The Wheat Market.

CHICAGO, May 24.—The wheat market On the curb and open board early sales were at 781/2 for July, against 783/4 at the close yesterday. Out of the bedlam of the pit at the opening of the regular board came the figures 7814, 79 for July. Early news was mostly of a bearish character, but numerous crop damage reports were received later. Brokers saw the dangers of such a runaway market as that of yesterday, and were advising their customers to go slow. As a consequence, early trading brought out many stop-loss orders. July soon dropped to 773%, fluctuated between 771%c and 78c, and when very bad crop reports came advanced to 79c, and eased off to 785ac. The market later turned up to 791/ac, then for a long time it wobbled lazily between 7816c and 79c. The volume of trading was very much reduced in comparison with the business of the past few days. Corn was weak, owing to the He will compare Carliele's present views selling of about 1,000,000 bushels by Baldwin & Farnum. The market turned weak, and at the close July sold from 79c to 77c. There was no news of importance, but there was a general resumption selling and the market got no support. The market continued to break during the last fifteen minutes, July going to 7616c.

SATURDAY'S LYNCHING. It is the All-Absorbing Topic at Dan-

DANVILLE, Ill., May 27 .- Saturday's lynching is still the absorbing topic of conversation here. There is a possibility that those members of the mob who are known will be indicted by the grand jury. State Attorney S. G. Wilson' is much opposed to lynch law, and has taken a more decided stand in censuring the mob than any other prominent citizen in Danville. He said today:

"If the grand jury indicts the lynchers you can rest assured that I will prosecute them vigorously and fearlessly. The matter will be brought before the grand jury. What action it will take, I am, of course, unable te say. I believe in following the law in every case. Last summer some citizens complained that Danville was overrun with mobs of striking miners. I do not see a difference between a mob of poor coalminers and one

of rich farmers." The people will pay the damages done to the county jail. The amount will be raised by subscription. The damage will not exceed \$200. Miss Barnett's condition is improving, and it is expected she will be removed to her father's home in Indianola in a few days. The action of the lynchers meets with her approval.
