NUMBER 37.

## INDIAN TROUBLES

### Have Occurred Yet in Harney County.

#### INDIAN KILLING MUST CEASE

The Indians Will Get Hurt.—Unwelcome Decision Giving Harbor to Dissolute Women.

BURNS, Or., Aug. 30. (via Ontario, Or.) There has been no trouble with Indians on Stein's mountain or elsewhere in this country thus far. Indians from the Warm Springs and Umatilla reservations come annually into this county to trade for their skins, leaving the carcases to go to waste, and citizens of this county are determined to put a stop to this work. The county judge wrote to the agents of these reservations early in the season asking them to keep the Indians out of this country, but the agents made no response, and the people have taken the thing in their own hands.

There are about fifty Warm Spring Indians here today, and although there has been no trouble thus far, should they persist in going to Stein's mountain they will likely be trouble. There have been no Bannock Indians on Stein's mountain or within 200 miles of it this season. The story of signal fires and people getting together at Diamond Valley is correct, but the scare is over.

#### KILLED THE WRONG MAN.

John Smalley, Shot by Deputy Sheriffs, Not a Train Robber.

GRAND RAPIDS, Mich., Aug. 30.—An agent of the Associated Press in this city has just returned from Isabella county, where John Smalley, the supposed train robber, was killed by deputy sheriffs at Bay. It is learned that positive evidence has been secured that Smalley was at Brinton, visiting his neighbors last week at the time of the hold-up, and until after the killing of Detective Powers in this city. The train robbers and the murderers of Detective Powers are still at large, and the officers have as yet obtained no definite clew to their identity. The deputy sheriffs who killed Smalley are in a peculiar position. They cannot claim the reward, and are threatened with arrest for murder.

#### Unwelcome Decision.

Seattle, Aug. 30.—By a ruling of the commissioner-general of immigration the doors of the United States have been thrown wide open to the dissolute women of foreign lands who have escaped detection on their entrance here. The decision is of vital importance to the Pacific coast, as it affects the admission of Japanese women sent here for immoral purposes. The case is that Fukui Moto, a Japanese woman who for several days past has been in the custody of the United States authorities on a charge of being without the country for immoral purposes, and who it was thought was liable to be deported. The woman, in company with several others, arrived in this country last May and the inspector was prepared to establish the fact that she has since plied her nefarious occupation. The commissioner-general wired that the women could not be deported unless known to be public charge. She was accordingly released today.

#### Barium Never Outdid It.

MONTREAL, Aug. 30.—Charles Greenwood, an electrician here, who has often turned an odd penny by inventions of the kind and another, last Thursday allegedly caught in Black River, a tributary of the St. Lawrence, a sea serpent which looked like a monstrous conger eel. It was 33 feet long, and in some parts of the body three feet in circumference. At first the local papers did not take it up, but when they did it was one with a vengeance. Thousands came to see it, and as it was pickled and could not be touched, it looked for all the world like the real article. Wednesday afternoon Magistrate Dugan ordered constable Bishop to break the glass tank which contained the serpent. He cut open the beast and found it was made of cotton painted and varnished, and stuffed with sawdust. It was to have been shipped to New York yesterday.

#### Manitoba's New Governor.

MONTREAL, Aug. 30.—The authentic statement that Hon. James J. Patterson minister without portfolio, will be sworn in on Monday as lieutenant-governor of Manitoba, is creating great excitement here, especially among the French Canadians. The term of office of Dr. Schultz finished, but it was generally supposed that in return for turning out the members of the liberal local government

he would get a second term. It now appears that Schultz has refused to do this, and that for these reasons Patterson has received the appointment, and will be expected to chastise Greenway and his cabinet if they refuse to come to terms on the school question.

#### Warships at Boston.

BOSTON, Aug. 30.—Four warships of the North Atlantic squadron, comprising the flagship New York, and the Minneapolis, Raleigh and Montgomery, dropped into the inner harbor at 7:30 this morning. Their arrival was announced by the booming of thirteen guns at the navy-yard, the regulation salute to the admiral of the fleet. This was answered by a salute of eleven guns from the flagship.

At 8 o'clock the interesting ceremony of "colors" was witnessed by thousands of spectators, who lined the wharves and crowded the ferry-boats and small craft available. Tomorrow the chief interest centers in the Minneapolis, which will be presented with a solid silver service by the Minneapolis commanderies of Knights, who are attending the triennial. The ships will remain four or five days and take coal.

#### A Sensitive Soul.

ST. LOUIS, Aug. 30.—Pressed for a \$20 board bill, George Doerr shot Mrs. Apollonia Seintelina last night. He fired a shot at her daughter, Bertha, and then sent a bullet through his own brain. When asked for the money Doerr went to his room and reappeared with a revolver in his hand. He followed the lady through the kitchen, where he saw Bertha. He fired at her. The girl screamed, and, running to a window, jumped into a vacant lot. Doerr then fired at Mrs. Seintelina, the bullet passing through the old lady's cheek. He fired again, but the other cartridge did not explode. He then rushed to his room and shot himself dead.

#### Waller's Case.

PARIS, Aug. 30.—Estafette protests against the statements of some American papers relative to ex-Consul Waller, saying that if Frenchmen sold arms to enemies of the United States, Americans would never tolerate any interferences on the part of the cabinets of Europe. "Moreover," continued Estafette, "we need pay no more attention to the idle complaints of these American papers. Indeed, Waller ought to have been immediately shot for his glaring treason."

#### Hopes for Peace.

NEW YORK, Aug. 30.—A cable to the world from Colon says General Alfaro telegraphs from Ambato, Ecuador, to friends here as follows: "Quito has pronounced in favor of my government. Ex-Vice-president Salazar has taken refuge in the legation and the ministers, with their home troops, have taken the way to Ibarra, where I think they will avail themselves of decrees of pardon issued by me. I hope soon to secure peace throughout the republic."

#### Bears Fed With Human Flesh.

BUDA-PESTH, Aug. 20.—Two Hungarian trainers and exhibitors of performing bears have been arrested in Debreczin, in the Haiduck district of Hungary, charged with having fed their animals human flesh. In the course of their examination the men admitted they had killed four boys, cut their bodies into pieces and fed their bears with the flesh. The confession of the prisoners has aroused popular indignation to the highest pitch.

#### Are in No Hurry.

NEW YORK, Aug. 30.—Thomas Estrada Palma, president of the Cuban revolutionary committee in this city says no attempt will be made to obtain belligerent rights until next December, when a Cuban minister will be sent to the United States. Mr. Palma believes Spain has now reached the end of her rope. He claims the cost of sending reinforcements is so great that Spain cannot furnish any more men, and will have to give Cuba her freedom within the next few months.

#### Aground in Lake Erie.

SANDUSKY, O., Aug. 30.—The United States steamer Michigan ran aground on the Pelee islands this morning in a heavy fog. Wrecking tugs have gone to her assistance, and it is believed she will be pulled off with little damage. The Michigan has been engaged recently in making surveys and soundings in the vicinity of the islands.

#### Northern Pacific Emigrant Agent.

CHICAGO, Sept. 1.—Charles Mott has been appointed general emigrant agent of the Northern Pacific, to succeed H. B. Green, resigned. The appointment is effective September 1.

#### Indemnity Granted.

PARIS, Aug. 30.—Official advices here are to the effect that the Chinese government has granted French missions in the province of Szu Chuen an indemnity of 4,000,000 francs.

## FOUR STATES SHAKEN

### Earthquake in Several Eastern States.

#### HOUSES SWAYED, GLASS BROKEN

Fracture Opened Over One Hundred Feet Deep in One of the Hills of Philadelphia Park.

BROOKLYN, Sept. 1.—Three distinct earthquake shocks were felt by residents of Brooklyn about 6 o'clock this morning. No damage to life or property is reported from any section of the city. The districts of East New York and South Brooklyn received the greatest shocks, but the rumblings were distinctly felt in other sections of the city. Contradictory reports are given as to the severity of the shocks. The first shock, which was felt at 6 o'clock, was followed by a rumbling noise like distant thunder. This was followed by two slighter shocks, which, according to some reports, died away in low, grating tones.

Superintendent of Police McKelvey telephoned to police headquarters from his Green-avenue residence that he had been awakened from a sound sleep by the earthquake. He said the house oscillated and that the bed he was sleeping in moved perceptibly.

Deputy Commissioner of Police Crosby, who was sleeping at Coney island, also telephoned to headquarters that the shock was very severe in that section of Brooklyn. He described it as a low, rumbling noise, and added that many houses had been shaken, all the inhabitants being aroused from their sleep.

James Jackson a night watchman at the municipal building, said that residents of the Twenty-fifth ward were startled by three shocks in rapid succession, and heard a rumbling noise. The houses trembled and many pictures and other ornaments hanging on the walls were thrown to the floor.

Two conductors of the Atlantic-avenue railroad, who were dining in a restaurant on Washington street, reported that they felt the shock. The building trembled and plates and other dishes on the table were moved. The second shock was like the effects of a distant explosion. At many hotels the guests were so frightened by the vibration that they hurried into the hallways to find out the cause of the troubles. The guests at the Pierpont house were very much alarmed, and many of them went down stairs and asked the night clerk what had happened. They thought an explosion must have occurred.

#### NO PEAKS OF CHOLERA.

Disease Not Likely to Spread to This Country From Honolulu.

SAN FRANCISCO, Sept. 1.—The news brought of the breaking out of cholera in Honolulu does not alarm the local health officers. "I do not apprehend any danger from the spreading of the disease to this port," said Dr. Chambers, "for every precaution will be taken to prevent it from gaining a foothold. The quarantine regulations are strict enough, if carried out, and all vessels arriving from Honolulu will be submitted to the closest inspection."

This is said to be the first time cholera has been known on the Hawaiian islands. When the Monowai called it is believed the disease is under control. There had been eight deaths from the disease, and only two cases remaining, and those were both in quarantine.

Here, with such admirable facilities for quarantining, even if the cholera should get what might appear to be a foothold it could be easily stamped out, the health officials say.

The board of health held a meeting tonight to discuss measures to be taken to prevent the introduction of cholera from China, Japan and Hawaii. Quarantine Officer Chalmers stated that he had called on the manager of the Occidental & Oriental Steamship Company to demand an explanation of the neglect to report the deaths at sea on the Belgic. No explanation was given, but he was informed that the ship's surgeon was not now in the employ of the company.

#### Striking Miners.

ISHPEMING, Mich., Sept. 1.—Learning that the striking miners had given forcible opposition to the deputies who have been chosen to guard the steam shovels, who are coming from outside points, it was today decided by the local authorities to call for troops. Seven companies of the state militia have been ordered out, and are moving toward Ishpeeming tonight. The news is gladly received by the merchants and many workmen who have been out of employment for seven weeks, and who have not the

courage to oppose the strikers. Four cars of shovelmen arrived today by special train, and are quartering at the Lake Angelina, Lake Superior and Cleveland mines. The shovels will be started Monday.

A loss of over \$500,000 has been caused thus far by the strike. There was a large meeting of strikers in this city today, and much excitement was shown, due to the news that the shovels would be started Monday.

#### Mayor Hopkins Advised the Boycott.

CHICAGO, Sept. 1.—The Times-Herald tomorrow will print interviews with Eugene V. Debs and W. O. Howard, president and vice-president of the American Railway Union, in which they will assert that before they ordered the boycott of the Pullman Company they counseled with ex-Mayor Hopkins, then mayor of Chicago, and were advised by him to issue the boycott against the Pullman cars. They assert that Mr. Hopkins advised them to tie up all the roads which would not agree to refuse to haul Pullmans. Mr. Hopkins was once an employe of the Pullman Company and was discharged from the company's service. Howard said:

"I do not care to speak of the effect of the mayor's attitude on the police, or what we learned of the way the department was conducted."

#### Manager McNeill Turns Back.

PORTLAND, Or., Sept. 1.—Manager McNeill, of the O. R. & N., who started for Chicago a few days ago, did not get any further east than Huntington. When he reached that point, "he received telegrams announcing the arrival in this city of parties who desired to see him, and he was therefore obliged to put off the Chicago trip and turn back."

As Mr. W. D. Tyler, manager of the Washington & Columbia river railway, was the only important railroad arrival here within the last few days that could probably have any important business with the O. R. & N. Co., it is reasonable to presume that the "parties" were referred to in a Pickwickian sense, as they were probably in the singular number in the person of Mr. Tyler.

#### Judge Hanford to Decide Tomorrow.

SEATTLE, Sept. 1.—Monday morning Federal Judge Hanford will decide whether or not Judge Jenkins, of the circuit court for the eastern district of Wisconsin, had the right under the law to name Oakes, Rouse and Payne as receivers of the Northern Pacific Railroad Company. Judge Hanford so informed the counsel interested in the case this morning. General Counsel Silas W. Pettit, of the Northern Pacific Company, was in the courtroom when Judge Hanford went on the bench, as was ex-Senator John B. Allen, of counsel for the Farmers' Loan & Trust Co., the complainants in the foreclosure case against the Northern Pacific railroad.

#### At Sea in a "Cockleshell."

SAN FRANCISCO, Aug. 31.—A cockleshell of a schooner called the Francine came into port today with a captain and one man as crew. The little boat had a hard battle with the waves on her way down from Astoria. The master and owner of the Francine is Captain Olsen, who was at the wheel when the 15-ton schooner came through the Golden Gate. The other man on board, who had to serve as mate, cook and crew, is a Finn, Gus Kumulainen. It was mean weather from the start, and the men had no sleep during the whole trip.

#### The Window-Glass Wage Scale.

PITTSBURG, Sept. 1.—The window-glass wage scale, for the year beginning September 1, was settled at a conference of manufacturers and workmen here this afternoon. The manufacturers conceded an advance over last year's scale of 7½ per cent. The settlement, which is a compromise, affects about 20,000 men.

#### Lord Marcus Beresford Married.

LONDON, Aug. 30.—The Sportsman says it is stated that Lord Marcus Beresford was married on Wednesday afternoon by special license to Mrs. Butler, an American, at St. George's church. No invitations were issued, and the ceremony was strictly private, only a few intimate friends being present.

#### Another English Wedding.

LONDON, Aug. 30.—The Times announces that Marquis Talbot, fourth son of the late Marquis of Waterford, has been married to Louis Katherine, oldest daughter of Major-General and Hon. Mrs. Charles Ridley.

The chronic grumbler still lives, but there are less cases of chronic indigestion and Dyspepsia than formerly. The fact is so many people in the past have taken Simmons Liver Regulator that they are now cured of these ills. And a great multitude are now taking Simmons Liver Regulator for the same troubles and they'll soon be cured. "It is the best medicine."—Mrs. E. Raine, Baltimore, Md.

## WRECK NEAR OLYMPIA

### A Train Plunged Down an Embankment.

#### THE ENGINE ROLLED FIFTY FEET

A Cow on the Track Caused the Accident—How the Passengers Escaped From Their Perilous Position.

OLYMPIA, Wash., Sept. 2.—A cow on the track at Maxfield, 11 miles from here, wrecked the local passenger train this morning and sent the engine over an embankment 50 feet deep, dragging one passenger coach with it. Nobody was killed, and the only injury was to the fireman.

Turning a sharp curve where the railroad overlooks the Nesqually flats, 500 feet below, Engineer Harry Shepard noticed two calves on the track. He slowed up to let them off, just then a cow stepped from the brush in front of the engine. The train was going too slow to throw the cow off, and the animal was crushed under the wheels. The hide and bones lifted the wheels from the track and the big engine went tumbling over the ties for 25 feet, then suddenly plunged headlong a distance of 50 feet, turning over and burying itself in the brush and sand. The train was made up with the first-class coach immediately next to the engine, and the smoker and baggage in the rear.

The weight of the falling engine dragged the passenger coach from the track, breaking the trucks. This coach followed the engine down the embankment, but was kept from rolling down by strong couplings with the baggage car, which held the track. Had the coupling broken the passenger would have rolled to the bottom, and every one of the nine passengers would undoubtedly have been killed.

When the engine started down, Engineer Shepard jumped and fell between the tank and the wheels of the tender. He was shoved along in soft sand for several feet, but was only bruised. The fireman's name was not learned. He could not get out of the cab and rolled to the bottom of the gulch. His wife was in the passenger coach and was overjoyed to see him crawl out of the wreck.

The passengers had little time to think and busied themselves in climbing up the floor of the car, which lay at an angle of 45 degrees. All climbed out of the windows. They were Captain William McMicken, trustee of the state soldiers home, Erastus Brainerd, member of the state land commission, W. F. Lewis, Geo. H. Smith, of Tacoma; Von Hofmeier, Thomas Reynolds, of Seattle, all traveling men, and Webster Brown, a civil engineer.

Dr. Armstrong, the Northern Pacific surgeon, was sent out on a special train, and a wrecker is at work removing the debris. The engine is badly crippled.

#### Five Companies Guard the Mines at Ishpeeming.

ISHPEMING, Mich., Sept. 2.—Five military companies from Sheboygan, Calumet, Houghton, Ironwood and Marquette arrived here this morning by a special train. Picket lines were established, and guards were ordered out. The steamshovel operatives arrived this morning and were escorted to their boarding-houses under military protection. Several hundred strikers with their wives and children assembled at different mining localities watching the movements of the militia, but there was no disturbance. Shipments of ore to Marquette will begin this afternoon.

#### Peary Relief Expedition.

ST. JOHN'S N. F., Sept. 2.—The first news from the Peary relief expedition was brought today by the American schooner, John E. Mackenzie, returning from a Greenland halibut fishery. The Mackenzie met the Kite with the expedition on the board at Holsteinburg, July 15.

At Holsteinburg the Kite took aboard Professor Dycie, one of the members of the expedition, and sailed again the same evening. Very little ice was reported south of Greenland waters. The

crew of the Mackenzie think the Kite will have no difficulty in reaching Whale's sound, where Peary's headquarters are located. The return of the relief party is expected about the end of this month.

#### Germans Still Celebrating Their Victories Over the French.

BERLIN, Sept. 2.—Emperor William inaugurated the second day's festivities in connection with the battles of 1870-71 by personally decorating with branches of oak leaves four corps standards. The first regiment of guards was drawn up in front of the castle to witness the ceremony.

At 8:30 the emperor set out for the parade ground to review the German-American veterans.

The weather was fine, and large crowds thronged the streets, which were most elaborately decorated with flags and bunting. The Bradenburg gate was covered with laurel wreaths, hanging from which were streamers of dark crimson velvet, bearing the inscriptions in gold letters: "How Events Have Shaped Themselves Under God's Guidance."

One night when Mr. Isaac Reese was stopping with me, says M. F. Hatch, a prominent merchant of Quartermaster, Washington, I heard him groaning. On going to his room I found him suffering from cramp colic. He was in such agony I feared he would die. I hastily gave him a dose of Chamberlain's Colic, Cholera and Diarrhoea Remedy. He was soon relieved and the first words he uttered were, "what was that stuff you gave me?" I informed him. A few days ago we were talking about the attack and he said he was never without that remedy now. I have used it in my family for several years. I know its worth and do not hesitate to recommend it to my friends and customers. For sale by Blakeley & Houghton Druggist.

#### Additional Duties Imposed.

Buenos Ayres, Sept. 2.—Admirers of the president of Brazil have decided to present him with a house as an honorable recognition of his services in establishing peace in Rio Grande do Sul. The government is to raise \$2,000,000 for an armament fund by imposing small additional duties on tobacco, wine and agricultural machinery.

There is a project to establish a government bank with a capital of \$5,000,000.

#### Marvelous results.

From a letter written by Rev. J. Gunderman, of Dimondale, Mich., we are permitted to make this extract: "I have no hesitation in recommending Dr. King's New Discovery, as the results were almost marvelous in the case of my wife. While I was pastor of the Baptist Church at Rivers junction she was brought down with Pneumonia succeeding La Grippe. Terrible paroxysms of coughing would last hours with little interruption and it seemed as if she could not survive them. A friend recommended Dr. King's New Discovery; it was quick in its work and highly satisfactory in results." Trial bottles free at Snipes-Kinney Drug Co's Store. Regular size 50c. and \$1.00.

#### First Taste of Actual Service.

DETROIT, Sept. 2.—The two divisions of the Michigan naval brigade, located in this city, have received orders to prepare for duty at Ishpeeming. The reserves, if ordered north, will take their Gatling and rapid-fire guns. They are composed of the sons of wealthy and aristocratic families of Detroit, and have been organized only about a year. This will be their first taste of actual service.

#### Mr. A. A. Snyder, Supt. Poor Farm.

WINNEBEG CO., Ia., says:—Last winter Mr. Robert Leach used two boxes of DeWitt's Witch Hazel Salve and cured a large running sore on his leg. Had been under care of physicians for months without obtaining relief. Sure cure for Piles. Snipes-Kinney Drug Co.

#### Shall Not Hunt in Wyoming.

DENVER, Sept. 2.—General O'Brien, commander of the department of Colorado and Wyoming, Grand Army of the Republic, said today: "If the Indians attempt to hunt in Red desert, Wyoming, they will never return alive. At the last session of the state legislature a stringent law was passed to protect the only herd of buffalo in the state. The state will stand by that law, even though it brings Wyoming up face to face with Uncle Sam."

Highest of all in Leavening Power.—Latest U.S. Gov't Report

# Royal Baking Powder
