Mr. Rasmus wants to know how it was the telegram he got from Walla Walla Wednesday, saying one of the members of the Damon and Pythias cast had missed the train, was sent two hours before the train left. The demurrer to the indictment number one against Ed Martin was sustained on the ground that two crimes were charged. The demurrer to the remaining indictments were overruled. It would be a favor, mightily appreciated, if the engineers of the engines getting ready for the east-bound train tonight, would, in passing the opera house, make no more noise than possible. We are not very well informed as to the technical cause of the matter complained of, but if there is any other way of getting past the opera house without entirely drowning the voices of the actors by a rush of hissing steam, the audience would be willing to return a vote of thanks.

The various wards will meet tonight to nominate councilmen. The first ward, which comprises all that part of town north of Third street, will meet in the council chambers. Mr. G. H. Riddell was in town today and told a CHRONICLE reporter that the grasshoppers were in the section of country where his farm is and the farmers were fearing damage to the grain from the hoppers. It is hoped they are not present in numbers large enough to cause any serious loss. Mr. Riddell says otherwise prospects for a harvest are good and the soil contains considerable moisture yet. The next few weeks will be anxious ones for the farmers, as with the expected good price for wheat we want large crops.

Mr. Northrup, whose case has just been on trial before Justice Davis, called on the editor today and wished to make an explanation. He says the statement in this paper several days ago did him much injustice, and that he did not intend to resist the officer with a Winchester. Mr. Northrup also stated he is innocent of the charge against him and that his reputation in the community is good. He also intends to fight the case, which has been decided against him before the justice today, to a finish in the circuit court. THE CHRONICLE, as a paper that prints the news, does not wish to do Mr. Northrup or anybody else any injustice and will publish both sides of any controversy.

Paul Roseter Safe.

Mr. N. B. Sinnott, of the Umatilla House, has been watching the papers ever since the wreck of the Colima, to see if he could find some tidings of his cousin, Paul Roseter, who was chief engineer of the ill-fated ship. Nothing was noted in the papers until this morning the San Francisco Chronicle brought the glad tidings that Paul Roseter was in China. Paul Roseter had been chief engineer on the Colima for several years and had made every trip with the steamer until the last one. The chief engineer of the Peru, a passenger and U. S. mail steamer running between San Francisco and China, was taken sick just before the steamer sailed and Mr. Roseter was transferred to the Peru. The first assistant engineer of the Colima was made chief and when the disaster came he stood at his post and went down with the ship.

THE BUSINESS MAN'S LUNCH.

Hard Work and Indigestion go Hand in Hand.

Concentrated thought, continued in, robs the stomach of necessary blood, and this is also true of hard physical labor.

When a five horse-power engine is made to do ten horse-power work something is going to break. Very often the hard-worked man coming from the field or the office will "bolt" his food in a few minutes which will take hours to digest. Then too, many foods are about as useful in the stomach as a keg of nails would be in a fire under a boiler. The ill-used stomach refuses to do its work without the proper stimulus which it gets from the blood and nerves. The nerves are weak and "ready to break," because they do not get the nourishment they require from the blood, finally the ill-used brain is morbidly wide awake when the overworked man attempts to find rest in bed.

The application of common sense in the treatment of the stomach and the whole system brings to the busy man the full enjoyment of life and healthy digestion when he takes Dr. Pierce's Pleasant Pellets to relieve a bilious stomach or after a too hearty meal, and Dr. Pierce's Golden Medical Discovery to purify, enrich and vitalize the blood. The "Pellets" are tiny sugar-coated pills made of highly concentrated vegetable ingredients which relieve the stomach of all offending matters easily and thoroughly. They need only be taken for a short time to cure the biliousness, constipation and slothfulness, or torpor, of the liver; then the "Medical Discovery" should be taken in teaspoonful doses to increase the blood and enrich it. It has a peculiar effect upon the lining membranes of the stomach and bowels, toning up and strengthening them for all time. The whole system feels the effect of the pure blood coursing through the body and the nerves are vitalized and strengthened, not deadened, or put to sleep, as the so-called celery compounds and nerve mixtures do—but refreshed and fed on the food they need for health. If you suffer from indigestion, dyspepsia, nervousness, and any of the ills which come from impure blood and disordered stomach, you can cure yourself with Dr. Pierce's Golden Medical Discovery which can be obtained at any drug store in the country.

Pain has no show with Dr. Miller's Pain Pills.
