LOCAL BRIEFS.

Wednesday's Daily.

The thermometer stands today at 96 but the air feels warmer than that.

All those intending to sing in the choir on the Fourth are requested to meet at Crandall & Burget's, on Friday evening, at 8 o'clock. Be sure and come on time.

The Regulator has had a new iron put on the stem. The boat has to land in all sorts of places and a heavy iron strip is necessary to protect the wooden part.

Six hundred and eighty pounds of cherries were shipped to Denver last night by express. Cherries are bringing a good price in the Montana and Denver markets.

Today is the hottest of the season and the only comfort is there is no east wind blowing. A nice rain or a moist west wind would come very welcome just about now.

The excursion Sunday by the Orchestra is going to be a grand affair. The band practiced last night and some new pieces will be given the people on board the steamer.

The upper Columbia rose one-half foot last night. The Snake fell slightly. The Columbia at The Dalles will continue to rise. The mark this morning registered 22.2 feet.

A game of baseball will be played next Sunday at the fair grounds, between The Dalles nine and high school nine. No admission will be charged, but a good contest is promised.

It is pleasing to note that the thistle agitation is bearing good results. In different parts of town property owners are slashing down these obnoxious weeds and if only enough will follow their example our city will be free from the pests.

Miss Edna Glenn has been chosen goddess of liberty for the Fourth of July celebration. The executive committee have secured Miss F. M. Hildale of White Salmon to assist in the singing. The young lady is said to be a vocalist of merit.

The case against Murray and Heater has been on trial during the day before Justice Davis. A few witnesses were examined last night and a large number today. As there were a good many points of law to be looked up and decided, Justice Davis took the matter of a decision under advisement until this evening at 7:30.

The Regulator brought up a separator and horse power last night, which took up all the spare room on the front deck. The weight was many thousand pounds and it took considerable time to load and unload the machinery. The boat was delayed about a half an hour last night on this account, but it goes to show that the steamers can handle any kind of freight that is given them to carry.

THE CHRONICLE was treated to a feast this morning, which was greatly appreciated. Dr. Hesse, who is an artist in the culinary line, had cooked a royal salmon and the lion's share reached this office. The fish was cooked by being wrapped in paper and placed in the ashes of a furnace, when it was heated slowly and thoroughly cooked. Everyone remarked that a nicer or better cooked fish they had never eaten.

The Columbia hose team have selected their runners for the contest. Arthur Clarke is captain and the runners, who have been chosen, are as follows: Lewis Porter, Chas Cooper, Ray Logan, F. Van Norden, H. A. Bills, Fred Clark, Jos. Bonn, Ralph Rowland, Max A. Vogt and J. Fisher. The boys are actively practicing and are going to make a big effort to capture the trophy.

The hose companies from Jackson and Columbia companies were out practicing on Third street last night. The teams are not yet complete and there will be changes in the make up of both of them. Good runners have been selected and exciting contests are promised. After the races here, in all probability, a team will be selected to take part in the contest at Vancouver later in the season.

The meetings still continue each evening at the tent on Second and Liberty streets. The subject announced for this evening is, "The Day of Judgment," the discussion of which will be both practical and theoretical from a scriptural basis, enforced and elucidated by reference to such texts as Acts xvii:xxxii; Matt. xxv: 31-46; Dan. vii: 8-14; Rev. xiv: 6-14 and others. The gentlemen are forcible speakers and people would do well to go and hear them.

As noticed elsewhere the members of the Woman's Relief Corps and the G. A. R. in The Dalles, are going to give a reception to the department officers next

Saturday. The Dalles has been greatly honored by election of a number of its residents to high offices in these organizations and the reception Saturday night is given as a compliment to them and as a recognition of the appreciation of our members for the honor conferred upon them.

A quarterly inspection of the militia will take place this evening at the armory. Col. Thompson has issued orders to have both the staff, company G and the Hospital Corps appear at 8 o'clock, fully uniformed and equipped. The field and staff will report to the colonel, and the non-commissioned staff to the adjutant. There will doubtless be a good many visitors to see the boys dressed up in their best. The Dalles as the headquarters for this regiment, should take a great interest in the militia and its welfare.

A very pleasant party was given yesterday afternoon by Mrs. M. Randall, at her home on the hill. The day was the 35th anniversary of Mr. and Mrs. Randall's marriage and the members of the King's Daughters and Good Intent society were invited to join in the occasion's festivities. The afternoon was passed very pleasantly in social conversation, after which a bountiful lunch was served. Many congratulations were given upon the auspicious occasion and wishes that the next thirty-five years would be as happy as the last thirty-five have been.

The spirited team belonging to Mr. E. E. Lytle added much to the excitement of last evening. Mr. Lytle was out driving and stopped at the Cold Storage works to attend to some business. While he was inside the horses became impatient and started off on their own accord. The further they went the faster and soon they tore up Second street at the regulation runaway speed. Passing E. J. Collins & Co.'s feed yard they thought it a place to get a meal and turned in, at the same time trying to knock a big freight wagon out of the road. It was the same old story of an irresistible force and an immovable body. The horses went one on each side of the freight wagon and the tongue of the buggy was broken to splinters. The horses were not injured nor the buggy, except the tongue, much damaged.

Thursday's Daily

The thermometer registers today 99 degrees in the shade. It will be cooler next winter.

Seventy-three boxes of cherries were shipped by the Pacific Express company last night to Denver. They were sent by the Oregon Fruit Union.

The Regulator had a large passenger list down this morning. Many people are starting for the coast and the exodus will be regular from now on.

Sann I. Hirota, a native of Japan, now pursuing his studies at Pacific University, will lecture at the Congregational church Sunday evening next.

Over one hundred children of the Juvenile Temple will ride in the Fourth of July procession. Forty-four will be in the liberty car, and the remainder in wagonettes.

Charles Schutz and H. Raedicke, who have occupied the same office for some time, have dissolved all business connections and from this time on each one will conduct his business independently.

The steamer Regulator will leave The Dalles at 7 p. m. July 3d, and lay at Cascades until 6:30 a. m. July 4th. This will accommodate the Elks who intend visiting the Locks, without loss of time.

Mr. Buker, of Grant county, sold his wool today for 11 cents a pound. This, as far as we are able to ascertain, is the top notch that has been paid this season. Transportation competition is what benefits a country.

Tickets are selling rapidly for the excursion next Sunday and the trip promises to be a great success. The Turners from Portland will come on board at Cascades and there will be lots of music on the steamer.

Miss Nellie Butler of this city has been elected a teacher in the public schools of Portland. She will have charge of one of the primary rooms in the Holiday addition addition school on the east side.

The weather forecast—we have too much weather now—says warm weather is prevailing. It will be cooler Saturday, but no provision is made for Friday. The river is rising now, and will rise faster after Saturday. We wonder what the weather bureau has against us, anyway.

Not only one reputable make of piano to select from at the Jacobsen Book & Music Co., but such as Chickering, Hardman, Fisher, and other pianos from \$150 upward, on the installment plan if desired.

John Gomez caught a large sturgeon in his wheel above town yesterday. The fish measured 9 feet 8 inches in length. The salmon are coming a little better now, but the prospects for anything like a good catch are extremely small.

The subject announced for this evening's discourse at the Seventh Day Adventist tent is "God's Message for Today," a three-fold proclamation of impending judgment to the last generation of men. The discourse will be based upon the scriptural evidences found in Rev. xiv: 6-12, and our Savior's parable

of the "Great Supper," found in Luke xiv: 16-24.

The arrangements for the celebration at 8-Mile are all-completed and a pleasant day is assured everyone who will attend the pretty grove at Henry Williams' place. The only admonition which those in charge of the day wish observed is to bring your lunch baskets.

The liberty car for the celebration is to be composed of members of the Juvenile Temple. The balance of its members will ride in carriages. All members of both Juvenile Temples are to meet on next Saturday at their respective halls to make necessary preparations. The meetings will be at the regular hours.

A large shipment of fruit will be made this season from Lyle. Up the valley back from the landing a good many orchards have been planted which are just beginning to bear and the owners expect returns now from other years of labor. A leading farmer at Lyle has just had a large number of fruit boxes shipped him from The Dalles.

A man has been arrested who is thought to have been the one, who several days ago tried to start a fire in the east end of town. He was seen carrying a barrel in the neighborhood and was keeping around that locality for some time. The suspect has been before the recorder on another serious charge and bound over to wait the grand jury with bonds placed at \$150.

The hot weather has brought swimming into vogue, and every day bathers can be seen going to bathe in the cool waters of the Columbia. In the summer evenings bathing is a pleasant diversion, and there are many good places along the shores to swim. The water of the Columbia is colder than the waters of most rivers, and the daring swimmer must be careful not to venture too far, for fear of cramps.

A pleasant party was given during the week at the farm of Judge Ben nett up Mill creek. A number of ladies were invited by Mrs. Bennett and the wagonette sent to bring them into the country. The shade of the trees was delightful and the change from the hot weather of the town to the cool air along the creek made the day enjoyable to all. A delicious repast was served out of doors after which the guests returned home.

In last Saturday's issue the item about the crazy man at the courthouse switched the names around and instead of Williams, the insane man's name, being printed, read the name of Jack Powers, the deputy sheriff, instead. Everyone who is acquainted with Jack Powers knows he is too good natured to ever get to the asylum and it is doubtful if he ever thinks himself worth a million dollars as the poor crazy man did.

Mr. James McMillan, of Sherman county, was in The Dalles yesterday on his way to Portland. He says that up to this week the grain was in good condition and could stand three or four days of hot weather provided the east wind did not blow. The grain in some parts of this county and especially near Boyd and for a few miles south is said to be commencing to burn. The volunteer wheat is not doing well in any localities and the spring crop will be short. If the weather changes after today and cool winds come from the west we may make out a fair yield in the fall sown grain. Never in the history of this county have the farmers desired a good harvest more, as the price will undoubtedly be good and if we get an average yield money will be plenty in the fall.

The regular inspection of the militia took place last night in the armory. Company G turned out with a good number, considering the fact that there are many who are out of town at this time of the year. Lt.-Col. Patterson inspected the company, and found everything in good condition. Most of the colonel's staff were present, and all the company's officers. A number of general orders from the brigade commander were read, and also the reports of the board of discipline, which considered several offenses against the order of the company. The night was so excessively warm that the men were allowed to sit during the reading by the sergeant, and the regular drill was cut short. A great deal of interest is taken by the boys in the military organization, and but few cases of a breach against discipline are reported.

Military Orders.

The Latest Fruit Advice.

The following advices have just been received by the manager of the Oregon Fruit Union in The Dalles and by him furnished THE CHRONICLE:

Oregon Fruit Union sold in Denver today Royal Anne cherries, \$1.25; currants, 24lb crate, \$2.50. Helena, cherries, 90c@1; currants, \$2.50. Butte, cherries, 75c@1; currant, \$2.21. Omrha, market dull, cherries, .90@1. good stock; other stock bringing but little. St. Louis, cherries, good demand, \$1.25@1.50. Duluth, cherries, \$1.50; blackberries, \$3.50; early peaches, \$1, good demand. Cleveland, cherries, \$1@1.25; early peaches, .80@1. Sioux City, cherries, \$1@1.25. These prices net the shipper from 5 to 10 cents per pound for cherries; 5 to 7 cents for currants; 9 cents for blackberries.

There will be three cars, mostly cherries, leaving Oregon tonight. You can readily see if two of these cars would go to the same market, the disastrous result, also if one car would go to some of the markets it would lessen the price. Sioux City will not stand over 200 boxes of cherries at \$1; more means less price. The Fruit Union receives telegraphic report every day, which may be considered strictly reliable. It will be a great convenience to fruit shippers to know the prices in the Eastern market.

A Rose Contest, Two Dogs and a Fight.

Third street was the scene of a lively time last night. In fact the residents along that boulevard never saw so much excitement in so short a space of time. The hose companies were just getting ready to practice, when Guy, the big dog belonging to Judge Blakeley, came down the street. It seems there has been blood between Guy and Jack, the dog belonging to Babe Maloney. Just in front of the engine houses the two dogs met and immediately there was a wailing and gnashing of teeth. Those who saw the fray said it was the hottest contest in the history of the prize ring.

Some men rushed in to separate the dogs, but nothing had any effect on them—neither kicks, blows or imprecations. At this juncture some of the hose company boys attached a hose to the plug and turned the water on the fighters. For ten minutes the dogs were drenched with water, but even that could not cool their ardor. Guy held the winning hand and would have stayed with it till now had not some one touched him rather forcibly on the head with a club and caused him to let go his hold. Members of the different hose companies were holding the nozzle and it was a contest to see which company could get water first.

Installation of the Eastern Star.

The order of Eastern Star held their installation ceremonies last night in the Masonic hall. A large attendance of members was present. Mrs. Mary S. Myers was installed grand chaplain by Henry H. Baker, W. P., to which office she had been appointed at the recent session of the grand lodge of Oregon held in Portland. Mrs. Emilie Sanders acted as grand marshal during the installation. A bountiful banquet had been prepared and after the installation of officers the members and their guests sat down and partook of all the good things. The remainder of the evening was spent in social amusements. The large hall is an excellent place for having these interesting exercises, as a large banquet room is very convenient. Fol-

lowing are the officers who were installed:

Henry H. Baker, W. P.; Mrs. Mary S. Myers, W. M., (appointed at the grand lodge in Portland); Mrs. Ella Garretson, A. M.; Mrs. Cora Miller, Conductress; Mrs. Mary Blakeley, A. C.; Mrs. Martha Biggs, Chaplain; Miss Edna Erhart, Adah; Mrs. Alice Crossen, Ruth; Mrs. Evelyn Eshelman, Esther; Miss Nettie McNeil, Martha; Mrs. Jane Russell, Electra; Mrs. Almira Burget, Warder; Miss Salina Phirman, Organist; Henry Clough, Sentinel. The secretary and treasurer were both absent.
