DREADFUL MASSACRE

The Bannock Indians Shed American Blood.

SOLDIERS LATE IN COMING

Every Inhabitant of Jackson's Hole Reported Murdered—Worse News Feared.

POCATELLO, Idaho, July 26.—William Ross, of the firm of Ross, Grey & Wyatt, has just arrived at Market Lake from St. Anthony, and reports everybody in Jackson's Hole killed this morning. It is considered authentic news, and excitement is intense. The United States troops from Cheyenne will arrive in the city in the morning at 6 o'clock, and will leave at once for Market Lake, and thence by wagon road for the Fall river country. Courier Sargent arrived in Market Lake this morning from the vicinity of Jackson's Hole. He left a companion in the country, who intended proceeding into the Hole if possible and return with the news. He is expected at Market Lake tonight. Sargent reports all the passes guarded, and is afraid his companion will not be able to obtain an entrance.

Manley Thinks the Democrats Should Meet First.

AUGUSTA, Me., July 26.—Joseph H. Manley, in discussing the report that the republican national committee would meet in Washington early in November to decide the time and place of the next republican national convention, said he had heard nothing of it. He prefers holding the convention on the Pacific coast, as a trip across the continent would be educative. He expressed himself in favor of holding the convention after the democratic convention.

"The democratic party is now in power, and should be first to announce its platform and candidates," he added.

Work Will be Begun on it as Soon as Lumber Arrives.

DALLAS, July 27.—The final settling upon Dallas as the place of the fight was the theme of all tongues today. The contract for the coliseum will be let today, and work will begin as soon as material begins to arrive from the East Texas saw mill. There is not enough lumber in town to build it, hence one or two saw mills will be called into service. The athletic club has received a letter from a New York bank president asking for tickets for a party of 20 Wall-street operators. Another letter asks for 50 seats for members of the Chicago board of trade.

License on Banks.

CHICAGO, July 27.—City Collector Mass has found a way to make banks help support the city government. According to an old ordinance, which has never been enforced, among those compelled to pay license fees to the city for the privilege of doing business, are "banks, brokers, commission merchants, grain and produce dealers, real estate and insurance agents." National banks are exempt, but notices have gone to all the others. The fee is \$25 a year. This means an additional revenue of \$20,000.

Has Struck a Rock.

ST. LOUIS, Mo., July 29.—The democratic city central committee has split on the question of primaries for selection of delegates to the state silver convention at Pertie Springs, August 28. Ten committeemen refuse to participate in the primaries on the ground that they are not called as a democratic convention, but for the avowed purpose of promoting unlimited coinage of silver at a ratio of 16 to 1.

In His Own House.

HOBOKEN, N. J., July 26.—After a battle of three-quarters of an hour, during which he stood off three officers trying to arrest him last night for beating his wife, John Spellisby, of Union Hill, was killed in his own house. Spellisby was the most desperate man in New Jersey.

The Train Robber Thought to Have Been Captured.

SACRAMENTO, Cal., July 26.—A report just received here says that a man supposed to be Jack Brady, the train robber and murderer, has been captured near Franklin, in this county, by Deputy Sheriff McDonald. Sheriff Johnson says

the prisoner is the same man he saw on the Rancho del Paso a few days ago. The officers have not yet arrived here with the prisoner.

California Fruit in London.

LONDON, July 26.—Sixteen hundred cases of California fruit, which arrived at Southampton from New York by the steamship St. Louis at 8:15 yesterday, were sold at auction in Covent Garden today, fetching prices one-half below those of last week. The plums averaged 7s 10d per case; peaches, 8s and pears, 11s 7d. There was a large crowd of buyers.

The auctioneer first sold 31 cases of plums packed by the Joe Anderson Fruit Company, of San Jose, and was obliged to use a great deal of labor to sell them at 7s 6d per case. He explained that the last lot of fruit came over in the refrigerator compartments of the steamer Paris, and as a consequence turned dark when exposed to the air. The present goods, he assured the prospective buyers were in better shape.

A second lot of plums shipped by S. T. Roper, of San Jose, sold at 8s 9d per case. Crawford peaches packed by the National Fruit Company, of Riverside, sold readily at 8s 9d. Here the sale languished, but the auctioneer urged the crowd to buy, saying the last lot of fruit was picked to soon, and the present lot of better size. Under this stimulus he sold 150 cases of peaches packed by Sol Runyan, of Courtland, which brought 9s per case, and then auctioned off a lot of peaches packed by H. Mayers, of Riverside. These brought 13s per case.

Buyers informed a representative of the Associated Press that the fruit was of better quality than the last consignment. Still they do not think more money can be made with American fruit than with French fruit. The best lot sold was five cases of pears packed by the National Fruit Company, which brought 14s 6d.

Martial Law for the Isthmus.

NEW YORK, July 28.—A World special from Bogota, Columbia, says:

Three hundred soldiers have left for the isthmus. Troops on the Venezuelan frontier have also been ordered there by the steamer Chola, and those at Buena Ventura, on the Pacific coast, by the gunboat Boyaca. The government intends massing 3000 soldiers there with orders to use no half-way measures, but to act energetically. Martial law will be declared. Three orders to that effect are awaiting the president's signature.

A Blood-Stained Bench.

CHICAGO, July 26.—One of the important finds made by the police today in their search of the Holmes castle was a bench covered with blood-stains. It was found in a deserted storeroom, next to the apartment in which Pat Quinlan slept. It is believed Holmes used the bench as an operating table on which he dismembered the victims before disposing of their bodies.

Long is Persona Non Grata.

MEXICO, July 28.—James Long, for whom there was recently made application to the secretary of foreign affairs, for the issuance of an exequatur, permitting him to officiate as United States consular agent at Chihuahua, has been refused, owing to the fact that he is persona non grata. The refusal is based on a report submitted to Hon. Merscal and subscribed to by Governor Ahumada, of Chihuahua, in which the information was given regarding Long's action, but the nature of this is not known.

Sunk in a Collision.

GRAVESEND, England, July 27.—The British steamer Baltimore City, from Hamburg, arrived here today and reports at 3 o'clock this morning in a dense fog, off Folkestone, she heard cries for help, and lowering the life-boat, picked up five men, part of the crew of the British steamer Cleveland, from the Mediterranean, sunk in a collision with the British tank steamer Duffield, Captain Dow, from Philadelphia, for Havre, France. The Duffield is understood to have rescued five other members of the Cleveland, but seven are still missing. The steamer Cleveland registered 1401 tons.

"Late this afternoon a courier from the Teton river valley reached Market Lake with a dispatch from some ranchmen

who were barricaded in a ranch in the valley this side of Jackson's Hole. The message reads:

"Use influence to hurry the soldiers forward. The Indians are murdering, burning and pillaging. For God's sake, lose no time."

"The courier cannot tell what was the extent of the massacre at Jackson's Hole. He believes none escaped alive. The torch has been applied beyond the range, and the fires could not be seen at night."

A Durrant Witness Who was Induced to Leave the Town.

SAN FRANCISCO, July 27.—The detectives in the Durrant case are tracing the career of Charles F. Clark, a Boston wine drummer, who, the defense states, was induced to leave here in order that he would not appear as a witness for Durrant. It is said that Clark knows Durrant and was acquainted with Blanche Lamont. On the afternoon of the murder of Miss Lamont, Clark is supposed to have seen the girl in a car with a young man who closely resembled Durrant but was not he. If such testimony is produced at the trial, it would go far to offset statements of several witnesses at the preliminary examination, who swore that they saw Durrant and the girl together, on the afternoon she disappeared. Clark's deposition will be taken in Boston in Durrant's interest. The police detectives deny that they induced Clark to leave town, and that they never heard of him before.

When the liver and kidneys are diseased it produces a feeling of despondency and gloom of mind that it is impossible to shake off. The victim needs the help of a remedy that will restore the deranged organs to their normal healthy condition. Dr. J. H. McLean's Liver and Kidney Balm will bring about this result. By stimulating them to increased activity in removing the waste of the system, it restores health and vigor of mind and body. Price \$1.00 per bottle.

Water Injunction Denied.

DENVER, July 27.—In the district court today, Judge Butler denied the application for an injunction to restrain the Denver Union Water Company from shutting water off from the premises of people who have not paid their water bills. The judge said that if citizens had any criticisms to offer, they should be made to the council which neglected to pass an ordinance fixing rates in accordance with the contract with the company.

Pains in the small of the back indicate a diseased condition of the kidneys. Owing to the dangerous nature of the diseases which attack those organs it is important that measures should be taken to remove the trouble before it has become too firmly fixed. Prudence would suggest the prompt use of Dr. J. H. McLean's Liver and Kidney Balm which has specific action on the liver and kidneys and will cause an early restoration to healthy conditions. Price \$1.00 per bottle.

Aurania Disabled.

NEW YORK, July 29.—The British steamer Aurania, which arrived today from London, reports that on July 26, the Cunard liner Aurania was sighted with her machinery disabled. You cannot work well unless you feel well. No one can feel well with a diseased liver or diseased kidney. Diseases in the organs should receive prompt attention, as neglect will lead to much misery and sorrow. Dr. J. H. McLean's Liver and Kidney Balm should be taken as soon as the first symptoms of trouble are manifest. It is well known to all dealers in medicine as a safe and reliable cure for diseases in the liver or kidneys. Price \$1.00 per bottle. For sale by Snipes-Kinnersly Drug Co.

THE MASSACRE REPORT FALSE

The Durrant Play is Prohibited by the Court—No More Jurors Secured—Other News.

MARKET LAKE, July 29.—The five companies of infantry that arrived here last night have received orders to go to the front at once, and will leave in the morning for Jackson's Hole. It will take 10 days to make the trip. The cavalry went about 20 miles today. Every effort will be made to induce the Indians to return to their reservation peacefully.

The troops have received word that when they are near enough to render hasty assistance the settlers are going to attack the Indians. A band of 200 or 300 Indians were on the trail of the troops when they struck camp, and hastened toward Jackson's Hole.

Dr. Wornburn, of Rexburg, has just come from that place with news that J. Simmons and F. Cunningham, two scouts, arrived at Rexburg last evening, straight from Jackson's Hole. They report that no conflict has taken place between whites and Indians and that matters are quiet.

The Indians, to the number of 500, are in Hoback basin, about 50 miles from Marysville, where the settlers are fortified and prepared to resist the savages should an attack be made.

California Fruitgrowers Jubilant are Their Prospects.

SAN FRANCISCO, July 26.—In a two-page article devoted to the fruitgrowing industry, the Chronicle says that the most encouraging reports come from the fruitgrowing centers of the state. While at many points the crop will not be more than one-half or three-fourths of that of the preceding year, the quality is superior and the outlook for good prices is excellent. In some of the counties the yield will be fully up to the average, and this, combined with the prospect of advanced prices, has made the growers jubilant.

Still Another Supposed Murder.

CHICAGO, July 29.—Another case of mysterious disappearance which may yet be charged to Holmes was reported to the police today by the neighbors of Dr. Russler, who disappeared in 1892.

Dr. Russler, for several months, had an office in Holmes' building. He and Holmes were often together, apparently being intimate friends. Some time in 1892, the date being a matter of doubt, the physician dropped out of sight. He had but a few acquaintances, and although his disappearance caused some talk among the neighbors, little attention was paid to it.

Charles Chappell, son of M. S. Chappell, who claims to have been an assistant of Holmes, and to have articulated skeletons for him, says his father has been of unsound mind for several years, and expresses the belief that his father knows nothing whatever of Holmes.
