A PUDDING.

A short time ago we were told that the real estate men were going to get up some literature descriptive of Wasco county. We have waited patiently...

The country newspapers are read at home. Now it will be readily seen that if THE CHRONICLE should devote most of its space to telling the citizens of Wasco and contiguous counties just what kind of a country this is...

Who is there can even guess at the future of the fruit industry in Wasco county? She has thousands of acres of lands that will raise the finest winter apples in the world...

There are some things no man can guess, and those mentioned above are among them. There are some other things that are hard to account for...

There was another fellow who guessed wrong too. We were standing in front of a big plate-glass window admiring some handsome diamonds...

him that hath shall be given;" and at the same time consoling myself with the not very creditable thought that most people who owned fine diamonds were both old and ugly...

And now comes the story that another will made by the late James G. Fair has been found. This one, too, was in possession of a lady friend of the old mining shark...

The dispatches today show that a general snow storm is paying its respects to Miesouri, Illinois, Indiana and extending into Virginia. At Peoria the snow is drifted to a depth of four feet...

THERE WILL BE NO WAR.

Affairs down in Washington are pretty well stirred up, considering congress is not in session. Gresham in his capacity of court jester, manages to keep the time from hanging heavily on the hands of the president...

As a matter of fact, the complications this government has with others are every-day affairs that are easily and amicably settled. Our navy, while surpassed by that of both England and France, is not to be laughed at by either...

As for Spain, and the idle talk concerning what she could or would do with us, it is only necessary to call attention to the fact that she has her hands full at home trying to control her own population...

As for England, it is not probable that circumstances will ever arise that will cause war between her and the United States. There is a common tongue that will be that of the world ere long...

ours are mixed and mingled, until they are no longer capable of segregation. With Germany we are in somewhat the same condition, and all Europe is so balanced against itself that none of the parts could safely tackle a job like that of undertaking to humble this country...

The six-dollar-a-week newgatherer at Washington may set all the countries by the ears, but it will only be on paper; outside of that he couldn't set a hen.

A HOME MARKET.

The building up of a market for our home manufactures is a problem to be worked out in this state. So far but little has been done in this line. Many establishments have been started over the state, but few of them show evidence of being able to compete for the trade of this coast...

When the manufacturers of California come to consider in detail the problem of finding a home market for their goods they must not overlook the fundamental truth that there can never be a market for goods that are not known to the consumer...

The trade journals of California show a rich array of Eastern advertising, but a very scant amount of advertising by California producers. The merchant must of necessity purchase those things that are advertised, for he does not know of the others, nor do his customers...

TOWARDS ANARCHY.

Yesterday United States Judge Gilbert appointed John M. Egan receiver of the Oregon Short Line. The appointment is ill-timed, and will serve to strengthen the idea already unfortunately too prevalent, that the United States courts will do almost anything that railroads want them to...

Pullman, over whose greed the whole trouble occurred, was subpoenaed as a witness by that same United States judge—Grosscup, and when he snapped his fingers at the court and the marshal, and went down to Florida...

to be heard. Instead of Egan being sent to jail, he is rewarded with an appointment as agent of the government and of the United States courts. We do not question Judge Gilbert's motives in making the appointment, as it was probably the desire of the stockholders of the road...

THE WOOL OUTLOOK.

The American Wool and Cotton Reporter, published at Boston, which is the American wool market, says: "The reported strength of market-abroad has not yet been reflected in any appreciable way here. Prices, though not quotably higher, certainly are steadier, and although trade has ruled very quiet, manufacturers found it impossible to obtain concessions in value from those current a week ago...

DOES NOT SUIT GRESHAM.

Secretary Gresham has asked the Hawaiian government to recall Minister Thurston. The secretary makes no charges against Thurston, in connection with the newspaper criticism of himself, but it is easily seen that the secretary is deeply offended, and that he connects Mr. Thurston with the objectionable criticism...

We congratulate our contemporary, the La Grande Chronicle, on its increased size. It is now a six column paper, and all good live columns too.

of all cases of consumption can, if taken in the earlier stages of the disease, be cured. This may seem like a bold assertion to those familiar only with the means generally used for its treatment; as, many cod-liver oil and its filthy emulsions, extract of malt, whiskey, different preparations of hypophosphites and such like palliatives. Although by many believed to be incurable, there is the evidence of hundreds of living witnesses to the fact that, in all its earlier stages, consumption is a curable disease. Not every case, but a large percentage of cases, and we believe, fully 98 per cent, are cured by Dr. Pierce's Golden Medical Discovery, even after the disease has progressed so far as to induce repeated bleedings from the lungs, severe lingering cough with copious expectoration (including tubercular matter), great loss of flesh and extreme emaciation and weakness. Do you doubt that hundreds of such cases reported to us as cured by "Golden Medical Discovery" were genuine cases of that dread and fatal disease? You need not take our word for it. They have, in nearly every instance, been so pronounced by the best and most experienced home physicians, who have no interest whatever in misrepresenting them, and who were often strongly prejudiced and advised against a trial of "Golden Medical Discovery," but who have been forced to concede that it surpasses, in curative power over this fatal malady, all other medicines with which they are acquainted. Nasty cod-liver oil and its filthy "emulsions" and mixtures, had been tried in nearly all these cases and had either utterly failed to benefit, or had only seemed to benefit a little for a short time. Extract of malt, whiskey, and various preparations of the hypophosphites had also been faithfully tried. The photographs of a large number of those cured of consumption, bronchitis, lingering coughs, asthma, chronic nasal catarrh and kindred maladies, have been skillfully reproduced in a book of 160 pages which will be mailed to you, on receipt of address and six cents in stamps. You can then write those cured and learn their experience. Address for Book, WORLD'S DISPENSARY MEDICAL ASSOCIATION, Buffalo, N. Y.

A GREAT MEDICINE. Cod-liver Oil is useful beyond any praise it has ever won, and yet few are willing or can take it in its natural state. Scott's Emulsion of Cod-liver Oil is not offensive; it is almost palatable.
