LOTAN CONVICTED.

The jury in the case of the United States vs. Lotan and Seid Back returned a verdict early Sunday morning, convicting them, of conspiracy to defraud different to the coming city election. the government. The verdict is no doubt a surprise to everyone who has followed the history of the case. It will to satisfy beyond a reasonable doubt fair-minded men that a man of the that is dear to him and his family in the charged, he is an idiot as well. We do coast are likely to try it. not believe he is either.

## UNFULFILLED PROMISES.

None of the promises which formed the consideration for which the present administration was placed in power have been fulfilled. The government was turned over to a democratic president and congress because of the assurance that the poor were to be relieved of taxation; corporations and millionaires were to bear the expenses of the government; manufacturing industries were to be encouraged, and the entire nation made more prosperous than before. No sooner had the new congress been elected than trade relations became demoralized; dealers withheld their orders expecting the new tariff law would depreciate prices : manufacturers reduced the quantity of the output of their mills, expecting that a reduced tariff would reduce the price of their goods, and also because the customary orders were not received; they in turn declined to purchase materials, anticipating cheaper raw materials; prices of raw materials fell; mills closed; workmen were thrown out of employment, and trade in every line contracted long before the proposed

The indebtedness of the city is now taken care of for the next twenty-five by the bonds recently sold. The new charter forbids the incurring of any other debt, but this will not take care of the city's finances unless the utmost of economy is practiced and every unnecessary expenditure shut off. #### Hard Freezs at Dufur Last Night.

Mr. Timothy Brown of Dufur called on THE CHRONICLE this morning and said that at Dufur and in the vicinity a hard frost came last night. It is yet too soon to ascertain just how much the damage is, but potatoes and small fruits such as berries are considerably injured. The grain is too far along to be hurt. The frost was not unexpected, as in the early evening it was much colder there than in The Dalles. Mr. Brown has been working in the Dafur Flouring Mills but on account of ill health is compelled to take a rest for some time.

Let Us Be Thankful.

Roy Grimes Loto Kelsay ...Two Giris This is a glorious day for Wasco county. Early this morning a gentle rain 1 n to fall, and has conti day, wetting the ground and calling to renewed life the growing grain. It means dollars and dollars to the residents of this section, and the farmers and merchants and everyone else can go to church tomorrow bubbling over with feelings of thankfulness in their hearts that the harvest is now assured.

The legislature of 1895 has received blame without llmit; but few words of praise. We confess we were unable to appreciate the value of their services to this great state until the concentrated wisdom of the session, as contained in what history and our children will call the "Session Laws of 1895," came to our table, and we learned for the first time that bereafter all lands covered by county roads shall be exempt from taxation.
