

FOR THE THIRD TIME

The Klamath-Ager Stage Is Once more Held Up.

AGAIN BY A LONE HIGHWAYMAN

There Was Little Variation in the Lone Highwayman's Usual Methods of Operating.

ASHLAND, Or., June 11.—The regular monthly hold-up of the Klamath Falls-Ager stage occurred last night about a half-mile north of the Topy grade. It was a few minutes past 11 o'clock when the driver, Charles Barneburg, heard the same old order, "Halt and throw up out express box and mail pouches, and tell your passengers to get down" given by the lone highwayman. There were two passengers aboard, one inside, Charles Swisher, who was on the seat with the driver, cut open the sacks, according to orders. The driver and passengers were then ordered to remove their coats and vests and the driver was ordered to break open the box, but he told the robber the box was empty, and when he shook it, the robber seemed satisfied and told the driver to get it back in the wagon. It was not opened. The robber ordered the driver to take out one of his lights and examine the inside of the wagon, and then to leave the light and move out of the way, and that, when he finished, they might come back and get their coats. They moved on about 50 yards and could see the robber quite plainly as he went through the registered mail and coats; but he overlooked some registered letters and some \$60 in cash that was in Swisher's coat. After he had satisfied himself he called to the driver and passengers to come back and get their coats and what was left of the mail. While they were gathering the mail, the robber again went through the wagon to satisfy himself there was "nothing held out. He then bade them good-night and they pulled out.

The robber was a man of medium size and wore a dark overcoat and light straw hat. He had no mask on, but kept out of the light so that his features could not be described. He got only a few dollars from the passengers, and, it is thought, but little from the mail pouches.

Negroes Lynched.

LIVE OAK, Fla., June 11.—Three more negroes have been done to death by Lafayette county citizens for that unpardonable sin, the assault on a white woman. The press dispatches reported Monday that one negro, Bill Collins, had been lynched, but reliable information just received makes it certain that the lynchers claimed three victims. The woman upon whom the outrage was attempted is Miss Jeanette Allen, 18 years old, and the belle of Lafayette county. Friday morning about 3 o'clock Miss Allen was awakened by a noise in her room. As she moved her arm was clutched by a negro whom she recognized as Bill Collins, one of her father's employees. The negro threatened her with death if she made a noise, but Miss Allen, fearing a fate worse than death, gave a scream which alarmed the household and caused the negro to flee. The negro was chased all Friday, and at nightfall was captured. Collins was identified by Miss Allen, but while preparations were being made to lynch him he escaped. All Saturday and Saturday night the negro was pursued. The chase led through the phosphate regions, where the negroes are numerous, and two of Collins' friends attempted to conceal him. These two were shot by the pursuers, and their bodies were placed on the railroad track, where they were cut to pieces by passing trains. The mangled remains of these negroes were discovered Sunday morning. Several trains had passed over the bodies, and identification was impossible. Collins, the assailant of Miss Allen, was captured by the pursuers early Sunday morning. He was taken to the scene of the attempted outrage and notices sent out for people to gather and aid the lynchers.

A great crowd assembled at noon Sunday. The negro was taken to the banks of the Suwannee river. There the negro was hanged and his body riddled with bullets. The corpse was cut down, weighted with stones and thrown into the river. In eight months 14 negroes have been put to death in Lafayette county for assaults on white women. In

November last a young lady was assaulted, it was charged, by a band of professional ravishers. For this crime eight negroes were killed in the course of a few months. In May Miss Armstrong was assaulted and murdered, for which three negroes were put to death. These, with the three killed for the assault on Miss Allen, make 14.

CUBAN INSURRECTION.

Secretary Olney Taking a Hand in the Matter.

WASHINGTON, June 11.—The determination to send the United States steamship Raleigh in to the Florida coast for the purpose of co-operating with revenue cutters to prevent filibustering expeditions starting from our shores, is one of the first acts of Mr. Olney in his new position. Secretary Herbert has deemed such a course advisable for some days past, and conferred with the president on the subject. He and Secretary Olney then had a further conference, and as a result the formal orders to the Raleigh were issued.

Written instructions carefully stating the line of policy which the administration desires to pursue in regard to the interference with filibusters will be sent to Captain Miller, commanding the Raleigh, and it is probable he will be called to Washington for a conference with Acting Secretary McAdoo before his vessel leaves New York. These instructions are not available, but it is known he will be directed to use the utmost care in preventing any vessel from leaving our coast destined for Cuba with the object of rendering aid to the revolutionists. The mere shipment of arms is not regarded as a violation of the neutrality laws, and before any vessel is overhauled by the Raleigh the officers must be thoroughly convinced the suspected craft is fitted out as a fighting machine to operate against Spain. It is the desire of the authorities that proper steps shall be displayed not only by the Raleigh, but by revenue cutters, to prevent illegal expeditions from leaving shores, and treasury officials are seriously considering the advisability of further augmenting the force of revenue cutters in southern waters.

Ex-Superintendent Snowden of the Mint, Assaulted.

PHILADELPHIA, June 11.—Colonel A. Longon Snowden, ex-United States minister in Greece, ex-superintendent of the United States mint, at Philadelphia, and a member of the Union League, was assaulted on the street last night by Colonel W. M. Runkle, an officer of the Third Pennsylvania artillery, during the war. Runkle without warning, struck Snowden with a cane. The latter defended himself with an umbrella until Runkle's cane was broken. Runkle was arrested, and held in jail for court. He alleges that Snowden was instrumental in having him discharged from the mint 20 years ago, and he had a grievance against him ever since.

Imitating Jesse Pomeroy.

LAPORTE, Ind., June 11.—Indiana has a youthful murderer in Gilbert Bowsher, 4 years old, who killed Bernice Collins at Monticello, his victim being a toddling infant of 2 years. Bowsher, who was in company with two other boys, passed Bernice on the street. The latter spoke to Bowsher's companions, but refused to notice him. This angered young Bowsher, and laying in wait for the Collins child, he attacked her with stones, and before her piteous cries for help brought relief, she was dead. The authorities are puzzled as to what steps are to be taken in dealing with the boy, the annals of the state failing to record a parallel case. Both families are prominent.

Debs Now in Prison.

CHICAGO, June 11.—Eugene V. Debs reported to the United States marshal at noon today and signified his readiness to begin his term of imprisonment with the officers of the American Railway union. He and the others were given liberty until this afternoon, when all but George W. Howard were taken to Woodstock, Ill., to be confined. Howard has asked to be taken to jail at Joliet and his request was granted.

Japanese News.

WASHINGTON, June 11.—The Japanese legation has received a cablegram from the foreign office, stating that Viscount Matsui, minister of foreign affairs, had been granted a leave of absence on account of ill health, and that Marquis Satonje had been made the acting minister of foreign affairs. Officials here discredit the reports of Matsui's leave.

A COWARDLY CREW

The Ship Whynot Afire and Passengers Abandoned.

PASSENGERS AT LAST BEACH HER

Unprovoked and Fatal Assault Made Upon a Fishing Party by Troughs, Near Stuttgart, Arkansas.

St. MALO, June 12.—Particulars have been received here of the desertion of the passengers on the British vessel Whynot, by the crew after fire broke out on the ship on the way to the island of Jersey. It appears that a fire was discovered in the Whynot's hold Saturday, and while the sailors were attempting to quench the flames a bucket dropped overboard. A boat was lowered to recover it. The captain jumped into the boat, followed by the crew. One passenger jumped overboard and swam after the boat, into which he was reluctantly taken. The passengers were greatly alarmed, and the excitement among them increased when the small boat was seen pulling for Erquay, where the crew eventually landed. Taking advantage of a breeze, the passengers succeeded in beaching the Whynot near Erquay. The matter is being thoroughly investigated by the local authorities. The captain of the Whynot, although not under arrest, is closely watched by the police.

THE MOSLEM BARBARITIES

Frightful Condition Existing in Eastern Turkey.

Boston, June 12.—A reliable American resident in Turkey, in a letter about the situation in Eastern Turkey, says:

"The question now pending, holds within it the life or death of Oriental Christianity. Are these wicked and Godless fanatics to be permitted to dip their swords further in the blood of innocent Christians? Day after day the pitiful story is told over and over again of pillage, burning, torture, murder, violence, rape, abduction, confiscation, desecration of churches, etc. Mere human aid is entirely insufficient; the intricacies of the political question involved, puts the solution of the problem far beyond our reach."

The letter gives a new story concerning the state of Turkish prisons. In the Bitlis prison there are seven cells, each one large enough for 10 or 12 persons. There are between 20 and 30 crowded into each one.

There are no sanitary arrangements. Armenians often have to drink the "knulitch" water. This is the water of the tank where Turks perform ablutions for prayer. Many specific cases are described wherein the Turks inflicted the most horrible tortures upon the Armenian prisoners, frequently beating them to death, and inflicting every conceivable mode of punishment upon the helpless Christians.

ELKINS FOR PRESIDENT.

Ex-Senator Scott of Virginia, Predicts His Nomination.

WHEELING, W. Va., June 12.—Ex-Senator N. B. Scott, national republican committee man, in an interview, has declared himself for S. B. Elkins for president.

"We are going to name Elkins for president," said he. "He will be named on the second ballot. I have been in the West recently and found the sentiment everywhere for him. I believe West Virginia will send a solid delegation for Elkins. I predict that on the first ballot at the next convention Elkins will have the solid delegations of California, Arizona, New Mexico, Utah, Nevada, Wyoming, Washington and Colorado, and a strong following in Kansas, Nebraska and the Dakotas. For the second place I favor a way out West man. Elkins and a Western man will win."

Senator Scott favors a platform which shall be in keeping with Elkins' recently expressed silver sentiments, recognizing the white metal fully, but not declaring unqualifiedly for free coinage.

Debs in Jail.

CHICAGO, June 12.—President Debs presented himself at the United States marshal's office at 11 a. m., after having been lost to the authorities since noon yesterday. Debs came in shortly after the entire force of federal deputy marshals in Chicago had been sent to search for him. He explained his absence by saying he was ill yesterday. He was to the office of a friend in the afternoon and fell asleep, he said, not awakening until 7 o'clock today. Aside from a bad head-

ache, he seemed to be in good health when he arrived at the marshal's office. He deeply regretted, he added, that he had failed to keep his appointment with the marshal, who was to have taken him to jail last night, and was surprised to hear of the search for him. He was emphatic in his denial of the story that his tardy surrender was the result of a too-free indulgence in liquor. This afternoon at 5, he was taken to the Woodstock jail, and Howard was taken to the Will county jail at Joliet an hour later.

HER DESTINATION REACHED

Fine Trip Made by the New Steamer St. Louis.

SOUTHAMPTON, June 13.—The St. Louis, the new palatial steamer which has just made a successful maiden voyage across the ocean, was docked at 5 o'clock this morning. The passage was a delightful one. The daily runs to the Scilly islands were 314, 443, 379, 441, 444, 432 and 416 miles. On a first trip this is considered excellent. The program of the entertainment on board included recitations by John Drew, Roland Buckston and others. It was remarked that but few St. Louis people were on board, eight certainly not being a good representation. The passengers join in speaking well of the new ocean flyer, and predict that she will be one of the fastest and safest steamers plying between New York and European ports. Mr. Towne, the representative of the Cramps, says: "I am thoroughly satisfied that the vessel is in a very good way as good as we could wish to build, and the trip has proved that we have carried out our contract."

Mr. P. Dovecci, of San Francisco, in speaking of the steamer, said:

"I do not want any better boat until America has one named San Francisco."

Captain Bland said:

"Yes, we had an uneventful trip. The St. Louis was designed for comfort rather than speed. We are not trying to break record. Still, we can go fast as necessary. The chief engineer tells me the engines are the best adjusted and the best balanced he has ever seen or had anything to do with. He could easily have brought the ship into port last night, but really we were not in a hurry."

Sir Julian Pauncefote, the British ambassador to Washington, who also was a passenger, said to the Associated Press correspondent:

"My boy, I should like to tell you about Behring straits and seal fisheries, but my lips are sealed until I have communicated with the English foreign office."

Asked whether his trip had any import with the question regarding Canada and America or Newfoundland, he said:

"No; all American matters are quiet. I deeply deplore the death of my friend, Secretary Gresham."

Among the second-cabin passengers there was much complaint regarding the table.

The library donation by the city of St. Louis is a good one, but the donors ought to complain of the bookbinding, loose leaves being found in many books.

On Wednesday, when the passengers filed in to dinner, they found bouquets of carnations and souvenir badges at their plates. A set of resolutions was then drawn up and signed by all the passengers.

The Durrant Trial.

SANTA ROSA, Cal., June 12.—It is reported here today that the famous Durrant murder case may be tried in the superior court here. It is rumored that a change of venue from the San Francisco superior court will be asked for on the ground that the publicity given the case there makes it almost impossible to secure an impartial jury. If the case is tried here it will not be the first time that important cases have been transferred from San Francisco to Sonoma county. The famous Colton railway case, the most voluminous in the history of the state, was tried here, as was also the famous Morrow bribery case.

Three More Colima Passengers Saved.

SAN FRANCISCO, June 12.—An Examiner special from Manzanillo, says that a letter received by the agents of the Pacific Mail, here, states that two women and one man, Americans, and Colima passengers, landed at Narangastillo, 50 miles southeast from Manzanillo, on May 29, and have been nursed by the Indians there. They are now on mules on the way here.

This story is corroborated by Duana Martima, the customs collector at Manzanillo. Persons who are subject to diarrhoea will find a speedy cure in De Witt's Colic and Cholera Cure. Use no other. It is the best that can be made or that money can procure. It leaves the system in natural condition after its use. We sell it. For sale by Snipes-Kinnersly Drug Co.

Closing School Exercises at Dufur.

The Dufur public school closed Friday, June 7, 1895. The graduating exercises were held in the M. E. church, a class of five having finished and received their diplomas. The church was tastefully decorated with potted flowers, stands and wreaths intermingled with the beautiful stars and stripes. The music was furnished by the choir and was very good notwithstanding the unavoidable absence of two of the leading singers. The program was well carried out. L. B. Thomas opened the exercises with his salutatory address, which was well written and well read, followed by a spicy essay, entitled, "The Past Compared With the Past," by Bessie Hastings, which was read in her usual good manner of delivery. Miss Julia A. Phillips read a paper entitled, "The Experience of a Silver Dollar," which was well composed. O. K. Butler gave an address on "Free Coinage," which did credit to himself and showed careful study and good knowledge of the present environments. One feature of the evening was a clarinet solo and piano accompaniment, by Prof. Helfritz and Miss Anna Heisler.

Superintendent Shelley addressed the class and was followed by Prof. Frazier, who presented the diplomas with a few well chosen words of good cheer. Congratulations were offered, after which the class adjourned to the Central House, where a sumptuous feast was spread in honor of the alumni of Dufur. A merry crowd of twenty young people were gathered around the board, all of which did credit to themselves in the way of assisting in the disappearance of goodies. Several good papers were read during the pauses, interspersed with appropriate toasts, which were heartily responded to.

May success and long life attend the class of 1895.

The crowd broke up at a late hour and dispersed to their respective homes, each well pleased with the evening, that will remain a pleasant memory in the hearts of all who attended and none will forget the year of '95.

Owing to lack of space, the poem which was kindly sent by our correspondent, will be printed in the near future.

Kingsley Notes.

School will close next Friday. The school will give an entertainment at the Kingsley hall on the evening of Friday, June 21st, to which a general invitation is extended to all.

Our citizens turned out in full force last Thursday and did the much needed repairs on the Kingsley cemetery. Gentlemen, you did well.

Something is wrong with Clyde Butler's eyesight. He mistook James Cox' great toe for a post hole, last Thursday. Jim didn't use any cuss words.

His brothers had quite an accident on Sherar's grade this week, by the grade giving way and wrecking one wagon; but such is the life of a teamster.

Myrtle, the 7-year-old girl of M. K. McLeod, was kicked in the forehead by a frightened horse this week. We learn she was severely injured.

If anyone wishes a guide to the Cedar swamp call on Alex. McLeod, he knows the way. Ask him about his trip in that direction.

Misses Mamie Calahan and Nellie Bolton were visiting in Kingsley this week.

Edward Boynton, who died in The Dalles last Wednesday night, had many friends on Tygh Ridge, who sincerely mourn his sudden death.

Pat Bolton says the roads are rather rough for him and his "wheel," but he'll get there by and by.

Tom and Mike Glavey made all the Kingsley boys "take water" last week. When it comes to running horses, don't monkey with the Glavey boys.

Kingsley will celebrate the 4th of July in grand style. Horse races, foot races, fireworks, etc. For further particulars see large bills printed by THE CHRONICLE job office. Everybody come and bring your mother-in-law; also a well filled lunch basket.

"Preservaline" is well recommended wherever used. Maier & Benton have just received a large consignment. They will take pleasure in explaining its merits. wlv-jll

Woodmen's Lecture.

Last night a large number of Woodmen and friends of the order met in Fraternity hall and for two hours were entertained by the head consul of the order, F. A. Faulkenberg of Denver. The speaker took the subject of "Fraternal Orders" and in a very able manner showed to his audience that if man had obeyed the divine injunction that there would be no need of fraternal orders; it was because man had become inimical to one another that there was need of organized methods for mutual protection. Mr. Faulkenberg spoke in favor of all fraternal societies and exhorted all there to join some fraternal organization and in that way work for the improvement of mankind.

After the speech was over Mr. Faulkenberg was introduced to the members of the Woodmen lodge of The Dalles. He expressed himself as being delighted with our city and the scenery along the Columbia.

Chivalry in The Dalles.

Edmund Burke, in his celebrated description of Marie Antoinette, uses the expression "But the age of chivalry is gone." Two young men of The Dalles, wishing to prove to their friends that Burke was mistaken when he wrote those words, retired to the beach back of the Umattil House and began to show one another how much chivalry there was in getting pummeled around, about a woman. We have not had an opportunity to interview either of the gay Lotharios; but as neither one of them has put in an appearance today, we should judge that they must have their heads considerably "swelled" over the affair.

When a town the size of The Dalles can have two fistic encounters in a week over the fair sex, we must disagree, or rather insert the word "not" in Burk's celebrated passage, and make it read, "But the age of chivalry is 'not' gone"—at least in The Dalles.

Fairview School Report.

TO THE EDITOR—The following is a summary of school term in school district No. 43, commencing March 18th and ending June 7, 1895:
