

The Weekly Chronicle.

THE DALLES - OREGON

Entered at the postoffice at The Dalles, Oregon, as second-class mail matter.

STATE OFFICIALS.

- Governor... Secretary of State... Treasurer... Superintendent of Public Instruction... Attorney-General... Senators... Congressmen... State Printer...

COUNTY OFFICIALS.

- County Judge... Sheriff... Clerk... Treasurer... Commissioners... Assessor... Surveyor... Superintendent of Public Schools... Coroner...

THE ARREST OF O. D. TAYLOR.

Saturday afternoon Parker Owen from Saginaw, Mich., in company with Deputy Sheriff Kelly went out to the farm on Mill creek, where Mr. Taylor resides, and not finding him at home, went on up the creek, meeting Mr. Taylor on the road, and arrested him upon a requisition from Michigan.

Mr. Taylor was turned over to Owen, the officer from Michigan, who then brought him to town, and although there was no more prospect of Mr. Taylor's trying to run away than there would be of his attempting to use force against the officer, he was locked up in jail, while Officer Owen went to a saloon to get well braced up for the arduous task of taking Taylor to Michigan.

One of the county officials telephoned to Huntington & Wilson, Mr. Taylor's attorney being out of town, and while Mr. Huntington was consulting with Taylor, Owen returned. Mrs. Taylor and her son arrived at the same time. Owen at once drew from his pocket a pair of handcuffs, and was about to adjust them.

The man, Owen, is evidently a greenhorn, who has had no experience in arresting men, and who lacks the first instincts of an officer and gentleman.

THE JURY SYSTEM.

The oft-repeated experience of courts in attempting to secure a jury in cases which have attracted general attention, and in devoting weeks to the selection of a jury, has led many able jurists to discuss some substitute for jury trials.

If, instead of keeping thirty to forty jurors in attendance upon court during the term, there could be selected by the supreme court four intelligent business men in each county to sit in the trial of all cases with the presiding judge, and with the judge to pass upon all questions of fact, leaving questions of law with the judge, as at present, there would be far less expense, fewer verdicts set aside, fewer mistrials, and more just verdicts.

disqualified to sit in the trial of cases only under the same circumstances as would disqualify a judge under the present law. In the trial of cases the five jurors could, if they desired, take such memorandum as they deemed necessary, or have a stenographer make a record of the testimony, and as soon as the trial of one case was concluded, take up another immediately.

The scheme we suggest is crude; but with study and thought in preparing the details, we believe it could be made a most desirable and beneficial substitute for the present system.

THE DURRANT TRIAL.

The press throughout the country is criticizing the superior court of San Francisco, in which Durrant is being tried, because of the time consumed in finding competent jurors.

The Baldwin locomotive works and the Westinghouse electric works have formed an alliance, which means the commencement of a new era in transportation.

Crop reports from this portion of the state indicate that of fall-sown grain there will be an average crop, and that of spring-grown grain there will be about half a crop.

The Republicans of Maryland are becoming very bold. They have dared to nominate a state ticket to be voted for, and they are really so bold as to urge the people of the state to support it.

The Portland exposition is assured, and the city will no doubt reap a benefit. The state will be benefited by the advertisement it will thus receive, provided this exposition is not conducted in the unbusiness-like methods of the last one.

It is said Major McNeil, the general manager of the O. K. & N. Co., will deliver an address at the Locks tomorrow on "The Attitude of the O. R. & N. Co. Towards the Locks."

The Hon. Theodore Roosevelt has written an article for the September number of the Forum on "The Enforcement of Law," in which he vigorously defines his position on the enforcement of the Excise Law in New York City.

UNDOUBTEDLY INCORRECT.

Under the head of "An Incident of Rev. O. D. Taylor's Arrest," the Oregonian prints the following:

Several days ago, Parker Owens, a sergeant of police from Saginaw, Mich., arrived in Salem for the purpose of securing requisition papers for the arrest of Rev. O. D. Taylor, a Baptist minister at The Dalles.

The writer of the above has either been wrongly informed, or Owens executed a clever deception. The requisition papers, signed by Governor Lord and Secretary Kincaid, were duly presented to Mr. Kelly, the deputy sheriff, and by him carefully scrutinized before serving the process.

The possible explanation to the matter is that since Mr. Owens had three sets of requisition papers made, one of them may have been left upon the table, as reported; but the others, or one of them at least, Owens brought with him, and this one was seen by the gentlemen mentioned and others in the city.

So much would not be now written concerning the matter if it were not for the fear that should it be left uncorrected Mr. Kelly's action in making the arrest might be criticized.

THE DENVER DISASTER.

The terrible disaster, by which the Gurney hotel was yesterday blown into a heap of debris and converted into a horrible crematory, by the explosion of a boiler, causes every traveler to shudder.

There should be in every state the strictest inspection of every hotel in respect to its fire apparatus and escapes, its machinery and elevators, at frequent intervals.

The civilized nations are now discussing the wisdom and propriety of sending an armed force into China to arrest and punish the guilty preons connected with the killing of the missionaries and destruction of their property.

The present clerk of the board of school land commissioners has adopted a new method of listing lien state lands. If by this method the old system of robbery, by which every applicant was compelled, during Pennoyer's administration, to pay the state for the land, and pay the gang who run the board and its clerk from \$1.50 to \$2 per acre additional, is wiped out, a very great benefit will result.

"Sorry" urges THE CHRONICLE, in yesterday's issue, to continue its campaign for better roads. Most heartily do we respond to such a suggestion, and we are gratified that our suggestions heretofore made are appreciated.

club, which will no doubt exercise a strong influence for better roads. The Dalles cannot have a club of that kind, because it has not the wealth, and our citizens have not leisure to devote to it; but we could have a road club, and such a club as we could maintain would do more toward good roads than all the newspaper talk of THE CHRONICLE, or other papers.

When professional men of the education, intelligence and age of Drs. Holmes and Aueplund can't settle their differences without unloading their revolvers at each other, they ought to be confined in an asylum or, perhaps still better, be compelled to retire to a place where the rest of the community would be safe, and repeat the shooting until the time is rid of them.

Great injustice, oftener than justice, is done by the use of extradition papers between states in the case of permanent residents. It is very well to arrest a fugitive from justice and drag him by force from one state to another; but in the case of one for a long time a permanent resident, to be thus hauled about, without a hearing or a chance for an investigation, often does the greatest wrong.

From the Fruit Market.

The latest advices from the fruit situation in the East is published below. Shipments still continue large from The Dalles and other places in Oregon to eastern points.

The eastern fruit markets remain very firm. The instances where low prices are realized is owing chiefly to too much fruit in one market. Our Oregon fruit is arriving in good order.

The next union shipped three cars of pears and plums last week, and now Bartlett pears, Italian, Silver and Hungarian pears are ready, considerable shipping from now on will be done.

Pears - Markets generally steady; \$1.75 to \$2.25. Though these prices are for smooth California Bartletts, there is a short crop, so the outlook is favorable for Oregon Bartletts.

Plums and prunes - Egg and Washington plums, 60 to 90; California Falingberg plum (same as our Italian prunes) \$1 to \$1.25; Hungarian prunes \$1.25 to \$1.40. Market steady; big demand.

Grapes - California Tokays, Muscat and Fontainebleau, \$1.25 to \$1.50. Market very firm, and not likely to go under. Those have grapes are strongly advised to make preparations for shipping.

The following number of cars of Pacific coast fruits are due to sell today in eastern markets, including Sunday's arrivals: Chicago 30, New York 16, Boston 4, Montreal 3, Cleveland 1, Denver 2, Omaha 4, St. Louis 3, Minneapolis 2, Kansas City 3, Milwaukee 2, St. Paul 2, Baltimore 1.

WE GIVE AWAY

A Sample Package (4 to 7 doses) of Dr. Pierce's Pleasant Pellets

To any one sending name and address to us on a postal card. ONCE USED THEY ARE ALWAYS IN FAVOR.

They absolutely cure Sick Headache, Biliousness, Constipation, Coated Tongue, Poor Appetite, Dyspepsia and kindred derangements of the Stomach, Liver and Bowels. Don't accept some substitute said to be "just as good."

Do You Know a Good Thing WHEN YOU TASTE IT? IF SO YOU WILL NEVER BE WITHOUT DR. MENLEY'S GELERY BEEF AND IRON

QUIETS AND STRENGTHENS THE NERVES BUILDS UP THE SYSTEM PURIFIES AND ENRICHES THE BLOOD NATURE'S BUILDER AND TONIC FOR SALE BY BLAKELEY & HOUGHTON.

Items From Antelope.

To THE EDITOR:—Our genial constable, W. Gilson, is spending a few weeks in the mountains, hunting and fishing.

The town has lately been infested with a lot of peddlers, with good, snide goods for sale. Those who refuse to buy and who patronize our home merchants are the best off.

Ben. Gilson is in from the mountains, where he has had a large band of sheep all summer. The sheep will not be brought in until later.

Mr. McMullen, our photographer, contemplates a trip to Mitchell and Prineville taking pictures, after which he will permanently locate his gallery in Antelope.

Miss Ethel Williamson, one of the Mitchell teachers, is in town, the guest of Thos. Harper.

Miss May Priddy of Trout creek is in town, the guest of Belle Rease.

Mr. Jack Harper, a Dalles carpenter, who has been erecting a fine residence in Antelope for Thos. Harper, returned to The Dalles Friday.

Paul Krefl of The Dalles, who has been doing considerable painting and paper-hanging in Antelope this spring, had the misfortune to have his front finger quite badly hurt, while leading a race horse.

Henry Covert is driving stage on the Mitchell route, having taken the place resigned by Ed. Miller, when he went into the butcher business.

The family of Z. Taylor are preparing to make a six weeks' visit to the Willamette valley.

Miss Neal, an Iowa school teacher who is stopping with the family of Mr. Wallace, made a visit to her uncle and brother on lower Trout creek this week.

Alex Kirchheimer has fitted up a neat office in his brother's residence, where he does insurance business and reads Blackstone.

Nate Baird, the founder of Antelope, left for a few weeks' visit to the mines, where he has extensive interests.

Mr. Farley, one of the Mitchell stage drivers, is quite sick. Mr. Harper is handling the reins temporarily.

Newt Burgess of Bakeoven was visiting in town several days the past week.

More Examination Questions.

- 1. By what is the tone of voice in speaking or reading regulated? 2. Name three mental qualifications which a good reader must possess and employ. 3. Explain the difference between a grammatical pause and a rhetorical pause. 4. Give examples of (a) a question requiring the rising inflection; (b) a question requiring the falling inflection. 5. What is modulation? What is climax? 6. What is the difference between the construction of prose and poetry? 7. Name two qualities of tone, and give an extract to illustrate the use of one of them. 8. Read selections given by examiner.

THEORY OF TEACHING.

- 1. What do you understand by the term, methods as applied to teaching? 2. On what principle does the maintenance of order during class-room instruction chiefly depend? 3. What methods would you adopt in introducing a subject—grammar, for instance—to a class of beginners? State any principles that underlie these methods. 4. State some of the methods to be employed in making class-room instruction familiar. 5. Mention a few of the axioms that are to be found in writing or teaching of leading educational reformers. 6. What is the proper place of the text book in the class room, and by what methods is its use to be supplemented by the teacher? 7. What is the value of repetition in teaching, and upon what rule or rules is its employment to be limited? 8. Name the faculties of the mind. Which of these is the most active in childhood? 9. In view of this, what should characterize the teaching of young children? 10. In teaching, what help should the teacher give his pupils? Why? PHYSIOLOGY AND HYGIENE. 1. (a) Name the bones of the skull; (b) define dislocation, ligament, fracture; (c) locate the patella. 2. Give examples of the three classes of levers as they occur in the body. 3. Name all the structures which are modifications of the epidermis. 4. (a) What is the difference between the milk teeth and the permanent; (b)

- 5. (a) Describe the organ of the voice; (b) define glottis and epiglottis; (c) discuss ventilation. 6. Define plasma, fibrin, coagulation, corpuscle, artery, vein. 7. Prove that alcohol is a poison. 8. Describe the processes concerned in the digestion of an ordinary meal. 9. Define cranial nerve, cerebrum, cerebellum, medulla oblongata, spinal nerves, reflex action, sympathetic nervous system, duramater, pia mater. 10. Name a number of narcotics, and enumerate their effects on the body. Are any of them ever useful?

One in Four.

One person in four has a weak or diseased heart that entirely unfit them for business and social life, or is simply a little annoying.

When the trouble first commenced, "Oh! well, it don't amount to much," and you let it go, let the disease insidiously get the mastery of you. You lose all courage; the slightest exertion tires you; your feet, ankles and legs swell; you cannot lie on your left side. Finally, you become so weak and faint that you lie down without smothering, and are compelled to get what sleep you can in a chair. You are urged to avoid this.

You are invited to get well.

Have you the least little ambition left? Mrs. Eliza Cassidy, a mill employee of Lowell, Mass., had slight heart troubles many years ago.

She neglected it for years.

Her son sells the story best in his letters.

Lowell, Mass., April 6th, 1894.

"I must tell of the wonderful things your Heart Cure has done for my mother. She is 65 years of age, and always had good health until a severe cold left her with a slight heart trouble, which kept getting worse and worse. Physicians called it bronchitis of the heart seven years ago, but they did not help her; we had the best physicians in Lowell. She would take weak, fainting and pain-killing spells; several times we thought she would not live to see morning, and every spell seemed to be worse than the last. On March 18th, she was prepared for death and we watched for her last breath, but reviving somewhat, I was prompted to try your Heart Cure. We found it to relieve our ailments immediately, and she is now using the third bottle, and thanks be to God, and your medicine she has had no more spells and goes up stairs as well as ever and don't have to stand and wait for breath. Her cough has left her. I write to let you know, as there are others suffering same as she. Mother says 'May God bless you every day of your life.'"

Lowell, May 7, 1894.

"Mother tells every body in a number of your medicine which saved her from the grave; she is gaining strength and flesh every day. No palpitation or trouble of the heart at all now, and is at work every day since. I wrote you last. If any person wishes any information, we will be only too glad to have them write or come to see us and will give full particulars concerning the good your valuable Heart Cure has done her. We remain yours and Theodore's truly, JOHN T. CASSIDY."

Dr. Miles' Heart Cure is sold by druggists everywhere on a positive guarantee, if the first bottle does not help you, your money is refunded. Dr. Miles Medical Co., Elkhart Ind.

Dr. Miles' Heart Cure CURES

The Barracks Undermined.

LONDON, Aug. 20.—The Daily News has a dispatch from Vienna which says Trieste papers report that an explosion occurred in the artillery barracks at Toul, Russia, and that 300 men were killed, including many officers. The barracks were found to be completely undermined today. Many arrests have been made.

Three Were Drowned.

ST. JOHNS, N. C., Aug. 19.—Word was received here today that the schooner Osceola collided with the steamer Miramichi, near Blackbrook, Saturday. Five young women passengers on the Miramichi were knocked overboard and three drowned.

Only Cure for Pimples is Cuticura Soap
