons quarantined in the old pest house will be given their liberty within a day or so. These latter persons have had quite a siege of it, it being now about 22 days since they were first exposed and all danger is over. The only place where the scare seems to be epidemic is in the pines, where people dream of yellow flags and ruminate on smallpox. We understand the captain of the Salvation Army gathered such of his flock as have been among the frightened ones, and delivered them a lecture that will cause them to take a more rational view of the matter. This was a good move, and we hope everybody in their neighborhood will get inoculated with good sense from them. Monahan is recovering rapidly and his nurse, who has a case of varioloid, is doing nicely. All danger we think is passed, and the disease will not get beyond the walls of the pest house, where it is now running rapidly to the end of its course.

The Big Jet of Water.

The fine jet of water at reservoir No. 2 is the subject of much comment, and no one has been found so far who has ever seen the equal of it, or knows of any fountain which is to be compared to it. A five-inch jet, which rises in a solid stream for over one hundred feet, is considered a world beater. Colonel Smith, chief engineer of the waterworks, says that it will be possible to have even a finer jet at No. 3 reservoir, in the city park. The water wheels and pumps now ready to be put in on the pipe which conveys water from No. 3 to No. 4, are calculated to raise water to a height of 600 feet, which is more than twice as high as Mount Tabor reservoir. No. 1 is above No. 2. A jet of say, 200 feet, in the city park, and as many fountains as can be got, throwing water as high as desired, would be a grand attraction, and it is quite likely that there will be something of the kind in the park before long.—Oregonian.

A Secret.

If all the ladies knew the simple secret that a bad complexion is due to a disordered liver, there would be fewer sallow faces and blotchy skins. This important organ must be kept active and healthy to insure a clear and rosy color. Dr. J. A. McLean's Liver & Kidney Balm as a purifier, beats all the creams and lotions in existence and will produce a more permanent effect. Removes bad taste in the mouth, offensive breath, yellow tinge in the skin, wind on the stomach and that dull, bilious feeling which so surely indicates the torpid liver. Price \$1.00 per bottle. Snipes-Kinersley Drug Co.

Real Estate Transactions.

The following deeds were filed for record yesterday and today: John Bino and Mary Bino to W. C. Vredt, one acre of land near the old schoolhouse, Antelope; \$150. Wentworth Lord and wife to Elmira G. Sylvester, lot 4, block 13, Laughlin's addition to Dalles City; \$1. Jos. T. Peters et ux to Julius J. Wiley, lots K and B, block 7, Ft. Dalles military addition to Dalles City; \$1.

Good Officers.

The election yesterday resulted in the election of Dr. Doane to the office of school director and the re-election of E. Jacobsen as clerk. Dr. Doane will undoubtedly make a first class school director, and Mr. Jacobsen we know will make a good clerk because he has filled that office as satisfactorily as it was ever filled in this district. Not only have his accounts been kept in excellent shape, but he has proved a splendid collector of tuition money, so that nearly \$600 is brought into the treasury from that source alone. Added to this the careful enumeration of the children has increased the district's receipts a thousand dollars.

PERSONAL MENTION.

Saturday.

Mr. and Mrs. F. P. Mays came up from Portland this afternoon.

Mr. J. H. McDonough came up from the Cascade Locks last night.

Superintendent Borie came up in his private car from Portland this afternoon.

Mrs. W. A. McFarland arrived from Seattle on this afternoon's local to attend the funeral of her brother Virgil Bolton.

Monday.

Mrs. H. Glenn went to Portland today.

Mr. C. L. Gilbert of Hood River is in the city.

J. A. Douthett of Prineville was in the city yesterday.

Deputy Sheriff Kelley has just returned from Kingsley.

Mr. Theo. Prinz was a passenger on the boat this morning.

C. P. Heald, city recorder of Hood River, came up on the local this afternoon.

Mr. and Mrs. Chas. Hilton were passengers on the Regulator for Portland this morning.

Mr. F. T. Ryan, night dispatcher for the O. R. & N., returned to Albina this afternoon.

Hon. Al. Lyle, member of the legislature from Crook county, arrived from Portland today on his way home.

The many friends of Miss Grace Sharp, who has been dangerously ill with pneumonia for the past week, will be sorry to learn that she is reported as being no better. Her condition is a critical one.

Tuesday.

Mr. Frank Graf, formerly of Goldendale, was in the city yesterday.

Mr. W. B. Presby arrived from Goldendale yesterday evening.

A. J. Borie and wife passed through on their way to Pendleton last night.

J. J. Abbott and W. A. Miller, both of Wapinitia, are registered at the Umattilla.

Mr. H. P. Mitchell came over from Goldendale on a business trip yesterday, returning this morning.

BORN.

At Hood River, March 5th, to the wife of L. N. Blowers, a daughter.

On Mill Creek, Sunday, March 10th, to the wife of James Cameron, a son.

At Tygh Valley, Thursday, March 7th, to the wife of John Van Metrae, a daughter.

DIED.

At Hood River, Monday afternoon, March 11th, Martha Purser, aged about 78 years.

Grandma Purser, as she was generally called by those who knew her, was an old resident of Hood River and White Salmon, and was known by nearly everybody in both those communities. She leaves three sons, one residing in the Willamette valley, John, who lives at White Salmon, Wash., Joseph, who resides at Hood River, and one daughter, Mrs. Foss, who is also a resident of Hood River.

In Washington county, Ind., the other day, a married woman and her married daughter each gave birth to a baby the same day. Both were boys of the same complexion, size and weight. When the neighbors came in they, of course, took the babies and in some way got them mixed. Now neither mother can tell which baby belongs to her.

Advertisement for ECZEMA treatment, mentioning Swift Specific Co., Atlanta, Ga., and Dr. Miles' Nerve Restorer.
